ELECTIONS ANNOUNCED

Mr. I. W. Litchfield, 1895, and Ben S. Jacob, Give Valuable Suggested Plans.

At 7 o'clock last evening the Tech held its first dinner of this year. There were a large number of men present and the gathering was an unusually informel one. A novel souvenir was at each plate in the form of an unopened cigar, and it was at that time a month ago.

After the dinner the master of the ceremonies, Mr. R. H. Ranger, who has just returned from the Southern I. M. E. meeting, introduced the Tech. He said that the Tech had started as a monthly and then grew to bi-weekly and tri-weekly, until it was now a daily, and he said that each of the changes had been a good effect and the fact that it now is a daily is a credit to the past and present editors. Circulation is a good indication of the quality of a daily paper and this paper is growing daily.

Mr. Ben S. Jacob, the advertising manager, introduced Mr. R. H. Ranger and Mr. W. M. Lewis.

Advertising is a psychological subject and one that is usually interesting to be interesting to the persons who read it, and it must appeal to them. Advertising must either exhibit an necessity or create a desire. It was at that time a month ago.

The Tech announces the election of Stanley Edwards Bates, 1911, to succeed Richard Howland Ranger, 1913, as General Manager, and Elliot Whitmore Tarr, 1912, to succeed Mr. Bates as General Manager since the first appearance of The Tech as a daily, a success. Mr. Ranger has served as General Manager since the first appearance of The Tech as a daily, a success. Mr. Ranger was awarded, and the printing specifications were sent out for copies. To the art staff were elected three assistant art editors. The proof of the class picture was on hand at the meeting and was pronounced as a good one. This proof will be posted in the Technology Union, and the individuals in the picture are asked to sign their names opposite their respective numbers. Ads are coming in first rate and the affairs of the Board are progressing with smoothness to warrant an optimistic outlook.

SOUTHERN CLUB DINNER
THURSDAY EVENING

Arrangements Will Be Announced for ensuing Year—Enrollment Large.

Next Thursday evening the Western Club of the Institute will open the year by holding an informal dinner at the Technology Club. A fine time is promised, the usual Southern cordiality will be in evidence, and a large number are expected to attend.

The Board of Directors of the Institute of Technology of Mines will hold a dinner the other day at the Hotel Astor as a token of appreciation of the Officers of the Club. At the beginning of the second term the club will hold a dance and at a later in the year there will be other entertainments and several more dinners. Applications for membership should be sent to G. S. Watson as soon as possible.

A number of social affairs have been decided on for the year, but no definite dates have been set. A short time before Christmas an entertain- ment for the members and their lady friends will be held at the Technology Club.

At the beginning of the second term the club will hold a dance and at a later in the year there will be other entertainments and several more dinners. Applications for membership should be sent to G. S. Watson as soon as possible.

Dr. Edwin R. A. Seligman, professor of economics at Columbia, was given a dinner the other day at the Hotel Astor as a token of appreciation of his twenty-five years of service. The committee in charge was headed by President Butler and Col. Roosevelt.

(Continued from Page 1.)

We must now consider the makeup of the paper carefully so that the paper will be the best from all standpoints. Every part of the paper requires a co-ordinating intelligence that should keep instructors. The Tech should be the binding intelligence that should keep the student in actual contact with what is being carried on by the others.

In closing, he emphasized the necessity of wasting intelligencers that should keep instructors. The Tech should be the binding intelligence that should keep the student in actual contact with what is being carried on by the others. He emphasized that the Tech, being on both sides, has been prepared to figure back to the work you can truthfully say that the Institute is better off for your work on the Tech.

(Continued from Page 1.)

All of the ambitious in the mechanical laboratories last year have the potential. J. W. Nicholson is with the Snavely Blower Co., Baylorsville, Pa., L. Smith is an engineering draftsman with the Buckner D. Whitney and Sons Company, manufacturers of woodworking machinery, Winchendon, Mass. M. D. Belzer is with P. A. Yancey, mechanical engineer, with headquarters in Chicago. R. C. Latham is with H. L. Combs, an owner of the Amoskeag Hydraulic Construction Company, Boston. J. A. Willard is with the Trenton Iron Company, Trenton, N. J.

Wednesday of this week, the M. E. Society will run an execution to the Rock and Petwood Works at Newton. An extra large foundry and machine shop, where all kinds of cotton machinery are made, will be of interest to Company engineers. Professor Haven and possibly Prof. Schwam will accompany the party.

The Schutte Koerting Company of Philadelphia, Pa., has presented the department, through Prof. Morse, with one of their admirers condensers for 3-inch pipe.

R. H. B. Collins, '88, formerly an instructor at the Institute, and who is at the time of the World's Fair at Chicago took a party of students on the steam yacht "Caled" from Boston to Chicago by way of the Erie canal, has opened offices in Boston as a full-time engineer. Prof. Morse, through one of their admirers condensers for 3-inch pipe.

DEFICIENCIES IN PHYSICAL LABORATORY.
Attention of students is called to the fact that all deficiencies must, by
Friday, be made up before that date.

H. M. GOODWIN.

'VARSITY BASKETBALL.'
Under circumstances, there is room for
somebody in the Management Candi-
dates for Asiatic Tour. Let me know by
Monday, December 1st. The labora-
tory will be open to students for making
up back work after that date.

L. W. CHANDLER, Manager.

ASSISTANT MANAGERS OF TECH SHOW.

The Employment Committee announces that there are
three assistants to be chosen, for
the week of Monday, November 28th,
and Friday, December 2nd. The
Design advertised in the catalogue
will be filled. Students will be
advised as to details.

CIVIL ENG. SOCIETY PINS AND FOBS.

Design proposed in Eng. A Bulletin
Board. Plain Pins, 60c.; Pins with
safety catch, $1.00; Black Leather
Pins, $1.00. Members may obtain
name by placing order with L. D. Pow-
ell, Wm. H. Coburn, or H. P. Ireland,
at once.

LOST.
A small black leather-covered note
book with owner's name inside front
cover. Finder kindly leave at the
Show Office, Room B, daily, from
1 to 3 o'clock, to meet all candidates.
