### One hundred crowds after first round

By Michael J. Garrido

Approximately 77 percent of this year's incoming students received their first choice in the housing lottery, according to statistics supplied by Ann Braden, staff assistant for residence programs. Of 735 applicants, 564 students were placed in their first choice dormitories. Almost 100 students remain in limbo.

While no information was made available on fraternity rush, Mark E. Enel, adviser to fraternity and independent living groups, had recently seen some information which made him "very happy," he said. "We had been worried" that the number of men in this year's class might adversely affect rush results.

For the first round of the lottery, spaces were considered to be available, including 100 crowded spaces. No crowded room has more than one extra resident.

"We have all the rooms set up to add 50 more crowded," Braden said. "We anticipated that about 100 rooms could be crowded by Friday, when all students in limbo are placed into the system. "We will be crowding more in just about every house," the said, "We will be crowded to keep it down."

The exact number of crowded rooms can not be specified now because some freshmen may still leave the dormitory system and transfer students may move into it. The current round includes four transfer students, Braden said.

Crowding in a house is limited by the physical conditions available, Braden explained. Some houses can not crowd, and some crowd more than others.

### Women's housing

Each coeducational dormitory must have at least 30 percent women residents, Braden said. For several years this figure has stood at 25 percent, but it went up this year because the number of women in the dormitory system increased by five percent, she explained.

Braden estimated the actual percentage of women in the dormitory system to be 30 percent, up from last year's 24 percent.

In order to assure the required 30 percent, the housing office calculates a number of women which must be added to each particular dormitory. Only women first enrolled in all spaces until the required number is met, Braden explained. At that time, men are assigned.

### Summer thefts plague east campus

By Andrew L. Fish

An unusually high number of thefts have plagued the east campus dormitories this summer, according to Campus Police Chief James Oliveri. Twenty thefts have been reported, he said.

Because of the large number of burglaries, one Campus Police officer has been assigned to the east campus dormitories exclusively, Oliveri said. In addition, the thieves prompted the Campus Police to issue a special bulletin warning dormitory residents of the problem.

"People are not aware that you cannot leave your room unlocked and unattended," Oliveri said. At least 14 of the thefts occurred from rooms with unlocked doors or windows, he noted.

Of greater concern to him were the other six thefts. At least three of these involved items taken from locked rooms. There was no sign of forced entry in any of the cases.

Oliveri was of the opinion that these thefts involved the use of lock picks or keys. "Senior House has a history of alumni friends coming back with keys," he said. "This has been a great concern of ours for many years."

Three of the thefts from locked rooms occurred on a single day, Aug. 17, according to police reports. With over $2000 of valuable items taken from Senior House on that day alone.

Most of the items were stolen from a room with a locked door and window, said Sharron M. Field, '89, one of the victims.

When Field came to her room that day, she found that a previously locked window was now open. The room was entered before the door, and the valuables were removed through the window, she believed.

The thieves apparently stored the stolen items in empty rooms of the next entry, Field said. Some of the valuables were discarded in a vacant room in Holman entry.

Field and other residents believed it was likely that the thieves would return for the left-over items, she said. Some residents felt that the Campus Police should wait for the burglars, she added.

The Campus Police would not wait, and Senior House residents keep an all-night vigil around the rooms, Field said. The thieves did not return.

We really didn't think [the Campus Police] handled it well," Field said. "It should not be our place to wait for the burglars."

It was obvious that the burglars had inside information, Field believed. They seemed to know which rooms were occupied. There are also rumors that the thieves have a master key, she added.

Although computer problems prevented him from getting actual statistics, Oliveri said that fewer thefts took place at west campus dormitories this summer.

Chief worries about
security problems at East Campus
(Continued from page 1)

Concerns about East Campus
Olivieri has been concerned about security in East Campus for quite some time, he said. There are six separate entrances to the dormitory, making it very easy for people to move through-
out the buildings, he explained.
Currently the only security that
seems feasible is locking individ-
ual doors, Olivieri said. Security
wouldn't work if the dormi-
tory operated it—outside
doors could be propped open if
locked, he said.

There has to be some physical change for the East Campus
security to reduce theft,” Olivieri said. He suggested fencing in the
area to make one access point for
each parallel. Making a con-
trolled access route would allow
better monitoring of people, he
noted.

The Tech's been keeping in
touch with the Institute for over a
century—covering issues
both on and off campus that
affect MIT students. From the
future of student loans to the
future of pass/fail grading, from
fun on the football field to
fun in and around Boston and
Cambridge. The Tech has kept its
readers informed and

As you see below, the exams will be here before
you know it. And if your vital signs include sweaty
palms, a souring stomach, and shaky legs, you
need help—fast.

Check into a Kaplan center. Our test-taking
techniques and educational programs have helped
lower the pressure and boost the scoring power and
confidence of over one million students. We
have compact classes so you can be ready for this
day's exams.

So if you're getting ill thinking about the LSAT,
GMAT, or GRE, call Kaplan. We'll give you all the
'mental medicine' you need. And a lot of
intensive care.

Emergency test prep help for the imminent
LSAT, GMAT, and GRE.

There's still time to prepare!
Classes start this week for these exams:

White House derides Danfoss as being spying

The Reagan Administration continues to call for the immediate release of Nicholas Danfoss, held on espionage charges in the Soviet Union. White House spokesmen Larry Speakes called the charges against the US News and World Report correspondent "contrived."

The White House has accused the Soviet Union of fabricating the charges against Danfoss in retaliation for the recent arrest of a Soviet physicist for espionage. No plans have been prepared for an exchange of prisoners, as Administration officials claimed.

The Danfoss case will not interfere with negotiations for a superpower summit, Speakes said. Arms negotiators will return to Washington this week as scheduled, he added. (AP)

Boston nurses threaten a second strike

Registered nurses who returned to work Sunday in Boston's city hospitals have not ruled out another strike. The 800 nurses, who held a two-day walkout in response to delays in contract negotiations, have been without an agreement for two months. A judge declared the walkout illegal, and ordered the union to pay fines. (AP)

Prince Charles to appear at Harvard

Prince Charles is scheduled to arrive in Boston today, to help Harvard University celebrate its 350th anniversary. "Charles', father, Philip, was the first choice of the University to speak, but he declined because of a busy schedule. The Prince will speak at Harvard on Thursday, and will appear in several locations throughout the Boston area. (AP)

Blue Jays extend streak to nine

The second-place Toronto Blue Jays continue to put pressure on the division-leading Red Sox, as they extended their winning streak to nine games. The last nine victors were the Cleveland Indians, as a bases-loaded single from Lloyd Moseby broke a 4-4 tie in the bottom of the ninth.

Toronto did not gain any ground on Boston, however, the game of the Texas Rangers last night, 6-4. Bruce Hurst started the game for Boston.

Navy presence near Alaska growing

US Navy has deployed guided-missile attack aircraft to groups in the northern Pacific for the first time, to bolster US presence in Alaskan waters. The Navy has increased the frequency of its presence in the Bering Sea, according to Pacific Fleet Commander James Lyons. In response to the Soviet presence, Navy Secretary John F. Lehman Jr. announced that regular naval exercises will be stated in Alaskan waters. Lyons called the move "a major shift" in operations. (The Boston Globe)

Gadhafi calls Reagan Administration a New Nazi empire

Five thousand Libyan joined Col. Mouammar Gadhafi in a celebration of his 63rd birthday yesterday in Tripoli. After his speech, Gadhafi vowed to create an international army from the non-aligned nations to battle the US and Europe. Gadhafi called his "stupidities," Gadhafi denounced Reagan as a madman and a second-rate actor.

Soviet-made tanks rumbled through the streets of Tripoli, as Gadhafi entered the crowd that Libya and the Soviet Union share interests. (AP)

Explosion injures 18 in South Africa

An explosion blotted out the windows of a department store in a white-middle-class suburb of Durban, South Africa yesterday. National Government officials claimed that 18 were injured, including a three-year-old girl. The bombing was the ninth in South Africa since a state of emergency was declared June 12th to curb unrest. (AP)

Soviet passenger ship sinks in Black Sea

A Soviet passenger ship collided with a freighter Sunday night in the Black Sea. Soviet officials have not announced the cause of the sinking of the Admiral Nakhimov, although they have admitted that "rescue measures have been taken" and there has been "loss of life." The ship was capable of transporting nearly 900 passengers, and the Soviets have not released the number aboard. (AP)

Non-aligned nations attack South Africa and United States

A week-long summit of non-aligned nations is focusing on South Africa and the United States. Chairman Robert Mugabe, prime minister of Zimbabwe, opened the meeting yesterday morning with a call for more sanctions against the South African government. Nicaraguan President Daniel Ortega criticized President Reagan's interference in his nation.

Only locked doors will prevent thefts

Last Friday, my camera bag was stolen out of the Tech's Student Center office. Inside the bag was my Nikon camera, several lenses, an autosampler, and an IBM PC with an unlocked floppy disk. Although the computer equipment is replaceable, the photographs are not.

The theft was not an isolated event this semester. Earlier this summer, another tech staffer had his camera stolen out of his locked room in Senior House. Another locked room several doors down the hall was burglarized at the same time. A compact disc player was stolen from Baker House after a party during International Residential Orientation.

The feeling among students is that these thefts have been by non-MIT people. We do not want to admit the possibility that the people we are living with might be thieves. But even when we can trust the people we live with, by leaving our possessions out and our rooms unlocked we make it easier for intruders to steal from us.

Although MIT is an urban school with urban problems, many students here were raised in safer places. As an urban dweller might consider common sense actions, such as not walking down unlit streets, are foreign to many others.

A few days ago, the MIT Campus Police distributed a special bulletin to East Campus and Senior House residents regarding summer thefts. The bulletin notes 30 thefts that occurred between January and August, at least three of which were from locked rooms. It instructs students to call the CP's emergency number (100) when thieves are seen entering dorms, "wandering aimlessly or loitering in a dorm common or hallway," and to lock doors and windows when leaving a room, even for just a few minutes. Some students have followed this advice all summer.

To the Editor:

We respect the rights of individuals to express their opinions, but we must take issue with views outlined in the article "IBM policies aid apartheid regime" (April 25).

Your misleading headline is totally contradicted by IBM's demonstrated worldwide commitment to equal opportunity and affirmative action. We are disappointed that the author did not reflect in her letter the facts and viewpoints shared with her over an extended period of time by a number of IBM employees, some of whose primary responsibilities include: IBM does not support apartheid

IBM and other enlightened companies have gone beyond their business obligations to help spawn positive social change. We are aware that, in a country where the majority of people are black, very few of our companies are black. That is precisely why IBM and other enlightened companies operating in South Africa have gone beyond their business commitments to thePoint projects that directly benefit South Africans. Through their programs, IBM is contributing to the skills that will help black South Africans achieve their full potential, their just place in their society and their basic human right to self-determination.

There are those who argue that other courses of action will end apartheid more quickly than will the actions of corporations such as IBM. But we believe that economic activity can generate positive social change. We intend to continue our efforts as long as we can maintain a sound business and, together with others, contribute to peaceful change. While there are arguments about methods, there should be no argument about goals. All the people of South Africa will benefit when apartheid is ended.

The Tech does not support apartheid

IBM and other enlightened companies have gone beyond their business obligations to help spawn positive social change. We are aware that, in a country where the majority of people are black, very few of our companies are black. That is precisely why IBM and other enlightened companies operating in South Africa have gone beyond their business commitments to the Point projects that directly benefit South Africans. Through their programs, IBM is contributing to the skills that will help black South Africans achieve their full potential, their just place in their society and their basic human right to self-determination.

There are those who argue that other courses of action will end apartheid more quickly than will the actions of corporations such as IBM. But we believe that economic activity can generate positive social change. We intend to continue our efforts as long as we can maintain a sound business and, together with others, contribute to peaceful change. While there are arguments about methods, there should be no argument about goals. All the people of South Africa will benefit when apartheid is ended.
Open-door policies encourage thefts

(Continued from page 4)

A column in the recent Supreme Court decision on homosexual sodomy laws has raised the importance of protecting such conduct. Indeed, a decision in favor of gay rights was anticipated by the justices, who were not wont to create an atmosphere of paranoia and locked doors. One result of not publicizing the theft was that other people working in the building were not warned to be careful. Possibly as a result, there were several other thefts over the following months, including wallets, handbags and more electronic equipment. While it is not great for the psychological climate to dwell on the thefts and live behind locked doors, we should heavily publicize all thefts in order to warn others.

Other schools, both in the area and around the country, have been living with a locked down atmosphere for years, but the idea is relatively new to MIT. Currently, criminals seem to have gotten the message that MIT is an easy target. As long as we do not do anything to change that opinion, the number of thefts is likely to increase. While locking dorm rooms for trips down the hall and holding hands during the day and reporting suspicious people to Campus Police is important, there are only the first steps in combating crime here.

We must change our ways of thinking and acting to make ourselves and our property more difficult targets for theft — that is, we must begin to live behind locked doors. To convince thieves to go elsewhere, single actions, such as keeping wallets and rings in drawers, locking down rooms for trips down the hall and holding hands, instead of leaving them at a desk, will gradually encourage thieves to practice elsewhere. These actions will also change the psychological climate of the Institute. Safely, it seems that many of us are living with inflated expectations of our community and its surroundings.

Glen J. Kissel
**WELCOME ALL NEW AND RETURNING STUDENTS!**

The Commission on Engineering Undergraduate Education (CEUE)  
UNDERGRADUATE EDUCATION BULLETIN BOARD  
for students, faculty and others in the MIT Community  
IS BACK!

Each week we will continue to:
- Update you on the latest developments in MIT's ongoing curriculum review
- Announce upcoming events and activities related to the curriculum review
- Print your comments and messages on undergraduate education that you submit to us
- Ask an "Education Question of the Week" submitted by you or us
- Print reports from student representatives serving on faculty committees that address educational policy
- And more!

**Education Question of the Week:**

★★★Undergraduate & Graduate Students: Would you like to work with the CEUE on educational policy this fall? We'd love your help! Call or write Robin Wagner, x3-8051, Rm 1-221.

Announcements:

★★★Freshman Survey on R/O week — Freshmen: Look for this second voluntary survey on R/O Week given out at Dupont Gym on Mon., Sept. 8, Registration Day. Feel free to complete this second survey, even if you didn't take the first one, given out last Thurs.

The analysis of last spring's Student Survey on Engineering Undergraduate Education is almost done. We will share the results with you in a written report and at public forums early in the fall term.

This bulletin board is your space. Please use it!

Send questions or comments you'd like us to print to:  
Undergraduate Education Bulletin Board, Rm 1-221, or call Robin Wagner, x3-8051.
GSC should continue to press for more grad housing

To the Editor:

In the April 25 issue of The Tech, the new Graduate Student Council President [Norman M. Wereley] states that a graduate student should expect to spend between 27 and 35 percent of their income on housing ("GSC elects new president"). How I wish this were Institute policy everywhere.

Here in Hawaii, a first year graduate student on an assistantship can expect to pay between 55 and 75 percent of their salary for rent. The situation for a second year graduate student is better, since one can work full-time during the summer. However, the typical graduate student pays in excess of 40 percent of their income for rent.

I give you this information not to tell you how well graduate students are living at MIT compared to those at other universities, but to let you know that this could happen at MIT if the GSC does not continue to press for better graduate student housing.

Kip Dee Kants
Professor of Astronomy
University of Hawaii

WHAT IS THE RIGHT CHOICE FOR MOST COLLEGE STUDENTS?

- a) AT&T — for everyday discounts of 40% off to over 50% off weekday rates on out-of-state calls.
- b) Short bursts of intense study followed by hours of frantic partying.
- c) AT&T — for exceptional value and high quality service.
- d) AT&T — for collect, third-party and operator-assisted long distance calls.
- e) Any class that does not conflict with "The Love Connection!"

If you picked A, C and D, you’re destined for great things. Like AT&T Long Distance Service. AT&T offers so many terrific values. Like a 40% off to over 50% discount off our day time rates any hour, all day, and weekend out-of-state calls.

Imagine what you’ll do with the money you could save.

Living groups and activities copies of the complete updated list of freshmen (Class of 1990). The lists are available at a cost of $5.50 in alphabetical or zip code order. Also available are labels and Cheshire tapes in zip order at a cost of $6.00. These lists/labels are for official, non-private use only. Orders should be placed in the UAGO, 7-164, before May 16, 1986, 5 pm.

Freshman (Class of '89) who have declared Course VI (either 6-1 or 6-3), should come to the Course VI Undergraduate Office (36-476) before May 15, to select a faculty advisor and to receive important program information. First come first served!

The Student Center Committee's PARTYLINE is once again available. Call anytime 253-3942 for party news; call Thursday through Saturday to hear about the parties around campus.

All second term sophomores considering a career in medicine should make an appointment this term for a premedical advisor. Please phone x-4377 or come by 12-170, Office of Career Service and Preprofessional Advising.

The 28th edition of Serials in the MIT Libraries is now available. This microfilm listing of approximately 22,000 titles includes information on holdings, dates, call numbers, and title changes. Prepayment is required. The price is $20.00 for MIT staff and students, $5.00. To order please send check, payable to Massachusetts Institute of Technology to Office of the Director, Room 205-126, MIT Libraries, Cambridge, MA 02139." Notes run on a space-available basis only; priority is given to official Institute announcements and MIT student activities. The Tech reserves the right to edit all listings, and makes no endorsement of groups or activities listed.

Listings
Student activities, administrative offices, academic departments and other groups — both on and off the MIT campus — can list meetings, activities, and other announcements in The Tech's "Notes" section. Send items of interest typed and double spaced (via Institute mail to "News Notes, The Tech, room W20-485," or via US mail to "News Notes, The Tech, PO Box 29, MIT Branch, Cambridge, MA 02139."). Notes run on a space-available basis only; priority is given to official Institute announcements and MIT student activities. The Tech reserves the right to edit all listings, and makes no endorsement of groups or activities listed.

Announcements
The Off-Campus Housing Service is sponsoring "Roommate Get-Togethers" on Monday, August 18 and 25, and Tuesday, September 2, and Monday September 18 and 25, and Tuesday, September 29, MIT Bi-anch, Cambridge, MA 02139." Notes run on a space-available basis only; priority is given to official Institute announcements and MIT student activities. The Tech reserves the right to edit all listings, and makes no endorsement of groups or activities listed.

ACTIVITIES MIDWAY

Thursday, September 4
Dupont Gymnasium
7:00 - 9:30 p.m.

SEE YOU THERE!!!!!
**Ongoing**

The MIT Museum has many ongoing exhibits located at 265 Massachusetts Ave., and is open Monday through Thursday 10 am - 4 pm, Saturday 10 am - 1 pm. Admission is free.

**Light Sculptures by Bill Parker.** Touchable plasma sculptures ongoing.

**Gjon Mili '27**. World-famous photographer Gjon Mili '27 pioneered the use of electronic flash and multiple exposure photographs.

**Math in 3D Geometric Sculptures by Morton C. Bradley, Jr.** Wonderful revolving sculptures created by Morton C. Bradley, Jr.

**George Owen: Yacht Designer**. Line drawings and half-models designed by one of the early pioneers of naval architecture for walkers of eight to twelve years. Tour sheet with map is included. Sun: 10 am - 12 pm.

**MIT Medical Department, E23 0021.** Local meetings held at the MIT Medical Department, E23 0021, on Mondays from 1-2 pm.

**Narcotics Anonymous**. For details and arrangements for ongoing exhibits. The Museum is located at 265 Massachusetts Ave. and is open Monday through Thursday 10 am - 4 pm.

**MIT Electrical Engineering Retrospective.** The Museum offers a wonderful look into the design and construction of steamboats, clipper ships, and of ships started by Ray and Eddy Loo. The Hart Nautical Collections.

**Currier and Ives Prints from the Hart Nautical Collections.** The Hart Nautical Collections.

**Hedrick Nautical Collections**. The Museum has many Colored lithographs of sailboats, steamboats, clipper ships, and of ships started by Ray and Eddy Loo. The Hart Nautical Collections.

**MIT Seagrant.** A review of MIT's research.

**Boston By Bike.** A child's-eye view of the Freedom Trail's architecture for walkers of eight to twelve years. Free activity sheet with map is included. Sundays at 2 pm. Muriel guides the tour.

**Second Street Museum.** Second Street Museum.

**AARP.** The Second Street Museum.

**Special Needs**. A child's-eye view of the Freedom Trail's architecture for walkers of eight to twelve years. Free activity sheet with map is included. Sundays at 2 pm. Muriel guides the tour.

**Undergraduates who are interested in communicating with high school students (and guidance counselors) when it's like to be an MIT student are encouraged to join Project Contact. For more information contact the Educational Council Office, 4-240, 253-3534.

**The Statement of Registration Status** is still required of all male students who are (by law) expected to register for the draft, so they desire to receive federal student aid. The following students do not have to file statements: undergraduate students and those who have completed the statement in previous years.

**MIT requires male students who have completed the statement by indicating they are "undesirables" to submit the statement annually until they have registered.

**Students may find that GSI and PEP II leaders require the statement where MIT does not.

**Little Brothers-Friends of the Elderly**. Volunteers serve for two years. During their service they receive a generous living allowance, paid travel, training and health care.

**The Peace Corps is offering self-training for programs utilizing the backgrounds of college graduates with mathematics and science minors. Peace Corps volunteers serve for two years.**

**The professional tutor staff of the Education Department at Cambridge Public Schools offers an opportunity to learn about urban education and multi-cultural environment.**

**Education is opening a new Information Education Information Center. The center will contain extensive information on opportunities for study abroad.**

**Students may receive academic credit for projects. Projects may be taken to a new school, or future employment in Israel.**

**Graduates and undergraduates accepted. Contact: Tamra Morris, Executive Director, Project for American-Israeli Research, 479 Statler Office Building, Boston MA 02116, (617) 423-7951.

**Come join us for an exciting**

**SIPB COMPUTER TOUR**

_Eat, drink, be merry!_

Wednesday, September 3

7:30 pm, 10-250

**LEARN TO SAVE A LIFE.**

If your job calls for emergency medical skills, or if you would like to be prepared for emergencies, you should look into Northeastern's Emergency Medical Technician Course. The course includes practical, comprehensive training in the classroom with a minimum of 30 hours of emergency room observation. Nine quarter-hour college credits are awarded through University College.

Classes are held twice a week, mornings or evenings, for 12 weeks, in Boston, Dedham and Burlington.

Classes begin week of September 22.

For more information, call (617) 329-8000.

'tis better to donate...

Thursday, September 4, 12:30 — 6:30
Friday, September 5, 11:30 — 5:30

This space donated by The Tech
Chicago will fail to repeat in '87

(Continued from page 13)

The Philadelphia Eagles: Sorry Buddy. The Eagles aren't like the Bears, and you can't magically make them into the Bears. No chance here. Watch for decent plays, but nothing inspired.

The Saint Louis Cardinals: Point blank honest here: I only know of them by reputation, which isn't good. Lomon is a commodity, but passer, but they just don't seem to be the kind of team which really slams the door in your face. In the NFC, you have to slam and lock it.

NFC Central

The Chicago Bears: What can I say? The defending champions will have no real problems in the division, but I can't see them running away with the NFC again. Payton is an offensive running back, but not a field general. The Bears' defense in the NFC last year, so maybe she's right.

The Minnesota Vikings: I had to ask what the nickname of the Atlanta team was. A freshman from Atlanta told me that the best thing about the Falcons is their uniforms. On the other hand, someone named Riggs was second only to Allen last year in rushing yards. But the team had the second worst defense in the NFC last year, so maybe she's right.

The Atlanta Falcons: Honesty again. I had to ask what the nickname of the Atlanta team was. A freshman from Atlanta told me that the best thing about the Falcons is their uniforms. On the other hand, someone named Riggs was second only to Allen last year in rushing yards. But the team had the second worst defense in the NFC last year, so maybe she's right.

The New Orleans Saints: It's so wonderful that you don't know much about them. They were third from the bottom in defense, and second from the bottom in offense in the NFC last year. Their punter kicked 99 times last year. But they (like everyone else in this division) are 2-2 in the exhibition season, just how did New Orleans become West, anyway?

The San Francisco 49ers: They've got everything but a quarterback. Eric Dickerson doesn't really look like he is moving all over you, but you better count on it every time. Not quite in the league of Allen, Payton, Dorsett, or Morris, but he is really impressive when you consider that everyone in the stadium knows LA's only offensive option is to run Eric. In the game this weekend LA made three times as many yards on returns as they did on passes. A contender any way.

The Los Angeles Rams: They've got everything but a quarterback. Eric Dickerson doesn't really look like he is moving all over you, but you better count on it every time. Not quite in the league of Allen, Payton, Dorsett, or Morris, but he is really impressive when you consider that everyone in the stadium knows LA's only offensive option is to run Eric. In the game this weekend LA made three times as many yards on returns as they did on passes. A contender any way.

The NFC West

The San Francisco 49ers: Honesty again. I had to ask what the nickname of the Atlanta team was. A freshman from Atlanta told me that the best thing about the Falcons is their uniforms. On the other hand, someone named Riggs was second only to Allen last year in rushing yards. But the team had the second worst defense in the NFC last year, so maybe she's right.

Coop Charge, MasterCard, Visa and American Express welcome.
New England's luck will soon run out

(Continued from page 13)
problem for morale, but if it cer-

tainly it plus as the season wears
don't expect much out of the "Weedy
Fouts" famous two outcomes for
the forward pass seems to pale
before Fouts. Maybe because he
got four outs to advance to
told. If the Chargers can play de-
fense this year, they have a good
shot at the playoffs. They score
more points per game than any
other team in the exhibitions sea-
son.

The Browns: Jim Kelly may be
the biggest thing since Joe
Namath, but I'm not sure if he is
even to revive the Bills. With-
out him they are lost, and an in-
jury can happen to anyone. Espe-
cially someone who starts a
season out insulating the quality
of his offensive line.

The Indianapolis Colts: Elway
made a smart decision when he
refused to play for these guys.
Of course defense plus a mediocre
offense has added up to bad sea-
sons for quite some time. Con-
sidering their competition, I
don't think this will change
quickly.

NFC East
The New York Giants: I like
these guys. I watched them play
last year. Joe Morris is one of the
most exciting runners I have seen
in a long time, and last year they
had the second best defense in the
league. They had the second best
defense in the NFC, too. So why
were they only a wild-card? I still
don't know. Nobody's going to
touch them this year.

The Washington Redskins:
They will try. They are bringing
in some experienced players, and
they've been there before. Unfor-
tunately, they were there with Joe
Theismann and John Riggins.
Neither will be back any year.
If the new quarterback, veteran
Doug Williams, works out, they
could be a playoff team.

The Dallas Cowboys: American-
ica's team was the most incom-
petent in the NFL last year. One
week they looked like Chicago.
The next they looked like Roose-
velt High.

This year Herschel Walker
booms large on the horizon. But
honestly, they give the ball to
Dorsett and he runs with it. So
much for Cowboy offense. How
can anybody, even Walker, do
much better than Doerns? As for
Dorsett and Walker as a team —
with the amount of bad blood at

FINALLY A
FREE FLIGHT PLAN
JUST FOR STUDENTS.
YOU WON'T GET A
BREAK LIKE THIS
ONCE YOU'RE OUT IN
THE REAL WORLD.

INTRODUCING COLLEGIATE FLIGHTBANK, FROM
CONTINENTAL AND NEW YORK AIR.

If you're a full-time student at an accredited college or university you can join our Collegiate FlightBank. You'll receive a membership card and number that will allow you to get 10% off Continental and New York Air's already low fares. In addition, you'll get a one-time certificate good for $25 off any domestic roundtrip flight. Plus, you'll be able to earn trips to places like Florida, Denver, Los Angeles, even London and the South Pacific. Because every time you fly you'll earn mileage towards a free trip. And if you sign up now you'll also receive 3 free issues of BusinessWeek Career magazine.

Or the grand prize, for the number one student referral champion in the nation: a Porsche and one year of unlimited coach air travel.

And how do you get to be the referral champion? Just sign up as many friends as possible, and make sure your membership number is on their application. In order to be eligible for any prize you and your referrals must sign up before 12/31/86 and each referral must fly 3 segments on Continental or New York Air before 6/15/87. And you'll only get credit for the enrollment, you'll also get 500 bonus miles.

So cut the coupon, and send it in now. Be sure to include your current full time student ID number. That way it'll only cost you $10 for one year ($15 after 12/31/86) and $40 for four years ($60 after 12/31/86). Your membership kit, including referral forms, will arrive in 3 to 4 weeks. If you have a credit card, you can call us at 1-800-255-4321 and enroll even faster.

Now more than ever it pays to stay in school.

SIGN UP YOUR FRIENDS AND EARN A PORSCHE.

But what's more, for the 10 students on every campus who enroll the most active student flyers from their college there are some great rewards: 1 free trip wherever Continental or New York Air flies in the mainland U.S., Mexico or Canada.

Some blackout periods apply for discount travel and reward redemption. Complete terms and conditions of program will accompany membership kit. Certain restrictions apply. Future full time student status required for each year of membership. To earn any prize a minimum of 12 referrals is required. All referral award winners will be announced by 1/31/87. © 1986 Continental Air Lines, Inc.

CONTINENTAL NEW YORK AIR
I is my pick for the best running tough. On offense, Marcus Allen still impressive. Howie Long is a long gone, but the current crop is course, most of those players are the great teams of the past fielded to face New York in Super Bowl XXI three. This might turn out to be a no quarterback, the Raiders have back of the NFL.

Raiders. Who doesn't remember 77e Tec has a good record, and should then ever. The Broncos always should make him more lethal ly declined. That combination which follows him has consistent tantly improved, and the hype vorite. John Elway has consis be everyone else's pre-season fa seem to a very good team, and seems to winning the division. Playoff conider;

The Denver Broncos: Denver is a very good team, and seems to be everyone's pre-season fa- vorite. John Elway has consistently improved, and the hype which follows him has consistent ly declined. That combination should make him more lethal than ever. The Broncos always has a good record, and should win at least 11 games each year. They barely missed the playoffs last year, or should make it this year.

The Los Angeles Raiders: The Raiders. Who doesn't remember the great teams of the past fielded by the Black and Silver. Of course, most of those players are long gone, but the current crop is still impressive. Howie Long is a star, and the defense is always tough. On offense, Marcus Allen is my pick for the best running back of the NFL. While the other LA teams has no quarterback, the Raiders have three. This might turn out to be a (Please turn to page 11)
Visit The Tech's booth at the Activities Midway, and stop by our offices (room 483 of the Student Center) afterwards. Our staff members will be on hand to answer any questions you may have about the different departments of The Tech, or just about how we produce a newspaper twice a week. Toscanini's ice cream will be served.

Next Sunday, September 7, we will have an open staff meeting for all interested students. Come by our offices around 5 pm for informal discussion about The Tech.

All undergraduate and graduate students are welcome.
