HE following newspaper clipping does not speak well for class base-ball at M. I. T.: "The Harvard Freshmen defeated the Tech Freshmen yesterday 30 to 12, in a seven-inning game that would have filled the average street nine with shame. The Tech. Fresh men made twelve errors and played something that looked like a basket-ball game at Radcliffe." The fact that Tech. '03 made as large a score as they did, however, shows that their opponents must have at times put up a pretty ragged game themselves. The defeat nevertheless was disgraceful. Tech. has not been very successful in her baseball games with Harvard in the past, but never has the spectacle been more pathetic than this year. Within two weeks the Freshmen at Cambridge have played against Tech '02 and Tech. '03, and in both cases they have found their opponents hardly deserving the name of such.

In the last issue of The Tech, the conditions applying to the competition for the artistic editorship of Technique were given and the competition is so important as to merit a special word. The merit of Technique has come largely to depend on the value of its artistic work, and this year, while the 1901 Technique did not include as striking drawings as have appeared occasionally in former years, yet the artistic merit was more uniformly good than it has been before. The consequence is that the book was thoroughly acceptable and highly praised. For next year there seems to be a certain lack of competent talent developed so far, and it is to be hoped that this competition will bring out some good work. It is something which the class of 1902 should provide for to the utmost of its ability. The Tech wishes to urge men to come out and enter the competition. The judges chosen are capable and fair, and all are granted an equal opportunity of making the Technique Board, limited by their artistic ability. A great part of the work can be done during the vacation, and this surely ought to act as an incentive to second-year men.
Excursion to Salem.

Last Friday afternoon the water-color class, augmented by about one-half the members of Course IV., 3d year, journeyed to Salem under the direction and guidance of Mr. Ross Turner. The object of the trip was to visit the colonial houses for which Salem is justly famous. The owners of the houses were very accommodating, and kindly explained the various objects of interest. A visit was made to "Ye Olde Witch House" and a profitable hour passed at the Peabody Museum. Hawthorne's birth place with its secret stairway, the Custom House, The House of Seven Gables and the First Church, suffered in order. After "doing" the city Mr. Turner kindly invited the visitors to the Salem Club, where refreshments were served. Great thanks are due to Mr. Turner for his hospitality and kindness, and the enjoyable and profitable way in which the afternoon was passed.

Professor Despradelle Wins Honors at Paris.

A recent cablegram from Paris brings word that the jury in the Salon of 1900 has awarded the first medal to Professor Despradelle. The subject of M. Despradelle's design is of especial interest to Americans, being a monument "dedicated to the glory of the American nation," and it is said to be of a grandeur of conception, and of a daring in execution almost unparalleled. Its title, "The Beacon of Progress," indicates the character of the composition, the height of which is designed to be 1500 feet. The artistic presentation of this project received the unanimous approbation of the jury the day of its admission to the Salon, and the award of the first medal crowns a labor of almost six years.

Previous to his departure for Europe the last of this month, the artist will make known the place he has in mind for the erection of the monument, and will explain its idea by a presentation of the drawings, prospective, etc. At present there are no definite plans for building the structure. The awards of the Salon for the section of architecture are two medals of the first class, four medals of the second class, six medals of the third class, and an unlimited number of "mentions."

Professor Despradelle received first promotion at the Ecole des Beaux-Arts in 1882; received many of the prizes at the Ecole des Beaux-Arts and Societe Centrale des Architectes Francaise; took part in the Concours de Rome four times, and received first and second grand prix in 1889, being designated Laureat du Salon, Officier d'Academie, assistant inspector of state buildings and national palaces, and, under this title, helped in the building of the new ministry of agriculture, the national library, the mansions of M. Wilson and M. Grevy, the ex-President, and various other important public and private edifices in Paris.

Hare and Hounds.

The Annual Handicap Run of the Hare and Hounds Club will be held Saturday, May 19, from Wellesley Hills. The course will be about seven miles over varied country, including wood, pasture, and road. The limit will be six or eight minutes according to the difficulty of the course. Prizes will be given to the first three men in, and a Time Prize will also be given. Entries close on Thursday, May 17th, at 4 P.M., with F. H. Hunter, '02, manager. Entry fee, fifty cents; for members, twenty-five cents. The run is open to all Institute men, and those intending to enter are invited and advised to go on the Hare and Hounds Run next Saturday, offering a chance to become acquainted with the course. Those wishing to go should be on hand to take the 2.15 P.M. train at the Columbus Avenue Station, B. & A. R. R., next Saturday.
Senior Theses (continued).

COURSE II.

J. S. Croswell. "A study of the co-efficient of friction of a roller bearing."
S. F. Gardner. "The design of a central heating plant."
F. S. Goodridge. "Some experiments on a pendulum governor."
C. W. Hudson. "A study of wind pressure."
R. K. Lingley. "Tests on superheated steam."
C. E. Paul. "The relation between draught and temperature in chimneys."
W. Scott. "A dynamometer test on a steam motor carriage on different grades."
A. C. Walworth. "An investigation of the friction of steam in elbows and bends."

COURSE VIII.

Miss Grace Langford. "An investigation of the color of copper solution with relation to the dissociation theory."

COURSE VI.

John S. Porter. "Design for a sewage disposal system for town of Randolph."
C. M. Leonard. "A three-hinged steel arch for a train shed. Span 190', length 500'."
R. Wainscott. "Experience with accumulation of air in water main."

COURSE XIII.

C. C. Briggs. "Design for an ocean tug, speed trials, etc."
H. A. Macpherson. "Towing test on a model."
With Hussey.
R. C. Simpson. "Collection and reduction of data for the powering of ships."
J. F. Wentworth. "Design of a speed launch."
H. G. Hooper. "Towing experiments."

COURSE IV.

John V. Beekman, Jr. "Structural design for a municipal market exchange."
L. N. Gowell. "Structural design for a terminal station."
T. W. Steidman. "Design for a chapel."
Miss Lilienkranz. "Design for a villa."
R. J. Clausen. "Design for a public library for a town of 40,000 people."

COURSE X.

Kari Borroughs. "The effects of the absorption of gases on sterling silver."
Charles C. Johnson. "A comparison of various tests of paint for iron."
J. A. Patch. "The hydrolysis of tannin in hemlock bark."

COURSE V.

S. O. Adams. "The cause of the rusting of iron."
Miss C. Durgin. "Preparation of tetra-methylene."

Lecture by Mr. Samuel Cabot.

A most interesting and instructive lecture was given a week ago by Mr. Samuel Cabot, of shingle stain fame, to the students in architecture. The main topic of his discourse was how to distinguish adulterations in paints.
The common adulterants were exhibited and passed through the audience for examination. Mr. Cabot from his years of experiment and work was able to give a very fine lecture, and one which will be a source of trouble for all the dishonest painters who come in contact with our future architects.
Schedule of Annual Examinations, 1900.

Subject to Correction by Bulletin.

Regular exercises will end as follows: Third and Fourth Years, Saturday, May 19; Second year, Thursday, May 24; First Year, Saturday, May 26.

Special and Condition Examinations: Conflicts.
All special and "condition" examinations granted by the Faculty are to be taken at this time, unless otherwise specially authorized. Students desiring such examinations (not on this schedule) and those having two examinations on the same day, also candidates for graduation having examinations scheduled later than Thursday morning, May 31, should hand in complete schedules checked for all their examinations not later than Thursday, May 17. New assignments will be sent by mail to such students on Saturday, May 19. None can be arranged later.

Reports will be mailed June 11 to students of age, and to the parents or guardians of others. None can be given out verbally. Requests for duplicates will be received with addresses until May 23.

Summer Courses. Students, whose plans for the summer make it important that the question of taking summer courses be decided before the annual reports are issued, may leave applications at the Secretary's office for provisional notification of standing in particular subjects.

* For conditioned students only.
† Regular and condition examinations.

H. W. Tyler, Secretary.

</table>
On Tuesday, May 1st, the Sophomores were given their worst defeat of the year, by the Harvard Freshmen. The score, 16 to 2, serves to indicate how poorly the team played. Clarkson, for the Freshmen, pitched excellent ball and lived up to his reputation by allowing but five hits. Capt. Pond, although he pitched a steady game, was batted freely at times, and was given poor support by his team. The team as a whole fielded and ran bases in a listless manner showing urgent need of good hard practice.

1903 Baseball.

Friday, the Freshmen were defeated by Harvard Freshmen, in a seven-inning game, 30-12. As Clarkson did not pitch for the Harvard Freshmen, no comparison of the result can be made with the Sophomores' defeat by the same team on Tuesday. 1903 used two pitchers in the game, neither of whom was given any kind of support, as the team, especially the infield, made many inexcusable errors. Saturday, 1903 was defeated by Adams Academy, at Quincy, 17-15. The men batted poorly, and showed no team work whatever. As the Class game comes off in a week, a great improvement must be made, if the team expects to make a showing worthy of the Class.
At the annual meeting of the Glee Club on April 26th L. B. Haworth, '02, was elected to the position of Leader, which this year has been filled by W. P. Davis, '02. Claude Patch, '02, was elected to the office of Manager of the Club.

The 38th annual meeting of the Society of Arts will be held at the Institute, Rogers Building, on Thursday, May 10, 1900, at 8 p.m. Officers will be elected and reports of Committees presented. Prof. W. W. Bird, of the Broadway Iron Foundry, Cambridge, will address the Society on "Steel, Gray, and Gun Iron Castings, Their Uses and Relative Values."

An effort is being made, under the leadership of Mr. R. H. Gardner, President of the Boston Local Council of the Brotherhood of St. Andrew, and of Prof. Richards, to start a Chapter of the Brotherhood at the Institute among the members of the Episcopal church. A meeting was held for the discussion of this project at the Technology Club on Thursday evening, May 3d.

The mentions of the Third Year architects on their designs for a chapel were awarded as follows: Firsts, Miss Gray, E. F. Laurence, H. T. Blanchard, F. N. Emerson, W. C. Appleton, F. H. Bond, G. V. Pottle, J. L. Parke; seconds, A. K. Trenholme, L. R. Heinrich, W. G. Holford, F. A. Colby; thirds, W. L. Sayward, L. S. Butler, W. T. Aldrich, H. A. Whiton, J. M. Hamilton.

At the third regular meeting of the 1902 Technique Electoral Committee, on Thursday, May 3d, C. E. McCarthy was elected athletic editor, and Kenneth Lockett, society editor. On the following Friday, A. E. Lombard and J. C. Fruit were elected business manager and assistant business manager, respectively. The competition for the art editorship will close May 18th.

The Amherst College Musical Association will have a concert in Horticultural Hall, Worcester, Friday evening, May 18th, the night before the New England Intercolligiate games. Thirty-five members of the Glee, Banjo and Mandolin Clubs will participate, and a typical college audience is promised. If the affair succeeds, it will be made an annual event, the colleges in turn being asked to furnish the entertainment. Tech. men wishing seats together should address Steiner's, 308 Main Street, Worcester, before May 12th, enclosing fifty cents per ticket, the whole hall being reserved.

The Class Games.

The annual spring Meet between the classes was held Saturday afternoon at the Riverside Recreation Grounds, and proved to be one of the most successful meets which the M. I. T. A. A. has brought off. The contestants showed much improvement over their work of a week ago at Brown, and the improvement vastly increases our prospects at the Worcester meet of the N. E. I. A. A. Frost, '02, who distinguished himself at the Brown Meet, kept his end up in great shape, winning the half-mile and mile runs. Winchester, '03, broke the record for the discus throw with 104 feet, 3 inches to his credit. He also was placed in five other events. The final score, with the exception of the bicycle race, which will be run next Saturday, and which, in all probability, will go to 1901, resulted in 51 points for 1902; 38 for 1901; 31 for 1903, and 6 for 1900.

The results of the games were as follows:

One hundred-yard dash — First heat, won by R. V. Brown, '02; second, A. W. Rowe, '01; time,
247

THE TECH

10 3-5s. Second heat, won by G. H. Gleason, '03; second, H. T. Winchester, '03; time, 11 1-5s. Final heat, won by A. W. Rowe, '01; second, G. H. Gleason, '03; third, H. T. Winchester, '03. Time — 10 4-5s.

Two hundred and twenty-yard dash — Final heat won by G. H. Gleason, '03; second, A. W. Rowe, '01; third, H. T. Winchester, '03. Time — 10 4-5s.

Four hundred and forty-yard run — Won by W. P. R. Pember, '02; second, Williston, '02; third, W. E. Calley, '03. Time — 24s.

Eight hundred and eighty-yard run — Won by R. L. Frost, '02; second, C. F. Green, '03; third, H. L. Williston, '02. Time — 4m. 53s.

One mile run — Won by R. L. Frost, '02; second, S. C. Sears, '00; third, Peasely, '03. Time — 4m. 53s.

Two hundred and twenty-yard dash — Final heat won by G. H. Gleason, '03; second, A. W. Rowe, '01; third, H. T. Winchester, '03. Time — 10 4-5s.

Pole vault — Won by F. K. Baxter, '01, 9ft; second, Gannett, '02; third, Baker, '02.

Running high jump — Won by F. K. Baxter, '01, 5ft. 7½ in.; second, H. P. MacDonald, '01; third, H. T. Winchester, '03.

Calendar.

Thursday, May 10th — Last meeting of the Y. M. C. A. for this term; address by President of the Association on "New Students." 4.10 P. M., Rogers.

Saturday, May 12th — Hare and Hounds Run, Wellesley Hills; leave Columbus Ave. station at 2.15 P. M.

Saturday, May 19th — Handicap Run of the Hare and Hounds Club, Wellesley Hills. Leave Columbus Ave. station at 2.15 P. M.

'88. Russell Robb is in Bombay, India, making an investigation of the tramways with reference to the introduction of electric power.

'89. John W. Linzee, Jr., is assistant engineer with the Boston Elevated Railway Co.

'89. A. L. Davis, II., is assistant to the manager of the Berlin Iron & Bridge Co., of East Berlin, Conn.

'90. Mr. W. H. Fenn, I., was elected president of the Manufacturers' Contracting Co., of Jersey City, last fall.

'91. P. W. England has had charge of the laying of underground conduits for the Bell Telephone Co., at Phila.

'91. K. W. Mansfield has been recently promoted from superintendent to vice-president and general manager of the Norwalk (Conn.) Tramway Co. He is also secretary and director of the Norwalk Business Men's Association.

'99. F. O. Clapp, I., is engaged upon computations connected with the new sewage precipitation basins of the city of Providence.

"THE GIRLS ARE FOND OF THESE" TEKCH. EMBLEMS.

Greatest Variety. Lowest Prices.

BENT & BUSH,
387 Washington St., Boston.
THE LOUNGER has considerable feeling for those irresponsibles who in Physics betake upon themselves the occupation of varying the normal state of excitement of the subject by a double shuffle accompaniment on the floor. To those gentlemen, who, expecting to prolong their pursuit of Physics for some five weeks after the regular obsequies are performed, THE LOUNGER has only consolation to offer when the attempt, which failed, was made last Monday to again induce the lecturer to remark that the text book would be for the present the sole source of information on the subject. Unfortunately, although by the latter statement the lecturer would have correctly stated the value of the lectures, the balloon which was to be the casus belli was loosed in the dark and the attempt failed.

THE LOUNGER would suggest that in case such an original gag is to be propagated again, that the balloon be sent up when the room is light in order to develop the most enthusiastic appreciation and provide the lecturer an opportunity to indulge in his favorite pastime of projecting the mob through the door.

When the time of the year is considered and, incidentally, the state of THE LOUNGER's mind as a result of that approaching epoch, a faint conception of the magnitude of the occasion which causes this outbreak may be obtained. The M. I. T. Y. M. C. A. etc., etc., is threatened with a rival. In fact, a certain well-known Professor, who reigns supreme over the subterranean depths of Roger's, has come to the conclusion that the Y. M. C. A. members ought to be forced to do something besides paying $2.00 for the privilege of having their names inserted in Technique. To this end he is starting a rival revival establishment which will go under the nom de guerre of the M. I. T. B. S. A. E. C. C., or briefly, the Brotherhood of St. Andrew's Episcopal Church Club. THE LOUNGER must congratulate the Professor on his first step. The Y. M. C. A. theory is, that the answer to the question "What's in a name," is "Everything," and the Professor has met them on their own grounds and scored first touchdown. The very sight of the laconic monogram of the new club is sufficient to make a Y. M. C. A. man tremble. THE LOUNGER can anticipate the intense antagonism that will spring up; each party striving to see which can send in the most fiery letters to THE Tech denouncing the morals, immorals, and lack of both at the Institute as a whole, and the theatrical stars as subdivisions. THE LOUNGER sees a small but determined band of enthusiasts, under the guidance of head disciple and theatrical critic E. H. D-v-s, bursting into the Hollis some Sunday, during the assassination of a Tech. show, and hears the leader exclaim in impassioned tones, "Boys, this can not go on any longer; it is a disgrace to the Institute that the human senses should be so desecrated by a parcel of idiots who don't even know their lines yet. Go home and learn them better by next Sunday, or I'll —— but the rest is lost in elevations to which even THE LOUNGER's imagination can not soar.

THE LOUNGER has just been notified that he must be miserable, but he grieves to state that no notification was necessary; he has been miserable with the miseries of anticipation for the last two weeks. The possibility of an opposition party making the Y. M. C. A. serve better drinks made him joyous for a half column, but the old woes return with two-fold bitter intensity. Not even the fact that THE Tech made a scoop on the Secretary, by publishing the list of exams. first, can enliven him. If it were anything else except the exams. but oh ——. THE LOUNGER suggested to his chief that it would be more to the purpose to print the list of summer courses, because those, at any rate, hold out some hope, but the chief thought of the dollars to be gained by the publication of the exam. schedule, while THE LOUNGER only considered the aching souls of his comrades. So THE LOUNGER is going to invest in six new towels and a case of Anheuser Busch (to soak the towels in) and is either going to pass those exams. or — flunk them.

I walked beside a Boston girl;
She was a maiden full sedate;
We talked about all animals,
Herbivorous and vertebrate.

No longer will I try to talk,
And learned statements try to make;
She blushed, and wept, and left me
'Cause I spoke about a garter snake.

When a mother tucks her boy,
Her baby and her joy,
In his little crib and gently then does rock it,
She does not stop to think
That some day he will slink
To 'exams,' with his crib tucked in his pocket. — Ex.

H. H. BARNES, Manager.
Hollis Street Theatre. — For the second time this season Boston is to witness “The Rogers Brothers in Wall Street.” The success of this play was established by the crowded houses it had while at the Museum. The opening night of this engagement is to be a benefit complimentary to Chas. S. Rich, the assistant manager of this theatre.

Tremont Theatre. — The gorgeous spectacular fantasy, “Broadway to Tokio,” one of the most elaborate productions of the season, which had a run of over 100 nights at the New York Theatre, has shown that it is to be enjoyed by Boston theatre goers as much as by others. The cast includes Fay Templeton, Joe Ott, Josie Sadler, Joseph Sparks, Maym Kelso and other favorites.

Boston Museum. — R. C. Carton’s latest piece, “Wheels Within Wheels,” will be presented by one of Frohman’s companies. The costumes and scenery of this piece are considered to be as fine as ever were used by any play on this stage. This is sure to be a very taking piece.

Columbia Theatre. — The Columbia is experiencing its third week of “The Lady Slavey,” which proves to be the jolliest entertainment that has reached Boston in some considerable time, and to complete the thoroughness of the production, the management chose particularly well in the selection of an interpreting cast. La Petite Adelaide, with her charming dances, is a prominent figure in the cast.

Castle Square Theatre. — The summer season at this house begins with a production of the American comedy “A Gilded Fool,” this attraction being given its first production at this play house during the coming week. This comedy is from the pen of Henry Guy Carleton, and it made the success of two earlier seasons of Mr. Nat Goodwin.

“Old English
Curved Cut Pipe Tobacco
A slice to a pipeful” is one reason why Old English Curve Cut pipe tobacco is so popular. The curved tin box that fits any pocket is another reason. No other pipe tobacco has ever made as many friends in so short a time. “It disappoints no one.”

A trial box will be sent to any one anywhere on receipt of ten cents in stamps. Address Old English Department, The American Tobacco Co., 76 Fifth Ave., New York City. All dealers sell it.

Yachtsmen
All along the Atlantic coast are making preparations for the season of 1900.
