Coop desires two MIT stores

(Continued from page 1)
In the fall, the Coop decided to maintain two stores in MIT "to enhance student life and make it easier for people to find what they need," said Argeros.

One will remain the Kendall Center Coop and its location in an area not conducive to off-campus students, but the other will go into Kendall Hall with its vast number of subway commuters and easy access for MIT employees, he said.

Election favors the status-quo

Athena's environment effective?" and "Does Athena work for students?"

During their last term in office Moser and Thomas began discussing with Dean for Student Affairs Shirley M. McBry about minority issues and started a series of open forums about current issues.

UA President discusses his plans

(Continued from page 1)
Athena's environment effective?" and "Does Athena work for students?"

Another challenge is the Association of Student Activities' plans for redistributing space on the fourth floor of the Julius A. Stratton '24 Student Center. The ASA is currently considering initiating a student activities fee that would be deducted directly from tuition and letting students run the student center in the future, Moser said.

Moser and Thomas said they also intend to continue efforts to stimulate student-faculty rapport. They felt students should become more involved in initiating and reform. "We can't just sit back and wait for things to be done and then criticize them," said Thomas. "We don't have to fight back . . . we can just help."

IF YOU CARE ABOUT MIT

STUDENTS, ALUMNI, FACULTY: Did you know that MIT has no formal Institute procedures for tenure appeal, in violation of nationally-recognized AAUP Guidelines?

This year make a real contribution to MIT's well-being. Use your annual gift to support Professor David Noble's First Amendment suit and help safeguard academic freedom at MIT.

Checks payable to "National Coalition for Universities in the Public Interest," marked "Noble v MIT" and sent to NOBLE CAUSE c/o National Coalition for Universities in the Public Interest, P.O. Box 18372, Washington DC 20036. Like gifts to MIT, these contributions are tax-deductible.

When the design is ready for production, the computer generates instructions directly into the machine that cuts the mold. No blueprints. No models. Thought becomes reality.

The new technology, called "art-to-part CAD/CAM," goes far beyond solid modeling. First, realistic images are generated and displayed on the terminal, then tested, stressed, and refined. Designs can be rotated, cross-sectioned, or peeled away in layers. But that's just the beginning.

Zip Your Idea From Art to Part

At tomorrow's GE, young engineers like Dean Robinson will prosecute designs almost as fast as they can imagine. Since use of newly developed GE software that transforms design data directly into a tool path to produce the finished item, the firm has increased its productivity by more than 300 percent.

European Community imposes sanctions against Syria

The European Community countries voted Tuesday to impose new sanctions against Syria, including a ban on arms sales. The actions were taken in response to claims of Syrian support for terrorist activities.

News reports will help make it clear "that support for international terrorism is unacceptable," said White House spokesman Larry Speakes. (AP)

Jacobsen returns from Lebanon

"I'm thrilled to be back," said freed American hostage David Jacobsen, who arrived in the United States last week. He had been held by Moslem extremists in Lebanon for 17 months. Jacobsen spent several days recuperating in a military hospital in West Germany, after which he was reunited with his family. They arrived by airplane last Friday at Andrews Air Force Base, outside Washington, DC.

Businessmen claims he has administration approval

An Israeli businessman accused of plotting to smuggle US weapons to Iran has asked a federal judge in Manhattan to dismiss his suit, saying that no military action had taken place.

Molotov dies

Yevstakiev Molotov, a close associate of Joseph Stalin, died Saturday at the age of 96. Molotov's death leaves only one surviving revolutionary who created the Soviet state — Lazar Kaganovich. Kaganovich was denounced in 1961 as an "anti-Party" member. Today he lives near the Moscow River and has been seen playing dominoes with other old men in the neighborhood. (AP)

Brown University student group calls for impeachment

A small group of students at Brown University known as "Students for Ethical Government" held a mock trial of President Reagan on Tuesday. The star witness for the prosecution is former foreign service officer John Keep. Keep claims that the Kenyan civil air airlines KAL 007, which was shot down without warning by the Soviet Union last year, was actually on an American spy mission. The mock trial was followed by a campus-wide referendums on Wednesday to advise Congress to conduct its own impeachment of Reagan. (AP)

Keverian wants tax cap amended

Massachusetts Governor Michael Dukakis said last Friday that he supports efforts to amend the voter-approved tax cap. The Democratic leader said the voters can understand the concept of a limit on state revenues — but they don't understand the provisions of the referendum question.

The referendum question was sponsored by Citizens for Limited Taxation. Efforts to change the approved tax cap would be a violation of the voters' will, said CLT executive director Bertrum Anderson. (AP)

Reagan reveals Iraqi talks

President Ronald Reagan revealed last night that the United States has been in secret talks with Iran over the past 18 months. Reagan said the talks were being conducted to renew relations with the country, bring the Iran-Iraq war to an end, diminish state-sponsored terrorism, and bring back American hostages from Lebanon.

Reagan said he authorized the shipment of a small amount of defensive weapons and a draft of spare parts for defensive arms systems to Iran, but he denied that the weapons were a ransom for the return of American hostages.

Reagan did say, however, that Iran was told that they must oppose state-sponsored terrorism, and that they were asked to seek the release of the hostages held in Lebanon.

Reagan also denied that the United States was tilting toward Iran in the Persian Gulf war. He said he was only interested in finding a solution to the six-year war.

Reagan said he authorized the shipment of a small amount of defensive weapons and a draft of spare parts for defensive arms systems to Iran, but he denied that the weapons were a ransom for the return of American hostages.

Unemployment holds steady

The civilian unemployment rate held at 7 percent in October, the government reported Friday. Nonfarm payroll employment decreased by 298,000. The data was above the expectations of Wall Street, market analysts asserted.

Friday: Sunny and cold. High 32 °F (0 °C).

Saturday: Partly cloudy and mild. High 45 °F (7 °C).

Sunday: Cloudy, occasionally cloudy. High 51 °F (10 °C).

I.A.P. TRIP TO ISRAEL

For graduate and undergraduate students of science, engineering and related fields.

December 21 - January 9

Meet with academicians at major universities and professionals in high technology businesses. Tour historic sites, kibbutzim, attend political briefings, cultural and social events.

January 9 - January 27

Optional internship with placements in Israeli industry or academic research. Those staying for an internship must complete an application by November 19.

This includes round trip airfare from New York, two full meals a day, double occupancy housing, ground transportation in Israel, program costs including accommodation fees, plane tickets, airfare and government assistance is available. Internship costs are additional.

Application

Applications are available at MIT Hillel, 312 Memorial Drive, 255-3365. The program is sponsored by MIT Hillel and International B'nai B'rith Hillel Foundations.

Deadline is November 26.
MIT Hunger Awareness Week
Next week (Nov. 17-21) is MIT Hunger Awareness Week. The highlight of the week is the 11th annual Oxfam Fast for a World Harvest on Thursday, Nov. 20.

Over the past years the world has become more aware of the devastating effects of famine that have affected much of Africa. Even though disaster relief agencies have provided a large influx of food and medical aid, the root causes of hunger - such as war, environmental imbalance, debt, and government policies that fail to encourage self-sufficiency in food production - still persist. Long-term agricultural, educational, and economic development programs that will help make Africa self-sufficient are essential if hunger on the continent is to be eliminated.

This year, the fast emphasizes our support for the continuing efforts to promote self-sufficiency through long-term grassroots development projects that Oxfam America (the Boston based, nonprofit international development agency) sponsors around the world. On Thursday we ask you to fast - missing one meal or all three - and donate the money you would have spent on food to this cause. Your money will be used, for example, in Ethiopia to provide oxen, feed, and seeds for local agriculture; in Mali for the repair and improvement of rice farms; in Nigeria to combat a small-scale canning factory owned and operated by women.

Last year over one thousand members of the MIT community participated in the fast, raising over $7000. Once again, we invite the MIT community to participate in this worthwhile effort. Working together, we can make a difference by helping the hardworking men and women of the Third World change the conditions which leave them and their children hungry.

Fast this Thanksgiving.

Thanksgiving is Logan's busiest time of the year. That's why there will be a special fast, convenient express bus to and from the airport from the Alewife T station. The service begins November 16th and ends the 30th. Buses will run from Alewife seven days a week every hour on the hour, from 6 AM until 10 PM. The last bus will leave Logan for Alewife at 11 PM. The fare each way is $3, children under 12 ride free. For more information, or to find the fastest way to Logan from where you live, or work, call Massport at 1-800-23-LOGAN.

Why let getting to Logan get you?

FROM OLD DELI
to NEW DELHI.

What's your pleasure? Thinly sliced pastrami? Curried chicken with rice? Or how about a shrimp salad or thickl and mayonnaise sauce? No matter - because as long as your taste is for great food - you'll find it at the S&S. And you'll find it all at a pleasing price. Or how about a large, with all the fixings, and a bit more fun. So come to the S&S and enjoy what's new - and old.

S&S Restaurant
A Great Find Since 1918

Breakfast, Lunch, Dinner. Mon. - Sat.: 7:00am - 12:00pm. Sun.: 8:00am - 12:00pm. Inman Square. 1334 Cambridge St., Cambridge. 354-4777.
Special Student and Youth Fares to SCANDINAVIA

Discuss Your Future With General Electric "CAREER FAIR"

Who?

Engineers:
- Electrical
- Mechanical
- Chemical
- Nuclear
- Aeronautical
- Computer

Scientists:
- Computer Science
- Mathematics
- Physics
- Chemistry

What?

Technical Managers will provide information on career opportunities within the General Electric Company in such fields as:
- Artificial Intelligence
- Expert Systems
- VLSI
- Robotics
- CAD/CAM
- Computer Graphics
- Semiconductors & Microelectronics
- Plastics
- Metallurgy
- Ceramics
- Software Engineering
- Signal Processing
- Controls/Automation
- Aerospace Systems
- Medical Diagnostic Imaging Systems

Various career entry paths from MIT to GE will be discussed. These include Development Programs as the:
- Edison Engineering Program
- Manufacturing Management Program
- Chemical-Metallurgical Management Program
- Software Technology Program
- Information Systems Management Program
- Research Technology Program

When and Where?

Monday, November 17 (12 Noon - 5 p.m.)
Lobby 13
Building 13

What else?

Light refreshments and handouts.

"Dream" the night away with the Shakespeare Ensemble

By BARBARA MASI

"THE LUNATIC, THE LOVER, AND THE POET are of imagination all compact."

Silver moonlit nights, misty dreams half remembered, soft spirit whispers. Last night, I dreamt I saw MIT's Shakespeare Ensemble perform "A Midsummer Night's Dream."

Director Derek Campbell's careful rework of several scenes and the clever transformation of fairies into Bottom's Players highlight the play's ambiguous line between dreams and reality. By molding lines from the final act into the initial scenes, the audience is brought into the play by a different route than the usual prologue of main characters.

The play began with a fifth act scene in which Lysander tells Thespeus of his odd dreams of the previous night. A fourth act scene followed, as a flashback: Theseus and Hippolyta, on their way to a hunt, discover the four lovers asleep in the woods, dreaming.

The musical "landscaping," designed by Ann Connelly, wound its way through the woods talking to himself, it seems, about the play he is planning. But in Dream's test Bottom enters with his friends, Quince, Snout and company: here he is alone. Then one by one fairies appear. A hat plucked from the air transforms the fairies into Quince (Bjorn Davis '89), Snug (Pet Gablegite '88), Flute (Joshua Lubart '87), Snout (Annie La Flame '88), and Starveling (Joseph Van derway '89). The finest acting of the evening came from the unrestrained, inventive comedy of this group. The entry of Gean's bold characterization of Bottom enlivened the show.

Carl Kraenzel '87 presented a cool, graceful King Oberon, and seemed quite in control of the text. Titania's (Andrea McGimsey '87) long speeches—sometimes an actor's nightmare—were lovely. As always, the Ensemble's fight scenes, this time among the four lovers, made for rich entertainment.

The love story in "The Loveliest Afternoon of the Year" was acted out by Angela Daddabbo '89 as the young Ohio woman who falls for the forward young man whose affrontery helps him slip under her defenses. The two worked off each other and made the front rows work to keep up with the pace. For a taste of romantic demise, the audience was treated to the story of Laura Armstrong '90, played by James Harrison '88. The story then becomes that of family between the 1930s and '50s. First up were father and mother Ian Dowell '86 and Laura Armstrong '90. Both had aged the ages of their characters, and it was easy to take Dowell for a traditional, methodical man in his forties. He wore dark glasses, but it was left to the lighting crew to obscure Armstrong's eyes, so that each seemed to have a secret, to have held back something. Lee Higgins '87 was introduced as the daughter, Jean, and allowed to develop her character over a wide range of ages. Jean was never in control of her life, but always confident and able to cope, and Higgins portrayed a supremely confident individual. As a seven-year-old child, she was wide-eyed and innocent. As a teenager facing a loss of innocence, she was superb as she relaxed with her lover. After the mother's death, the father hires a housekeeper, but it is Jean who really takes her place, and occupies her chair. The story then becomes that of father and daughter, twisted by a summer of love and an autumn of tragedy. These events revolved around Jean's Crew lover, played by James Harrison '88. Makeup and costuming did as good a job on Harri- ton as on father Dowell, but it was ulti- mately up to him to transform himself into an anxious father. He achieved well the part of the outcast. The style of narration was simple and unemotional, characters looking back on events of years past, water under the bridges, with detachment. But the scenes were able to bring to us the emotions they felt at the time, and it brought the evening to a moving close.

Join us for an afternoon jog

On Tuesday, November 18th and Wednesday, November 19th, representatives of General Electric will be interviewing at the Ashdown House on your campus. Please contact your placement office for schedule information.

Our Technical Recruiters would like you to join them for an afternoon jog on Monday, November 17th. We'll begin at 77 Massachusetts Avenue at 5:30 p.m., jog down Memorial Drive to the Boston U. Bridge, cross over to Storrow Drive and head down to the Longfellow Bridge, cross back over to Memorial Drive and finish up our 4.8 mile jog back at 77 Massachusetts Avenue. Some of our managers will turn back up Massachusetts Avenue at the Harvard Bridge for a 2.7 mile run.
N O B B Y ' S F O O L
Directed by Evelyn Purcell.
Starring Rosanna Arquette, Eric Roberts and Mare Winningham.

The plot is very thin. Arquette plays a woman who is a professional oddball. There are so many problems with the movie that it is a rather impressive tribute to the actors that the film is bearable. It is easy to believe that this is the first feature film for the director.

The plot is about Cassie's relationship with her old boyfriend (played by Eric Roberts), a stagehand with a Shakespearean soul. After a triumphant performance of Romeo and Juliet at a state fair, Cassie meets Riley (played by Jim Youngs as a consummate heel). After a triumphant performance of Juliet at a state fair, Cassie falls in love with Riley as she learns to let go of her feelings for her old boyfriend. Cassie's mentally disturbed cousin, we don't know whether to laugh at her or pity her.

Cassie's mentally disturbed cousin, we don't know whether to laugh at her or pity her. Cassie stabbed him with a fork, then failed to kill herself. She gave the baby up for adoption and is now a misfit.

Put your degree to work
where it can do a world of good

The future is working where it can do a world of good. Look into the Peace Corps.

Your first job after graduation should offer more than just a paycheck.

If you're graduating this year, look into the unique opportunity to put your degree to work where it can do a world of good. Look into the Peace Corps.

Discuss Your Future
With General Electric

Who?
BS and MS candidates in electrical engineering, computer science, mechanical engineering, chemical engineering, aeronautical engineering, and nuclear engineering.

What?
The General Electric Technical Recruiting Team will be conducting campus interviews at the Ashdown House for challenging career opportunities within one of the most diversified companies in the world. Contact your placement office to schedule an interview with one of our technical managers. Various entry level alternatives are available, such as:

- Edison Engineering Program
- Manufacturing Management Program
- Chemical-Metallurgical Management Program
- Software Technology Program
- Individualized Direct Placement

Opportunities exist in such fields as:

- Artificial Intelligence
- Expert Systems
- VLSI
- Robotics
- CAD/CAM
- Computer Graphics
- Plastics
- Metallurgy
- Ceramics
- Software Engineering
- Signal Processing
- Controls

For more information on these programs and the major business areas available, refer to the General Electric file located in your placement office.

When and Where?
Tuesday, November 18th and Wednesday, November 19th at the Ashdown House.

What else?
Sign-ups will commence Tuesday, October 28th.

The future is working at General Electric
The Tech proudly presents...

The Tech Performing Arts Series
a service for the entire MIT community from The Tech in conjunction with the Technology Community Association, MIT's student community service organization.

Special reduced-price tickets now available for the following events:

Cantata Singers
The world premiere of MIT Professor John Harbison's \textit{Flight into Egypt} will be part of the concert of the Cantata Singers in Jordan Hall, Friday, Nov. 21, 8 pm. Also featured are works of J. S. Bach, Brahms, Takemine and Faure. MIT price: $5.

Pinchas Zukerman
Virtual soloist Pinchas Zukerman will appear in a Wang Celebrity Series recital in Symphony Hall on Nov. 23, 3 pm. The program contains short pieces by Schütz. MIT price: $5.

The Musical Theatre Guild opens its production of \textit{"West Side Story"} tonight in Kresge Auditorium. The show runs for the next two weekends. Also playing this weekend are Dramashop One-Acts in Kresge Little Theatre and the Shakespeare Ensemble's \textit{"A Midsummer Night's Dream"} in Sala de Puerto Rico.

RECRUIT USA, INC.

Established in 1974, Recruit Company has assets of 13 million dollars and 1985 sales of 65 million dollars. Our network of 700 employment centers, on average age of 15, create total filling and business environments, manage real estate, and lease property. Available positions are in property planning, development, design, architecture and accounting. Salary and benefits are competitive. Please address your cover letter and resume to Mr. Kamegaya at Recruit USA, Inc.

THE ALEXANDER STRING QUARTET
Kneale Auditorium, Nov. 7.

By JULIE CHANG

The Alexander String Quartet performed an outstanding program Friday evening as part of the MIT Guest Artist Series. Eric Pritchard (first violin), Raze Ransom (second violin), Paul Varjotagh (viola), and Sandy Wilson (cello), collaborated well. Their combined sense of musicality was stunning, and the program they chose was exciting as well.

The first work, Mozart's Quartet in A Major, K.464, was performed in a highly sensitive manner. Their interpretation of this classical piece was most appropriate of the period, balancing elements of restraint and emotion perfectly. The last movement, Allegro, was particularly lively and dynamic. How- ever, there were moments when Ransom's violin was a bit too weak, and did not blend in well with the other parts.

The program was well-balanced, with music of different periods represented. Indeed, the young quartet proved themselves to be outstanding, high-caliber musicians with a great future ahead of them.

The quartet began with an ovation, singing viola solo, and developed further into sequences of intense, chaotic melody and rhythmic passages. The second movement, Menuo — Menuo, contained an intriguing, delightful guitar-like pizzicato section, a great contrast with the harsh, repetitive thrashings of the third movement, Menuo — Baroque. Again, the group displayed a remarkable sense of timing.

The final piece on the program, the Quartet in C Major, Op. 61 by Dvorak, was brilliant. The group brought out the contrasts of the work extremely well, developing richness in the music. The interplay among the instruments and the melodic passages were tightly controlled. The group's Romantic interpretation was perfect, with the gentle sensitive lines balancing well with the exciting bold ones. The last movement, Finale — Presto, was especially noteworthy. The musicians performed this fast movement vibrantly, capturing the majestic nature of this piece most impressively.

Overall, the Alexander Quartet was superb, demonstrating astonishing technique and musicianship. The program was well-balanced, with music of different periods represented. Indeed, the young quartet proved themselves to be outstanding, high-caliber musicians with a great future ahead of them.
MIT fails to advance to postseason

(Continued from page 16)

incomplete pass set up a fourth-and-one; returning to the rush, Ekberg drove up the middle, gaining the first down at the Chieftains' 12-yard line. Two plays later, Gasparini threw the ball past out of Corless's hands in the corner of the end zone.

Arguing that the defender interfered, Gasparini drew a 15-yard unsportsmanlike conduct call. This gave MIT's fourth-and-25.

Gasparini dropped back to pass, as MIT receivers flooded out of position on the left side. Adams went right to take out the left side. Adams went himself wide open. Gasparini alertly connected, and Adams went all the way for the touchdown.

The 116 yards MIT gained on the ground gave the Beavers 205 for the season, setting a new MIT record. Adams' season total of 901 yards rushing also was a record, as were his 167 attempts, 114.0 yards-per-game average, and his 12 rushing touchdowns. Corless' 85-yard reception against Roger Williams also set a Beaver record.

UCLA MBA

A representative will be on campus

Tuesday, November 18

The Senior Associate Director of Admissions from the UCLA Graduate School of Management will be on campus to discuss one of the country's finest MBA Programs.

To sign up for an appointment, interested students from all majors are invited to contact the Office of Career Services and Preprofessional Planning, Room 12-170.

MIT passes out against Stonehill, 14-20

By Harold A. Stern

No longer will the most-discussed question among Boston sports fans be, 'Why did McNamara leave Buckner in?' Rather, inquiring minds will want to know, 'Why did Coach Dwight Smith call for 22 passes?'

Sports

Volleyball compete in Division III Regional

The MIT women's volleyball team competed in the Mid-Atlantic Regional of the NCAA Division III tournament last night at Grand Rapids, MI. The Engineers faced the University of Rochester squad. The winner of the match will face Ohio Northern University today.

Field hockey player on all-star squad

Huffback Stacy Mann '88 has been named to the Northeast Collegiate Field Hockey Association third team. Mann was one of the players selected during a tryout from among players from all collegiate divisions throughout New England. The team will compete in the New England Field Hockey Tournament against teams from various field hockey associations. Mann's average '87, the Engineers' all-time career goalscoring leader, was selected as an alternate.

Sang wins MIT fencing tournament

MIT fencing tournament MIT fencing team members took first and third place in the Eugene Williams Memorial Saber Competition held at MIT last weekend. Jane Sang '90 won the tournament going undefeated through six matches. Sang, who was the second seed, won the title over fifth-seeded David Klien of Brandeis. Eighth-seeded Dominic Montagu '89 took third place in the tournament. The outcome proved not to be costly, as the defense stopped Stonehill. MIT's offense did little better on its next possession, punting away without a first down.

Tourney kicks off basketball season

MIT's varsity basketball teams open up their season next Friday, sponsoring the David Koch Co-Ed Basketball Tournament. Competing in the tournament are the University of Chicago, the University of Rochester, and Washington University.
