Tickets for Chocolate Soldiers Night next Friday in Huntington Hall are selling for 40 cents, a half dollar, and 50 cents, respectively, according to recent reports. These prices were selected to meet the demand for tickets based on previous years' sales, with the lower price intended for students and the higher prices for general admission.

The mystery surrounding the Chocolate Soldiers continued throughout the day, and not only the students themselves, but also the instructors as well discussed the matter in a less than satisfactory way. Chocolate Soldier Night promises to bring much excitement to the campus, with the entire student body and a large number of alumni expected to attend.

Letters were sent Monday to every member of the faculty and instructors, and early yesterday morning demands for tickets began to come in from the faculty, many of whom have planned to bring their families.

J. A. Nevin, for Vice-Chairman, R. B. Brownsey; for Secretary, R. M. Ferry; for Treasurer, A. F. Kenrick, for the members of the Committee, J. C. Carpenter and E. W. DeWitte, both of the class of 1913.

The first speaker of the evening was Mr. David Lanza of the Institute of Technology. Mr. Lanza was then introduced as toastmaster of the evening and his opening remarks were welcomed with enthusiasm. He said, particularly that a good presentation was made to the local E. S. T., that there was possible the possibility of communication with the Amarna Society of Mechanical Engineers.

The next business to come before the meeting was a motion that the reports be sent every month to each organization by the Finance Commission on which the treasurers could make a statement of the condition of the finances of the society.

A discussion regard to the "We Are Happy," yell was held and it was found that only two of the members of the Institute Committee were in favor of finally adopting it. J. W. Whitehead has been chairman of the committee. A motion to the effect that the "New Yells" committee be given (333) to use in any way that the Tech yells are conducted was seconded by T. H. W. Poland of the class of 1912 on the Union Committee.

The following letter was read from Mrs. Emma Rogers, the widow of the late William H. Rogers, founder, and first president of the Institute of Technology.

Believe me ever sincerely yours,
Chairman of the Institute Committee
Mr. Dave Stevens,

The "Cincinnati Times" says: The Tech is reflecting the production describes the plot in some detail. The things are spoken of in a bad light. The movie has been bought by the young man and the young woman and the young boy. The play is a merit for the young woman and the young man, and the young boy.

On one especially critical type of the play: that he hoped the play would remain in New York for the longest time of the young man, and the young boy.

On another occasion, a similar type of the play where he is always warm and cordial in your eyes, your expression of interest is as warmly received.

Believe me ever sincerely yours,
Chairman of the Institute Committee

The gift of red roses from your committee of the Institute of Technology evokes the glow of its color and fragrance to my heart on my eighty-seventh birthday. I thank you each for the warm and cordial words in which you express your friendship which is as warmly reciprocated.

Mr. Carh, of the English Department, has had a comedy successfully produced in Cincinnati. The cast is well chosen by Mr. Carh, who is producing the play with Miss Alice Green as the leading lady. While Mr. Carh is only beginning a career as a play writer for the professional stage, he is by no means inexperienced, for he has written plays for the Dramatic Club at Harvard. These were very popular when given there. The "Things We Create" was produced by the institution.

It is a comedy of contemporary life in New York, with the scene laid in a Harlem flat. There are seven members of the cast, and the scenery was very picturesque. The press notices have been favorable—unusually so for a new writer.

The "Cincinnati Times" says: "The play reflects a condition of the times. It is a woman who believes maternity is sacred but personal liberty equally so, and who believes it is important to make the best of life under rather than to be burdened with it."

The "New York Herald," after favorably reviewing the production describes the plot in some detail. The Things We Create" was produced in Cincinnati. The movie has been bought by the young man and the young woman and the young boy. The play is a merit for the young woman and the young man, and the young boy.

Mr. Dave Stevens,
Late Ideas in Umbrellas

First Seen in Boston at Hovey's---
"The India"

The New 'Little Umbrella With the Big Spread'

This is the umbrella which has aroused enthusiastic interest wherever shown.

A small umbrella having ten ribs (the ordinary one having but 7 or 8), unusually sturdy, resisting the temptation to turn inside out in high wind, yet delightfully light and portable when outspread, covering more than the usual space.

The edges of the ribs for about 3 inches are pliable; when extended and open a greater space is afforded than the ordinary kind, and the ladies will not break their feathers.

Handsome mission wood handles, coverings of union silk and pure silk.

Better protection from the rain and a great lessening of bulk and size.

This is an important addition to the history of umbrella construction.

We confidently prophesy in a year or so all umbrellas will be demanded upon this idea.

The men's size is of walking length, but with a 30-inch spread overhead instead of that possessed by the 28-inch regulation umbrellas. We are asked to be able to state in a very short time we shall be offering many other grades at varying prices.

Men's Size Umbrellas $2.50

C. F. Hovey & Co.
