VOL. XXX, NO. 114

BOSTON, MASS., THURSDAY, MARCH 23, 1911

PRICE TWO CENTS

SPECIAL MEETING OF C. E. SOCIETY TODAY

Civil Engineers will meet today at 4.00 P. M. in 53A. Arrangements for Cape Cod trip to be discussed

INTERESTING MEETING ASSURED

The revised Constitution to be taken up and adopted. Several important amendments have been suggested.

A special meeting of the Civil Engineering Society will be held this afternoon, at 4.00 o'clock in 53A. Although no special speaker has been secured, the members are promised an interesting meeting.

Messrs. Ireland and McGrath have been busy during the last week making arrangements for the Cape Cod trip. Owing to the expense and time taken up, if the trip is taken by boat, this matter will be discussed at this meeting.

An invitation has been received from the Boston Society of Civil Engineers, to attend a dinner at the City Club on the evening of April 5. The Civil Engineering societies of Tufts and Harvard have also been invited. Further announcement will be made at the meeting today.

The most important matter to be taken up, is the discussion and adoption of the revised constitution. Since 1889, when the latter was adopted, no important changes have been made in it. Recently however, certain amendments were suggested and O. D. Powell and O. W. Stewart were appointed a special committee to properly draft them. This committee found it advisable to revise the Constitution and copies of the latter have been posted in the drawing rooms during the past week. The more important changes provide for a new method of election of officers and the entrance to membership of students in Architectural Engineering.

Less important changes have been made also and the new document will be taken up and discussed in detail, at the meeting today. A full attendance is desired.

ARCHITECTURAL SOCIETY WILL HOLD RECEPTION

At a meeting of the Architectural Society held Monday afternoon it was decided that the Society should give a reception in Pierce building on an afternoon during Junior Week. It has been the custom of the Society for a number of years to have some such entertainment which until last year, had always been a reception when there was a dance at the Hotel Tulleries. The rooms of the department will be decorated in an artistic manner and there will probably be cartoons of a number of the members of the Society. It is planned to have music, pretty girls, and everything else necessary to a very fine reception.

In the exhibition room will be hanging work of the various classes. It is also hoped to have the annual traveling exhibition of the Intercollegiate Architectural Federation here. This exhibit will be made up of work from the various schools in the Federation, which are Columbia, Pennsylvania, Cornell, Harvard and M. I. T. Much attention is always attracted by these drawings. The committee in charge of the reception have many other schemes for entertainment so that a good time will be assured to all those who attend.

It was also decided at the meeting to appoint a committee to investigate designs and prices for Architectural Society watch fobs.

SALES OF SHOW POSTER QUITE UNPRECEDENTED

Over Half of the supply sold, a Full month before initial performance.

BUTTON 1909 THE ARTIST

The Grace of the Dancing Girl Wins Popularity for Poster.

The Tech Show Posters seem to have struck the fancy of men here at the Institute, for since last Monday when they first went on sale, the demand has been unprecedented. The Show Management reports that over half of them have been sold, although the first Boston performance is still a month off.

A typical college poster full of life and action, it is one that every man should want to have. The size and flexibility of this year's poster make it easy to send through the mail, especially in the mailing tubes, which the Show has procured and which are on sale with the posters.

The entire poster is done in block work. The central figure is that of a graceful dancing girl set off effectively upon an orange yellow background. The graceful swing of the girl is accentuated by the arrangement of the title, "Frenzied French," in fanciful letters.

If the sale of the posters continues to be so popular, the Management contemplates getting out souvenir post-cards of Junior Week with a cut of the poster on them. It is expected that they will be as attractive as the posters are.

Those who have not yet obtained posters, and wish to do so before the supply is exhausted, will find them on sale at The Cage or with the boy who sells The Tech.

Announcement of Tech Man's Marriage.

The announcement is made of the marriage on next Saturday evening of James M. Buchanan 1903, Course III, to Miss Kate Williams of New Bedford. Mr. Buchanan is a graduate of Princeton as well as Tech, and is now an electrical engineer connected with the New York and New Jersey Telephone Company. His father is state librarian.

SENIORS ELECT CLASS DAY COMMITTEE

Parker Heads list, Followed by Denison, Salisbury, and Cooley

154 BALLOTS CAST

Seven Ballots Rejected on Account of Twenty Six Names Checked.

1911 CLASS DAY COMMITTEE

Donald Read Stevens, ex-officio	
Theodore Bissell Parker	100
Orville Boardman Denison	90
William Coyne Salisbury	85
Lloyd Cartwright Cooley	78
Charles Hudson Sayre Merrill	64
Richard Hartshorn Gould	63
Stuart Brown Copeland	62
Richard Howland Ranger	62
Peter Desmond White	61
Howard David Williams	51
Charles Phillips Kerr	49
Gordon Ball Wilkes	48
Irving White Wilson	48
Cedric Samuel Anderson	45
Kenneth Greenleaf	44
Joseph Cheever Fuller	43
Henry Clarence Davis, Jr.	41
Edwin Crawford Vose	41
William Weatherby Warner	41
Henry Francis Dölliver	37
John Lavelle McAllen	37
Lawrence Gleason Odell	37
Harold Mattin Davis	36
Hubert Stacy Smith	34
Marcus Aurelius Grossmann	34

After a spirited election the election of the twenty-five members of the 1911 Class Day committee has been completed and the results announced. The committee will begin active work very shortly, although a second election will be held immediately in order to elect the three marshals.

There were 154 ballots cast, which is one of the largest semi-senior elections ever recorded at the Institute. The committee was obliged to reject seven ballots, on account of twenty-six names having been checked.

To Theodore B. Parker, fell the honor of polling the largest number of votes, Parker receiving just an even hundred. Then followed Orville B. Denison with 90, William C. Salisbury with 85, Lloyd Cartwright Cooley with 78, Charles H. S. Merrill with 64 and Richard H. Gould with 63. From there on the margin of each man over his nearest competitor grew less and less, there being several triple ties for positions.

The next five men to finish were: Herbert Fryer 32, Clyde R. Johnson 31, Charles F. Hobson 29, Walter D. Allen 28, Phillip L. Caldwell 28.

The committee as chosen appears to be a representative one with practically all of its members prominent participants in class and Institute activities. A brief history of the leading men follows: Parker is captain of the basketball team and captain of the tennis team. He was Professor Editor of Technique, 1911.

Denison is secretary of the class for the second consecutive year. He has been a member of boards of The Tech and Technique, 1911.

Salisbury is captain of the track team and one of our best track stars. He was statistician of Technique, 1911.

Cooley has been active in class affairs. He was manager of the 1910 freshman and sophomore relay team. He was athletic editor of last year's Technique, and is now a member of the Institute Executive Committee.

Merrill played on the class football teams and was one of the Technique 1911 statistician. He is now chairman of the Portfolio Committee.

PEKNS FOR SPRING CONCERT ANNOUNCED

People's Orchestra to Play after Concert for Dancing until Two

NO FLOWERS ALLOWED

An Innovation this Year will be the Serving of Refreshments at Midnight

Plans for the Spring Concert of the Musical Clubs are now practically complete. The entertainment will be held April 19, in Copley Hall. There will be a marked improvement in music over anything that has been rendered by the clubs heretofore, and the part of the evening occupied by them is sure to be an achievement that we will be glad to have one of Tech's most prominent activities judged by. The concert will last from eight until ten.

At ten-thirty dancing will commence, with the best orchestra in Boston furnishing the music. The dance itself will continue about three hours, in which there will be eighteen numbers. The preliminary dance orders will be out the last of this week. Get them at the Cage. The Supper dance will be number nine. No flowers are to be allowed on the floor.

Advance tickets are now on sale of the club members at \$1.50 each. This year the price has been raised fifty cents to enable the manager to supply better music by the men themselves, to engage the best possible orchestra for the dancing, and to pay the expenses of serving refreshments, as has not been done before. Reserved seats will be on sale and on after April 10. Apply for them at the Union between 1 and 2.

MR. S. HARFF, 1909 CONDUCTS RESEARCH

An interesting piece of research work is now being carried on at the Institute by Maurice R. Scharrf, '09, graduate student and assistant to President MacLennan, on the effect of ultra-violet rays on living organisms. The experiments are being conducted with a view to determining the practical value of these rays in destroying bacteria and other organisms in air and liquids.

GREAT ELECTRIFICATION PROJECT

As part of its great electrification project for eastern Pennsylvania, the Lehigh Coal & Navigation Company will build a \$10,000,000 power plant, one of the largest in the country. It is proposed to make electricity at the mouth of the mines and transmit it over high tension lines to cities and towns many miles distant.

THURSDAY MARCH 23, 1911

Such communications as that of the Prom Committee today should be entirely unnecessary at an Institution like Technology. It serves to show that in spite of the fact that twenty seven per cent of the student body is made up of college men, there are some Tech men who have not yet outgrown the high school stage and have not yet "put aside childish things."

COMMUNICATION

Editor of the Tech:

If we may again use your valuable space for private complaint, I would like to call attention to the disfigurement of one of the Prom. posters in the Lowell Building. The poster as originally put up, read as follows:

PROM

Subscription	\$5.00
Taxi	2.00
Flowers	0.00

Total \$7.00

Now, some wag, who no doubt thought he was quite clever and funny, saw fit to make the flower item read \$10.00 and the total \$17.00, by inserting figures. The Prom Committee encourages humor as much as possible and is always glad to hear the boys laugh, but it does seem that this particular piece of wit is not only misplaced but dangerously misleading and as such hurts the Prom—by creating extravagant ideas as to cost. Again we state most emphatically, that no flowers will be allowed on the floor, and we hope that the tampering with Prom posters will cease.

Prom Committee.

CHOCOLATE SOLDIERS

There will be an exclusive little grub feast for those who appeared on the stage on the evening of St. Patrick's day in the up-stairs dining room of the Union, at 6.30 o'clock next Tuesday evening, March 28. Don't fail to save the night and get there early enough for the Opening Chorus

PICTURES of the complete troupe of Chocolate Soldiers taken in full dress on the night of the show may be had by those desiring them. See Pearl for the proof.

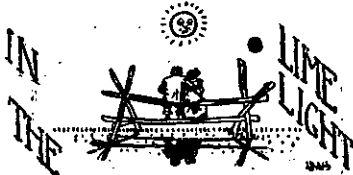

COMMUNICATION

It seems most unfortunate that Junior Week should be the time selected for a trip connected with school work. The whole idea of Junior Week is a time of relaxation, from work, and all that goes with it. The only social activities of the year, take place at this time and the whole student body should be free to drop work and enjoy a few days of social pleasures.

The contemplated trip of the senior class of Electrical Engineers will occupy the whole of Junior Week and thus cause anyone who goes, to miss the whole round of activities—Technique Rush, the Spring Concert, the Show, and the Prom.

If the trip is desirable from its educational value, surely time should be taken from elsewhere, rather than from the only respite from the long Grind of the Second Term.

"A Short Circuit from the E. E. Lab"

Burton's individuality and personal touch appear very conspicuously in the Tech Show poster.

If you don't ask her to go to the Prom pretty soon, someone else will. He who hesitates is lost

Do you happen to know the man, who concocted the Electrolytic Dissociation Theory? He will speak at the Institute shortly.

Why was it so quiet in Mil. Sci. the other day? Was the visitor preparing for a call to Mexico? There's a reason.

Marching before the Armory balcony at Drill yesterday, the command "Eyes, right!" seemed to also mean "Eyes, Up!"

Got a stunt for Musical Night?

The Prom promises much.

The Technique Electoral Committee seems to be in a deadlock. Come to life.

There are "star-gazers" in courses other than 1. Downtown is a favorite observatory.

Mr. Carb's play, "Things We Create" places him very much in the limelight. The red light now, operator, please.

AERO CLUB TO COMPLETE IN COLLEGIATE MEET

Will go to Squantum Today in Preparation for Meet with Seven Colleges

At the meeting of the Aero Club last night, it was decided to begin moving the three machines of the club to the Atlantic Aviation Field. A glider meet is to be held there on May 4, 5, and 6. The club will begin experimenting on the new gliding slope immediately. The manager of the field has arranged to take care of the aeroplane and two gliders. A huge new thirty-three foot glider has been procured and will be used in the glider meet. The aviators will be trained on the old twenty foot glider. It was decided that six aviators were needed to train for the coming meet. The novel ten-horse-power engine of the club was exhibited last night. The engine has four stationary radical cylinders of two and one half inch bore and stroke. It runs on the two cycle principle and is air-cooled.

ERECTION OF STADIUM FOR YALE TO BE DECIDED

Question Referred to Committee of Alumni Advisory Board

By vote of the Yale Corporation, the much-mooted question of the erection of a stadium has been referred for decision to the alumni advisory board; they plan to handle the question through a committee of seven. The whole question will be considered under four heads: First, the desirability of expending a large sum for a stadium to be used for important athletic contests. Second, if desirable, in what form it should be built. Third, what plan for financing the undertaking would be most satisfactory and not interfere with other more important needs of the university. Fourth, if the stadium is undesirable, what means should be adopted to make attendance at intercollegiate contests more convenient, and also to aid in the financial support of athletics. The committee will be appointed by Chairman Henry T. Rogers, '66, of the advisory board; the decision of the committee will be final. It is imperative that the matter be immediately investigated, for if definite plans are adopted, construction must begin before summer, in order that the huge structure, probably seating 50,000 people, be completed for the Harvard game in November, 1912.

COLLEGE NOTES

The Naval Academy athletic authorities have received definite word that Yale will be unable to send a crew to Annapolis this year. The reason given was that it is almost certain that the Yale crew will enter a triangular race, with Cornell and Princeton as the other contestants, some time before the Harvard race at New London. It is regarded as nearly certain, however, that Syracuse will send a crew to Annapolis, the probable date being May 20.

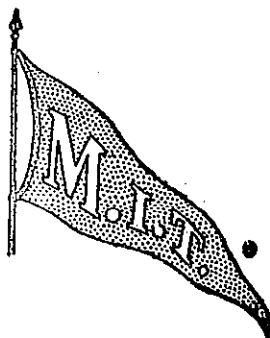

NEW LIBRARY FOR HARVARD

Harvard University has completed plans for a new central library building and for the removal of the books now in historic Gore Hall from the roof of which the American Revolutionists took the lead to make into bullets. The necessity for a new library building and for more commodious quarters for the chemical laboratories, a new freshman dormitory, and an up-to-date gymnasium has led to the appointment of a committee to secure plans and proposals for an active season of building.

SCHOLARSHIPS

March 20, 1911.
Each applicant for a scholarship (except
a State scholarship) for the ensuing year,
should hand in his application blank at
the Registrar's Office, and leave his name
before April 4th on a special card enclosed
in an envelope, at the Registrar's Office.
(Blanks and cards may be obtained at
the Registrar's Office.)

Applications dated since January 1st
need not be duplicated but the applicant
should notify Professor Dewey in writing
if he desires to apply for a scholarship
for next year.

With the name state the class, course
and all free hours for consultation. Each
applicant will be notified through the
"Cage" in regard to date selected for
consultation. Students applying, there-
fore, should inquire at the "Cage" for all.

STATE SCHOLARSHIPS. Applica-
tions should be made to the State Board
of Education on blanks to be furnished
at the State House.

While the State Board of Education
has full control of the award of the State
scholarships, it is customary to submit
all applications to the Faculty for endorse-
ment as to standing, for advice as
other data in possession of the
Faculty may warrant. For this reason,
while the Scholarship Committee has
no authority to request conference or
further information from applicants for
State scholarships, it will always be glad
to receive and consider all information,
that may be furnished. In any case,
students intending to apply for State
scholarships are requested to notify the
Registrar to that effect.

Walter Humphreys,
Registrar.
