A Merry Christmas & A Happy New Year
COMMUNICATION.

I should like to be allowed the use of a little space in the columns of your most worthy paper to make a few comments on, and offer a few suggestions to the Calendar Committee.

The most noticeable recent case of doubling up of several events occurred on Wednesday night, when there were four "big" meetings pulled off, the basketball game with Boston College, a big Chemical Society meeting, a Mining Society dinner meeting and the Catholic Club meeting. Now, while the Chemists and the Miners might not interfere with each other, they both would with the basketball game or the Catholic Club. It stands to reason that the purpose of this committee is to arrange the dates made by the different activities and see that they do not conflict in any way. And this was the object of the formation of the committee—why is it allowed to go on in this shifless, do-nothing way? There is certainly a great need for a good committee of this sort and it is a shame to have things go on in this way. If the Calendar Committee, as at present constituted, has not the time to do this work and do it well, it would be a very humane and public-spirited act to resign from office and have a new and more efficient committee organised. Let us hope that the new year will bring a new order of things so that we shall, to a certain extent, at least, have different nights assigned to the different activities whenever they arrange to hold something that might draw the crowd from some other. A very Merry Christmas.

DEMI TASHB.

PROGRESS BEING MADE IN TECHNIQUE WORK

That very rapid progress was being made in all branches of the work on Technique was the statement given out after the weekly meeting of the Board of Editors yesterday afternoon. This meeting being the last before the holidays, a number of important matters were brought up.

The bids from the different printers were read and discussed, and the contract was awarded to one of the best printing firms in Boston. It was reported that the ads were coming in very well, but that another crusade will be started after the first of the year. The art work so far is very good. A very clever and artistic cover design has been handed in.

For the competition for class history there has been very little response and the editors hope that more will be turned in. It has been announced that a de luxe edition will be put out for the one writing the best history. As a whole the editors are very well pleased with the progress made thus far, and the men seem to be working together.

(Continued from Page 1.)

was either great lack of spirit or a case of "cold feet" with the result that there was undoubtedly a great wrong to the team for men to drop out when the trials come. Even if they do not make the team, their running will make the competition stronger and bring out a fast team. However, if these men work faithfully they may be given another chance for the teams. A Christmas gift of a stop-watch was presented to Coach Kelley by the members of the team. Frank says he was so pleased with the verdict that he presented a stop-watch to all sorts of tests, they selected the Winchester. That's why, after submitting a Winchester to the U. S. Army authorities, they decided to endorse it—that's the Winchester. The U. S. Army authorities know a gun; that is why, when they decided to equip some troops with repeating shotguns, they selected a Winchester. Repeating Shotguns to all sorts of tests, they pronounced it safe, sure, strong and simple. If you want a shotgun—buy the one whose strength and reliability led the U. S. Army authorities to select it and the U. S. Ordnance Board to endorse—it's that's the Winchester.
FRESHMAN MEETING HELD YESTERDAY

On account of a conflict, the gathering of the Freshman class in Huntington Hall yesterday was not very large. The absence of the class prevented the reading of the minutes. The Constitution Committee had prepared a report of their investigations, and this report included the adoption of the constitution of the class of 1912, but with four or five amendments. This report was accepted.

Then Treasurer Owen gave a report of the financial standing of the class, and both he and President Krueger urged the payment of class dues by those who have not already done so. Mr. Owen announced that shortly he would appoint a man in each section of the class whom he could reach easily to look after the business of the class in his section. The amount of cash on hand, compared with outstanding bills against the class, makes it the duty of every Freshman to pay his dues right away. President Krueger pointed out also that there was really a scarcity of men out for basketball and track work. More men would be welcomed. Then a discussion of the Freshman dinner, to be held after the mid-year examinations, was held. The points that were to be considered primarily are the price of the dinner, the place, which is really dependent upon the price set, and the date. The de- cision of this question was left to a committee. This committee will be glad to receive suggestions on the matter.
