That the $100,000 per year appropriation to the Institution from the state of Massachusetts for the period of ten years is entirely merited was again demonstrated yesterday when the appropriation bill passed its third reading in the House of Representatives. The attitude of the Representative was that it is merited and with the favor that the bill has met with since its introduction, the Senate bill was introduced into the Senate early in January and was at once referred to the Joint Committee on Education. This Committee held a hearing on February seventh and made an unanimously favorable report. The Senate then referred the bill to the Ways and Means Committee on February twentieth and it was given an unanimously favorable report. In the Senate, it was then amended by provision for eight free scholarships. After the passage of this third reading, March twenty-eighth, it was sent to the House of Representatives, and referred to the House Committee on Ways and Means which reported favorably upon it. This report carried with it an amendment that the Institute be required to have scored, at the end of five years, one million dollars from other sources. The bill with the amendment passed the second reading in the House on April twenty-sixth. The third reading of the House Representatives was passed yesterday afternoon.

The bill will now be sent to the Senate for its approval and enactment, and then it will come to the Governor for his signature. After that, the law will be in force.

The following steps of the bill's progress are but matters of form and the culminating event will witness the consummation of the worthy project.

RESERVED TECHNIQUES
MUST BE CALLED FOR

Delay in the Claiming of Books is Holding up the Final Settlement for Year

It is earnestly hoped that all men who signed up for Techniaque will make it a point to get their books as soon as possible. It is delaying the Tech Committee in getting accounts settled in time. Every man who signed his name to a Technical is in turn held to keep his word, just as the Committee for him. This simply means that all those who sign up to tell those books, it feels that they must help the Committee, and on the other hand, the Committee must help them.

Therefore it will be much appreciated if all men who have signed up, will come around to the office of the Tech Committee and get their books.
THE TECH

Students of Civil Engineering

You should read this near to the Engineering Record in connection with your studies.

It describes the engineering works which exemplify the best practices in design and construction.

It will keep you in touch with the work of the leaders in all branches of civil engineering and construction.

It will make clear the practical applications of the engineering principles you are studying.

The RECORD is devoted exclusively to subects of interest to civil engineers.

Its volumes contain an immense amount of valuable technical and practical information on engineering work.

You should have this informaiton on file for future reference.

Some day you will need it in your work.

THE Engineering Record is published weekly at $3.00 a year

Over 2000 Pages of Reading Matter Per Annum.

Special Student Rate, $2.50 a year

CIVIL ENGINEERING ASSISTANT GOES TO PANAMA

Mr. Morse W. Rew left 12:00 P. M. last night for a Three Weeks' Trip to the Canal

Being chosen from among the instructing staff of the Civil Engineering department of the Institute, Morse W. Rew, assistant in this course, will accompany Charles W. Eaton on a three weeks' trip to the Panama Canal. Mr. Eaton is a former Institute student and a benefactor of the civil engineering department. Mr. Eaton recently visited the Institute with the intention of choosing one of the civil engineering department to accompany him on a trip to the Canal and Mr. Rew was chosen. Mr. Rew will have all expenses paid. He left last night at mid-night.

Mr. Rew is well liked and esteemed by his associates and highly thought of by all his former friends. The trip his trip will be enjoyable.

Mr. Rew was interviewed last evening by a large number of friends, and at the time of the departure seemed in the best of spirits over his good fortune.

Mr. Rew's plans are not yet known as yet but he will return about May 29, in time for the annual Lena and will at that time have much of interest to relate of his experiences.

LAST DAY TO VOTE FOR C. E. SOCIETY OFFICERS

Ballots Due At 4 P. M.

Members are Urged to Pay up for the Dinner-to-tomorrow Night

If all those who have signified their intentions of going to the annual banquet to-morrow evening will get their tickets to-day, the officers will be saved much trouble as the guarantee must be given to-night. Everything points to a large attendance and as the entertainment is varied and interesting, a most enjoyable evening is predicted. Several surprises are promised for those who attend.

Therefore leave your ballot at the Cage for the final exams, and will at that time have much of interest to relate of his experiences.

NEW YORK STATE MEN TO MEET TONIGHT

Hotel Plaza to be Scene of Immense Affair—Large Attendance Expected

This evening will be a big night for the men from New York State. The officers of the Tech and the officers for the year 1911-1912 will be chosen.

The place of the festivities will be the Hotel Plaza and a most enjoyable social evening is anticipated. It is expected that a large number of fellows will be present, as the meeting of the club in New York is the first of the season have been sent to all men over the Empire State.
