SHOW PROGRESSING RAPIDLY
UNDER COACH SANGER

All Parts have been Completely Rehearsed Several Times. Chorus Getting on Excellently in Dancing and Singing.

Thanks to the able efforts of Coach Eugene Sanger, Tech Show 1911 is fast becoming a decided hit. Indeed, Mr. Sanger, in his work with "Frenzied Rehearsal" has more than justified his management in its selection. He is himself an actor of no mean ability, and his agility as a dancer is the marvel of all of the fair French Girls, who endeavor to "get on excellently in dancing and singing." The whole of the play has now been gone through several times, so that the girls have a good start on their part, and are expected to put up a good showing this year.

THE TECH

MUSICAL CLUBS GIVE
SUCCESSFUL CONCERT AT LYNN

Concert Given under Auspices of Lynn Educational Association. Large and Enthusiastic Audience.

TO PLAY IN UNION "MUSICAL NIGHT"

Men Working Hard for Spring Concert and Techological Concert at Symphony Hall.

Last night the musical clubs gave a concert at Lynn under the auspices of the Lynn Educational Association. The concert was especially successful owing to the work which the members are doing in anticipation of the two big concerts of the year at Lynn, when they play in Symphony Hall at the Technical College in company with the Sanger Chorus. The concert was held in the Luminous Room of the Technical College last Wednesday night.

The program consists of: -

1. "Our Technology" (Selections) - Vocal Club.
2. "M a l e " - Orchestra (Selections) - Karl H. Wuyts, Sanger. (Selecta).
4. "Flash Gallop" - Quintette. (Wuyts)
5. "Wanted, a Wife" - Lyric Club.
7. "The Dixie Kid" - Student Quartette.

The Musical Clubs may be heard again at the Union on April 7th, on "Musical Night." Notice: Spring concert will be rendered there.

TECH BOOSTER’S
DINNER TONIGHT

All Men Interested in "The Tech" are Especially Invited

At 6.30 P.M., to-night, "The Tech Boosters’ Dinner" will be held in the Union. The primary object of this dinner will be to discuss "The Tech and its affairs." To this end all interested in "The Tech" and its machinery, all men directly or indirectly connected with "The Tech" are required to be present at the dinner, which begins at 6.30.

The dinner is to be catered by the Luncheon Club. The food will be good and the company is expected to be a good one. At 7.30 the guests will know all about the organization of "The Tech." At 8.45 the banquet will begin, and it is expected that the banquet will be concluded at 11.

Should you be unable to attend the dinner to-night, we would suggest that you attend the meeting at 6.30. The speakers will be announced at the time.

SCHICKLES

BIOLOGICAL CLUB SMOKER
FRIDAY NIGHT

Mr. S. M. Gunn, Instructor of Sanitary Biology to Talk on "The Experiences of a Health Officer."

COME AND BRING YOUR "SMOKES!"

Large Attendance Expected. To be Held in Union at 8 P.M. Refreshments will be Served.

Next Friday evening at 8.00 o’clock, the Biological Club will hold a smoker in honor of Mr. S. M. Gunn, instructor in sanitary biology at the Institute, to talk on "The Experiences of a Health Officer."

On this occasion he will bring his tobacco, and he has been invited to talk in the Union at 8 o’clock, Friday night, May 19. The smoker will be open to everyone, and every man interested in this work is invited to attend.

CHEMICAL SOCIETY MEETING ON WEDNESDAY

On Wednesday, March 29th, at 8 P.M., the Chemical Society will hold a regular meeting in the Union. Mr. E. Weinhold, of the Massachusetts General Electric Company at Lynn, Mass., will be engaged to speak on "The Non-Metallic Elements in the Chemical World." He is well qualified to speak on this subject, and his talk will not be long and dry, but will be interesting and entertaining.

The lecture will be in the Union at 8 P.M., and the attendance will be open to everyone. The lecture will last about an hour, and will be followed by a short discussion.

FINANCIAL REPORT
OF CLASS OF 1911

The financial statement of the class of 1911 is as follows: -

Oct. Balance 211.34

Dues collected 138.35

Total assets 349.69

Dec. 5. 300 ballots $5.00

19. Class Stationery $6.00

19. Notices in "The Tech" 60.00

20. Class Dinner deficit 4.00

Total expenditures 126.60

All men owing dues are requested to pay up at once to the Treasurers of their course or the course they are connected with.

Respectfully submitted,
H. S. Smith, Treasurer.

SENIORS!! DON’T FORGET TO VOTE FOR CLASS DAY COMM. MONDAY, MAY 19.
MINSTREL DOPE FOR TODAY

Well, it's all over now except the cleaning and it certainly proved a bigger night than any of the Chocolate Soldiers had anticipated or even hoped for. Before settling back into the hundreds of our daily existence we wish to express gratitude to all those who so greatly assisted in making Chocolate Soldier Night the success that it was.

Particularly do we wish to thank Pro- fessor Scoevo, who sat patiently through that awful full rehearsal of the day before; Mr. Hines and his gloved young Territor for their aid in securing us the use of the Hall of the Institute arm stock, and the installation of footlights; all the faculty members who so magnificently aided by their presence and by assisting at the side of the stage; the undergraduates, who helped, set in motion; etc. (See story about Clapp, 1910, for his contribution of the local全社会, which proved a great hit of the evening (see our special edition of the program). Anyone who wrote the Minstrel Dope for the Advance Agent to those he men- sured and surpassed, of course, but a happy memory to us all.

Myers has been closely in touch with this affair only.

TUESDAY MARCH 21, 1911

THE TECH takes pleasure in announcing the candidacy of A. L. Myers '11, to the position of Advertising Manager. Myers has been closely in touch with this affair only. He was Managing Editor, and so is already thoroughly conversant with the details connected therewith.

Chocolate Soldier Night is now over of course, but a happy memory to us all. It was a thorough success as we all know, surpassing all that had been anticipated for it. THE TECH fully appreciates what the Soldiers have done for it, and wishes to add its sincere thanks to those of the Advance Agent to those he men- sured in his column of Minstrel Dope to-day, and especially wishes to thank the Chocolate-Soldiers themselves. Most of all we indebted to the originator and moving spirit of the Show,--Mr. Holman L. Prang '11.

The request or the Minstrels to use such a small share of the proceeds for a donation for themselves in so modest a thing, that there should be no hesitancy on its own part or on the part of those petitioned to contribute such use of the money for a fast-get-together of the Minstrels. Moreover, wouldn't it be a good thing to make the Minstrels feel the importance of an annual affair, not to benefit THE TECH, but to assist any organization which is in need of such financial aid? This year, only two Show men were borrowed for the Minstrels and so far as the editor can follow, such an affair would not severly interfere with any of the activities already at the Institute, How about it?

HARTFORD, CONN.
COMMUNICATION

To the Editor of The Tech.

Will you grant me space for the

announcing of the incidents of the

sophomore class? The trouble this

year is that the class has no cross-country

runners in the field and there will be a

very small gap between the freshmen and the

sophomores on April 8th.

The class of 1913 has turned out with

the following teams: football, tennis, lacrosse,

basket-ball, tug-of-war, relay teams, track,

and cross-country. With all this evidence

of athletic ability, it is possible that the class
does not contain some members, who can

amuse a few miles ahead of their

freshmen.

The sophomores have not done their
duty by cross-country running at all.

For all the interest they have taken in

this important varsity sport, Radcliffe

would defeat Technology. More than

plato, that they are busy, while others

have exercise enough already. When

investigated this "business" or "exercise,"

turns out to be dancing, which does not

exercise nor business but a growing habit.

The seven weeks reports have been

turned in, so you need not worry about

marks any longer. Now for a little

diversion come out and run cross country

for a couple of weeks and help trim the

freshmen. It will make you feel free

and there's always a chance that you

will win the next time you are promising

to the Yard 111st of 1911.

E. L. McDonald, Capt.

1913 Cross-Country.

FRESHMAN EXPECT
SUCCESSFUL OUTDOOR
TRACK SEASON.

Several Meets Arranged with High
Schools of College Freshmen

When the outdoor season opens this

week, the Freshman track team is expected
to continue their excellent work of the
indoor season, where they showed con-
clusively that there was much fine mat-
erial among them. Several meets will be
arranged for the team with the schools of

high schools and also with the fresh-
men of other colleges. A return meet

will surely be held with the Brookline
High School. This team defeated the
Freshman indoors by the very narrow
margin of 2-3 of a point, but the latter are
confident of turning the tables outdoors.

The other teams with which meets may

possibly be arranged include the Newton,
Lowell, and Boston English High Schools.

These meets will do a great deal of good
by giving the men the experience they

need for future years.

The men, who were unsuccessful indoors,

will have another fine chance to make

good, not only in the events which they

tried indoors, but also in the running

broad jump, the hammer and discus

throws—three events which are included
in the outdoor sports. The burdens,
too, will be given a much better chance
to show their ability. All the team needs

at present is a few lucky fellows for the

shotput, but all together the Freshmen

have a very well balanced team, and

should look forwards to a most successful
outdoor season.

SOCIETY OF ARTS
LECTURE NEXT FRIDAY

Professor G. W. Ritchey to Talk on
"Recent Astronomical Photography
with the Sixty Inch Reflecting
Telescope," Open to the Public.

Next Friday evening, Professor George
W. Ritchey, of the Mt. Wilson Solar
Observatory, will deliver a lecture on
"Recent Astronomical Photography
with the sixty inch Reflecting
Telescope," before the Society of Arts.

Professor Ritchey has had wide ex-
perience in astronomical work and also
as well known as an expert in designing
and constructing reflecting telescopes
as well as applying them to the photo-
graphy of the heavens. His most wonder-
ful piece of work has been the construc-
tion of the enormous sixty inch reflector,
one of the largest, if not the largest, in the
world, which is now set up in the Observa-
tory on Mt. Wilson, Pasadena California.

Besides this he constructed the reflector
used in the Yerkes observatory and also
the mirrors of the Swann Telescope at
Mt. Wilson.

In his lecture, Professor Ritchey will
describe the construction of the large
sixty inch reflector, and will tell of the
brilliance of his photographs of the heavens
which surpass anything of the kind yet
undertaken. Many excellent astron-
omy can views will be shown and the lecture
cannot fail to be of interest to all. The
public is invited to be present.
