MAJOR BRIGGS

The Advisory Council really had its origin in a joint meeting of the Faculty, alumni and undergraduates held in the Fall of 1897. Among the Faculty at the meeting were Professors Cross, Allen, Richards and Tyler. The object of this meeting was to determine some way to regulate athletics at the Institute. Nothing was done immediately as a result of this meeting, but the work it undertook. Roots Cross, Allen, Richards and Tyler. The object of this meeting was to determine some way to regulate athletics at the Institute. Nothing was done immediately as a result of this meeting, but the work it undertook. MR. SETH HUMPHREYS

Next Meeting of the Society

To Be in the Form of a Smoker

The Executive Committee of the Biological Society have announced that the next meeting will take the form of a smoker, to be given at the Union on Wednesday, November 16th. The speaker of the evening will be Mr. Seth K. Humphreys, and the subject of his lecture will be "A Trip to Japan." The smoker, which is an illustrated one, was recently given before the Terrible Club, and created much favorable comment.

The总裁 Committee are working hard, too, so there is every evidence that the meeting will be an enjoyable one.

Some important business will also be taken up, and the meeting will be on sale in a few days.

The next meeting of the society will be a joint affair with other professional societies. The attitude of the Civil Engineering Society. This dinner will be held at the Union, and the speaker will be Prof. G. L. A. Buckley. Later on, the Biological Society will reconvene, and will have in a meeting with one of the speakers on the program.

The Athletic Council will have the meeting held at the Union on Wednesday, November 16th. The speaker of the evening will be Mr. Seth K. Humphreys, and the subject of his lecture will be "A Trip to Japan." The smoker, which is an illustrated one, was recently given before the Terrible Club, and created much favorable comment.

TUESDAY, NOVEMBER 6, 1910.

It is with sincere regret that every
Institute man learns of the resigna-
tion of Major Frank H. Briggs from the
Chairman of the Athletic Ad-
Corporation. In 1897, when it was
found necessary to form such an or-
organization to regulate the general
athletic interests of Tech students,
be required supervision and, if neces-
sary, to assume control of all funds
connected with athletic athletics.
Major Briggs was chosen chairman of the
Council. It was through his skillful
leadership and untiring work that the
new and united organization filled
the requirement so long needed, and
has become the supreme factor in ath-
letic supervision at Technology.
Through his leadership, the Advisory
Committee has so encouraged the ath-
etic activities at the Institute that
Tech now holds a most creditable po-
in the intercollegiate athletic, and
yet the main influence of the Council
has been to develop the many as
members rather than the few as
individual stars. Through Major
Briggs's leadership the Council has
so exercised its jurisdiction over the
finances of the athletic organizations
that now the Institute teams are
everywhere recognized and respected
also in a financial way. From the
very beginning Major Briggs has
been the prime factor in this move-
ment for the best organization of In-
stitute athletics, and has given him-
self so that the success of the Major,
but respect for his reasons as stated
clear, mellow and very pow-

Through an existing agreement
with the Republic of Cuba, the United
States holds in reserve certain tracts
for use as reservations. One
of these reservations is at Guantanamo
Bay, in the Province of Santiago, sit-
uated in the southeastern part of the
island.

This point is a very important one,
for, from it, a naval force could guard
the windward channel between Cuba and
Haiti. The other is at Bahía Hueso,
very favorite location commanding both
the Florida straits and the Yuc-
atan channel. Both the naval station
at Guantanamo and the reserve at Bahía
Hueso have an area of ten
square miles. The United States
holds jurisdiction over these tracts in
so far as the residents are con-
cerned.

There will be no rowing for Var-
ity or Freshman crews at Yale on
Saturdays during the fall. Training
state in the explanation.

The girls in the University of Utah
hold what was called a Greek lunch-
ion, seating themselves and eating
according to ancient Greek customs.

The University of Iowa now has
an honorary Freshman society called
The St Mi.

CONFERENCES.

Following out the same plan
that carried over so successfully last
year, Dr. Mann will conduct a series of
conferences for Tech men at the
Trinity Church Parish House (Claren-
don Street Entrance) on the follow-
ing Wednesdays evenings, at 7:30 P.
The meetings close at 8:15 sharp.
Each topic is complete in itself so
that it is in no sense a course of lec-
tures, and every one is welcome to
any or all.

"The Educated Man as a Churchman,"
Dr. Mann, November 2.

"The Place of Prayer in the Christian's Life,"
November 9.

"The Helpfulness of Holy Communion.
December 5—The Bible; its use and
abuse.
December 14—The Missional Ap-
pel.
