CHRISTIAN ASSOCIATION BEGINS ACTIVE WORK

Big Dinner in the Union Next Friday.

PROMINENT SPEAKERS SECURED

Mr. G. R. Towson of New York Will Speak—Outlines of Plans for This Year's Work Will Be Mentioned.

The Technology Christian Association will begin active work next Friday. The policy of the year's work will be announced, and the men in charge of the different departments will begin their work.

The Association is planning to strengthen its field by making its membership requirements very broad so as to admit any who are interested in the work. The best feature of the work will be extension or social service work, especially with the immigrants around Boston.

There is a great demand for college men in this field to give short lectures, teaching English and civics. The positions are now open, and any men who are in any way interested should attend the dinner on Friday night. This will be a good opportunity to learn just what practical good the Y. M. C. A. is doing in this immediate vicinity.

Among the speakers for the evening are Dean Burton, Mr. D. M. Claghorn, the director of social service work in the Boston Young Men's Christian Association; Dr. G. W. Tupper, the immigrant secretary of the Y. M. C. A. for Massachusetts and Rhode Island, and Mr. Charles R. Towson, who is in charge of industrial and immigration work throughout the country. His headquarters are in New York, where he is in intimate contact with thousands of new immigrants every week.

He speaks at a general convocation in Huntington Hall on Friday, on the "Immigrant Problem," and the Christian Association is very fortunate in having him present in the evening.

This form of social service work will be the first attempted in recent years at the Institute, and if it is successful the activities will be extended to other fields.

There are prospects of opening a house at the beginning of next year. This will be a Technology dormitory, and will also be the headquarters for the officers and the management of the Christian Association.

There are several other new features that will be mentioned during the dinner. The speaking will follow the dinner and will be held in the reading room in the Union. This will take the place of the regular Friday evening entertainment. Any men who are unable to be present at the dinner are urged to come in and hear the speaking.

SENIOR DINNER

AT UNION TONIGHT

The Senior Class will hold their annual dinner at the Union to-night at 6.30 o'clock. Dean Burton and Bursar Rand will surely be on hand, as will Prof. Jaggard. Their worth as speakers is no doubt known to all the Seniors. It is hoped that Dr. Noyes and Mr. Homer Albers will be able to be present and speak a few words. E. C. Vose has written several lyrics which will be used along with the regular Tech songs. "Denny's" reputation at banging the box is known to us all even to the most insignificant spectators of a Freshman.

JUNIOR PROM NOMINATIONS CLOSED

Names of Ten Men Will Be Placed Upon the Ballot For Selection.

RECORDS OF CANDIDATES.

Committee Will Have Much Responsibility On Its Shoulders.

In accordance with its published announcement, the nominations for 1912 Prom Committee were closed yesterday at 4 P. M. The nominees are as follows:

Stalker E. Reed,
Hugo H. Hanson,
Henry A. Babcock,
R. P. Wallis,
R. N. Doble,
R. T. Bailey,
F. J. Shepard, Jr.,
R. C. Stobert,
W. C. Bird,
R. H. Fox.

The Tech's records show that S. E. Reed was relay captain in his Freshman year; R. N. Doble was a Tech Show principal; F. J. Shepard was on the relay team and a member of the Show chorus; William C. Bird was in the Show chorus, and R. H. Fox also has taken part in Tech theatricals.

The Prom is always one of the principal events of Junior Week, and the six men who are chosen from those whose names have been placed on the ballot will have to assume much of the responsibility for a successful carrying out of the week's plans. The Prom last year was held at Hotel Somerset on Tuesday evening, April 19, and the committee consisted of Copeland, Gould, Kimball, White, Wilkes and Williams.

SWIMMING TEAM GETS GOOD START

Twenty Candidates Out—Another Meeting at Brookline Tonight.

Over twenty men responded to the call for swimming team candidates and attended the meeting in the Union yesterday. Plans for the organization of a swimming association were discussed, and the matter of securing a suitable tank to practice in was taken up. No definite decision was reached on either question, although from the present outlook an association will doubtlessly be formed.

Another meeting will be held tomorrow evening at 8 o'clock, in the meeting hall of the Brookline Gym Association, at Brookline. Coach Mann of the B. G. A. A. swimming team will address the men and give them an idea of the requirements and the work necessary.

At present the indications are that the Brookline tank will be used. By a special arrangement the team will receive coaching on Tuesday evenings, from 8 to 9 o'clock. In order to get this, however, the men must join the B. G. A. A. Their membership fee is two dollars the first year and one dollar per year after that. The matter of a tank will not be decided until several others have been more thoroughly investigated. The Salvation Army tank, the Cabot street tank, the B. A. A. tank and a Waltham tank are all under consideration.

The men who handed in their names yesterday are: H. A. Babcock, D. des Granges, G. B. Wilkes, B. W. Stevens, R. M. Ferry, V. A. Gallagher, C. A. Sheldens, C. A. Markwald, R. B. Catton, R. A. Leshar, A. Romana, F. C. Cleverly, C. A. Smith, E. St. John, W. E. Glancy, L. M. White, R. S. Rankin, F. C. Weiss, M. S. Smith, M. Lewis.

BASKETBALL SECOND TEAM HAS SCHEDULE

Will Play Several Strong Preparatory School Teams.

FIRST GAME DECEMBER 21.

Home Games Will Be Played as Double Headers With Varsity Team.

The basketball department of Institute athletics promises to make a name for itself this year. In addition to a very promising first team, a second team, which is a strong rival to the first, is now practicing in full swing.

The two teams this year will be entirely separate, having each their own captain, manager and substitutes. This gives Captain Parker a chance to give his whole attention to the first team, which in past years the person filling that position has been obliged to divide his attention between the two teams. The fact that the three first team substitutes are not members of the second team gives the second team manager more freedom in arranging games. It also allows the two teams to practice against each other, each putting in its own substitutes, using its own signals and under the direction of its own captain.

Fully organized under the direction of its new captain, Walter P. Muther, 1913, the second team is keeping the first team hustling. Seven men will be picked next week and equipped in regular second team suits. Owing to the necessity of electing a new manager this year and the attendant delays, the management has been obliged to use all its efforts in completing the first team schedule. However, in the past few weeks more attention has been paid to second team schedule. The following dates have been secured and several more are pending a final settlement:

Dec. 21—Interscholastic Five at Tech Gym.

Jan. 7—Dean Academy at Franklin.

Jan. 14—Boylston Five at Tech Gym.

Jan. 28—Andover Academy at Andover.

Feb. 28—Tufts' Second at Medford. As may be seen by a comparison with the first team schedule published a short time ago, the arrangement is to have double headers at the Gymnasium when the first team plays games. This schedule, with an occasional combination with the Gym team, will make the home games this year an attraction which should not be missed by any of the men at the Institute who are interested in athletic contests.

COL. E. A. STEVENS TO LECTURE HERE

Naval Architects to Hear Talks On Ferryboats by Noted Authority.

Professor C. H. Peabody has announced that two lectures will be given on "Ferryboats" in Room 32, Engineering C, by Colonel E. A. Stevens, in the near future. The first of these will be heard at twelve o'clock on December 9, and the second at eleven o'clock on December 10. These lectures are given to the students of the Departments of Naval Architecture and Marine Engineering, but all students of the Institute are invited to attend and also an invitation is extended to all naval architects and marine engineers who are interested.

Colonel Stevens is the son of the founder of the Stevens Institute and (Continued on page 3)

MUSICAL CLUBS WORKING HARD

Plans for Annual Concert, December 16, Are Being Prepared.

CONCERT AT AUBURNDALE DECEMBER 13.

Preliminary Concert in Norumbega Hall, Followed by a Dance.

Tech's musical clubs this year are doing excellent work preparatory to the annual winter concert. The Mandolin Club rehearses twice a week, on Mondays and Thursdays, and the Glee Club on Tuesdays and Thursdays. Besides this the Banjo and Mandolin Quintettes hold rehearsals three times a week, on Mondays, Wednesdays and Fridays. The orchestra, which this year is to give some selections at the concert, at present practices twice a week, on Tuesdays and Fridays. The attendance has been very good and a large number are trying for positions.

The patronesses have already been announced, together with the names of some of the selections. The final program is not yet prepared, but it will be announced as soon as it has been decided on. As usual, the Glee Club will have a soloist, but his piece has not been given out.

As a sort of preliminary to the big concert there will be a concert at Auburndale, December 13, at 8 o'clock, which will be followed by a dance. The concert will be held in Norumbega Hall. It is intended to make the final selection of men who will play December 16 from the showing made at Auburndale, as all men will be taken there.

Final plans for the annual concert have been decided on and the tickets are selling fast, about 225 of the 400 being already sold. Purchasers of tickets are requested to note that the hour on the tickets is incorrect, as the concert begins at 8 o'clock sharp. This is in order that it may be over at 9 o'clock, which will leave three hours for dancing. The advance dance orders will be left at the cage in a few days, where those interested may obtain a copy. There are to be fourteen dances and two extras, with intermission between the seventh and eighth. The first dance is to be a waltz, and following this will be alternating two-steps and waltzes; after the intermission the same general program will be followed.

The manager, H. K. Franzheim, is optimistic about the success of the concert, and suggests that those intending to buy tickets come very soon, as he expects to sell them all shortly. He also requests that it be understood that the concert will begin at 8 o'clock and that it would be best to have everybody on time in order not to mar the music by untimely entrance.

CALENDAR.

Tuesday.

4.00—Glee Club Practice—Union.

TUESDAY, DECEMBER 6, 1910.

The Track Team management introduces an innovation tomorrow night by holding a dinner for all interested in track work. Several old track men will speak, and the affair promises to be most enjoyable and profitable. The management certainly has the right spirit in trying to get interest in this, the major sport at Tech, and everyone ought to turn out and back them up. Coach Kanaly is putting in a lot of hard work with the hope of turning out a championship team, and he deserves the support of every loyal Tech man.

The hockey team has commenced its season with flying colors, showing a surprising development of team work considering the small amount of practice they have had. The Crescents, whom we defeated in the close contest last Saturday, for the past two years have been the champions of Greater Boston. The game Saturday showed up the team work and the personal endurance and grit, which give promise of a championship team.

Yet how many Tech men really saw the game? Interest in hockey seemed to start with a flourish with the call for candidates. A record number of men reported for practice, and interest in hockey seemed to be on the boom. While this competition is the ideal way to give a team one's support, those unqualified for trying for the team should give their support by attendance and cheering at games. The Tech sympathizes sincerely with the rather heated communication below. The non-support of our team last Saturday is inexcusable. Let us give the team a good old M. I. T. that will win us a victory from Harvard next week Wednesday.

COMMUNICATIONS.

Boston, Dec. 4, 1910.

Editor of the Tech:

Dear Sir:—It was a very sad sight

at the Arena Saturday night to see a dozen or twenty Tech men scattered in an audience of fifteen hundred trying to cheer our team. A team that plays as well as ours did is worthy of better encouragement.

In about ten days we have a game with Harvard. Is the spectacle of Saturday night to be repeated? Is it really impossible to awaken a better spirit of loyalty which goes beyond mere talking and makes the fellows dig down into their pockets to get out a "half" for a ticket?

It's our teams which represent us in the college world, and how do you expect our team to play with spirit when there are a thousand voices yelling "Harvard" into their ears, and as an answer they get an M. I. T. cheer as thin as one of Mary Garden's dresses!

Wake up, fellows! It's nothing but indifference and that excuse of having too much work is as old and lame as grandmother's death when the office boy wants to see the "Red Sox" play the "Athletics." On the 14th Tech is going to be on one side and Harvard on the other, and let us hope that Tech men will give back yell for yell and everything that comes from the boys across the Charles River.

P. M. S.

TO THE CLASS OF 1914.

Track work begins this week and the class of 1914 simply just get up a fine indoor track team, for we have to get even with the "Sophs" and make good against other strong teams. There are positions for nine events which have to be filled, which include the 440, 880 and 1-mile runs, the 40-yard dash, the relay and the hurdles, the high jump, the pole vault and the shot-put. Every man who can possibly do any of these things, although he need not be a star, should come around to the Gym and interview Coach Kanaly. A good schedule is being arranged which includes some strong teams, especially the meet with the "Sophs," which we must win, and also some good trips. A team of about twenty-five men is to be picked, so that everyone who comes out and tries his best stands a good chance of making the team. Practice begins Tuesdays and Thursdays at 4.15, and on Saturdays at 2.15, which are convenient hours for everyone. All who can, come out, and make for the class of 1914 the best class track team ever.

WINCHESTER
Repeating Shotguns
USED IN THE U. S. ARMY.
The U. S. Army authorities know a gun; that is why, when they decided to equip some troops with repeating shotguns, they selected the Winchester in preference to all other makes. The experts of the U. S. Ordnance Board also know a gun; that's why, after submitting a Winchester Repeating Shotgun to all sorts of tests, they pronounced it *safe, sure, strong and simple*. If you want a shotgun—buy the one whose strength and reliability led the U. S. Army authorities to select it and the U. S. Ordnance Board to endorse it—that's the Winchester.

COURSE IV NEWS.

That Course IV is one of the most active of the branches of study at the Institute is evidenced conclusively by the large enrollment in the course. Not only quantity, but also quality is represented. The total number of the students—the largest in the history of the department—is 116, including second, third, fourth and fifth year classes. Of this number, twenty-six are graduates of colleges, and twenty-five have had from one to three years of college training; the remainder come from high and preparatory schools. There are thirty-seven special students. The number of students who will enter the option in Architectural Engineering promises to be unusually large.

R. J. Batchelder, 1908, holder of the 1909 Traveling Fellowship, has recently returned after spending a little over a year in Europe. The many drawings he brought home gave good evidence of the value of foreign study.

The recipient of the Rotch Traveling Scholarship of two years ago, Mr. I. P. Lord, 1903, has recently returned and the walls of the exhibition room are at present completely covered with drawings of unusual interest, made by Mr. Lord while abroad. Students interested in this work are urged to inspect these drawings in the Pierce Building.

Professor Despradelle is this year a lecturer on Architectural Design at the School of Architecture of Harvard University. This, however, does not interfere with his work at the Institute. On the other hand this will probably strengthen the courses of both colleges.

Mr. H. E. Fowler, 1910, is a one-half time instructor this year. His work is mainly turned toward Option II, and he is doing good service.

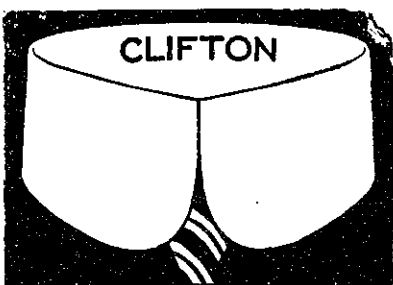

The department is particularly fortunate in securing the services of Mr. L. E. Row, assistant in the Department of Egyptian Art at the Museum of Fine Arts, to help Professor Sumner in his course in European Civilization and Art. This has enabled Professor Sumner to require personal conferences for his students, the consummation of a long-cherished desire.

(Continued from Page 1)

is himself a trustee of that institution. He was long in control of the Hoboken ferries and in the development of that interest designed the first screw ferry-boat, a type which was demanded by the exigencies of the high speed service in the crowded North River.

He is vice-president of the Society of Naval Architects and of the American Society of Mechanical Engineers, and is a member of the Institution of Naval Architects of Great Britain. He is on engineering and naval architecture.

WRESTLING TEAM TO BE ORGANIZED.

At last ten men, ranging in weight from 120 to 190 pounds, are at present coming to the Gymnasium from two to five times a week to wrestle. The interest has been so great that the services of Coach Mathers, who is the New England amateur heavyweight champion, have been secured. He will be at the Gymnasium from 4.30 to 5.30 P. M. on Tuesdays and Thursdays to coach the men interested. A meeting of these men will be held in the Gymnasium at 4.30 P. M., on December 6th, for the purpose of organizing a team and electing a captain and manager.

A covered mat twenty feet square will be used to wrestle on. It is hoped that many men will start in wrestling on December 6th, and form the foundation of a team that cannot fail to be a credit to the Institute in the very near future.

**TRACK TEAM DINNER
WEDNESDAY NIGHT**

The date for the track dinner, plans for which have been under way for the past few weeks, has finally been set for Wednesday evening, Dec. 7. The officers of the track team have taken great pains in their plans for this event, and hope that a large number of men will be present and help make it a success. So far a large number of men have signified their intention of coming, but only a few tickets have actually been sold. Quite a number of guests will be present who will give short talks after the banquet. Among these are Dr. J. A. Rockwell, 1896, of the Advisory Council, Prof. H. W. Hayward, 1896, "Kelly" Richards, 1907, and Coach Kanaly. Capt. W. C. Salisbury, 1911, will be toastmaster for the occasion.

Don't forget the Track Team Dinner tomorrow night. Union at 6.30.

There is considerable dissatisfaction expressed over the method of awarding the athletic emblem "N" at Northwestern. The regulation that Varsity men must win games in which they play is being especially protested against.

At Washburn a complete list of all the recognized social events of the year is made out and printed in the college paper at the beginning of the year.

The Norwegian Dramatic Club at Minnesota will present next February Henrik Herz's "Svendyving."

The present membership of the Y. M. C. A. at Wisconsin is 800, which is an increase of 200 over that of last year.

The students at Michigan now have to pay a library fee of \$2. This money will be devoted to the purchase of new books.

A chapter of Pi Beta Kappa has been installed in Miami University.

Ground has been broken at Williams College for the construction of a large dormitory.

The first event on the Williams Aeronautical Society's program for the year is a balloon ascension. Mr. Leo Stevens of New York city has loaned the use of his big 82,000 cubic foot balloon, "The Cleveland," and will personally conduct the trip. The Society will be represented in the basket by four members, including its president.

A china loving cup is to be awarded at Williams by the vote of the college to the football player who shows most improvement during the past season.

The subject of the Bryan Essay Prize, competed for by undergraduates in American colleges will be Roosevelt's "New Nationalism."

There is a precedent at Kansas that the man who proves to be a successful cheer leader shall retain his position throughout his college course. This cheer leader, besides leading the yells, invents color schemes to be used at the games.

The latest innovation in college athletics is "Crowd-ball," invented at Wisconsin. The crowd ball itself is an inflated leather thing 24 inches in diameter. The game, which is played on a football field, has no rules whatsoever. The opposing teams may be of any size provided they are equal. The object is to push, kick, throw, or carry the ball beyond the opponents' goal post. No downs are called; any tactics are fair.
