In writing advertisers kindly mention THE TECH.
HE TECH has so often in the past tried to be cheerful over defeat, to make athletic facts and prospects appear brighter than they really were, that when an opportunity for real congratulation and optimism comes we hardly know just how to treat it. True it is, Technology did not win last Saturday's meet, but we all but did it; we put up a good square fight, and we let Dartmouth know she was in a real contest. With Technology leading in points during a greater part of the time, the crowd worked upon enthusiasm like that at the Field Day last fall, and showed pretty conclusively to all present that track athletics at Tech have started on a "boom" which if it keeps up will make the year of 1902 mark a decided advance. Two broken Technology records—in the pole-vault and half-mile run—records that are ten and eleven years old respectively, stand witness to the progress that has been made during the past year, and bring emphatically before us the fact that in two events at least Tech has better men than ever before in her history. Our track team is to be most heartily thanked and congratulated for its splendid work last Saturday. We shall look for a continuation of its good work in the Worcester meet, in which we expect a much better standing than was obtained last year.

For the smoothness with which the whole meet last Saturday went off, thanks are due to the management. For one thing, thorough advertising did much to make the affair a financial success. For the good condition and work of the team, the unceasing interest and untiring efforts of Coach Mahon are largely responsible.

We were exceedingly pleased to notice the attendance at the meet last Saturday of a goodly number of the faculty and instructors. To know that they take an interest in the athletic side of Tech gives to the management and team greater confidence in what they enter into. With the backing of the faculty as well as the undergraduates, we should look forward rather optimistically on Tech's future as an aspirant for fame on the athletic field. Surely it is a rosy sunset for this year before us when we think of the Walker Gymnasium and of the prospects of a gift for athletics of one thousand dollars a year as something to anticipate, and with the triangular meet of last Saturday to look back upon.
Triangular Meet.

On last Saturday afternoon was held the first of the series of annual athletic contests between Dartmouth, Tech and Brown. The day was fine though the high wind blowing made it difficult to do good work. The final score was: Dartmouth, 642; Tech, 48; Brown, 221.

With the first few events Tech and Dartmouth drew ahead of Brown, and it became a close and exciting contest between the two for the championship of the meet. During the earlier part of the meet Tech led, and it looked as if the meet were coming to us. Then Dartmouth "took a brace," and from this time until near the close of the afternoon the lead alternated between the two teams. Finally, Dartmouth, by winning the 220-yard dash and hurdles, forged so far ahead that it became impossible for Tech to catch up, and the day went to Dartmouth.

Over two thousand enthusiastic spectators were present to cheer the contestants on with yells and waving of flags. President and Mrs. Pritchett attended the contest and appeared to enjoy the games immensely. The Tech band was present and joined in by playing some popular piece whenever a Tech man happened to be doing well. Dartmouth men were also in evidence, and when their team forged ahead they enlivened the air with their jubilant yells.

Though the meet was won by Dartmouth, Tech showed herself to be no mean opponent, and if she confines herself to this line of contests she ought to turn out a team second to none of the smaller colleges.

The meet was a very interesting one in every respect. The dashes and hurdles were easily won by Dartmouth, while in the mile and half-mile runs Tech secured an easy victory. Brown did well in the two-mile run and bicycle race. In the field events Tech and Dartmouth were about even, Tech winning first and second in the shot put and nearly everything in the pole-vault, while Dartmouth won the hammer-throw and broad jump.

In the dashes and hurdles, Smith, Neal, Edson and Pattee, all of Dartmouth, came in easy winners. The 220-yard dash was won by Smith in 22\frac{1}{2} seconds. This is in \frac{1}{2} second of the world’s record, though he had a strong wind in his favor. The half-mile and mile were splendid victories for H. S. Baker of Tech, who lowered the Tech half-mile record from 2-6\frac{3}{8} to 2-3. The two-mile run was between Doughty of Brown and Campbell of Dartmouth, for first place; while Hardy of Brown and Riley of Tech were fighting it out for third place. First place was easily won by Doughty, and Hardy came in third with Riley close after him.

In the field events G. A. Curtis was the star point winner of the day, taking a first in the pole-vault and tying with Smith of Dartmouth for first in the high jump. Curtis established a new Tech record in the pole-vault, clearing the bar at 10 feet 8\frac{1}{2} inches. Eastman, also, of Tech, nearly succeeded in clearing the bar at that height.

In the weights Morrill and Winchester, both of Tech, beat Dartmouth’s crack man, Newman, in the shot-put, while in the hammer-throw Patterson and Sandborn of Dartmouth took the first two places. H. T. Winchester of Tech won the discus by a throw of 108 feet, 6 inches.

The two-mile bicycle race was won by Denicó of Brown. The time was slow, due probably to the high wind blowing.

The summary:

Track Events.

100-yard Dash. — Won by G. K. Pattee, Dartmouth; second, W. B. Boggs, Tech; third, T. P. Hubbard, Dartmouth. Time, 10\frac{3}{4} seconds.

1-mile Run. — Won by H. S. Baker, Tech; second, Doughty, Brown; third, Hardy, Brown. Time, 4 minutes, 43\frac{1}{5} seconds.
440-yard Run.—Won by H. E. Smith, Dartmouth; second, G. K. Pattee, Dartmouth; third, W. P. R. Pember, Tech. Time, 54\(\frac{1}{2}\) seconds.

120-yard Hurdles.—Won by P. P. Edson, Dartmouth; second, R. D. Emerson, Tech; third, R. L. Kruse, Tech. Time, 16\(\frac{1}{2}\) seconds.

880-yard Run.—Won by H. S. Baker, Tech; second, L. R. Hill, Dartmouth; third, Pierce, Brown. Time, 2 minutes, 3 seconds.

2-mile Run.—Won by Doughty, Brown; second, C. A. Campbell, Dartmouth; third, Handy, Brown. Time, 10 minutes, 35 seconds.

220-yard Hurdles.—Won by R. W. Neal, Dartmouth; second, P. P. Edson, Dartmouth; third, R. S. Edwards, Tech. Time, 25\(\frac{1}{2}\) seconds.

220-yard Dash.—Won by H. E. Smith, Dartmouth; second, D. L. Jackson, Dartmouth; third, W. B. Boggs, Tech. Time, 22\(\frac{1}{2}\) seconds.

The Tech men, on the whole, did very creditable work, and deserve to be congratulated. The track work was not as good as it
should be. The field work was fairly good, though not what it should have been in some of the events.

Here is a summary of the men who gained points for Tech.

The Undergraduate Mass Meeting.

A very enthusiastic crowd nearly filled Huntington Hall last Thursday noon. The meeting was opened by Grant, '02, who said that the object was to consider President Pritchett's new plan for governing Tech's athletics and to awaken interest in the Triangular Meet. President Pritchett then spoke. He first made plain his own ideas about athletics at Tech. He said that while making athletics an occupation is wrong, games used in a manly way are consistent to good scholarship. Track athletics are especially good, because they depend on individual work, and thus do not require much time for preparation as do team athletics.

President Pritchett proposed that a new athletic council, to be made up of representatives from the faculty, alumni and undergraduates, should be established. This committee would have absolute power to decide what teams should be allowed to officially work as Tech teams, to award all athletic honors; and in this way our athletics would be made more representative. The plan is to be submitted in a definite way for the consideration of the undergraduate body, and there is assured an annual gift of one thousand dollars.

Regarding the plans for the new Jamaica Plain property, President Pritchett said that nothing definite had been fixed upon as yet. It has been proposed to build there a student settlement. This settlement would aim to give healthful living at a moderate price. "It will be so attractive that the man with most money will want to go there; so cheap that the man with little money can afford to go nowhere else."

Captain Baker then spoke about the coming meet, and assured the crowd that Tech would have a team of which she would be proud. Mr. Frank H. Briggs, '81, and chairman of the Athletic Advisory Council, spoke briefly on the good work that the track team had been doing. "Now that the games have been arranged, get out to Soldiers Field; do not be content simply to pay your gate money, but yell."

Prize Drill.

In last week's Tech an account was given of the prize drill which had been arranged for Wednesday, May 7, at the South Armory. The following officers were judges:

Lieut. Homer B. Grant, U. S. Coast Artillery.

Lieut. Winthrop Alexander, Adjutant, Cavalry Squadron, M. V. M.

Lieut. E. Worcester, Battalion Adjutant, Fifth Regiment Infantry, M. V. M.

In the Junior Squad, W. S. Richmond, Corporal, Co. C, won first prize, — a gold medal; E. Burton, Corporal, Co. C, the second prize, — a silver medal. The prizes for the Senior Squad were similar to those for the Junior. F. Bickford, First Sergeant, Co. C, won first prize, and W. Simpson, Captain, Co. C, was awarded second.

Calendar.

*Saturday, May 17* — Freshman—Sophomore baseball game. South End grounds, 3 p.m.
President Pritchett was called out of town, and thus was unable to speak at last week's meeting of the Y. M. C. A. Mr. Drew, who is now closing a successful year as intercollegiate secretary, gave an outline of the work for next year.

The crew of 1905 did not row last week, owing to the wind and the fact that the oars did not arrive. Practice has been resumed this week on the Charles River.

A week ago last Wednesday, in the Political Economy lecture, was probably the last time that Professor Ripley will address any of the larger classes at the Institute. At the close of the lecture Dr. Ripley thanked the students present, and through them the entire student body, for the invariable consideration and attention which he had received from the students.

'04 Technique Electoral Committee.

The Electoral Committee have elected to date all except the business staff of the '04 Technique board. The board so far elected is as follows: Associate Editors, Fremmer, Eastman and Atkins; Athletic Editor, C. L. Homer; Society Editor, G. Bouscarle; Statisticians, G. Powell and A. Sweet.

Florence: — That young Freshly Fiver called me "Flosny" immediately after being introduced.

Puss: — What did you do?

Florence: — I retaliated and called him down. — Columbia Jester.

SPECIAL AND CONDITION EXAMINATIONS. CONFLICTS.

All special and "condition" examinations granted by the Faculty are to be taken at this time, unless otherwise specifically authorized. Students desiring such examinations (not on this schedule) and those having two examinations on the same day, also candidates for graduation having examinations scheduled later than Wednesday, June 4, should hand in complete schedules checked, for all their examinations not later than Thursday, May 25. New assignments will be sent by mail to such students on Saturday, May 24. None can be arranged later.

Reports will be mailed June 16 to students of age and to the parents or guardians of others. None can be given out verbally. Requests for duplicates will be received with addresses until May 28.

Summer Courses. Students whose plans for the summer make it important that the question of taking summer courses be decided before the annual reports are issued, may leave applications at the Secretary's office for provisional notification of standing in particular subjects.

*For conditioned students only.
*Regular and condition examinations.

H. W. TYLER, Secretary.

The next issue of The Tech will appear at the commencement of the examinations, and will be a special number devoted to the interests of the Walker Memorial. Professor Despradelle is now at work on the plans for the gymnasium, and has kindly promised them to us in time for this number. We have received several gifts and special advertisements for the number, and the proceeds of the issue will be given to the Walker Memorial Fund.
All communications with this department should be addressed to the Alumni Editor.

'70. O. N. Sanford is assistant engineer with the city engineer at San Francisco, Cal.

'77. B. A. Williston is with the Hancock Inspirator Company.

'79. William Aiken, formerly architect to the Treasury Department, has been appointed consulting architect to the Department of Buildings of New York City, under the Low administration.

'82. Lyman L. Gerry is resident engineer of the Massachusetts Highway Commission, with headquarters at Stoneham, Mass.

'82. James W. Johnson, I., is vice-president of the Western Electric and Machinery Company of Riverside, Cal.

'83. H. M. Mansfield, III., with Somerset & Kennebec Company of Fairfield, Me.

'86. Frank L. Locke, I., has recently been promoted from assistant superintendent to superintendent of the factories of the Boston Rubber Shoe Company.

'90. Guy C. Emerson is acting superintendent of streets in Boston.

'92. G. J. Burnham, X., is superintendent of the Pacific Coast works of the Hamilton Powder Company, which is located at Nanaimor, B. C.

'92. Severance Burrage, VII., instructor in sanitary science, Purdue University, Lafayette, Ind.

'95. Andrew J. Logan, I., roadmaster, Third Division Maine Central Railroad, Bangor, Me.

'95. John D. J. Moore, II., general manager, the Clayton Fire Extinguishing Company, New York City.

'98. Alban L. Davis, III., superintendent, the Ludlum Steel and Spring Company, Pompton, N. J.

'98. John N. Goddard, V., chief chemist, Monterey Plant, the American Smelting and Refining Company, Monterey, Nuevo Leon, Mexico.

'00. John V. D. Beekman, Jr., IV., with Purdy & Henderson, consulting engineers, New York City.

'00. Lewis Emery, III., with the Emery Manufacturing Company, oil refiners, Bradford, Pa.

'00. Arnin M. Chase, B.S., II., mechanical engineer with the Syracuse Chilled Plow Company, Syracuse, N. Y.

Teacher:—“What distinguished foreigner aided the Americans during the Revolution?”
Johnny (after thinking hard):—“God.”—Brunonian.
The Lounger struck, the other day, for higher wages and shorter hours, and for five minutes there was no Lounger on the board, unless the Alumni editor could be called one. Finally a compromise was effected. The editor-in-chief promised to give him ten per cent of the profits whenever they should exceed one-hundred dollars a week. Although he could not quite see through this, THE LOUNGER consented and is now in his padded cell writing as he never wrote before or after. He has given up trying to make money out of THE TECH. Can you get blood out of a stone? Instead he has devised a scheme which will make the Clarendon Street Bargain Emporium look like a dry-goods box in an alley. Here it is:

He is going to buy out Metcalf's drugstore, and put in a stock of books, drawing instruments, thumbtacks, etc. On the outside he will have a handsome illuminated sign, painted with blood as follows:

**Supplies for M. I. T. Students.**
*Don't Go Elsewhere to be Cheated, Come Here!*

Will it be a co-operative affair? You bet your life it will be. It will be a downright swindle — but wait till you find out for yourself. There will be a constitution if M-ch hasn't a copyright on his.

Thusly reads the constitution:

**Constitution.**

1. Each victim must pay an annual fee of fifty cents.
2. He will get a ticket in exchange, which will entitle him to a discount on everything except the following:
   (a) Books.
   (b) Everything else.
3. After all, the main thing is the fifty cents.

**Buy-Laws.**

1. I am the treasurer, president and secretary.
2. You are the easy one.

A few minor details have not yet been arranged, as, for instance, the selection of a suitable place for the money-box. But if he succeeds in organizing a co-operative society, THE LOUNGER will feel amply repaid.

Engineering Alley! What are you going to do about it? THE LOUNGER is tired of trying to invent new curses, to ease the way in going through this abominable place on a damp day. If there is any oath on earth or in heaven that THE LOUNGER could say which would positively cause the alley to be improved,—well, consider that thing said.

---

**Vagabonds.**

Away! away! the king's highway
Shall be our home this weather.
O'er hill and dale we'll tramp along
And sing a song together.

A song of rain and burning sun
And jolly inns to rest in,
Or should the night come unaware,
A bed of leaves to nest in.

Our fellow vagabond, the wind,
Will lead us merry chases,
Till filled with summer's laziness
We seek the quiet places.

In little dells that mother earth
Has hid among the mountains,
Then we will sleep the livelong day
By drowsy bubbling fountains.

We travel northward with the spring,
With summer we will tarry,
Then southward quickly haste away
When fall and winter marry.

Away! away! the king's highway
Shall be our home this weather.
O'er hill and dale we'll tramp along
And sing a song together.

Moore's NON-LEAKABLE Fountain Pens

No. 10. With No. 2 Size Gold Pen, $2.50.

Moore's NON-LEAKABLE Fountain Pens are the ONLY Fountain Pens ever advertised as Non-Leakable that are Strictly NON-LEAKABLE. This is the ONLY pen in the market suitable for ladies' use, as they can carry them, filled with ink, in their purse or hand-bag when traveling. It is very desirable for military use, and is also very popular with physicians. In fact, we claim the best all-round fountain pen ever made at any price.

REMEMBER—It is MOORE'S NON-LEAKABLE Fountain Pens that you want for a high-grade pen. Every one guaranteed in every respect.
