UNION DINING ROOM has a PROFITABLE WEEK

Management Expect to Pay up Last Year's $500 Deficit in a Short Time

A very remarkable increase in attendance was witnessed at the Union Dining Room last week. Four hundred and seventy were served at lunch last Friday, this number being very large for a lunch time during the entire year 1909-10. The increased business stems from the fact that many of their old customers from the upper classes who were distracted by the past two years. The first week of this year showed an increase of $85.30 over the year previous, but last week $45.37 was noted. It is expected that the remainder of the year will show an increase of $100.00.

Everything concerning the dining room has been changed. A new chef, E. J. Joffe, has been engaged for the new equipment year, while somewhere about $200 has been put out this year. Last week the dining room showed a net profit of $55.11, which leaves the balance for the year. The general shape of the management hopes by the end of the year that this amount, to the credit of the management, will be made up and the dining room placed on a paying basis.

Good Material in Teams—But More Should Come Out for Practice

A good many more freshmen athletes turned out for practice on the field and in the gymnasium yesterday than appeared at any time in the past week. The football squad was large enough to form two teams. Coach Prang-Mart sent most of the time in lining up the two teams against each other and prescribing the various plays. The following men have appeared regularly during the week and will therefore stand a good show in making the team: Fox, Mary; Beaton, Owen; Henderson, Morrison, the Electrical Engineering Robert, and Hurlbut.

The freshmen are fortunate being in getting the start of the season in Freshman football this year. The Fordham University team has been defeated last week, won all its games except one, playing such power teams as Curry, Syracuse, Swarthmore, Georgetown, Holy Cross and Princeton. The material for the freshman team is not as good as last year. Three or four of the men who have turned out are better than anything in Freshman track material for years. There have been some doubtful men. Unless more of the 1914 runners come out and get in training within the first few days Coach Kandy fears that the good work of the few men will be of little use on Field Day. A good many freshmen have entered in their names as relay candidates. The managers and coaches are most hopeful that these men will turn out in time to prepare themselves for competition.

At the gymnasium, last Monday,Capt. Sheridan addressed the freshmen and got their classmates to come to the top-of-work training. Thirty men out of 150 at different times, the maximum number present at one time, have taken advantage of the gym. Most of them have been spending at the gymnasium. It is a remarkable thing to contemplate getting the whole team to pull together for the season. I am afraid this enthusiasm that has been given by coach has been somewhat handicapped in not having a full team at any one time.

The quality of the material in all three teams is very good. What is needed, and needed badly, is numbers.

MoL SACKS CHURCHES AND AT
Tacks Glory: Government Task on Its Hands

The present state of affairs in Portugal is attracting the attention of all the foremost nations of the globe. The struggle for control of the island has been going on for over one hundred years, and the result is not yet decided. The French have made several attempts to establish a foothold in the island, but have thus far been unsuccessful. The Spanish have been more successful, and have gained a foothold in the southern part of the island. The English and the Americans have also made attempts to establish colonies in the island, but have been unsuccessful. The future of the island is uncertain, and the great powers of Europe are watching with interest the results of the struggle for control.

The government of Portugal is also in a state of much dissatisfaction. The people are discontented with the government, and many political parties are active. The government has been unable to carry out its policies, and the people have become more and more dissatisfied. The government is in a state of flux, and it is difficult to say what will happen in the future.

The government of Portugal is also in a state of much dissatisfaction. The people are discontented with the government, and many political parties are active. FRESHMAN DINNER

Last Saturday night the class of 1913 started off its career as a class among classes at the Institute. At the dinner, it may be advisable to give a short account of what happened, as the accounts already given might give a very erroneous impression.

Chairman Kreuger of the class was successfully captured by the Sophomores. He was kept in Lynn until it was thought too late for him possibly to return to the dinner, and on his word of honor he was allowed to return to Winchester with the strict proviso that he go to bed. This he did, but the next sixty seconds would have dispossessed him coming to Boston as fast as six cylinders could make it. His online follows: "All right, Roger's steps just in time to lead the cheers of the class."

After this the few unfortunate Sophomores, who happened to be around received more or less liberal treatment, although a few were made acquainted with the frog pond.

Ambassador arrives.

Washington, Oct. 10.—Early attempts to solve the problems of banking in this country, particularly those connected with the issue of notes, are described in a volume just published by the National Monetary Commission, under the title, "State Banking Before the Civil War." The authors are Professor Davis R. Dewey, the well-known economist at the Massachusetts Institute of Technology, and Dr. Robert B. Chaddock of the University of Pennsylvania.

A. G. Spalding & Bros, are the largest manufacturers in the world of OFFICIAL EQUIPMENT FOR ALL ATHLETIC SPOKES AND PASTIME.

If you are interested in athletic sports you should have a copy of the Spalding Catalogue. It's a complete catalog of what's new in sports and is sent free on request.

Our men's furnishing line particularly adopted to TECH STUDENTS.
