ALL SELECTIONS ON PROGRAM HAVE BEEN THOROUGHLY PRACTICED BY CLUBS.

FURTHER information has now been made available for the Spring Concert which occurs on Wednesday evening the 19th, and the sale of tickets up to date has been so successful that the management has announced that the rule will close-to-day. To insure against the possibility of a crowded floor, the number of tickets not taken up was limited to four hundred only thirty of that number now remain unsold, so all who care to be present, for any reason, has put off or delayed the purchase of his ticket, is urged to avert a possible disappointment by securing a front place in the line in time.

Chair, the Reoit, has been given charge of the decoration of the wall. Arrangements have been made with Fox and Westover for the catering, and Potts' Orchestra has been engaged to furnish the dance music for the evening.

COACH HUNT WILL BE AT THE PRESENT AT THE FIELD REHEARSAL TO HELP POLISH OFF THE LAST FEW IMPERFECTIONS THAT MAY REMAIN IN THE PROGRAM. THE MUSICAL CLUBS HAVE PRACTISED HARD AND CONSIDERABLY ON THE NUMBERS THEY WILL RENDER. THE STEIN SONG WILL BE PLAYED AS THE LAST PIECE OF THE EVENING AND EVERY ONE ON THE FLOOR WILL JOIN IN.

THE DANCE WILL BEGIN Sharply AT EIGHT O'CLOCK.

STEIN SONG TO BE RENDERED

NO EXACT FIGURES OF ENTRIES GIVEN, IT IS SIMPLY SAFE TO SAY THAT THERE WILL BE A RECORD NUMERICAL TOTAL AS HAS BEEN HIGHEST IN PREVIOUS YEARS.

THE TECHNIQUE BOARD SINCERELY
gives the following notice that no book will be sold for any reason, has put off or delayed the purchase of his ticket, is urged to avert a possible disappointment by securing a front place in the line in time.

There was some talk not

long ago about cheer a

Cheer? petition, the matter was dis

cussed in the meetings of the Institute Committee and as such a committee was appointed to take care of the matter.

The committee has been decided unsuccessful in its campaign, meeting with very little little co-operation and enthus

iaism on the student body. Evidently the undergraduates are not especially anxious to have new yells or they would be more successful in working up ideas and handing in their suggestions to the com

mittee.

The apparent indifference of the student body is however no excuse for the apparent indifference on the part of the committee itself. No posters have appeared on the bulletin boards and only one short appeal has been urged for publication in the Tech. We are perfectly willing and anxious to do what we can to assist any such com

mittee, but we do not feel that we are entitled to do all the boosting if the com

mittee itself is not enthusiastic.

If competition is to be continued, it should be with it with a definite date as the closing date. In this way, the competition will be definitely such and will be creditable to the Institute.

Exciting gas in the economics building at Michigan caused a race in the economics classes for to days.

M. C. Murphy famous Pennsylvania trainer and coach declares that Pennsylvanians lack half her eligible football men every year, through the one cause of the student body. He attributes it to the fact that too many of the men live at home.

Students of Civil Engineering

You should read the ENGINEERING RECORD in connection with your studies.

It describes engineering works which exemplify the best practice in design and construction.

It will keep you in touch with the work of the leaders in all branches of civil engineering and construction.

It will make clear the practical applications of the engineering principles you are studying.

The RECORD is devoted exclusively to subjects of interest to civil engineers.

Its volumes contain an immense amount of valuable technical and practical information on engineering work.

You should have this information on file for future reference.

Some day you will need it in your work.

The Engineering Record is published weekly at $3.00 a year

INK SLINGERS NOW ON

THE HOME STRETCH

Another Victory Gives them Confidence for the Big Game Next Week vs. Technique, 1912

Leased wire to THE TECH.

Last night The Tech's Ink Slingers won their game from the Thorndike in such style they were over-awed with their scoring and the other good things that could not be appreciated by the men on the team. They played before a big crowd of enthusiasts who cheered them all the way on every play. The score was twenty-five to eighteen and there were no errors at all made by The Tech. Every man is playing the game of his life and they are in condition to give the Technique bunch a pretty hard go for their money.

The Old Salt who is playing the third bag put up a clean exhibition of handling the hot ones that came his way. There are several of these when they are in the zone and these fell off the old bag. The whole string of pitchers are working in fine shape and any one of them is ready to go in and train the young book team without any trouble. The outfield will consist of the men who may any lazy bat who can get, for it is expected that there will be no work to do out there. Our pitchers are not the kind that can be hung up all around the lot and the infield isn't letting anything go through it for the outfielders.

There was nothing of great importance at the Thorndikes last night except the fact that the third baseman was unable to walk off the field. He strained something and the effect was similar to some of the men who have often been seen on that diamond in the past. They were given extra by all the writers for putting up the best game that has been played during the whole season on those grounds. The team has as a rule been well received in every place where they have showed and they have not to have the experience of being run out of a town, because they were putting up such a bad game that they could not keep any longer. They seem to have gotten team play down to a science and the new Manager is greatly pleased with the work that the men are showing on the playing field as well as their conduct off from it, in the theatre and other places where they are in the habit of spending their spare time. Many of the big league teams have men on them who get into a great deal of trouble in the course of a year but the Ink Slingers have had no such misfortune and have not had a single man locked up for any reason. The ordinary necessity causes that every ball player is bound in honor not to commit.

Manager Harold seems to be greatly pleased with the way that his new feature is working out and he has practically promised to start them in the first few innings of the big game on the nineteenth in the Back Bay grounds. He has called to the Captain that the grounds are coming into better and better shape every day and that the interest among the followers of The Team at home seems to be getting greater as the day for the opening comes nearer. It is probable that there will not be anywhere near enough seats for this game and so all those who are planning to go to this game should get in their applications early or they will surely have to stand up around the lines somewhere. The team leaves here in ten minutes for (the) Westrminister where they will play before a very distin- guished audience. There will be in all probability a number of errors from the Technique bunch on hand to get another line on the way the fellows are leaning up and it is to be hoped that they will play their best so that Technique won't get at all over-confident before the Game.

A club for the promotion of wire- less telegraphy has been formed at Har- vard.

It is estimated that the John Hopkins year book, The Hulahudoo, will cost $1,200.

A student at Utah was recently arrested for attempting to injure himself and locked up at his home. It developed later that he was only going to—uh—initiate stunt.
