GOOD ADVICE.

PATERFAMILIAS TO SON AND HEIR—
"When you find individuals (or a firm) who use you well, stick to them—that is my plan. For forty years I have patronized Oak Hall, and I am better pleased with their management every day. I am glad to see that you are following your father's example."

We attribute a great share of our success to the pains we take to please young men.

The prospects of business for the coming winter are shown by the pressure of Fall trade, which is all we can attend to.

SMARTLY FASHIONED SEMI-DRESS SUITS FOR GENTLEMEN

Are now on exhibition in our gentlemen's room. Worsted and double and twisted fabrics in slate colors, drabs, olives and brown mixtures, the newest patterns—especially stripes—prevailing, representing the choicest selections from the best makers at home and abroad, including Nantes diagonals, Stonehaven Scotch wool serges, Deubydale and Ben Nevis cheviots, Hebrides worsteds and Jura twilled mixtures. The coats are smartly fashioned, have four buttons, and there are double-breasted vests as well as single. The high character of the structures is insured by precise workmanship by "jour" tailors—using nothing but the best double warp linings, canvases, buttons, threads and silks. The trousers are cut in the newest straight fashion, and altogether the "tout ensemble" is satisfactory from any point of view.

$20, $22, $25.

CO-OPERATIVE.
HERE is no more striking feature of the past generation than the development of the modern college president. Combining liberal and profound learning with marked administrative ability and the faculty of penetrating human nature, these men are essentially a product of modern institutions, and we feel safe in saying, of American institutions. They are indeed a class of men of whom the country may well be proud.

Within the past fortnight no less than three of our sister colleges, Amherst, Yale and Brown, have installed new administrative heads. The event was in each instance made an occasion for general rejoicing, and attended by impressive ceremonies. We congratulate our sister institutions upon having secured men of such recognized ability to fill such important positions. It is within a comparatively recent time that Technology has taken a new president, and we certainly hope that our prosperity may be shared collectively by Amherst, Yale and Brown.

The showing made by the Varsity football team thus far has been very poor, and interest in the school is rapidly diminishing. About fifteen men report daily for practice, and of this number only about six or seven show up on two consecutive days. Under these conditions, a good Varsity team is impossible. This state of affairs is very discouraging to the management and to Captain Jouett. They have worked hard to give Technology the representation she should have, but they receive no support. The reason for this is not apparent. There is just as good material in the school this year as there was last year, but it is impossible to bring it out.

Of the men who do come out, THE TECH dislikes to speak harshly, but it is high time that somebody should do some plain talking. In the first place, there is no enthusiasm or spirit. The men straggle into the Gym. for practice all the way from four o'clock to half past. It is frequently five o'clock before
eleven men are on clover field, and by half-past five, it is too dark to see. The team is absurdly weak in those elementary principles which should have been instilled during the first week of practice. Outside of the quarterback, not a man on the team seems capable of making two clean tackles in a single game. Several of the men do not appear to know their positions, and of interference, the team is entirely innocent. Even the signal practice at the Gym. is rendered ridiculous by the fumbling and misunderstanding of signals.

There is one step which the management should take immediately. They should require the coach to put on football clothes and give the team some practical lessons. Successful coaching has never been done by "lectures" at any other college, and there is no reason to suppose that it will be at Technology.

The team has had five weeks of this kind of coaching now, and the results indicate that something more is needed. It is imperative that the team should take a decided brace if the little football interest still left in the school is to be kept alive.

Association of Graduate Class Secretaries.
The first regular meeting for the present year of the Association of Class Secretaries was held at the Technology Club on Tuesday evening, October 17. A large proportion of classes was represented.

A. D. Little of the editorial committee of the Technology Review submitted a report, which showed that the magazine had been even more successful than the committee had anticipated. Most encouraging letters had been received from subscribers and institutions and schools to which the Review had been sent. Owing to the many unusual expenditures incident upon starting a new publication, there is a slight deficit, but indications for the future warrant the continuance of the magazine.

In order to obtain more graduate news and to bring the Review into closer touch with Alumni, circulars are to be sent to all graduates by the class secretaries. Efforts are to be made to secure more advertisers.

Complete sets of directories of all classes are being completed and will be placed on file at the Institute, at the Technology Club, and with the Secretary of the Association of Class Secretaries.

With Apologies to a Popular Air.
It was brewed in old Kentucky,
Brewed in very quiet stills:
There's the sunshine of the country
In its sparkle as it spills.
It was brewed in old Kentucky,
Take it, boy, you're mighty lucky
When you're drinking the moonshine of the hills.

—Ex.
Exeter 24 — Tech. 0.

Tech. played her third game October 18, with Exeter, on the academy gridiron, being defeated 24-0. The score does not well describe the game, as in the first half although Exeter scored, the ball was most of the time in Exeter territory.

Stewart kicked off and Exeter recovered thirty yards before being downed. Tech. held well and in the third down Exeter tried for a field goal but the ball fell far short. Stewart returned the kick with a magnificent punt, landing the ball well up toward Exeter's goal. Exeter fumbled and Maxson secured the ball carrying it some distance before being downed. By steady rushing Tech. reached Exeter's three yard line but failed to get any further. Brill punted to Storer who made little gain. Shepard made a short end run. Exeter obtained the ball, Brill punted, Stewart returned it to Scales. Exeter fumbled, but recovered, and by hard line bucking scored and kicked a goal. Stewart kicked to Scott who recovered 25 yards. Brill punted and Stewart returned it to ten-yard line. Exeter again punted, Washburn received the ball and gained some ground. Again Exeter secured the ball and gradually worked up the field for another touchdown and goal.

Several substitutes were put in by both teams, Exeter seeming in better condition than Tech. Line bucking and a few punts marked this half.

Wesleyan 44 — Tech. 6.

Tech. met an overwhelming defeat in Saturday's game with Wesleyan by a score of 44-6. The team was a defeated one in spirit before it left Boston and doubly so when it returned.

The game put up was as poor a game as Tech. ever played, the interference ragged and line work weak. Wesleyan, though still feeling the effects of the U. P. game, put up a good game, their fine interference giving long end runs. The line gains were not so large.

Tech. kicked off and Ingliss retrieved 20 yards; an end play netted 30 more and seven downs carried the ball over the line. No goal. Pond kicked off and after one play Ingliss punted to Pond, the latter dropping the ball conveniently for Yarrow to gather it in and score from an open field run. No goal. This same thing happened again and with one goal the score stood 17-0 in the first five minutes. Tech. braced up a little but Wesleyan scored again by end plays, adding five more to the score. Wesleyan seeing no danger from Tech. began to put in substitutes at full back and right end. Wray at full soon scored again for Wesleyan. Tech. received several punts but invariably had to kick. The line up:

WESLEYAN.

I.e. S. Dodds  r.e. Chubb
I.t. Yarrow, Hastings  t. Evans
I.g. Brown  g. Crane
c. Lilliman  c. Laws
r.g. Lufkin  r.g. McDonald
r.t. Montgomery, Ackart  r.t. Simms
r.c. Cornwell, Garrison  r.c. Washburn
g.b. C. Dodds  g.b. Mason
l.h. Wilcox, Lacey  r.h. Wood
r.h. Hartzell, Calder  l.h. Storer, Capelle
f.h. Inglis, Wing  f.h. Pond

Score, Wesleyan 44; Tech. 6. Umpire, Hubbard (Trinity); Referee, Davis (Wesleyan); Linesmen, Jones, Derby, Pendell. Time 20m. halves.

"Yes," said the farmer swinging his scythe, "this goes against my grain." —Ex.
Thurlow Washburn.

It is with profound sorrow that we publish the news of the death of Thurlow Washburn, who was graduated from the Institute with the Class of 1897, in the Mining Engineering Course. Details of his death are not at hand, other than the fact that he perished in last week’s terrible snow storm in Colorado.

Although older than the average student, Washburn evinced a lively interest in all undergraduate affairs. He threw his whole soul into whatever he undertook. It was impossible to be long associated with him without being infused with his enthusiasm. As a result, success crowned his efforts in whatever he was concerned.

In his Junior year, his classmates, in recognition of his ability, chose him business manager of Technique, ’97, and to his labor was mainly due the wonderful financial success of the book.

The success of Technique, ’97, led to Washburn’s election to the difficult, and almost thankless office of treasurer of the Athletic Association. To this new work he brought his customary energy and business principles, and did much toward placing Technology athletics on a firm basis. He aided materially in the establishment of the present Advisory Council on Athletics.

Always cheerful and genial, with a kind word for all, sparing neither time nor trouble in working for the best interests of Technology, Thurlow Washburn endeared himself to all who knew him. His was a life which might well be copied by all Tech. men, and his loss will be keenly felt.

After his graduation he went to New Mexico and spent some time in prospecting. He then secured a position with a large mining company, and at the time of his death, held the office of assistant superintendent of mines.

Fall Handicap Games.

The Technology annual fall handicap class games were held last Saturday on Holmes Field, Cambridge. The meet was successful in many respects, but owing to the strong wind which blew across the track, and the coldness of the atmosphere, no records were broken. The shot put, hammer and discus throwing, were postponed until Tuesday, as most of the men entered for these events were engaged on the football team. While, no doubt, the inclement weather kept away a good many spectators who would otherwise have been present, the participants must have been discouraged by the fact that the majority of the Tech. students did not take sufficient interest in athletics to witness the results of their training. Every Tech. man should at least do a little to promote the athletic standing of Tech., and the least he can do is to be present at the games.

There were three heats in the hundred-yard dash, Lowe, '02, Rowe, '01, and Wentworth, '00, each winning in his respective heat. The final heat was a closely-contested race, Lowe winning from Rowe by a small margin.

Only three men started in the 220-yard dash, and Rowe had the race from start to finish.

In the 440-yard dash, Pember, from 15-yard mark, clearly outclassed his competitors and won easily.

In the quarter-mile run, Garrett showed excellent judgment in his gradual gain on Perry, with 45 yards handicap, and finally finished several yards to the good.

The one-mile run proved the most interesting of all the events, and to be a sort of double race. Sears, scratch, was only a few yards behind Stowe, with a handicap of 50 yards, at the three-quarter mile post, and from there to the finish line, he pushed Stowe hard but could not pass him. Hunter and Arnold, in the meantime, were about 100 yards to the rear and struggling for third place. Hunter
finally finished two yards ahead of Arnold.

Field easily captured the two-mile run and might have made better time had he been pushed.

The two-mile bicycle, held at Charles River Park, was easy for Murray, and Eveland beat Clark by several yards.

Wentworth beat Wilder in the running broad jump by six inches.

Wentworth also captured the running high jump by clearing five feet, three inches. His nearest neighbor was Winchester who jumped five feet.

Baxter, scratch, won from Kellogg in the pole vault by clearing nine feet, four inches, while the latter did eight feet, nine inches.

As these events have not yet been contested it is not decided which class has won the most points. As it now stands, '01 has 34 points to its credit, while '02 has 33, but since there are only two '02 men entered for the remaining events, it is probable that '01 will win out.

The summary:

100-YARD DASH.
First heat—Won by Lowe, '02, 5 yds.; second, Manley, '02, 4 yds.; third, Hall, '00, scratch. Time—10 4-5s.
Second heat—Won by Rowe, '01, 3 yds.; second, Winchester, '03, 6 yds.; third, Lord, '03, 4 yds. Time—10 4-5s.
Third heat—Won by Wentworth, '00, 2 yds.; second, Stowe, '02, 6 yds.; third, Avery, '02, 3 yds. Time—11 1-5s.
Heat for second men—Won by Winchester. Time—11 1-5s.
Final heat—Won by Lowe, '02, 5 yds.; second, Rowe, '01, 3 yds.; third, Wentworth, '00, scratch. Time—10 3-5s.

220-YARD DASH.
Won by Rowe, '01, 6 yds.; second, Stowe, '02, 11 yds.; third, Hall, '00, scratch. Time—23 4-5s.

440-YARD DASH.
Won by Pember, '02, 15 yds.; second, Garrett, '01, scratch; third, Morris, '03, 20 yds. Time—55s.

880-YARD RUN.
Won by Garrett, '01, scratch; second, Perry, '02, 45 yds. Time—211. 19s.

ONE-MILE RUN.
Won by Stowe, '02, 50 yds.; second, Sears, '00, scratch; third, Hunter, '02, 70 yds. Time, 511.

TWO-MILE RUN.
Won by Field, '02, scratch; second, Hunter, '02, 125 yds.; third, Stockman, '01, 40 yds. Time—111. 16 5-8s.

TWO-MILE BICYCLE RACE.
Won by Murray, '01, scratch; second, Eveland, '01, 53 yds.; third, R. B. Clark, '01, 60 yds. Time—5m. 18s.

RUNNING BROAD JUMP.
Won by Wentworth, '00, 1 ft. 6 in., actual distance, 19 ft.; second, Wilder, '01, 1 ft. 6 in., actual distance, 18 ft. 9 in.; third, Gleason, '03, 2 ft., actual distance, 18 ft. 2 in.

RUNNING HIGH JUMP.
Won by Wentworth, '00, 5 in., actual height, 5 ft. 3 in.; second, Winchester, '03, 4 in., actual height, 5 ft.; third, Wilder, '01, 7 in., actual height, 4 ft. 9 in.

POLE VAULT.
Won by Baxter, '01, scratch, actual height, 9 ft. 4 in.; second, Kellogg, '02, 6 in., actual height, 8 ft. 9 in.; third, Baker, '03, 4 in., actual height, 8 ft. 3 in.

Y. M. C. A. at Northfield.

TECHNOLOGY sent a large delegation to the Students' Conference at Northfield, Mass., this past summer, there being eleven present from M. I. T. This Conference, which is held annually at Northfield, is principally a conference on methods of Christian work in the colleges of the country and on methods of Bible study. This year there were over six hundred delegates from the colleges in the eastern section of the country. The Conference lasted ten days. Those present from Tech. were: C. M. Lewis, '99; J. A. Patch, '99; C. A. Torrey, '99; J. Campbell, '00; F. Du B. Ingalls, '00; W. C. Pickersgill, '00; A. A. Reimer, '00; C. D. Thurber, '00; P. Ziegler, '00; P. Boynton, '01; W. S. Fitch, '02.
There will be a meeting of the M. I. T. Yacht Club on Thursday, Nov. 2d, in Room 22, Rogers. Officers will be elected for the ensuing year.

The Chicago Club will hold its first meeting for the season on Friday, Nov. 3, at 1 p. m. Place will be bulletined later, and any new men from Chicago or vicinity should be on hand.

The Junior Class Election, on October 20, resulted as follows: President, V. F. Holmes; First Vice-President, Ray Murray; Second Vice-President, E. Seaver, Jr.; Secretary, F. W. Puckey; Treasurer, A. W. Rowe; Executive Committee, W. W. Walcott, O. H. Perry, Jr.; Institute Committee, E. G. Thatcher, Wm. Whipple.

The present naval activity in and around Boston is affording members of courses XIII, II, and I, a series of opportunities which the men are not slow to enjoy, by trips to construction yards, etc., of seeing the practical application and appearance and use of much which has heretofore been but theory to them.

A meeting of the 1902 Cane Rush Committee, consisting of Messrs. Sawyer, Saylor and Allyn, was held on Tuesday, the seventeenth. A challenge for the annual Cane Rush between the Sophomore and Freshman class was drawn up and sent to the class of 1903 with the recommendation that they appoint a similar committee to arrange the details for the Rush. The 1902 Committee intend to institute some new features this year, and it is also proposed that each class furnish a band.

At the next meeting of the Geological Club on Monday, Oct. 30, Prof. W. O. Crosby of this Institute, and Mr. A. W. Grabau, fellow at Harvard College, will speak upon the nature, origin and features of Peneplains.

Arrangements have been made with Dr. R. P. Bigelow, whereby the exchanges of THE TECH are to be placed on file in the General Library. It is hoped that students will avail themselves of this opportunity to keep in touch with the leading colleges of the country.

The first meeting of the Electrical Engineering Society was held on Wednesday, Oct. 18. A committee of twenty-four members was elected to provide speakers for the meetings. After a short discussion, it was decided to follow the general program of having the meetings and smoke-talks also, if possible, the first Monday in each month, to be addressed by prominent men this term, and next term by seniors, on their theses.

The Class of 1903 held a meeting Monday, October 23rd, at 1 p. m. in Huntington Hall. There were about one hundred present. Part of the constitution was read and accepted, but the class voted to postpone the matter until next meeting. The challenge for the "Cane Rush" from the Class of 1902 was read and accepted, and a "Cane Rush" committee, consisting of R. M. Field, H. T. Winchester and P. R. Parker, was elected. Geo. Wood was elected temporary captain of the football team, but nothing was done in regard to the election of a manager. It has been decided that the annual "Cane Rush" is to be held Friday, Nov. 17th, at the South End grounds.

Technology Calendar.

Saturday, Oct. 28.—Hare and Hounds Run. Wellesley Hills.
Saturday, Oct. 28.—Foot Ball. M. I. T. vs. Tufts, at Tufts.
Monday, Oct. 30.—1 p. m. Board of Editors, Tech Office.
Monday, Oct. 30.—Geological Club, Room 14, Pierce Building.
Thursday, Nov. 3.—M. I. T. Yacht Club. Room 22, Rogers.
Friday, Nov. 3.—1 p. m. Chicago Club.
Stowe and Sears made a good showing in the mile-run in the Class games.

Pember's showing in the quarter-mile run at the Class games was excellent and promises well for the Spring campaign.

There is considerable suspicion among the football men that Chub has "influence" in the sporting department of the Boston Record.

Mr. Bowler is to be Superintendent of the gymnasias all over the city and will, therefore, be at Charlesbank only from April to October.

Captain D. C. Hall of Brown University is said to be feeling highly elated over the showing made by a number of Freshmen in training for the Brown Class games.

More interest is being taken in the class of '02 football team. Among the new men who are trying for the different positions are Nagel, full back; Sawyer, right-half; Moltido and French, guard.

In practice on Tuesday, the 17th, Fleming '01, threw the discus the remarkable distance of 102 feet 6 inches. This performance appears the more striking when it is taken into consideration that the intercollegiate record for that event is only 107 feet.

Mr. William Skarstrom has been appointed Physical Instructor at the Institute for the coming year. Mr. Skarstrom, who is a graduate of the Boston Normal School of Gymnastics, has been teaching Physical Training for several years, the last two of which he was Instructor of Physical Training at the Groton Preparatory School.

'79. Mr. H. H. Campbell, III., is to be congratulated on his recent promotion to the important post of general manager of the Pennsylvania Steel Company, of Steelton, Pa.

'84. Mr. T. W. Robinson, III., has left Pueblo to become general superintendent of the Toles Works of the Illinois Steel Co., located at Joliet, Ill.

'87. Mr. Geo. W. Patterson, Jr., VI., in June was the recipient of the degree of Ph.D., from Munich University.

'88. Mr. Fred'k N. Safford, VI., has been made assistant professor of mathematics and mathematical physics, at the University of Cincinnati.

'97. Mr. Otto S. Pike, II., was married on October third, to Miss Millie T. Killam, of Malden. He is at present connected with the Boston Pneumatic Transit Co.

'98. Chester F. Drake, XI., passed Sunday in the city with friends.

'98. A. H. Jacoby, V., assistant in the Laboratory of Industrial Chemistry, has entered the employ of F. E. Atteaux & Co., manufacturers of dye stuffs and chemicals. He is succeeded by F. E. Busby, V., '97.

'99. C. M. Lewis, III., has opened an office as Mining Engineer and Metallurgist at Ketchum, Idaho. His thesis on the best methods of working Crassus ore has proved of great interest to miners in that vicinity, as evinced by an article in The Weekly News-Miner.

'99. K. M. Blake, II., will leave within the next week for Paris in the interest of the Stanley Locomobile Co., L't'd.
Verily, the name of Technology grows ever more famous. Only recently, when our hamlet was visited by Admiral Dewey — may his fortune equal his fame, — a goodly representation from the Institute, the flower of the flock, so to speak, gathered unto itself in great numbers and paraded over the streets lying between M. I. T. and the Touraine. As the five hundred strong marched along, great was the effect upon the natives of Boston. The sidewalks, yea, even the streets, were crowded with admiring throngs; knots of people, some of whom had travelled from afar to witness the spectacle, throbbed with excitement. Even an electric car stopped, and while the conductor jollied the trolley to get the electricity to charge the car, the passengers jollied the motorman to get the police to charge the crowd. The attempt — need it be said? — was footless. Men from Harvard (a sort of casino for the young, in a suburb of Boston) hastened ignominiously from the spot; and then Sir Dewey himself appeared at the window of his hotel, wearing a look of intensest gratification. By that time, Boston had got an exhibition of pyrotechnics well into display; and the Tech. men, magnanimously making acknowledgment of this delicate compliment, received the swelling applause of the multitude, turned, and were seen no more. But for long after the masses remained, a living monument to the potency of Technology's fame.

Course IX seems to be especially prominent in the Technological field, and very deservedly does it hold its place there. Its training in general science is essentially not elsewhere to be found. It is one thing for the gentle chemists or the guileless mechanics to receive with docility what instruction may pertain to their subjects, but it is another and far greater act for the Course Niner to be posted on all kinds of their possessions in storage at the local bakeryshop, and starting out for another lingering look at his cherished protege. This, ladies and gentlemen, was a Course Nine man; and he never was in a Walker club play, either!

Painting things red is a very laudable operation, generally, and one especially suited to the peculiar genius of the Technology Senior. Yet there are times, and places, and things, when, where and with which carmine ornamentations is not so devoutly to be wished. That a former manager of the ball team, for instance, should attempt to have his visage brightened up with a little of the Harvarderian shade of decoration in one of the Technology edifices seems to The Lounger to be rather unadvisable; and that an official Technology Wheelman and prominent Y. M. C. A. attendant should try to emulate that Iroquoian example by a bedecking of his own countenance, as well as of all the surrounding articles of furniture or attire, with the same variety of brilliant embellishment seems also to be, on the whole, not without its decided disadvantages. And further, when two such enthusiasts make the artistic operation the more complete by practicing upon one another to an accompaniment of decidedly inartistic comments upon each other's qualities of veracity, then The Lounger feels impelled, in the name of common humanity — remarkably uncommon, — to protest. Gore may be all right to shade a background for the minstrel show poster, but as a varnish for the floor of — no, no! The Lounger feels called upon to shudder and turn sadly away.

THE TECH

Week Commencing October 30, 1899.

Tremont Theatre.—“Three Little Lambs” will be the attraction at this theatre for another week. The features of the play have been altered a little, but the plot is the same as it was when it was called “Queen of the Ballet.”

Hollis Street Theatre.—The Kendals will continue to produce “The Elder Miss Blossom.” This is a play of English character and style, and is well adapted to the Kendals. It has already proved its success.

Park Theatre.—“Sag Harbor,” which is the newest of James A. Herne’s plays, will run for another week. This is a play in which characters of Eastern Long Island figure.

Castle Square Theatre.—The regular company will appear in the modern society drama, “The Highest Bidder.” This is a play which contains plenty of good, wholesome fun.

Boston Theatre.—“Papa’s Wife” is the next attraction. This is played by the popular actress, Anna Held. Anyone who attends this play is sure to be well repaid.

Keith’s Theatre.—Vaudeville, including Harry Lacy, in a new comedy sketch, “Capt. Dickie’s Night Off,” and the American Biograph with pictures of the yacht races.

LONDON BOOT SHOPS.

MEMBER OF THE CO-OP.

There is not a photographer in New England who has
been more successful than Elmer Chickering, No. 31
West Street, and people who desire to have first-class
photographs taken of themselves, or of their friends, should go
to this gallery. His success in the business is wonderful. His
pictures are admitted to be exact reproductions of the subject,
and are remarkable for their clearness and fidelity in detail.
Among his patrons are the leading citizens of the United
States, including presidents, governors, mayors and others
prominent in official lines, the highest military officers, the
most prominent opera singers, the leading actors and actresses.
Far and near his pictures are known. In Europe as well as
America they are highly admired. Mr. Chickering is a host in
himself, but with good judgment he has surrounded himself
with a corps of operators and assistants in his operating
rooms who have no superiors, while in his office is to be found
young lady attendants who thoroughly understand how to
please patrons, and by their uniform courtesy add much to the
popularity of "Chickering Studio."
