All arrangements have been completed by the program committee of the electrical engineering society for the annual Minstrel Show to be held in the Union next Wednesday evening. This program is to be one of the outstanding events of the year for the K. E. Society, as two prominent railroad builders have been secured as speakers. Among the important speakers will be Mr. H. W. Ayer, of the New York, New Haven, and Hartford railroad, with an address in New Haven. In New Haven, Mr. W. A. Harrington, one of the executive officers of the Union Pacific railroad, will make a platform speech to the Minstrel Society. Mr. Harrington, which has attended several of the Minstrel Society meetings for the past year has added a new and important link to the Minstrel Society's collection of important speakers. The Minstrel Show is a feature of the electrical engineering society, and is recognized as one of the most important events of the year for the society.

CHOCOLATE SOLDIERS

MINSTREL DOPE FOR TODAY

Dear anxious waiters:

I am about to sit down with you and have a frank, straightforward talk this morning.

I went to church yesterday for the first time in several weeks and came away with a feeling that I must square myself with the world, if I am to be of any service to you—so I am about to begin the week right by giving you on this bright Monday morning a complete confession of my sins. I have not been perfectly frank with you in the past, and I think this may have led to some difficulties.

In the first place, it has been whispered about the showing rooms and various habits of the undergraduates that the stupendous production of the Chocolate Soldiers to be given in Huntington Hall next Friday evening at 8:30 o'clock, in a fancy cap, you will remember that even Professor Spear carried this idea around quite a bit for a day and the Dean got the same thing. So don't let me hear of you impugning this opinion again. Chocolate Soldier Night is indeed a reality, and it is not only a reality but one you frankly yet modestly, it is the best thing I have seen since I was in Chicago last spring.

Secondly, some thoughtless creatures have suggested that the Chocolate Soldiers is an organization of the board of editors of The Tech bent upon knocking down a little cash. I hate to dwell upon anything so absurd, but rumors must be answered. Evidently I repeat—that one of the Chocolate Soldiers is a member of the board of editors of The Tech, and I have discussed the publication way except as a reader. The Chocolate Soldiers are an, as I told you a week ago, Thursday, merely a bunch of "live ones" who appreciate what the down-fall of The Tech would mean to undergraduates. Why, The Tech does not begin to number upon its staff the entire make-up of the Chocolate Soldiers, and besides, would any of them give a production worthy of presentation in the New York Hippodrome? They are all good newspaper men, but poor minstrels.

Their readers and others all rise from one habit. It is perfectly natural that they should have sprung up, and I would not hope otherwise. My "sinister" alliance as to the make-up of the Chocolate Soldiers and the fact that their minstrelsy has caused it all, frankly, there is no worry about it. Absolutely no reason why you should not have known at once who was writing this thing— I choose to arouse your curiosity. Can't you see that was a good advertising point? And you must admit it worked splendidly, else all of you would not be reading this now. To employ a little slang phrase—the Chocolate Soldiers
