The dinner to be given the Class of 1914 will have a renewal of the time-honored toasts of the freshman class, including the traditional "Hurrah, here we go," which has been a popular feature of such events in the past. It is expected that the dinner will be a success, with many friends and alumni in attendance.

The Tech Review, a student publication, has released its volume number XXX, number 3, for the week of September 30, 1910. The cover features an ad for "Freshmen Hold the First Meeting of Year," with a photograph of a group of students. The advertisement says, "Dean Burton Delivers Welcome Addresses—Kreuger Chosen Temporary Chairman." The price for the issue is two cents.

The Tech Review also features a report on the "First Run Starts from Hyde Park—Train Leaves Back Bay at 2:19." The article describes the events of the first run, including the departure from Hyde Park and the return to Back Bay. The report mentions that the runs were a popular event among the students and that they helped to build community spirit.

The Tech Review also includes a section on "Fifteen Candidates Report for Rowing." The article reports on the selection of candidates for the rowing team, with details on the qualifications and experiences of the candidates.

The issue also contains a section on "Weekly Drill Periods—For the First Term—Report of Last Inspection." The article describes the activities of the Freshmen Battalion, including the weekly inspections and the preparation for the upcoming season. The report mentions that the battalion is well-prepared and ready for the season.

The Tech Review also features a section on "Institutional Affairs—George D. Tupper, Editor." The article includes a letter from the President of the Institute, outlining the current state of the institution and the goals for the upcoming academic year. The letter mentions the importance of maintaining a strong tradition of academic excellence and the need to continue to innovate and improve the educational experience for students.

The Tech Review also features an article on the "First Meeting of Year," with a photograph of a group of students. The article describes the events of the meeting, including the welcoming address by Dean Burton and the selection of Kreuger as the temporary chairman. The article mentions the importance of the meeting as a way to set the tone for the upcoming academic year.

The Tech Review also includes a section on "Custer, 1912, in Dayton Meet." The article describes the events of the Custer, 1912, in Dayton Meet, including the two trophies awarded to the winning team. The article mentions that the event was a popular event among the students and that it helped to build community spirit.

From among last year’s non-commissioned men Battalion was started Wednesday morning. Several Professors Have Given Their Views On This Matter

A brief outline of the purpose and character of these runs may prove of benefit to those who are interested in mid-distance running, but have never been on one of these runs, for it appeals not only to candidates for the cross-country teams, but to all who may chance to be present. A number of upper classmen, listened attentively to what the Dean had to say. Freshmen and Sophomores were also present, hoping to get some idea of what constitutes a sound meal. It is well known that some of the upper classmen, besides being good runners, are good cooks, and it was a treat to see them遗憾 the time that they had not come for a serious purpose, he cautioned them to aid in uplifting the good name of Technology. All unprofitable in inter-company competition is now receiving the disapprovers of every one connected with the Institute. The Freshmen are urged to make the most of the coming contest, because a strong healthy body is as necessary as a well-trained mind.

Dean Burton spoke of Military Drill and Freshmen gymnastics, and mentioned the fact that considerations of space prevented every member from taking part in the exercises. All of the men were expected.

At the address of Mr. Eldert, President of last year’s Sophomore Class, organized for the first time the Class of 1914. He issued a call for men to try for the various class teams, and his remarks were followed by the following notes, who also urged the men to try for positions on the teams: J. W. White, for football. E. W. DeWitt, 1911, for track. A. Eicher of the Class of 1912, editor-in-chief of The Tech, 1912, believes it is a good thing for such actions. It is thrown open to the men and its show-up for practice will be given a chance to work well. It is the duty of the entering class that a strong, healthy body is as necessary as a well-trained mind.

The dinner to be given the Class of 1912 is expected to receive a boost if some of the best taste of the Freshmen are present. A number of upper classmen, listened attentively to what the Dean had to say. Freshmen and Sophomores were also present, hoping to get some idea of what constitutes a sound meal. It is well known that some of the upper classmen, besides being good runners, are good cooks, and it was a treat to see them

Almost every Saturday during the fall the Hyde Park Volunteer Firemen run down into the outlying suburbs. Two or more are chosen, who are accompanied by the country, to run as nears and lay a trail of cut paper for the others, run as nears, and lie. This trail of cut paper for the others, run as nears, and lie. The dinner to be given the Class of 1912 is expected to receive a boost if some of the best taste of the Freshmen are present. A number of upper classmen, listened attentively to what the Dean had to say. Freshmen and Sophomores were also present, hoping to get some idea of what constitutes a sound meal. It is well known that some of the upper classmen, besides being good runners, are good cooks, and it was a treat to see them

The first meeting of last year's officers of the Class of 1913 was held yesterday in the Union. Eight men were present and the business of launching the class on its second year was discussed. According to the Class Constitution, managers for the Sophomore teams were elected. H. B. Peck was chosen for manager of the track team, and A. L. Milliken for tug-of-war. G. Mellon was last year's chosen to manage the football team for the present year.

It was decided that the first class meeting of the year should be held on Monday, Oct. 2, at one o'clock, in Huntington Hall. It is hoped that the entire class will be present, for much important work is to be considered. The election of the new officers will take place in the usual manner; at the coming meeting President Holmes will name the committee in charge of nominations. All nominations must be in by Oct. 9. Ballots will then be sent to all members of the class and these ballots must be returned to the Cage by Oct. 16.

No man's vote will be valid, however, unless he has paid his class dues. Treasurer will receive the dues ($1.00) between now and the 10th, and the dues may also be left at the Cage.

Yesterday noon C. E. Trull was elected captain of 1913's tug-of-war team and H. S. Birehard, captain of 1913's relay team. Trull will continue to conduct the Theatre on the night after old home day. Several ballots were cast. W. Nautilus and W. Rattenberger.

TRULL 1913 CAPTAIN

Yesterday morning at 10 o'clock C. E. Trull was elected captain of the Sophomore relay team for the coming year by the members of last year's team. Two votes were recorded, the first resulting in a tie between Trull and R. C. Thompson. This election was made necessary because R. C. Thompson, who was elected last year's captain, has not returned to Technology this year. H. R. Birkhard, captain of 1913's tug-of-war team, also.

Of Great Interest

To Tech Students

We just received a large line of hand-colored Tech Posters, Souvenirs, Banners and Shields. We can save you from 25 to 33 per cent on all your purchases. Frame your diplomas here in any moulding you may select at 75 cents. Extra special leather fobs with gold and silver plated Tech seals 50 cents. We have a lot of odd framed pictures at reduced prices for students' rooms.

SUMMER MINING SCHOOL

The mining summer school, consisting of nine students and three teachers, visited the iron mines of Mesaba Minnesota, the copper mines, mills and furnaces of Lake Superior, the nickel mines and furnaces of Sudbury, Ontario, and the silver mines and concentrators of Colorado, etc.

Mining in Mesaba district is the simplest, and least expensive of all, a black bosseus thousands of tons, a steam shovel loads the car, a sample of the ore is analyzed for phosphorus, and the result wired to Duluth before the ore arrives there; then the load is then put in the proper bin with others of the same phosphorus. The ore host pulls up alongside and it is loaded with the grade wanted, a better to Lake Erie next tells the grade and therefore the ore heap to which the cargo is to be consigned. The car from there delivers it at the furnace.

The native copper of Lake Superior, renowned for its purity, is broken down into smaller pieces; these are then run through the mill, and copper is rolled into sheets. The wire is tested for conductivity, tensile strength and permanency.

The students got many valuable ideas from the visits.

Nearby all members of 1913 in Course are to return by Oct. 16. Many have paid their class dues. Treasurer has returned the dues ($1.00) between now and the 10th, and the dues may also be left at the Cage.

At yesterday's meeting the Theatre Committee was chosen. This committee takes charge of the class arrangements at the Theatre on the night after old home day. Those elected were C. Nautilus, W. Nautilus and W. Rattenberger.
