MUSICAL NIGHT, 7.45 P. M., HUNTINGTON HALL.

Yesterday afternoon, forty men went on the last stage of a short Excursion trip to South Framingham to inspect the Robb Boiler Manufacturing Company's Plant. They were accompanied by Prof. Haven, Mr. Wm. Robb, President Robb of the Company and Mr. Condon, President Robb of the Company met them at the office. They were taken to the drafting room of the Plant. They were shown the offices of the company by Mr. Haven, the President of the company.

On April first, A. G. Herreshoff, manager of the crew, received a letter from the United States Naval Academy advising them that a New York Yacht Club had engaged the large steamer "Dewey" to go to the Philippines and the crew was asked to proceed. The name of the steamer was changed to the "Dewey" and the crew was to be engaged for a month. The steamer was to go to the Philippines and the crew was to be engaged for a month. The steamer was to be engaged for a month.

The work is to be passed to the newly formed crew. The work is to be passed to the newly formed crew. The work is to be passed to the newly formed crew.

The next operation that proved of great interest was the beading of the tubes. The tubes were heated in crude petroleum and a beading machine was used. The tubes were then beaded over with a hand plunger. The tubes were then beaded over with a hand plunger. The tubes were then beaded over with a hand plunger. The tubes were then beaded over with a hand plunger.

At lunch that day, eight hundred midshipmen rose and gave the N-A-V-Y "Roman March". The crew was surprised at the "military" spirit of the crew and that they had put up a wonderful showing at the "military" spirit of the crew and that they had put up a wonderful showing.

The complete program has not yet been arranged but there will surely be many interesting features, including Don't, the "Technology" by the Glee Club. The Musical Club's program will probably be two hours. The entertainment will be chiefly Spring Concert Music as far as possible.

LADIES INVITED

To Take Place at 7:45 P. M., in Huntington Hall. A very interesting Program Arranged

Students of Civil Engineering

You should read the ENGINEERING RECORD in connection with your studies. It describes the work which exemplifies the best practice in design and construction.

It will keep you in touch with the work of the leaders in all branches of civil engineering and construction.

It will make clear the practical applications of the engineering principles you are studying.

The RECORD is devoted exclusively to subects of interest to civil engineers.

Its volumes contain an immense amount of valuable technical and practical information on engineering work.

You should have this information on file for future reference. Some day you will need it in your work.

The Engineering Record is published weekly at $3.00 a year

Over 2000 Pages of Reading Matter Per Annum

Special Student Rate, $2.50 a year

I have stubs, bearing the following
names and will return money paid for
the Brown trip tickets to the men on presentation of the check. Men whose
names are not here please see man who
sold you the ticket. Names as follows:
R. D. Sampson, J. J. Strachan, D. L.
Sutherland, W. Schaeffer, R. F. Barrette,
R. M. Freeman, E. W. Mason, W. W.
Mudge, Jr., W. W. Warren, F. P. Capen,
A. Loeb, P. F. Rodeheifer, H. A. Job man,
L. R. Block, and R. C. Breet.
(Signed.)
L. W. Chandler, Asst Ed.

Continued from Page 1

There is no need of my going with you.
You follow your crew and run every detail
of thing you see. We went down and saw
a wonderful laboratory and thanks to the
old "Nutte" we were not entirely left
visitors, although there were a number
of things we had never seen before.

We found a full sized model of every type
of steam engine, gas engine, boiler, pumps,
turbo, dynamos, etc. Nearly all the
engines, turbines and pumps were run by
compressed air. They even had a
complete quadruple expansion steam engine,
with boilers, service condensers,
etc. Everything was set up just as it is in
one of the battleships, even this big unit
was run by compressed air, one to study the function and action of
each part.

A fifty-foot working model of a
floating dry dock containing a battleship
was built and operated. We came
across the Liptal incline, 7 1/2 H. P.,
50,000 R. P. M. geared to a centrifugal pump
just as we have in the Pierce labor-
atory. The greater part of one after-
noon was spent in a submarine where
every detail was fully explained to us.
From every standpoint the trip was
deserves. We were entertained royally.
Nothing was too good for a Tech man.

MUSICAL NIGHT

Members of the Faculty and invitation
Staff with ladies are cordially invited to
attend Musical Night. A section will
be reserved for them.

Undergraduates, with or without ladies,
will please go to their respective sections.

A section will be reserved for the Mu-
sical Chorus, orchestra, and individuals
who are to take part.

The doors will not be opened until
7:15 and the performance will begin at
7:45 on time. Men who are to usher
will please report about 7:00.
