VOL. XXX. NO. 139

BOSTON, MASS., WEDNESDAY, APRIL 26, 1911

PRICE TWO CENTS

## EVERYBODY COME TO HUNTINGTON HALL AND

### MUSICAL NIGHT WEDNESDAY MAY 13

Final Postponement Necessitated  
by Time Wanted for Preparation  
of Stunts

#### FACULTY INVITED

Expected that all will Bring Ladies—  
Ladies' Night at the Dining Room

Musical Night has experienced another and final postponement. This time it was because a number of the participants desired more time for preparation and so the Entertainment Committee has fixed the last date as Wednesday, May third. This will be the last entertainment of the year and most of the widest known members of the Institute will take part as well as the Musical Clubs and the Orchestra, two of the important student activities. Ladies Night at the Union dining-room has also been postponed to accord with the date set for Musical Night as it is expected that almost all of the men that come will bring ladies. The entertainment will be of the highest class and what is better will be absolutely free. This coupled with the fact that it is a fine chance to show Tech to a girl that has as yet never seen it will bring out a full house. The program begins promptly at quarter of eight in Huntington Hall, May 3 with a selection by the Glee Club, and from then until ten when the entertainment will be over there will be a constant delightful musical concert including everything from the most classical up to the latest Show pieces.

The Musical Clubs will give some of the Spring Concert music and the Orchestra will render several selections. The well known South American guitar player, L. R. O'Farrell, will accompany a friend for a solo. Z. Y. Chow and T. Hsi are going to sing and play some Chinese music. The singing requires special preparation of the vocal chords, so that their singing should be much appreciated. Some of the Show principals will be present and are expected to give some of the famous stunts that attracted so much attention in this year's production. Moreover the best bits of the Chocolate Soldier Minstrels will be given. O. B. Denison the inimitable will appear in a characteristic performance. On the whole, the program augurs well for a success as great as that of the Chocolate Soldiers.

The classes are to be seated together. The Faculty is cordially invited to attend and a section will be reserved for them. A section will be also reserved for the participants. The full program will be announced in *The Tech* at some later date, so for the latest news on the subject watch the news columns.

The doors will open at quarter past seven for the final general student celebration of the year. It is advisable to invite your friends immediately for concert, at which, as one of the posters has it, there will be heard "Echoes of the Best of the Season."

#### OFFICERS OF T. C. A. ELECTED YESTERDAY

At the annual election of officers of the Technology Christian Association, which took place at the meeting yesterday afternoon, the following men were elected:—president, Gerald M. Keith '12; vice-president, John Hall '12; secretary and treasurer, Hamilton Merrill '12. The officers will assume their duties directly and will make all preparations for active work next year. It is hoped that the Association next year, assisted by the services of a graduate secretary who will devote his entire time to the work

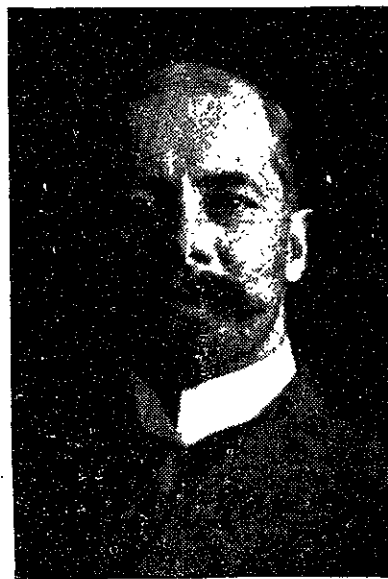

### MASS MEETING AT ONE O'CLOCK UNION COMMITTEE HUNTINGTON HALL CONDEMNS MISBEHAVIOR

Everybody Signs up To-day for that  
Trip to Providence with the  
Track Team

#### SPECIAL TRAIN SATURDAY NOON

Everybody Talks, Everybody Goes, and  
Everybody has a Grand Good Time  
First Time of the Kind at  
the Stute

Everybody at Huntington Hall to-day at one o'clock in the biggest student mass meeting in years. Why is the meeting? Well, the track team is going down to Providence next Saturday to beat Brown and that will be the only meet that it will be possible to go to for all the others are not only away from home but they are so far away that it is impracticable for the bunch to think of going.

DR. J. A. ROCKWELL.  
Speaker at the Mass Meeting

The New York and New Haven R. R. have given a very good rate for the trip of a dollar and a half per man provided that we can sign up a train full. This special train will run at any time that the crowd want to go and it will mean that for the first time in the history of the Institute, the students are really backing their teams in the way that the other colleges do. We will leave the Back Bay Station a few minutes after one and get into Providence in time for the first event of the meet. Coming back the train will leave Providence directly after the meet and it will get everybody into Boston in time for any engagements that may have been made for the evening. This means that you will get a good afternoon's fun and a nice trip with a big bunch of the fellows for a very small sum. The admission to the meet is only a quarter and that makes the total expense of the day one-seventy-five. There are no men here who can't do that much to back the only major sport that we have.

If you have a date with your girl for the afternoon or the evening don't let that bother you at all for we will see that you get back in time for the evening performance and so far as the matinee goes you can put her in the special car for ladies and take her to the meet. Any girl would be glad to go on the first big trip that Tech men have ever taken with their teams. That will hardly do for

Continued on Page 3.

Vote of Censure Requested from  
Institute Committee for Three  
Students

#### TO BE STRICT IN FUTURE

No Rough-house at all will be  
Tolerated in the Union

Yesterday's Union Committee meeting was conducted without the chairman as Dean Burton was not present. The principal business was the discussion of the rough-house that has lately been too noticeable in the Union. The committee has recommended that the Institute Committee send a vote of censure to three members of the Institute for improper behavior while in the Union. This is the first offence and therefore the names of the men concerned are not to be published in the Tech, but should there be a recurrence of the trouble the men will be denied the rights and the privileges of the Union altogether and besides their names will be published in *The Tech*. The Dean, as chairman of the Union Committee, will see to the enforcing of this ruling.

Henceforward the Union Committee will be strict in watching behavior in the Union than it has been formerly.

Among other things spitting on the floor is absolutely prohibited, and a man offending thus will receive when first observed a vote of censure from the Institute Committee. The members of the committee will look out very closely to find out who the offenders are, and it is hoped that this warning will be sufficient to deter men from breaking the rules of propriety.

Attendance at the dining-room is continuing very good, and so likewise are the cash receipts. Because of the postponement of Musical Night to next Wednesday, Ladies' Night for the dining-room has also been postponed to that date.

### CIVIL ENGINEERS' ANNUAL BANQUET

Held in Copley Square Hotel, Friday  
May Fifth—Imposing List  
of Speakers

On Friday evening, May fifth, the M. I. T. Civil Engineering Society will hold their Annual Meeting and Banquet at the Copley Square Hotel.

The results of the recent annual election will be announced during the evening. The Society has been most fortunate in securing as speakers, Professor C. Frank Allen, of the Institute; Mr. Louis K. Rourke, Commissioner of Public Works, Boston, and formerly connected with the Panama Canal; Mr. John F. O'Rourke of the O'Rourke Construction Company of New York, and connected with the raising of the battleship Maine from Havana Harbor; and Mr. James W. Rollins, of the firm Holbrook, Cabot, and Rollins. This is the last meeting of the year, and the banquet will be a very good one. The steward is going to furnish a \$1.50 feed for \$1.00. Tickets may be obtained from Hausman, McGrath, Powell, Stewart, Hathaway, Strachan, and Bryant.

### ENTRIES FOR BROWN DUAL MEET ANNOUNCED

Twenty-five Men Picked by Coach  
Kanaly as the Team for this Meet

#### TECHNOLOGY RECORDS MAY GO

Team well Balanced: Will Break Records  
if the Weather Man is Kind. Train-  
ing Table at Union To-day

Yesterday afternoon, Coach Kanaly gave out the choice of the men for the Brown trip and the list is to be found below. The team as it has been picked and now stands, on paper, seems to be strong enough to show the people of Providence some classy events and close finishes throughout the program of the afternoon. Hadley, the new man in the hundred, is traveling so fast that it takes Wilson's best to keep up to him. It is thought that Wilson may beat him out in the Brown meet but Hadley is coming up fast and will soon be able to show his heels to his team mate.

The half mile is a toss-up among our entries, but in the workout yesterday, Bylund and Marceau were in much better form than either White or Benson. This race should be close, though, and the more experienced men may come around into their best shape before the day of the meet and take the places. Germain and Watkins should do things in the mile, if one could judge from the race that they ran at the Field in the Spring Meet. It looks as if they should get a first in that event. If that day is fair and warm, they should break the Technology record, without much difficulty as they are now running better than record time in practice. Shedd, in the two mile, will also show some class and run a fine race. The Brown men ran well here in the distance event on last Field Day, but they will have to go some to get away from the speedy little freshman, particularly as Watkins will push him hard in an effort to make up for the defeat on the day of the spring meet.

The field events may give Brown a chance to come in strong in pi king up points, but Technology has some good men entered here as well as in the track events. We are pulling for three places in the pole vault and of course, everybody picks Dalrymple for the high jump. Hall should also take a place here for he has been doing much better of late. In the hammer throw, we have Metcalf, who is doing some eight feet better than the Technology record in practice. This

**DON'T** There will be a mass meeting **GET** in Huntington Hall to-day to **LEFT** arouse some enthusiasm over the meet with Brown this coming Saturday. As this is the only nearby meet of the track team this spring and as there are to be no varsity meets held at our own field, there should be no difficulty in obtaining a good crowd at the Brown Meet. Men interding to go, however, should signify their intention by signing up at the mass meeting to-day for reservations for accommodations, on the special train will be made directly. This is the one big chance to take a good trip to the games at minimum rates. Everybody is going, so don't get left.

**LIFE OF** The editors are very **MRS. RICHARDS** glad to hear that a life of our Mrs. Richards is about to be written and published in the near future. Such a biography will be of interest and inspiration to all its readers, and will do much to spread and maintain the influence of Mrs. Richard's enthusiastic personality and untiring zeal for service. Many of the readers of *The Tech* should be able to contribute material of interest and thus assist in raising a lasting memorial to one who has done so much for us.

### IMPORTANT LECTURE ON MARINE ENGINES

The Erection of Marine Engines Subject of a Talk by W. S. Newell

What promises to be one of the most interesting of recent lectures is to be given on Friday, between four and five o'clock, in 32 Engineering C. Mr. W. S. Newell will speak on "The Erection of

Marine Engines." Mr. Newell has for a long time been identified with the Bath Iron Works and the experience that he has thus derived qualifies him exceptionally to lecture on the subject he has chosen. His ability of presentation insures a comprehensive address.

All classes of courses XIII and XIII A are expected to attend. All other men who are interested may also be present.

### TRACK MEET vs BROWN

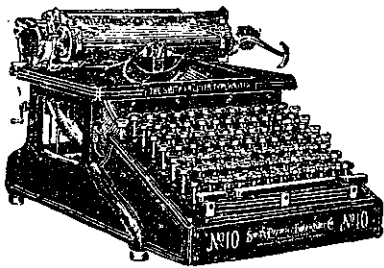

Continued from Page 1.

looks good for a place and a possible first. This noon the team will go on training table in the Union under the watchful eye of Steward Colton. This should put them right on edge and make them capable of their best efforts on the day of the meet. With a good day, a good bunch of rooters and the strength that we have on team there should be nothing to it but a victory for the fellows to bring back in that special train. The Team is very well balanced and should give the Brunonians a close rub even if they can not get away with the laurel. For the Brown Meet Coach Kanaly has picked the men as follows in the order in which they are centered.

The hundred yard dash : Wilson, Hadley, Thompson.  
Two-twenty : Salisbury, Guething, Thompson, and Wilson.  
Four-Forty : Salisbury, Guething, and Thompson.  
Half Mile : White, Benson, Marceau, Bylund.  
One mile : Germain and Watkins.  
Two Mile : Shedd, Watkins, and Earl Ferry.  
High Hurdles : Cummings and Fox.  
Low Hurdles : Cummings, Munch, and Fox.  
Broad Jump : Shepard, Hadley, Gould and McLeod.  
High Jump : Hall and Dalrymple and Gould.  
Pole Vault : Allen, Greenleaf, and Salisbury.  
Shot Put : Chamberlin and McLeod.  
Hammer Throw : Metcalf, Ruby, and Otis.  
Discus : McLeod, Chamberlin, Ruby, and Metcalf.

## Students of Civil Engineering

You should read the ENGINEERING RECORD in connection with your studies.

It describes engineering works which exemplify the best practice in design and construction.

It will keep you in touch with the work of the leaders in all branches of civil engineering and construction.

It will make clear the practical applications of the engineering principles you are studying.

The RECORD is devoted exclusively to subjects of interest to civil engineers.

Its volumes contain an immense amount of valuable technical and practical information on engineering work.

You should have this information on file for future reference. Some day you will need it in your work.

The Engineering Record is published weekly at \$3.00 a year

Over 2000 Pages of Reading Matter Per Annum

Special Student Rate, \$2.50 a year

**INTERSCHOLASTIC DRILL  
HELD THIS AFTERNOON**

Competitive Squad Drill starts at Two-thirty. — List of Entries.

The annual interscholastic prize drill will be held this afternoon at two-thirty at the Armory. There are four school squads entered, they being Lowell, Gloucester, Medford and Wakefield. The small number is accounted for by the fact that the drill this year will be by squads instead of individuals as has been the custom. This is a wholly untried plan around Boston and the schools have been slow to respond, although in many ways it is more advantageous than the old method, which was a mere matter of routine.

Captain Bookmiller is expected home from Washington for the drill. The usual weekly drill begins at two and the competitive drill a half hour later. There will be a squad from each of the Tech companies also on the floor for the competitive drill. Admission to the drill is twenty-five cents.

**LIFE OF MRS. RICHARDS  
TO BE PUBLISHED**

The following card was received at *The Tech* office yesterday, with the request that it be published. *The Tech* is glad to give space for this letter.

"Boston, April, 17, 1911

A life of Mrs. Richards is to be written with the approval of Professor Richards.

It is hoped that the story of her life may be of such a character that it will not only interest those who have known Mrs. Richards either personally or through her work, but will also serve to extend her influence and to inspire future workers.

Any material, such as letters, photographs, characteristic sayings and incidents, which will help to show her personality and her far-reaching interests and activities will be very valuable to the editor, Miss Caroline L. Hunt, and should be sent to her at 32 Eliot Street, Jamaica Plain, Mass.

ISABEL F. HYAMS,  
Chairman, for the Committee."

**MASS MEETING TODAY**

Continued from Page 1.

an excuse this time because everybody is going to take his girl along with him on the trip. Why, there are fifty-one co-eds and others who have come around signed up of their own free will, and it is suspected that some of them are suffragettes who are going along to try and convert the fellows to their cause. Be that as it may, they are going and so are you if you only make up your mind to it and tell your friends that all the sports are going. But the first thing for you to do is to come up in Huntington Hall at one o'clock this noon and sign that slip so that we may know whether we will have to have thirteen or fourteen cars on the train, Saturday noon. This is the only chance that you will have to sign and if your name is not on the list when all the fellows are out of the Hall to-day you can not go, that's all. We don't want any one to go who is not interested and who doesn't want to go. And further we don't want any one to sign who can't pay right up, for it costs money to run special trains and although we won't follow the example set by Technique and make you pay a deposit, still we want you to sign only in good faith. The number of sign-up slips is also limited and so if you sign it not wanting to go, it will make it impossible for someone else to go who wants to.

The track team is showing very good form and Coach Kanaly has predicted a score of sixty-two to sixty-four. The men who are to make the trip have been working faithfully and should show their best to the wearers of the Brown. The picking of the team has at last been made and the men who are to go on the trip are well worthy of all support that we can give them. Remember that the special leaves the Back Bay Station at 1.05 and we won't wait for anybody. Nobody goes who hasn't signed up either, so come around to-day at one and show your spirit and interest in the movement for a live student body.

SIX WORDS TO A LINE

IN THE LIMELIGHT

Be sure to come to the mass meeting  
to-day. They are going to give away  
free \$10 gold pieces. Honest!!

Last crack at "FRENZIED FRENCH"  
at Malden, to-night.

You want to wash those gloves before  
you come to the Armory to-day.

The squads will not be allowed to wear  
flowers while drilling. No, my dear sir,  
that's final.

Mass meeting to-day. Remember the  
pieces of eight.

Don't be the first to be excluded from  
the Union. Watch out for the Committee  
men.

Invite her now for Musical Night,  
next Wednesday.

And go to the Union to dine, just  
to show how you fare here.

Have you signed up for the Brown  
Trip? Sure, didn't you know that there  
were only six slips left? Better get on  
now.

When you get down to Providence,  
be sure that you keep your eyes on Wat-  
kins and Germain for that fast mile.

Train leaves at 1.05, Saturday. —  
Are you with us?

Don't forget that meeting this noon;  
it will be the biggest of its kind in years.

Who painted these signs last night?  
They are pretty bum, but you see the  
art department was on a strike.

Did you ever hear Dr. Rockwell speak  
to the fellows? No, of course you didn't,  
now is your chance.

If you stay in Boston, watch out for  
Metcalf's hammer for he might let it  
go in the wrong direction. Better not  
take any chances but go with the bunch  
and see it win the Brown meet.

CHEMICAL SOCIETY NOTICE

Nomination papers, signed by five  
members, for officers of the Chemical  
Society for next year, will be received at  
the cage until May 6. — To be elected—  
President, Vice-President, Secretary,  
Treasurer, and member of Executive  
Committee.
