Many Men Express Opinion on the Action of Athletic Governing Alumni Body

INSTITUTE DISAPPROVES
ADVISORY COUNCIL

Basketball has taken up most of the student body's waking and sleeping hours for the past twenty-four hours, and it seems likely that the sport will continue in the spotlight for some time to come. A great many men in and around the State have expressed themselves with much less enthusiasm on the matter, and the opinion all is well different from that voiced by the Advisory Council when it passed the motion which made basketball pass out of the Arsenals and Armories at Technology.

Captain-elect R. S. Schar, 1912, in telling of the action of the Council, said of his experience at Lafayette College in Pennsylvania, which he attended before coming to the Institute. There the sport was abolished by action of the Alumni Body and Faculty, but it made no difference to the men on the squad; they paid no attention to the ruling and continued to play their games even in the face of expulsion, which was finally threatened by the Faculty as a penalty for playing. He said that the matter had not been taken up fairly in his opinion and that it was sure that the men here would show the same feelings in a very satisfactory way when they were given a chance through the petition.

All the men on the team and on the squad of last year are eager to play if they can only have a chance to play. They are confident that they can make a much better record than they did during the past season. There are a large number of men who will be candidates for the team next winter already at the Institute and there are always besides these a number of freshmen who want to play.

In fact, many men come here because of the chance that they get to play basketball.

However, the manager-elect, has a schedule of dates arranged to complete that will be very attractive and should allow the men on the team a chance to play their games and at the same time get the full amount of time to study. There may be some difficulty in cancelling the three, although of course it can be done if it is necessary.
