CROSS COUNTRY TEAM LOSES TO PRINCETON

(Continued from Page 1)

r was following closely behind Bemis when the latter fell and he barely missed falling over his team mate. After losing a little here he quickly set the pace and lead the rest of the runners to the finish.

While generally it isn't much use to speculate on misfortunes, it can be seen how the score would have been changed if Bemis had come through in his usual fashion. The time of Princeton's first scorer was more than that turned in by Bemis in the last two meets, taking into consideration the distances. Hence if he had secured second place the Engineers would have nosed out the Tiger runners 27-28.

Princeton Bunches Runners

After Fletcher crossed the finish line a winner, Leeming and J. K. Vodrey finished together almost a minute after. Technology's leading performer, [illegible] separated their times, [illegible] the course in 29:19 and Vodrey in 29:50. Duffy finished fourth, five seconds after the two Princeton men, a crossed ski[illegible] line. Soccerists Win From All-Stars

Chinese Team loses 3-0 in Game on Tech Field Saturday

CAPTAIN DUEVEL AND YOUNG STAR FOR TECH

In a fast game the soccer team sent the Chinese All-Stars down to defeat by a score of 3-0. The smaller team put up a game fight but were outclassed. Technology took the lead at the start and held it throughout the game. The play was very fast and several were hurt.

At the kickoff the Stars' center trio took the ball right through Technology's forward and halfback line and a fine kick by Young was the only thing that stopped a goal. Technology quickly took the ball down to the Chinese goal. In a general mixup Ruiz shot the first goal. For the remainder of the half the ball was mostly in midfield. The Stars had the wind with them and gave the halfback line plenty to do. Late in the half, however, a Beaver rush brought the ball down and Marques booted the ball past Hsu.

Duevel Hurt Twice

The Chinese started a rush on the Engineer's goal early in the second half. Young missed a goal by millimeters, the ball hitting a goal post and bounding out. In a scrimmage in front of the goal Captain Duevel was kicked twice in the stomach. The player gamely insisted on sticking out the game. The last goal of the game was made when Aass made a pretty corner shot. With the wind in their direction the Engineer backfield had an easier time of it.

Captain Duevel and Young were the stars. The former was knocked down twice but played a wonderful game. He stopped many a rush of the Stars. Young made several splendid kicks and backed up the halfback line in good style. He was all over the field and pulled off several clever tricks. Aass and Ruiz did good work in the forward line.

The game was played under good weather conditions although it was a trifle cold. Only a very few students were there.

place, Hooper in 18th. Grossman and Ostberg finished one behind the other in 20th and 21st positions.

Honigan Finishes First

Little Jimmy Honigan of the Dorchester Club was the individual winner. He finished with a good 200 yard to spare over his teammate John Doherty and in the fast time of 27:45 1-5. During the last half of the race he was [illegible] by Joe Ridout but before [illegible] the Stoughton [illegible] back into sixth place.

[illegible] had one man, George Lermond, finished in third place, 70 yards behind Honigan, but the next man did not come in [illegible] 17th and after that the Tech runners [illegible] their time [illegible] finishers.

Second only to [illegible] of their men [illegible] Ridout, in fourth and sixth positions, failed to crush second.

Beavers Did Well

[illegible] Beaver varsity was [illegible] as did [illegible] competition [illegible] for [illegible] men. Don Howe [illegible] of 8:15 would place him on most [illegible] squads in the country. The team, though of course without any stars, kept together throughout the [illegible] pace of the course. Towards the finish every man staged a sprint [illegible] and they became a little separated. For one thing the older members of the squad were fairly familiar with the course as a good deal of the Engineer practice used to be done at Franklin Park.

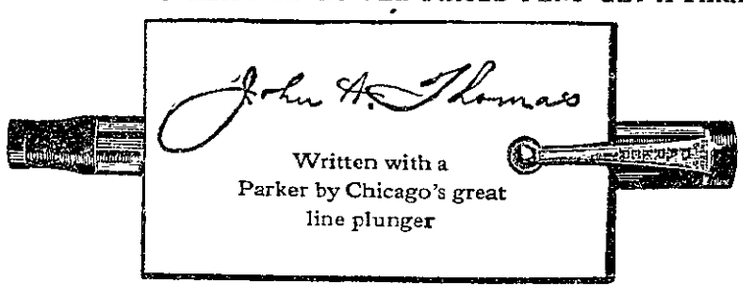
FOR DUOFOLD QUALITY IN LOWER PRICED PENS GET A PARKER



How Parker Prevents Leaking

In Ways Other Pens Cannot Follow

Read this—then try the new Parker D.Q. made for Students only, $3

GEO. S. PARKER entered the fountain pen business 31 years ago because he was able to discover the two vital remedies for leaking. They are:

1. The Parker "Lucky Curve" feed, created and patented by Mr. Parker, which induces capillary attraction, thus making a steady flow while you're writing, and draining back the unused ink when you're through.
2. The Parker "Duo-Sleeve" Cap which forms an ink-tight seal with the barrel when kept tightly screwed on.

These two engineering achievements are built in all Parker pens *regardless of price*. The new Parker D. Q.—the special pen made for students only—has, in addition, an extra large ring to link to your note-book, or a pocket-clip—either one included free. Also a metal girdle that reinforces the cap.

It's produced by Parker Duofold craftsmen. Its point is 14k gold, tipped with *Native* Iridium, polished to jewel-like smoothness. Measured by all standards, it's for the finest pen value ever produced under $5. You'll miss the newest thing out if you fail to ask for it.
