BOSTON, MASS., WEDNESDAY, MARCH 15, 1911

PRICE TWO CENTS

CHOCOLATE SOLDIER

TICKETS SELLING FAST

Faculty and Students May Obtain Tickets from Men Listed Below

CLASSES GROUP TOGETHER IN HALL

Cheers and Songs Will be in Order from Eight to Quarter Past.

Tickets for Chocolate Soldiers Night next Friday in Huntington Hall are selling like the proverbial hot cross buns, and from present indications the hall will be crowded to the limit of its seating capacity. Letters were sent Monday to every member of the faculty and instructing staff, and early yesterday morning demands for tickets began to flow in from the professors, many of whom have planned to bring their families.

The mystery surrounding the Chocolate Soldiers continued throughout the day, and not only the entire student body, but the instructing staff as well discussed the matter during all the lulls in recitation work. Chocolate Soldier Night promises to be quite as much a Faculty as a student event, and the manager of the company phoned *The Tech* last night that, although tickets will be on sale at the door, Friday Night, students are advised to procure their tickets beforehand and make sure of them.

Members of the instructing staff, who desire tickets may procure them at the Union every noon, at the Cage, or at the Bursar's window, by specifying faculty tickets, or may obtain them from members of their own department. The following men on the instructing staff have faculty tickets for sale:

Civil and Sanitary Engineering Department:

W. K. Brownell 50 A and M. W. Rew 43A

Mechanical Engineering Department:

L. E. Sawyer 10A.

Architecture:

H. E. Fowler 41P.

Chemical and Physics Department:

K. D. Fernstrom 16W and F. R. Kneeland 44W.

Electrical Engineering Department:

F. G. Perry 28aL and L. N. Downs, Jr. 4L

Biological Department:

F. Schneider, Jr. 28P.

English Department:

Prof. H. L. Seaver 13R

Mechanical Drawing Department:

S. E. Gideon 43bR.

Administrative Department:

Walter Humphreys 18R.

Student tickets may be obtained from: L. G. Fitzherbert 1912, G. M. Keith 1912, G. C. Kenney 1912, D. J. McGrath 1912, V. G. Sloan 1912, and H. M. Davis 1911, of Course I; P. W. Dalrymple 1912, J. C. Fuller 1911, K. C. Robinson 1912, N. S. Seeley 1911, W. C. Salisbury 1911, and N. E. Brooks 1913, of Course II; E. G. Brown 1913, W. J. Seligman 1912, C. F. Thompson 1914, and S. A. Guthrie 1911, of Course III; Harold Kebbon 1912, G. A. Swenson 1912, and R. H. Doane 1911 of Course IV; L. C. Cooley 1911 Courses V and X; Herbert Fryer 1911, O. B. Denison 1911, L. G. Odell 1912, and B. Darrow 1911, of Course VI; R. H. Ranger 1911, Course VIII; Archibald Eicher 1912 and W. D. Richardson 1912, of Course XI; and H. S. Birchard 1913, Course XIV.

A large section is to be reserved in the front of the middle of the stage for the faculty and their ladies, and the seats directly back of the faculty will be retained for those outside the Institute, as the public is welcome and a large number of tickets have been sold to people interested who are not connected with the Institute. The four classes will be seated in groups in the remaining seats,

MECHANICAL ENGINEERS

BANQUET LAST NIGHT

Entertain Guests at Boston City Club Prof. Lanza Toast Master.

ELECTION OF OFFICERS

All Speakers Emphasized Need of Association with Fellow-men.

At the banquet of the Mechanical Engineering Society at the Boston City Club last night, joviability and good fellowship was the order of the evening. Songs were sung and cheers given in the true Tech spirit. After the acceptance of the secretary's reports, the executive committee announced the results of the election of officers of the Society. They were as follows:

For Chairman, J. A. Noyes; for Vice-Chairman, R. B. Brownlee; for Secretary, R. M. Ferry; for Treasurer, A. F. Kenrick; for the Governing Committee, C. H. Carpenter and E. W. De Witte, both of the class of 1912, and L. L. Custer, of the class of 1913.

Professor Lanza was then introduced as toast-master of the evening and his opening remarks were cheered with enthusiasm. He said, particularly that a great privilege was conferred upon the local M. E. Society, that there was possible the present chance of communication with the American Society of Mechanical Engineers.

He urged however, greater individual efforts. Prof. Lanza then introduced as the first speaker of the evening, Mr. Calvin W. Rive, of New York, Secretary of the A. S. M. E. Mr. Rice said that the A. S. M. E. was greatly interested in the Institute Society. He urged that the members gain experience in presenting their propositions convincingly.—The business man who is in contact with the engineer also has ideas and has to be shown. Non-members of the Society are losing valuable opportunities was the burden of his remarks. When a speaker is invited to the meetings, it is the duty of the student to meet him for he gains vastly by the personal contact. He urged that a greater part of the meeting and discussion should be borne by the student even if only to ask a question. The other speakers of the evening were Prof. D. C. Jackson, President of the A. I. E. E., Prof. Ira N. Hollis of Harvard, Mr. I. E. Moultrip, Mr. R. H. Rice and Prof. Edward F. Nueller.

They all emphasized the importance of a personal touch with all other branches of engineering and also a greater interest in the monthly meetings of the local branch of the A. S. M. E. The student branch pin is all but announced.

There were about 100 men present, and the speakers remarks were appreciated and applauded to the echo.

and in the fifteen minutes intervening between eight o'clock and the rise of the curtain the classes are perfectly at liberty to give songs and cheers.

Groups from the fraternity houses or from the different courses may sit together in either of these sections above mentioned though it will be manifestly impossible to reserved seats for any such groups. In other words they must come as a group.

All in all it looks like a big night. Have you your tickets yet?

The Student Senate at Case has decided to adopt a Case pin. The design picked is a brown block "C" on a white background. Petitions bearing the name of nearly every man in the institution were back of the action.

INSTITUTE COMMITTEE

MEETING YESTERDAY

Number of Elections and Appointments Discussed and Passed

LETTER FROM MRS. ROGERS

Sends Thanks for Flowers Sent Her on Eighty-Seventh Birthday.

A regular meeting of the Institute Committee was held yesterday afternoon, at 4.30 P. M. in Room A, of the Union. After the reading of the report of the secretary pro-tems, and the sub-committees' report, nominations for secretary were called for. J. E. Whittlesey was unanimously elected to that office, which was left vacant by the resignation of H. E. Birchard '13.

A motion was then passed, that no organization be allowed to have two or more notices on one bulletin board to the exclusion of the notice of another organization.

Upon the recommendation of the Union Committee, O. P. Powell '12, was elected chairman of House Committee to take the place of H. M. Davis '11, who resigned and W. F. O'Brien '13 was elected to fill the place left vacant by the resignation of C. H. Carpenter 1912 on the Union Committee. Mr. Davis has now been transferred to chairman of the entertainment committee.

The next business to come before the committee was a motion that blank reports be sent every month to each organization by the Finance Commission on which the treasurers could make a statement of the condition of the finances of the organizations.

A discussion in regard to the "We Are Happy", yell was held and it was found that only two of the members of the committee were in favor of finally abolishing it. J. E. Whittlesey has been appointed chairman of the "New Yells", committee to succeed W. C. Salisbury, who has resigned. A motion was passed, that the "New Yells" committee be given five dollars (\$5) to use in any way they saw fit as a prize to the man having the best new Tech yell accepted.

The following letter was read from Mrs. Emma Rogers, the widow of the founder, and first president of the Institute, William Barton Rogers.

Mr. Donald R. Stevens, Chairman of the Institute Committee My dear Mr. Stevens,

The gift of red roses from your committee of the Institute of Technology sends the glow of its color and fragrance to my heart on my eighty-seventh birthday.

I thank you each one for the warm and cordial words in which you express your friendship which is as warmly reciprocated.

Believe me ever sincerely yours,
Emma Rogers.

Upon a recommendation of the Finance Commission, it was decided that the Tech Christian association be not allowed to contract further debts until present arrears are settled.

Class presidents were asked to see that their treasurers publish in *The Tech* and-post in the Union a financial statement of the money handled up to date this year.

The following men are appointed to be assistant department managers; R. W. Weeks, W. P. Keith, D. R. Dixon to the business dept; C. P. Fiske to the stage dept; D. K. Van R. sey, and G. W. Whitwell to the publicity dept. The point system committee gave a list of the men over points and each individual case was settled.

A motion was then passed, that one man be appointed from each class to serve on a committee for the purpose of having an athletic day for students, during the Technology Congress, on

MR. CARB'S COMEDY

WARMLY PRAISED

Press Notices Most Favorable in Comments on "The Things We Create".

GRACE GEORGE STAR

Play, now in Cincinnati, Will Reach New York Later this Spring.

Mr. Carb, of the English Department has had a comedy successfully produced in Cincinnati. The New York theatre manager, William A. Brady, is producing it, with Miss Grace George as star. While Mr. Carb is only beginning a career as a play wright for the professional stage, he is by no means inexperienced, for he has written plays for the Dramatic Club at Harvard. These were very popular when given there. "The Things We Create" was written last summer. It is a comedy of contemporary life in New York, with the scene laid in a Harlem flat. There are seven members of the cast, who, with Miss George as leader, are sure to help bring success on Broadway when the play is produced this spring in Brady's new theatre "The Playhouse" which will open next month.

The press notices have been unusually so far a new author.

The "Cincinnati Times" says: "The play reflects a condition of the times. Its central figure is a woman typical of her period, restless mentally, beyond her common place sisters, resentful of conventional restraint not from the moral but from the mental point of view—a

woman who believes maternity is sacred but personal liberty equally so, and who believes it wiser to train the youth of the land to understand life rather than to fear it."

The "New York Herald", after favorably criticizing the production describes the plot in some detail. "The Things We Create" has a gib idea in it, which was frankly and ably handled by the young dramatist. The story is that of a woman who eloped with another man when her baby boy was one year old. She returns in the boy's twenty-first birthday with the avowed intention of taking him away with her. All of the happenings take place in one day in a Harlem flat. The wife meets fiery opposition from her father, the boys aunt, the family servant, and the affianced bride of the young man, but in the end she succeeds.

One enthusiastic critic wrote the playwright that he hoped the play would remain in New York so long that the leading lady would wear grooves in the stage."

April 10th. Salisbury '11, Benson '12, Muther '13 and Guething '14 were elected.

The last business was the passing of a motion to that a man be elected from the Institute at large to act as advertising manager for *The Tech*.

The meeting adjourned at 5.50 P. M.

WEDNESDAY MARCH 15, 1911

BIG TRACK DINNER

AT UNION FRIDAY

Track Men and Others to Hear Plans For the Outdoor Season.

At the Union Friday night, the second big track dinner will be held. This will be the formal opening of the spring season for at this time, Manager Benson will give out the schedule for the remainder of the year and lay before the men the plans for this spring. It will be a gathering of all the men who are interested in track work, those on the squad and all others who are looking for a good feed, and a chance to have a good time and meet the fellows who will be doing things at the Field in a very short time. Beside the men, who are now in the Institute, there will be present a number of old track men, some of whom it is hoped will be willing to talk to the fellows on the work of the coming spring and on Athletics in the Institute as they knew them in the days when they were wearing the T.

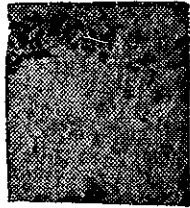

Beside the talk by Manager Benson on the plans for the out-door work, they will listen to Dr. Rockwell the Chairman of the Advisory Council, for a few minutes. Dr. Talbot is expected to make a little speech that will not be exactly according to the nebular hypothesis. They also hope to have K. W. Richards 1907, an old sprinter, talk to the men on the work on the track. The management extend a cordial invitation to everybody to come to this dinner, listen to some interesting talks, get inside knowledge on the work of the track team for the coming season, and have a good time generally. The dinner will be over before the Chocolate Soldiers performance begins and the two events will fill up an evening in very good style.

Two hundred and ninety-six students have made deposits totaling \$18,000 in the Students' bank at Columbia.

The Williams Aeronautical Society has challenged the Amherst Aero Club to a balloon race to take place next spring. If the match is arranged it will be the first intercollegiate contest of the kind in this country.

We take exquisite pleasure in presenting to you today, in addition to our valuable information on the coming event, of Friday evening, a special souvenir photograph of one leader of the Chocolate Soldiers, Brother Alexander Johnson. The photo is the only one of its kind extinct.

ALEXANDER JOHNSON.

The staff photographer of the Chocolate Soldiers snapped the accompanying likeness of the originator and chief of the great and glorious Minstrel Band during a recent rehearsal. It is a perfect representation of Brother Johnson in his make-up and posed for his big act, entitled "The Shades of Night", which is offered with the realistic scenic accompaniment of "lights out".

Brother Johnson, as may be seen from his masterly features, is a great big man in the theatrical world. He has only just originated the Chocolate Soldiers and Tech may consider it a remarkable fortune that she should be one of the first to witness his wonder-workings. Alexander has played black-face all over the world, having appeared before the Queen of Russia, the Czar of Holland, the King of Mexico, and all the potentates and hotentots of British East Africa. In fact, he has just returned from an extensive trip through Africa, studying the ways and means of the negro in order that his production may prove the more striking and true to life.

Brother Johnson is good and a master of his profession,—but, take it from the Advance Agent, his supreme position in the minstrel world is seriously jeopardized by more than one member of his supporting troupe. To make a long story short, they are all cracker-jack, up-to-the-minute jokesters, singsters, and dancesters, and if you don't go around and see their stunts, Friday night, it will prove the one big regret of your undergraduate life. Nothing short of missing out on your degree, could prove such a misfortune.

Tomorrow, tomorrow, tomorrow! What's doin'? Only this, the secret is out. A complete and correct list of the Chocolate Soldiers was stolen yesterday afternoon from the general manager's office, and its contents will undoubtedly be spread over the Institute before St. Patrick's Day. If you're going to get it that way, you might just as well have it straight from the only reliable dope artist, yours truly, the Advance Agent.

This means that in tomorrow's issue of *The Tech* I shall publish ON THIS PAGE A COMPLETE LIST OF THE CHOCOLATE SOLDIERS.

"Blackie ist gekommt": I saw him buy a ticket this morning.

Remember tomorrow's issue of *The Tech*,
The Advance Agent.

Latest Ideas in Umbrellas

First Seen in Boston at Hovey's---
"The India"

The New "Little Umbrella With the Big Spread"

This is the umbrella which has aroused enthusiastic interest wherever shown.

A small umbrella having ten ribs (the ordinary one having but 7 or 8), unusually sturdy, resisting the temptation to turn inside out in a high wind, yet delightfully light and graceful when outspread, covering more than the usual space.

The edges of the ribs for about 3 inches are pliable; when extended and open a greater spread is afforded than the ordinary kind, and the ladies will not break their feathers.

Handsome mission wood handles, coverings of union silk and pure silk.

Better protection from the rain and a great lessening of bulk and size.

This is an important addition to the history of umbrella construction.

We confidently prophesy in a year or so all umbrellas will be demanded upon this idea.

The men's size is of walking length, but with a 30-inch spread overhead instead of that possessed by the 28-inch regulation umbrella. We are pleased to be able to state that in a very short time we shall be offering many other grades at varying prices.

Men's Size Umbrellas \$2.50

CLASS DAY BALLOTS
OUT IMMEDIATELY
 Polls Open To-day or Tomorrow
 When Ballots are Deposited
 at the Cage.

VOTE FOR TWENTY-FIVE
 First, Second, and Third Marshals
 Will be Elected on Second Ballot.

At last the ballots for class day committee are ready, and this afternoon will find the senior election committee busily at work addressing the three hundred odd envelopes containing the ballots. As soon as this work is completed the ballots will be left at the Cage to be called for.
 It is expected that these ballots will be ready for distribution late this afternoon or at any rate the first thing tomorrow morning. In accordance with the Constitution of the Class the polls will open upon the deposit of the ballots with Charlie by the committee, closing one week later, or to be specific, on Wednesday, March 22, at 4.00 P.M.
 It is urged by the senior board of directors, that every man, who is eligible to vote in the coming election, will avail himself of the opportunity of casting a ballot for this all-important committee. Upon the shoulders of this committee, devolves the entire work of class day preparations, so that the importance of a representative set of men is at once evident.
 It is absolutely imperative, that each man, when depositing his ballot, sign his name in the upper left hand corner of the envelope prepared for the purpose. The committee also announces that any ballot on which more than twenty-five names are voted for will be declared void and thrown out.

A glance over the ballot reveals the fact, that Pres. Stevens' name does not occur in the list, but it is to be remembered that according to class constitution, the president of the senior class is a member of the class day committee ex-officio. In other words, there are twenty-five men to be chosen for the committee in addition to the president of the senior class.

Upon the announcement of the results of the class day committee election, ballots will be at once prepared, containing the names of the twenty-five men elected to the committee. From this list of twenty-five men the three men receiving the highest votes in a new election, will be declared elected to the offices of First Marshal, Second Marshal, and Third Marshal, respectively. The three men receiving the highest vote in the first election do not thereby become marshals, but a second election is necessary.

Polls open late this afternoon, or early tomorrow morning. Vote for twenty-five men only. President Stevens is a member of the committee ex-officio. Place your name on the upper left hand corner of the envelope containing your ballot. Don't vote but once. Mark an X to the RIGHT of the name you desire. Polls close at 4 P. M. on Wednesday, March 22. With these facts in mind, no senior should find trouble in voting legally.

"RAILROAD NIGHT" FOR ELECTRICALS
 W. S. Murray of N. Y. N. H. & H. and Paul Winsor of Boston Elevated to Speak.

To-night at six-thirty, the "Railroad Night" of the Electricals, opens with a dinner at the Union. For this occasion the committee has secured as speakers Mr. W. S. Murray and Mr. Paul Winsor. These two men were heartily endorsed by Professor Jackson as authorities on electric railroading.

Mr. Murray is from the New York, New Haven and Hartford Railroad, and he will talk on the electrification of the Hoosac Tunnel, a feat which was but recently accomplished by him. He will give the details of what was a truly difficult piece of work successfully finished.

Mr. Winsor is from the Boston Elevated, and he is their chief engineer of motive power and traction. He, being thoroughly cognizant of all details connected with street railroading, will be able to give a most interesting talk.

Several members of the faculty are going to be present, and besides there should be a very generous attendance of Course VI men, especially those, who are taking the electric railways course.

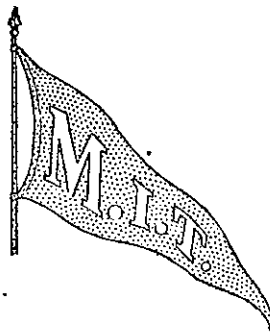

FATIMA

TURKISH BLEND CIGARETTES

MYTHOLOGY

There are lots of myths now-a-days—but time and experience shatter them. For instance—if Fatima Cigarettes were put in an expensive box they couldn't possibly taste better or be better—it's not the fine feathers that make the fine birds. But there's no myth about the quality and delightful flavor of the cigarette that so many college men smoke. There are 20 Fatimas for 15 cents in the well known inexpensive package—which gives you 10 additional.

THE AMERICAN TOBACCO CO.

With each package of Fatima you get a pennant coupon, 25 of which secure a handsome felt college pennant (12x32)—selection of 100.

OLD ART MUSEUM

PRACTICALLY DOWN

Big Pile in Corner contains 2,500,000 Bricks. Tiles and Figures Sold as Souvernirs.

The wrecking of the old Art Museum, which has been critically followed by hundreds of Technology students and instructors, is now nearly finished, the contractor expecting to complete his work by next Friday. The excavation for the new Copley-Plaza Hotel has already been started in the rear of the lot some forty teams drawing the dirt away to the city dump beyond the Fenway. As soon as the wrecking men are through, a larger gang of teams and men will be put to work excavating and the contractor will try to complete the excavation in record time.

The larger part of the bricks of the old building have been sold and drawn away, but there are still about two and one half million bricks in a huge pile against the walk on the Trinity Court side, some of which will be used in the new Hotel. The contractor, Mr. Robert R. McNutt, has sold a large number of the tiles and figures as souvernirs. The steel-work was all carefully taken apart and cleaned and sent to the steel works at Phoenixville, Pa. 180 men have been employed for over a month tearing down the old building and as the work is finished, they are being transferred to the excavation gang of Geo. E. Fuller, who has the contract for the Hotel. It is expected, that it will take about a year and a half to construct the New Hotel, which will occupy the centire block and be of the same height as the Westminster.
