Sophomore team, in spite of the third period, the ball actually floated game at times took on the likeness mushy marsh. The track gave a life-a lake, surrounded on all sides by a of the flood must have seemed to Noah. to the spectators like the beginnings in the fourth period the Sophomores territory throughout the third period. they kept the ball in Sophomore ter- gained slightly.

Although the Freshmen had lost their second half with a dogged determination that held their oppon- ents to few gains, and after a touch- down, carried the ball to the other end of the field. From there they did not at any time threaten the 1913 goal, they played a strong game to the oppo- nent throughout the third period. In the fourth period the Sophomores forced a way to another touchdown, Wright carrying the ball for the final tally.

In the second of the big game resulted in an easy victory for the Sophomores, who dropped their opponents through the mud past their flag, making the final tally of two points. The relay race followed. As soon as the first two men had run it was evident that 1914 was outclassed. With almost no water between them and their lead- ers, it was no contest. The Freshman against the Sophomore team, in spite of the wretched condition of the track, which almost turned the run into a excursion, went in 1 hour 35 minutes of breath. To all who had attended the record, much interest centers in it until the last man crossed the line.

The second trial of the big game

Flowing through mud and water-with a large excess of the latter-the Sophomore football team defeated 1914 by a score of 10 to 0. The field in many places was covered with water to a depth of six to eight inches, on which the football would plankly float, while bedraggled play-
ers gave weird exhibitions of diving in frantic attempts to secure it. Although it may not have given the spectators an exhibition of scientific football, yet it furnished a good deal of amusement, at least to those who were not directly interested in the result.

Lineup.

1913: H. M. H. Walter, B. C., Thompson, Smith, Conn, L. E., Miller.

**RELAY RACE WON BY 1913**

The sixth event of the day was the relay race, won by 1913. Alexander and Hurlbert started off at the sig- nal, Structure immediately took the pole and made a big gain on his rival. He passed to Sampson. Hurlbert made a poor pass to Withams. B. D. Sampson increased the lead given him by Strachan and gave the flag to Haynes. Wilkins in pass-
ing to Billie fell, owing to the muddy condition of the track as well as the flag passing to Haynes. Haynes passed to Conant, Conant to B. Sampson. Hiller made the first good pass of the race to Stubbs. Stubbs was a good one hundred and forty yards behind J. B. Conant who had passed to Sampson. Stubb ex-
pended to Smith and Sampson. Muthers, Bristow, Atwater, Bylund and Thompson ran in turn for 200. Held the lead over Bylund. Cram-

signal, Structure immediately took the pole and made a big gain on his rival. He passed to Sampson. Hurl-
bert made a poor pass to Withams. B. D. Sampson increased the lead given him by Strachan and gave the flag to Haynes. Wilkins in passing to Billie fell, owing to the muddy condition of the track as well as the flag passing to Haynes. Haynes passed to Conant, Conant to B. Sampson. Hiller made the first good pass of the race to Stubbs. Stubbs was a good one hundred and forty yards behind J. B. Conant who had passed to Sampson. Stubbs extended to Smith and Sampson. Muthers, Bristow, Atwater, Bylund and Thompson ran in turn for 200. Held the lead over Bylund. Cram-
Soybean oil is used for frying because it has a high smoke point and is stable at high temperatures. This makes it ideal for frying foods such as French fries, donuts, and fried chicken. Soybean oil is also used in the preparation of baked goods, such as cakes and pastries, because it helps to create a rich, moist texture. In addition, soybean oil is a good source of omega-3 fatty acids, which are beneficial for heart health.
PROF. AND MRS. SEDGWICK ENTERTAIN STUDENTS.

Members of Biological Society Enjoy Pleasant Afternoon in Brookline.

Despite the inclemency of the weather, quite a number of Biological Society men gathered at the home of Prof. and Mrs. Sedgwick yesterday afternoon, in response to their kind invitation.

Prof. Sedgwick conducted the men on a tour of inspection of his interesting anecdotes. The one about the fisherman and Go-lith's stone especially created much laughter. A tasty lunch was served while the conversation went on.

Prof. and Mrs. Prescott were assisted in entertaining by Prof. and Mrs. Prescott and others. The men were urged to call soon again, and no doubt they will use the opportunity.

SOUTHERN CLUB HOLDS ANNUAL RECEPTION.

The Southern Club held its annual reception Wednesday, November 2, at the Technology Club. Sixty men from Southern States were present. After being welcomed by President Mac-lean and Dean Burton the men enjoyed one of Mr. Underwood's delightful talks on the Mulns woods. Refreshments were served and the usual air of hospitality and good cheer of the South prevailed. All men desiring to join the Southern Club will please leave their names at the Cage for G. S. Watson, Secretary.

NOW OPEN.

Competition for Assistant Circulation Manager. This means you, Freshman.
J. HARTON NEALEY.

A cordial invitation is extended to the members of the Technology Chemical Society by the Boylston Chemical Club of Harvard to their next meeting, to be held November 8, at 6 P.M., at the Harvard Union. Mr. Barry will speak on "The Atomic Refraction of Chlorine." (27-28)

CENTRAL CHURCH, Berkeley and Babcock streets, extends an especial welcome to Tech men at all its services and classes. Morning service, 10:30; Discussion Class in "Present Views of the Bible," 12:15-12:45. Yearly service of music, 4:30. Informal Sunday evening services for students, 5:00.
