Junior Week for 1902 is now a thing of the past, and we are well started — or ought to be — on the home stretch for June examinations. For one short week Technology has tried to make work take second place; and if with the closing days of the intermediate term at hand it was a risky thing for some of us to do, let us hope that faculty and instructors have made some little allowance for the season, and that good, conscientious work for the remaining month of the school year will carry us through with flying colors.

As a Junior Week we think it was thoroughly enjoyable and successful. Nature could hardly have favored us with more pleasant weather; and this is always a most important factor in a gala week. Aside from the mere pleasure of it, however, Junior Week has been of real value to the Institute. We have all had a chance to get better acquainted. Students of the different classes meet each other more in Junior Week than at almost any other time; they meet instructors and professors, and talk with them on a different plane; they meet outside friends of the Institute, and they have a chance to introduce their own friends to Technology and Technology life.

Junior Week serves also to sharply differentiate the closing weeks of the year from the earlier part. Its preparation and celebration have meant more or less neglect of work on the part of many, and we all know Technology studies won't stand a great deal of that sort of thing. The close of Junior Week, then, should be a beginning point for buckling right down to work and for the final efforts which will make the most of the few weeks remaining before the June examinations.

HE enthusiasm shown at the approach of the three-cornered meet between Dartmouth, Brown and Tech speaks well for the push with which the management is putting this affair through. Hardly ever before
was such a meet so well advertised and the
men trained with so much vim as in the pres-
cent case. The showing of the men in the
Interclass Meet of a week ago was very sati-
factory, taking into account the bad weather
of Saturday; and all indications point toward
a very good showing, if not the winning, of
the Triangular Meet. One cannot imagine
what an impulse toward athletics would the
capturing of first place at this meet mean. The
men who enter into the events cannot alone
be depended on to win the meet; they must
have support in the shape of large attendance
and hearty cheering, in order to do their ut-
most. Therefore the winning or losing of
this meet may depend entirely on the under-
graduate body in general; and if they are
loyal to Tech and wish her to win, they must
turn out in full force Saturday, May 10.

The Annual Spring Meet.

A cloudy, rainy morning, last Saturday
looked rather discouraging for good work
from the athletes at Soldiers Field, but
towards noon the sun came out a few times,
and although the track was a little heavy
there was a fair attendance, and some idea
could be formed as to the abilities of candi-
dates for the track team which is to meet
Brown and Dartmouth.

The first event — the hundred-yard dash —
was run in three heats and a final. In the
first Boggs and Avery qualified, in the second
Winchester and Fuller, in the third Crowell
and Ancona. The final was won very pret-
tily by Boggs, '04; Crowell, '04, second.

In the mile run Baker, '03, took the lead
from the first and kept it till the end. Jen-
kins followed pluckily, and fell over the line
a close second. Pritchard, '05, was third.

In the high hurdles pretty work was done
by Emerson, '05, who won the final heat, with
Kruse, '03, second, and Baker, '02, third.

All the points in the half-mile run were
made by '03; Baker, Manson and Harden-
burg being the winners.

The 220 sprint was another pretty event.
Boggs and Avery qualified in the first heat,
Crowell and Goldthwaite in the second, and
the final went to Boggs, Crowell and Gold-
thwaite.

The next event was the two-mile run. Sweet, '04, took the lead and set a good fast
pace, which tired most of the bunch pretty
rapidly. Sweet kept his lead until the last
lap, when Worcester passed him, and Riley
with a pretty spurt passed both and finished a
couple of yards ahead. The three were the
only ones to finish.

The 220 low hurdles was a dead heat be-
tween Bary, '04, and Fuller, '05, with Mag-
nitzky a close third.

The final event of the afternoon was the
quarter-mile. It was quite one-sided, as
Pember won easily by several yards, Har-
denburg and Manson coming in second and
third.

As a whole the running, though nothing
phenomenal, was respectable, and with a
track in better condition, better results could
have been shown. Much good material has
been brought out. Fuller, '05, Brown and
Edwards, '02, and Halley, '03, show promise,
but need more training and sticking to it.

Monday afternoon the field events were
contested on the new track back of the shops,
and some interesting work was done. In the
high jump, Baetjer, in spite of the poor
ground for taking off, cleared the bar at 5
feet 7 inches in good form. Curtis just
scraped over an inch and one-quarter lower,
and Emerson and Schaeffer tied for third.

The broad jump was won very neatly by
Franklin, and Bary on his last jump secured
second place. Grant was a close third.

Curtis won the pole vault with the bar at
10 feet 3, bettering his previous record by
2 inches. Eastman and Gannett both showed improvement over previous work, and tied for second place at 10 feet.

Winchester, '03, won easily in the discus throw and shot put, but did not equal his previous work. Lindsley, a new man from '05, took the hammer throw.

Summary.
100-yard dash — W. B. Boggs, '04, first; J. W. Crowell, '04, second; H. T. Winchester, '03, third. Time: 10\frac{3}{5} seconds.

1-mile run — H. S. Baker, '03, first; E. F. Jenkins, '04, second; P. R. Pritchard, '05, third. Time: 4 minutes, 56\frac{3}{5} seconds.

120-yard hurdle — R. D. Emerson, '05, first; R. L. Kruse, '03, second; E. S. Baker, '02, third. Time: 17\frac{2}{5} seconds.

Half-mile run — H. S. Baker, '03, first; G. B. Manson, '03, second; C. M. Hardenberg, '03, third. Time: 2 minutes, 12\frac{1}{8} seconds.

440-yard run — W. B. R. Pember, '02, first; C. M. Hardenburg, '03, second; S. B. Manson, '03, third. Time: 37\frac{3}{5} seconds.

Running high jump — H. Baetjer, '02, first; G. A. Curtiss, '04, second; R. D. Emerson, '05, and H. F. Shaefter, '05, tied for third. Height: 5 feet, 7 inches.

Running broad jump — D. R. Franklin, '02, first; D. B. Bary, '04, second; K. C. Grant, '02, third. Distance: 20 feet, 2\frac{1}{2} inches.

Pole vault — G. A. Curtiss, '04, first; G. W. Eastman and F. Gannett, '02, tied for second. Height: 10 feet, 3 inches.

Throwing the hammer — B. E. Lindsley, '05, first; D. S. Wilson, '03, second; W. S. Gowinlock, '05, third. Distance: 98 feet, 6\frac{3}{4} inches.

Throwing the discus — H. T. Winchester, '03, first; L. G. Morrill, '05, second; W. S. Gowinlock, '05, third. Distance: 100 feet, 11\frac{3}{4} inches.

Shot put — H. T. Winchester, '03, first; L. G. Morrill, '05, second; B. E. Lindsley, '05, third. Distance: 37 feet, 2\frac{1}{4} inches.

The class championships for 1902 was won by the Class of '04, the points being as follows:

Training quarters and table for men on the track team have been procured at the Hotel Oxford, and the team will be there after Wednesday, April 30. The final trials before the Triangular Meet for the runners and hurdlers will be held at Charles River Park and Soldiers Field next Saturday afternoon.

Spring Concert.
The annual spring concert of the Musical Clubs was held Tuesday evening, April 22, in Paul Revere Hall. The clubs played on the platform, which was decorated with palms. A song on different persons and things about the Institute was rendered by the Glee Club, and proved to be most popular. The program was:

1. Victory
   Glee Club

2. Creole Belles
   Banjo Club

3. Excerpts, "King Dodo"
   Mandolin Club

4. Solo
   Mr. Higgins

5. "Florodora" Selections
   Banjo Club

6. Cupid's Garden
   Mandolin Club

7. Quartet
   Messrs. Swenson, Higgins, Wilson, Upham

8. "Old Homestead" Polka
   Banjo Club

9. Narcissus
   Mandolin Club
After the concert those present retired to the reception room. They were received by the matrons, Mrs. H. T. Tyler, Mrs. F. W. Chandler, Mrs. Cecil H. Peabody, Mrs. E. F. Miller, Mrs. D. P. Bartlett. The floor was cleared for dancing, which continued until twelve o'clock. Among the Tech men and ladies present were:

Athletics.

Just one week from Saturday, and we shall be able to see what the result of all Tech's work in athletics this spring will amount to. The work in the meet last Saturday can hardly be taken as a measure of the men's ability because of the weather conditions. Considering these, the work wasn't half bad. The field events, too, in which we expect to be especially strong, of course didn't show up in Saturday's events.

Fifteen men were taken into training quarters at the Hotel Oxford on Wednesday of this week, to live there until after the Triangular Meet. This is more than Tech has done for her track team for years, and we hope it will produce results which will justify the extra expenditure. Tickets for the Triangular Meet will be on sale in the Rogers corridor all next week, beginning at 9 o'clock Monday morning.

The following men were taken to training quarters: E. S. Baker, '02 (captain); H. S. Baker, '03, Boggs, '04, Edwards, '02, Brown '02, Emerson, '03, Pember, '02, Curtis, '04, Worcester, '04, Baetjer, '02, Gleason, '03, Winchester, '03.

The Junior Prom.

The Junior Prom, the most important social event of the week, was held Thursday evening at the Hotel Somerset. The hall was prettily decorated with palms and Technology emblems; and after the first few dances the floor was in excellent condition, the music furnished by the Niles Orchestra was very good, and all the arrangements of the committee were satisfactory. The supper room with its dim lights and heavy beam was most charming, and together with a flight of sofa-cushioned stairs, formed a delightful retreat between the dances. The dancing began about half-past nine, and broken by the intermission for supper was continued until two o'clock. Supper was served shortly before midnight, while a punch-bowl of lemonade was always ready for those who wished to quench their thirst.

About seventy-five couples were present, most of whom came from the Junior class, although a number of Seniors and others were present.

The committee in charge of the event were: F. W. Davis (chairman), H. S. Baker, W. M. Druy, G. M. Harris, L. H. Lee, C. J. McIntosh, G. B. Seyms.

The matrons were: Mrs. Henry S. Pritchett, Mr. Samuel J. Mixter, Mrs. Charles L. McIntosh, Mr. William B. Rogers and Mrs. George H. Seyms.

**FRESHMAN BASEBALL.**

**Malden High—14, M. I. T. 1905-7.**

The Freshmen were defeated Wednesday, April 23, by the Malden High School. In this game Captain Woods made his first appearance in the box, and made a very creditable showing in that he allowed only force hits and five runs in the first four innings. Smith in his first trial at center field did some very good work. While some of Snow's work at third base was very poor, a three-base hit covers a multitude of sins.

Runs made by Clapham, 2; Whittier, Gatchell, 2; Hill, Butterman, 2; Weeks, Macurda, 2; Connolly, Cate, 2; Dean, Wood, Merrow, 2; Steinberger, Smith, Snow. Two-base hits, Gatchell, Macurda, Connolly, Cate, Dean, Wentworth. Three-base hit, Snow. Base on balls, off Butterman, 4; off Wood, 4; off Blodgett, 3. First base on errors, 1905, 2; M. H. S., 7. Hit by pitched balls, Hill, Whittier. Struck out by Butterman, 4; by Woods, 1; by Blodgett, 1. Time of game, two hours, ten minutes. Umpires: M. H. S., Dowd; 1905, W. S. Gowanlock.

Another game was to have been played Saturday, April 26, with Tufts Freshmen. On account of the bad weather the Tech Freshmen were not expected, and so the Tufts team was not on hand. A scrub team was made up of Tufts men, and a game full of errors and fun was played off. At the end of the seventh inning the game was discontinued, with the Tech team slightly in the lead.

On Saturday, May 3, the first of the series against the Sophomores will be played at South End grounds. The admission will be 25 cents. Both classes are looking forward to these games with a great deal of interest, as neither team shows an advantage as yet. As these games are the only means Tech uses to show her interest in baseball, they are always hotly contested, and should awaken a deserving amount of feeling in all of the student body.

**Calendar.**

*Tuesday, May 6.* — M. I. T. Y. M. C. A. regular meeting, Room 11, Rogers, 4.10 P.M.
Any performance like the Tech Show is sure of a certain kind of delightful success. The audience has such warm interest in the players, is so wide-awake to appreciate all local hits, and is, in general, in such an amiable and jolly mood that play, players, dances and music— even hitches or mistakes, are entertaining. Furthermore, young men playing girls' parts— especially if there is an attempt at beautiful make-up or graceful carriage— are irresistibly amusing. Dozens of times at “Applied Mechanics” the Theatregoer’s attention was abruptly distracted from the interest of the action by some piece of attempted “ girlishness” that was supremely comic; indeed, for Rosalie’s love scene, with the duet, physical convulsion was inadequate to relieve his merriment.

The Tech Show this year was conspicuous, it seemed to me, for the excellence of the dances. The dancers were very seldom, and then not noticeably, out of rhythm, and in the more vivacious figures managed completely to overcome masculine heaviness. For physical grace the Spanish dance seemed most successful, and for color effect the yellow-skirted ballet.

For acting there was surely little chance, and the actors were rather uniformly amateurish. Mr. King’s Rosalie, as perhaps the most difficult part, deserves mention as the best attempt. The solos and duets were pleasing, and the words of solo and chorus intelligible when they were important.

To criticise any college “show” as a play, were certainly to break a butterfly on a wheel. The Theatregoer, however, regrets that the scene and plot of “Applied Mechanics” should be so remote from familiar scenes of student life; because in the foreign connection there was so little appropriate chance for local hits. The jokes were not all new; and by the irony of fate the one slip in the play was forgetting some stanzas from the best topical song. More, certainly, could be made of imitative make-up; the Grand Duke’s entrance was the most spontaneous “hit” of the afternoon. The Theatregoer believes that extravaganza more closely connected in subject and scene with Tech life, with more local hits and take-offs, might without sacrificing any scenic or dance effects, be made much more amusing.

Humiliating and gratifying at once is the fact that “King Lear” is to be played in America, in German translation, at the Irving Place Theatre in New York. Probably no English actor— certainly no American actor or stock company— would venture to play “King Lear” ; the millions of American theatre-goers would not make it pay. But the small foreign constituency of Herr Conried’s German Theatre supports yearly a repertory of equally “classical” plays.

The Shakespeare outlook for next year is not at present discouraging. Mr. Sothern will certainly revive his “Hamlet”; Miss Crosman very probably her “As You Like It,” or another Shakespeare comedy; Miss Adams has promised “As You Like It”; and Mr. Mansfield is reported to have in preparation a list exclusively Shakespearean: revivals of his “Merchant of Venice,” “Richard III” and “Henry V,” and new productions of “Othello” and “Julius Caesar.”

The theatrical season for The Tech Theatregoer closes perforce about this time; and a glance backward is interesting. The winter brought us two great players— Mr. Irving with a considerable number of plays displaying very varied talent, and Mrs. Campbell with a week of powerful plays all much alike. It is to be hoped that both will soon return,— Mr. Irving with more revivals from his wide range, and Mrs. Campbell with efforts in new fields.

Among other players less conspicuously first rate, it is less easy to pick the leaders. In estimating the relative value of the season’s performances we must consider, I think, play, acting, and stage setting. For the last and least of these qualities, Mr. Willard’s “Cardinal” is to be mentioned as a lovely Italian picture, and Mr. Sothern’s “If I Were King” as a romantic spectacle, yet neither to be compared with Mr. Mansfield’s gorgeous “Henry V” last year. For excellent acting of a poor play Mr. Crane easily holds the prize for his creation of “David Harum.” For a substantial play, well acted, “Mrs. Dane’s Defense” by the Empire Company is memorable, even from the beginning of the year. Taking all things into account, the Theatregoer would pronounce as best of the year two plays produced, it is interesting to note, by actresses who are still courageously defying the Theatre Trust: Miss Crosman’s “As You Like It” and Mrs. Fiske’s “A Doll’s House.” The Shakespeare comedy has in comparison the advantage of text and the most beautiful stage setting of the year, but was given by a company of very uneven merit. The Ibsen play had intense modern interest, and Mrs. Fiske’s company was the more earnest and more evenly meritorious.
EDITOR'S NOTE.—Mr. Smith, the business manager of The Tech, has been obliged to leave college on account of trouble with his eyes. He has been granted a leave of absence by The Tech Board until next year.

In our last number we promised a detailed account of the acting of the principals in "Applied Mechanics." Instead of this the Theatregoer has consented to give us his impressions of the Show. There is one thing certain, however: the Show was better than ever before.

The entire stock of Ridler's Technology supply store was sold out at auction April 25.

Ex-President Crafts recently presented a highly technical paper before the National Academy of Sciences in Washington. His subject was Catalysis, and his researches in this line during the past year.

Those who purchased their copies of The Tech on Wednesday and did not obtain copies of the Tech song, may obtain them by calling at the office in the Rogers Building.

Beginning with this week the posters announcing the contents of The Tech will be printed in red ink on gray paper, and may thus be distinguished from the mass of other posters which at times flood the bulletin boards.

Professor Baird recently received a letter from Capt. John Bordman, Jr., former military instructor at the Institute, congratulating him upon the increased interest taken in military matters at Technology. Captain Bordman also expressed his disappointment in being unable to be present as one of the judges at the coming Prize Drill.

The Technique rush last Thursday noon was certainly the fiercest and most strenuous rush ever held on a like occasion. The fact that the first twenty copies of the book were to contain President Pritchett's autograph was probably the extra incentive that made this rush the best. The first copy was given out at exactly twelve o'clock, and in fifteen minutes eight hundred copies were disposed of. The edition of this year was eighteen hundred volumes.

The Technology chambers are progressing rapidly, and will probably be ready to be occupied by next September. The rooms are well arranged for student use, and are grouped into suites of three rooms,—two bedrooms and a study. The average cost of these suites to each man will be five dollars per week. Downstairs one finds rooms for the gastronomic, social and physical needs of the student. The price of meals will be four dollars and a half per week. One need not take his meals there if he does not want to. There is to be a small gymnasium in the basement, and several rooms where the students can meet socially.

Next Saturday's Baseball Game.

The Sophomore and Freshman classes have planned for May 3 a little party for the rest of the Institute and its friends, and incidentally they will at the same time try to overcome one another in baseball. The game is the first of a series which will be won by the class taking the best two out of three games. The enthusiasm bids fair to be something unusual, for it is said that after the Field Day, when '05 said to '04, "Go 'way back and sit down," '04 replied: "I'll see you later." This is all rumor, however.

Here are a few of the pleasant features of
this game, which is not to be an ordinary one by any means. The two teams have been in practice for weeks now, and an exhibition of fast baseball is a certainty. It will be a gentleman’s game from beginning to end. This is spring, and here is a chance for your young man’s fancy to make a regular excursion and at excursion rates, too,— unusual opportunity at the Institute. The most delightful weather has been secured in advance, and will be let loose on the field for the exclusive use of the players and spectators: abundance of bright sunshine, blue sky, etc.

The game will be played at the South End grounds. Since the destruction and painting of fences there in 1900, the manager of the grounds has conceived a distrust of M. I. T. Freshman-Sophomore contests, and for this game he has required a heavy guarantee. For this President Pritchett and the presidents of the two classes have patriotically made themselves liable.

Tickets may be obtained of members of ’05 and ’04, and at the grounds, for twenty-five cents each. It is hoped that every man in the Institute will use two, and thus make of the game a very joyous affair.

M. I. T. Y. M. C. A.

At last Tuesday’s meeting of the Institute Association, Mr. Budd of the Cambridge Y. M. C. A. told about the real improvement and pleasure to be gained by those attending this great international gathering. Tech is making an effort to send to Northfield a delegation which shall be more nearly representative than have been the delegations of former years.

Next week’s meeting will be held in Room 11, Rogers, at 4:10 Tuesday, May 6, and will be addressed by President Pritchett.

I know I must be wrong,
But I cannot love ping-pong;
I cannot sing
In praise of ping;
I have no song

All communications with this department should be addressed to the Alumni Editor.

‘85. Walter K. Harrington, I., gene superintendent of meters, the Consolidated Gas Company of New York.

‘85. Newbert M. Randall, III., chief chemist, the Maryland Steel Company, Sparrow Point, Md.

‘90. Louis Schmidt, V., chief chemist Ohio Dairy and Food Commission, Cincinnati, Ohio.

‘91. Lewis A. Dunham, I., consulting engineer, the Meyer-Clarke Rowe Mines Company, Kansas City, Mo.

‘91. Charles W. Ricker, VI., with Engineering Department, Cleveland Construction Company, Akron, Ohio.

‘97. Lawrence L. Gaillard, VI., with Electrical Construction Department, Manhattan Railway Company, New York City.

‘98. Donald C. Campbell, II., agent, the Rand Drill Company of New York.
The Tech Tea.

The Tech held its annual tea from four to six o'clock on the afternoon of Thursday, April 24. The Tech office and the adjoining room were decorated with flags, palms and flowers, and this, together with the light dresses of the feminine portion of the guests, made the usual somber surroundings hardly recognizable. The office was used as the reception room, while in the room adjoining refreshments were served.

Thanks are due for the successful afternoon to the matrons: Mrs. Pritchett, Mrs. Talbot and Mrs. Tolman; and to Mrs. King for her supervision of the catering.

Among those present were: Dr. and Mrs. Pritchett, Professor and Mrs. Allen, Professor and Mrs. Richards, Mrs. Comstock, Mr. and Mrs. Tolman, Professor and Mrs. Talbot, Mrs. Clifford, Mrs. Walker, Mrs. Lanza, Mrs. Smart, Mrs. Bartlett, Mrs. Wentworth, Mr. and Mrs. Johnston, Professor Blachstein, Professor Burton, Mrs. Hood, Miss Prescott, Miss Spaulding, Miss Jackson, Miss Atkins, Miss Palmer, Miss Durgin, Miss Conant, Miss Besse Webb, Miss Helen Webb, Miss Woodman, Miss Crafts, Miss Merrill, Messrs. Hale, Seaver, Jackson, Brodie, Wood, Davis, Ferris, Hunter, Ingram, Bartlett, Rockwood, Homer, Downes, Comstock, Morse, Cook, Seabury, Wilson, Marsh, Robinson, Ricker, Merrill, Hood.

The Technique Electoral Board.

The Sophomores have made their first move toward a board of editors for the Technique 1904. They have chosen an electoral committee of twenty-five men, who are to pick out the board of editors. A word as to who these men are and what we know about them would not be amiss. Those elected were: Homer, Lang, M. L. Emerson, L. P. Burnham, P. M. Smith, Haynes, Wentworth, Atkins, Eastman, Blum, Bouscaren, Harrah, Powell, Downes, Paine, Sweet, Card, Saville, Hadley, Ingram, Broad, C. J. Emerson, Hiller, Metcalf, Goddard.

Mr. Homer was the first president of the class of 1904. He has been prominent in athletics, and is one of the most popular and ready speakers of his class.

Mr. Lang is at present captain of the 1904 baseball team, and is also well known as the class "treasurer."

Mr. M. L. Emerson is well known in class affairs, being one of the members of the 1904 Institute committee.

Mr. L. P. Burnham, the present president of the class, is well known about the historic halls of Rogers, and has shown himself to be a very capable man.

Messrs. Atkins, Eastman and Goddard are members of the editorial staff of The Tech Board, and therefore have had connection with journalistic work.

Messrs. P. M. Smith and Wentworth are on the business staff of The Tech, and are conversant with the business end of a paper.

Mr. E. O. Hiller is best known as the captain of the 1904 tug-of-war team.

Mr. Downes is at present serving his second term as secretary of the class, and is well known about the Institute.

Mr. Sweet is a graduate of Cornell, and is well known as a promoter of track athletics.

Messrs. Metcalf, Broad and Haynes are well known in athletics.

Mr. Harrah was formerly one of the business managers of The Tech.

Messrs. Blum, Bouscaren, Powell, Card, Saville, Hadley, Ingram and C. J. Emerson are well known in class affairs as well as athletics.

The selection of men seems very fortunate, and we congratulate the Sophomore class on the strong and representative board which they have chosen.

Posters are up for the Triangular Meet between Tech, Brown and Dartmouth, which will be held at Soldiers Field, May 10, at 2 P.M. Admission 50 cents; reserved seats $1.00.
Amidst the twang of the banjos, the glides of the Prom., the bows of the Tech Tea and the paint of the show, The Lounger decided to introduce a little social device of his own. At the beginning of the week he sent to some of the professors a card engraved as follows:

THE LOUNGER
REQUESTS THE HONOR OF YOUR PRESENCE
ON WEDNESDAY EVENING.
BRING YOUR OWN SPOON.

The affair went off great. All our old favorites came to attend this novel reception. After they had all been seated and made comfortable, THE LOUNGER said to his guests, "Now, sports, enjoy yourselves. Remember you were boys once yourselves. Professor Cr-ss, will you be kind enough to pass around the salted peanuts."

"Gentlemen," said the author of "Love in a Cloud," as he languidly rose and elevated his chin in the air, "never before have I seen such witty people as we are, and I have been among the chalk cliffs of Albion, I have been among the most fashionable clubs, I have been, in short, gentlemen, wherever I have been."

"Bean you?" asked Professor Cr-ss, with a twinkle in his steel-gray eyes. "Then answer me one question which I shall superimpose upon you. Where would you have been if you hadn't been where you happened to have been?"

"Come, now," said Professor W-nd-ll, rising with a jaunty air and carelessly tossing up a piece of chalk, "that's poifictly straightforward. You know that as well as I do."

No answer.

"Use your common sense," said Professor W-nd-ll, with his keen glance fixed on Professor B-tes' scornful face. "You know it poifictly well; it's poifictly simple, — don't try to think of the book, use your common sense."

"Yes," said Mr. Bl-chst-n, anxious to get in his little pun, "anybody zat iss as bright wie a dollar shut haf un lots of cents, iss it not? Dollars are high, but cents arlo, iss it not so?"

At this point THE LOUNGER saw that a little diversion was needed to entertain the company, so he said, "The author of 'Freehand' will now speak."

Without rising, the latter reached for Professor Cr-ss's silk hat, and holding it up said: "This is a primary marse. I will now make it into a secondary marse," and he threw it out of the window.

"Za nap of za silk hat vill be disturbed," said Mr. Bl-chst-n.

The door opened and there entered a breath of perfume, and one of our teachers of German, dressed à les Hart, Schaffner and Marx. "Ta, ta, boys," said he airily. "Thought I would drop in while I have a little time to spare from my classes."

Just then a voice was heard trilling on the sidewalk.

"So long, boys," and he was gone.

"Oh, vut un luffly tream!" gasped Professor D-pp-ld. "Binch me, Linus, to see if I'm asleep or awake."

"Hold on," yelled Professor P-ge from the corner, "there's a better test than that. Try the mirror test. Hold a mirror before his face. If he sees himself he's awake, if he does not, he's asleep."

"Neffer mind," said Professor D-pp-ld, "Then answer me one question which I shall superimpose upon you. Where would you have been if you hadn't been where you happened to have been?"

"Come, now," said Professor W-nd-ll, rising with a jaunty air and carelessly tossing up a piece of chalk, "that's poifictly straightforward. You know that as well as I do."

"Pass a plane," said the Descrip. Dealer, in a hoarse voice.

"Fellow-workers," said THE LOUNGER, rising, "it is getting late, and we must soon sever. Allow me to propose a few toasts. Please rise, gentlemen."

They rose as one man, each with his little glass of milk tightly clasped in the right hand.

"Here's to our Descrip. Dealer, may his shadows never grow less."

They gulped.

"Here's to our physics lecturer. Pope said that beauty draws us by a single hair. Professor Cr-ss draws us by less."

They drained the glasses.

"And now one more, gentlemen. Here's to myself, equal to none."

But there was no more milk left.

Amidst the twang of the banjos, the glides of the Prom., the bows of the Tech Tea and the paint of the show, THE LOUNGER decided to introduce a little social device of his own. At the beginning of the week he sent to some of the professors a card engraved as follows:

**THE LOUNGER**

**REQUESTS THE HONOR OF YOUR PRESENCE**

**ON WEDNESDAY EVENING.**

**BRING YOUR OWN SPOON.**

The affair went off great. All our old favorites came to attend this novel reception. After they had all been seated and made comfortable, THE LOUNGER said to his guests, “Now, sports, enjoy yourselves. Remember you were boys once yourselves. Professor Cr-ss, will you be kind enough to pass around the salted peanuts.”

“Gentlemen,” said the author of ‘Love in a Cloud,” as he languidly rose and elevated his chin in the air, “never before have I seen such witty people as we are, and I have been among the chalk cliffs of Albion, I have been among the most fashionable clubs, I have been, in short, gentlemen, wherever I have been.”

“Bean you?” asked Professor Cr-ss, with a twinkle in his steel-gray eyes. “Then answer me one question which I shall superimpose upon you. Where would you have been if you hadn't been where you happened to have been?’

“Come, now,” said Professor W-nd-ll, rising with a jaunty air and carelessly tossing up a piece of chalk, ‘that's poifictly straightforward. You know that as well as I do.”

No answer.

“Use your common sense,” said Professor W-nd-ll, with his keen glance fixed on Professor B-tes’ scornful face. “You know it poifictly well; it's poifictly simple, — don't try to think of the book, use your common sense.”

“Yes,” said Mr. Bl-chst-n, anxious to get in his little pun, “anybody zat iss as bright wie a dollar shut haf un lots of cents, iss it not? Dollars are high, but cents arlo, iss it not so?”

At this point THE LOUNGER saw that a little diversion was needed to entertain the company, so he said, “The author of ‘Freehand’ will now speak.”

Without rising, the latter reached for Professor Cr-ss's silk hat, and holding it up said: “This is a primary marse. I will now make it into a secondary marse,” and he threw it out of the window.

“Za nap of za silk hat vill be disturbed,” said Mr. Bl-chst-n.

The door opened and there entered a breath of perfume, and one of our teachers of German, dressed a les Hart, Schaffner and Marx. “Ta ta, boys,” said he airily. “Thought I would drop in while I have a little time to spare from my classes.”

Just then a voice was heard trilling on the sidewalk.

“So long, boys,” and he was gone.

“Oh, vut un lusty tream!” gasped Professor D-pp-ld. “Binch me, Linus, to see if I'm asleep or awake.”

“Hold on,” yelled Professor P-pe from the corner, “there's a better test than that. Try the mirror test. Hold a mirror before his face. If he sees himself he's awake, if he does not, he's asleep.”

“Nefer mind,” said Professor D-pp-ld, “I feel better now,” and he extracted from his pocket a long pipe and began to light it. He took one puff.

“Put that under the hood,” yelled Professor B-rdw-11, and Mr. L-wr-nce, who was just reaching for a handful of salted peanuts, dropped them on Professor Cr-ss's head.

Here Professor C-ri-r arose with a long pointer and said:

“Although the constitution is curiously minute on some comparatively small pointsitis—”

Arlo jumped up. “Your meter is bad,” said he. “It's almost as bad as a gas meter. Think of the bill you will run up. If it is the pleasure of this meeting, gentlemen, I move we pass around the hat to buy a new engineering alley for the boys.”

“Since my friend threw out my silk hat with such a free hand,” said Professor Cr-ss, “I regret to say we have no hat to pass.”

“Pass a plane,” said the Descrip. Dealer, in a hoarse voice.

“Fellow-workers,” said THE LOUNGER, rising, “it is getting late, and we must soon sever. Allow me to propose a few toasts. Please rise, gentlemen.”

They rose as one man, each with his little glass of milk tightly clasped in the right hand.

“Here's to our Descrip. Dealer, may his shadows never grow less.”
