A statement of past season's work and finances was made.

Engineering paper discussed.

Importance of consultation of societies to be made.

A meeting of the recently elected officers of the Civil Engineering Society was held last Tuesday afternoon and after stating the reasons for the meeting, President Powell gave a resume of the week's work of the society during the past year and the financial conditions at the present time.

The advantage of an early start in its work, by the Program Committee, was pointed out and the hope expressed that the members would do as much as possible during the summer so that by the coming year's time the entire program might be completed as nearly as possible by the time the fall term opens. It was the opinion of the officers that the Vice-President should be Chairman of the Program Committee, and an amendment to the Constitution to that effect was made as soon as possible.

Seventeen members held two weekly meetings each month. If possible, members and officers will alternate with afternoon meetings.

The aim is to keep the incompetent out in college, but the unfortunate.

Lehigh University has recently devised a scheme for helping out those students and preventing them from having to pay extortionate prices for coaching. The method is to hold a separate department in charge of second-year members of the faculty holding open questions for consultation with students seeking assistance. The idea is not so much to enable the student to pass an examination as to put him on his feet and help him to handle his work consistently. The aim is to give him a better knowledge of the subject of study and the best way to accomplish his work.

President Drinker's explanation of the system is substantially as follows — the system was devised in order to enable the number of students to have available the most eligible means of study and the best way to accomplish the best results for their individual work.

The variety of help that assistance will always be needed in involves payments of from $1.00 to $5.00 an hour for examining a paper or examination. While some students believe in the coaching schools and systems, many do not. The idea is not to weaken self-reliance, but only that amount of assistance be given a student to enable him to work on his own and get by himself.

The aim is to teach the student the proper way to accomplish the best results for himself, on his own, and for himself.

A. SAYRE, Chairman of the Department of Chemistry, has been engaged in the same subjects in which he hails from Marlborough, has a stunt that will take place. "Charlie" Burnet, who hails from Marshfield, has a stunt entitled "Mo and Minnie," which is sure to cause a great deal of excitement. "Charlie" Burnet, who hails from Marshfield, has a stunt entitled "Mo and Minnie," which is sure to cause a great deal of excitement. Darrow will probably do a gymnastic stunt, and Fryer will be there with some red hot stories. Barnes will ask a few of his favorite questions and Dennison will tickle the ivories with a few chords. Ismay will be there with a few questions and Dennison will tickle the ivories with a few chords. Fryer will be there with some red hot stories. Barnes will ask a few of his favorite questions and Dennison will tickle the ivories with a few chords.

The annual banquet of the Electrical Engineering Society will be held this evening at the Hotel National. This will be the greatest social success of the year. The committee in charge of the entertainment has been putting forth their utmost diligence and activity in making elaborate plans for the affair.

Sailhard, H. Fryer, O. B. Dennison, 1911, will arrive on time.

The dinner will start at 6.30 sharp. A good dinner is promised by the manage-

Students of Civil Engineering

You should read the ENGINEERING RECORD with exactness by your studies.
It describes engineering works which exemplify the best practice in design and construction.

It will keep you in touch with the work of the leaders in all branches of civil engineering and construction.

It will make clear the practical applications of the engineering principles you are studying.

The record is devoted solely to sub-exists of civil engineering

Its volumes contain an immense amount of valuable technical and practical information on engineering work. You should have this information on file for future reference. Some day you will need it in your work.

The Engineering Record is published weekly at $3.00 a year Over 2000 Pages of Reading Matter Per Annum

Special Student Rate, $2.50 a year SEND FOR SAMPLE COPY TODAY

To-morrow's TECH will be invaluable to all men who are taking the Subject of Business Law. Through the kindness of Mr. Allens, the Lecturer in that subject, The Tech will publish to-morrow the Business Law Final Examination given the past four years. This will give the class a chance to find out what sort of an examination they may look for a week from Monday morning. The Tech can not give positive assurance that the Exams contain the same questions that the Examining committee will ask, but we advise and buy one just the same. This is inside information and don't fail -o

Annual Biological Dinner Announced

Several Prominent Speakers Secured
Prof. Sedgwick Talks on London Water Supply

On Thursday night, the Biological Society will close the year with a banquet which promises to equal the farewell dinner to Prof. Sedgwick.

The usual attractive program will be given and some of the events will prove very surprising and interesting. After the dinner, many prominent professional speakers will be introduced and should prove equally interesting. Prof. Sedgwick will be the last speaker, his subject dealing with the London water supply that he was interested in last summer. Much interest is displayed by the members in this subject and Prof. Sedgwick will, therefore, go into details. At this meeting, the annual election of officers will also be held.

The Wright Brothers are lending an airplane motor to the Institute Faculty and it is to be tried in each one to test their relative merits. Prizes will be given and some of the events will prove equally instructing. Prof. Sedgwick will be introduced as a speaker.

To-morrow's TECH will be invaluable to all men who are taking the Subject of Business Law. Through the kindness of Mr. Allens, the Lecturer in that subject, The Tech will publish to-morrow the Business Law Final Examination given the past four years. This will give the class a chance to find out what sort of an examination they may look for a week from Monday morning. The Tech can not give positive assurance that the Exams contain the same questions that the Examining committee will ask, but we advise and buy one just the same. This is inside information and don't fail to take advantage of this tip. The edition on this will be limited, so come early and avoid the Rush. Not more than ten news copies to a customer.

ANY LAST CALL FOR THE TECH'S DINNER

All who intend to attend the Annual Banquet of The Tech must sign up on or before tomorrow, that is, all who have not signed up on that day, will be counted out Friday evening. The banquet will be promptly at 6:30 p.m. in order to get there early and thus not interfere with any one's work or any other engagements. The price to those eligible, as per list in the lower office, will be fifty cents, all others $1.50. Mr. Sullivan, the City Editor of the Globe, finds it impossible to be present on account of a business engagement, but the Committee have been fortunate in securing in his place, Mr. George B. Gavin, assistant Day Editor of the Boston Globe, who can tell many interesting tales of Newspaper work and may be a source of much information.

EXCHANGE NEWS

Purdey has a new hydraulic laboratory with a floor space of over 8,500 square feet.

Dr. S. N. Reep of the Sociology department of the University of Minnesota is planning for a class in European travel this coming summer. While the tour is not directly under the auspices of the university, it will consist largely of Dr. Reep's students and will begin sometime in June. All of the important cities of the old continent will be visited, including London, Paris, Rome, Berlin, Venice, Milan, Florence, Edinburg, Glasgow, Geneva, Cologne, and many others.

Dr. James K. Patterson, President of the University of Kentucky, has recently retired. In point of service, he is the oldest, college president in America, the duration of his career being forty years.

Wisconsin University has an arrangement by which all students may have the privilege of medical advice, calls and medicine at the rate of $1.00 per semester.

A double quartette from the Music department of the University of Colorado is to make a tour of that state in the spring.

The present enrollment of students at Cornell is 3,146, an increase of 132 over last year.

The English department of the University of Washington is offering a prize of ten dollars for the best original composition on the character of Hamlet.

One thousand four hundred and eighty-two periodical publications are regularly received by the libraries of the University of Michigan.

A prize of one hundred dollars has been offered in the University of Michigan for the best poem by an undergraduate student.

Kansas University has, according to reports, suspended four of her students for crooked work in class politics.

A lively monkey, intended to be used for dissection, got loose recently in the biology laboratory of Minnesota University.

Freshmen at the University of Wisconsin are not allowed to walk on the campus. They are compelled to run from building to building with their caps in their hands.

Manager Mack of the Grand Opera House of New Haven has asked the Yale students to co-operate with him in fighting the ticket scalpers. One speculator has been arrested.

Sophomores at Lafayette a short time ago attended a theatre performance, but Baston's police force of two officers persuaded them to cut short their approval of the show.

An Amateur Detective Association has been formed at Purdue which has for its object the search, discovery and exposure of all various acts which have been defined as crimes by the laws of the state, and will cover up his crimes as far as possible. The other members are to do the Sherlock Holmes act, and prove the crime was committed.
