CAMP'S ALL-AMERICA
ELEVEN ANNOUNCED

Team picked by '911' in The
Tech Differ in But
Three Places.

THREE WESTERNERS ON ELEVEN

Three Harvard and Only One Yale
Man on Camp's Team.

It is interesting to note that Walter
Camp's official All-America eleven,
announced on Sunday, differs from the
eleven recently picked by '911' in
The Tech in but three positions. And
strangely enough, two of those three
positions are filled on Camp's eleven
by Westerners.

Pitching The Tech's All-America
team the following explanatory para-
graphs, which were written by one of
our Western contemporaries will
wonder at our choice of but one West-
derlander, but this is in no small
measure due to the wealth of star ma-
terials in the East. The one Westerner
chosen, however, Bombom of Minnea-
polis, is filling in the back place of the
players in the position that he starred in,
that he was the only logical candi-
date for the place.

The following shows how the
team picked by Walter Camp, the
leading authority of the country on
football, differs from the eleven
picked by '911' in The Tech on Dece-
ember 2.

Kilpatrick, Yale, l. e.
McCoy, Harvard, l. t.
Fisher, Harvard, r. t.
Cozens, Pennsylvania, e.
Babcock, Michigan, r. t.
Withington, Harvard, r. t.
L. B. Smith, Harvard, r. t.
Sprackling, Brown, q. b.
Wendell, Harvard, l. b.
Merry, Pennsylvania, f. b.

NINE MEN RETAINED AS REGULARS
Final Cut in Second Basketball
Team Squad.

The final cut in the squad for
the second basketball team was made
yesterday, and nine men were retained to
pick the regular team from. The
men included are: Capt. Mother, 1912;
Babcock, 1912-13; R. P. Wallis, 1912;
G. A. B. Sampson, 1913; Mccall, 1911;
Mowry, 1912-13; J. H. Hamann, 1911;
Price, 1914. These men are expected
to report regularly to practice against
the strong seven from the Boston
Hockey Club. The Harvard aggrega-
tion is in far better shape than it was when it, Chaddock put up a star
scene in turning off several years' old
and difficult shots. Without doubt, Chad-
cock is the best man for the position of
target tender in college work. Leslie and Graustein are two others of his best and men and they will be
fully worthy of the name.

Mr. Coolidge to Tell Difference
in Varsity track work. He was on the
strong seven from the Boston
Hockey Club, and he has acted many times in the
Study and Practice of
Architecture. The Architectural Society will hold an
Architectural Society's Smoker, which has not as yet been decided
which have not as yet been decided.

Thus, even by the students, it is com-
pared in a very favorable one. Printed notes of these
facts have been made available, and any
cold have been published in the	...
December 12, 1910.
To the General Manager of The Tech:
Dear Sir:—I have just finished reading your enlightened editorial regarding the shocking lack of "college spirit" here at Tech. Will you please be good enough to print in your columns a definition of this term—"college spirit"? It does not seem to me that there is any tangible definition which could be otherwise than erroneous conditions such as exist at the institute.

The way every knock is a boost—so to be—in but it is not an exhilarating example of college spirit for the official undergraduate organ to condemn in such a manner its alma Mater? Don't knock—boost.

Yours very truly,
WM. J. ORCHARD.

Editor of The Tech, Boston, Mass.

Dear Sir:—We, the Western Alumni, regret to note the items of your paper stating that the absence of the boys of Tech in the audiences in the hockey games have been very noticeable. We are calling attention to the fact that the support of the student body be given so that it will help our team.

We do not understand why this lack of interest should manifest itself in this manner, as heretofore the student body has given hearty approval of all its Tech games.

We are calling attention to the fact at this time because on the 10th of this month Tech will play Harvard. This year's students members of the Northwestern Association, would like to see the enthusiastic support of all the athletic contests. We hope to find many enthusiastic reports in the near future on this matter.

Yours truly,
M. P. STURM, Secretary-Treasurer.

SWIMMING TEAM MEETING TONIGHT

There will be a meeting of all the candidates for the swimming team tonight at Brookline, and everyone interested should attend. The chief business will be the election of a captain and a manager. This is the first real step towards forming an active association. Twenty-five men are out pre-training, using the Brookline, Chestnut Street and Salvation Army tanks two or three times a week, and all meeting to receive directions by Coach Mann on Tuesday evenings at Brookline. Prospects are very favorable for a strong team, and after an active management has been elected affairs promise to develop rapidly.

It is considered very fortunate that there can receive personal coaching by Coach Mann, who is, without doubt, one of the best swimmers in New England. His ideas of this project were expressed not long ago before the Civil Engineering Society, much to the pleasure and enjoyment of the members of that body.

Mr. Rourke has recently been made Commissioner of Public Works in Boston, and in this capacity will be given an opportunity to do much good. What his ideas are on the subject he has chosen for his address should be especially interesting to Tech men.

(Continued from Page 1.) Biological Society in the Union this afternoon at 1:30 o'clock, one has only to glance through any of the current engineering periodicals and note the space given over to the treatment of this problem. Owing to this fact, the meeting is to be open one and all students are invited to be present. No more meetings will be held by this society till next term.

The ADMINISTRATION OF PUBLIC WORKS

Scientific Treatment of This Problem to be Discussed By Mr. L. K. Rourke, 1895.

With the lecture on "The Scientific Administration of Public Works" by Mr. Louis K. Rourke, 1895, in Huntington Hall, tomorrow night, the Society of Arts begins its second meeting. Mr. Rourke is one of the best known of the graduates of the Institute, having been recently in charge of the construction work of the Culebra Cut of the Panama Canal. His ideas of this project were expressed not long ago before the Civil Engineering Society, much to the joy and enjoyment of the members of that body.

Mr. Rourke has recently been made Commissioner of Public Works in Boston, and in this capacity will be given an opportunity to do much good. What his ideas are on the subject he has chosen for his address should be especially interesting to Tech men.
