SECOND BASKETBALL TEAM WINS HARD GAME

Tech Five Defeats All-Stars By Narrow Margin Before Large Crowd.

SCORE: 26 TO 24.

Morey Stars For Tech and Bishop Does Most Work for Merece.

Technology's Second basketball team defeated the All-Star five of Merece at the latter place last night in a hard-fought game by a score of 26 to 24. Both teams played well and the winner was in doubt until the very end. At the close of the first half the scores were 18 to 18 in favor of the Merece aggregation, but the Tech team came back strong in the second half and soon took the score. The advantage then widened until the opposing five fell until the end.

Morey did the best work for the Tech team, while Bishop's work stood out prominently for Merece. The crowd was a large and enthusiastic one and was in impartial in its encouragament.

The speakers:

Blunt, Kendrick, f. I. L. Bishop Priec, w. f. r.

Morey, c. Smith (Capt.), F. K. Taylor, r.

Mey, g. McDade, Davis (Capt.)

r. g., McLetchie, Davis (Capt.) r. e.

r. g., McLetchie, Davis (Capt.) r. e.

Metcalf, f. g. Locke, Stone, Tech Five Defeats All-Stars By

Fives until the end.

At the close of the first half the score was held.

BROWN SORORITY

Kappa Alpha ThetasEntertained By Tech Musical Club—

Dance.

Last night the Glee Club, Vocal Quartette and Reader gave an enter-

tainment before the Kappa Alpha Theta Sorority of Brown University, in

the Churchill House, Providence. The program was as follows:

1. Unexpected, No More.
2. Tired.
4. Reading.
5. Harry Briggs.
6. Solo (Selected).
7. The Old Person of Ware.
10. Ab Pleasure.
11. Vocal Quartette.
12. Solo (Selected).
14. Dear Mary.

The audience was a critical and enthusiastic one and the numbers were well applauded. After the entertainment a dance was held.

TECHNOLOGY CLUB OF FAR EAST

The latest society of Tech men to be

formed is the Technology Club of the Far East. This club was organized in

the Philippines by Claude O. Brown, 1904, assistant engineer, irrigation divi-

sion, Bureau of Public Works; John C. Oster, 1909; Francisco D. Reyes, 1908; Herbert J. M., 1905; P. L. H. Kimball, 1889; Arthur C. Nichols, 1893; Willard W. Poland, 1898, and William B. Poland, 1903. Mr. Poland was elected president, and Mr. Adams secretary.

EFFICIENCY IS KEY NOTE OF EVENING

AT ANNUAL BANQUET OF TECH ALUMNI.

Hotel Somerset Crowded with Graduates of Institute

President Macalur one of the Speakers of the Evening.

"Efficiency"—the keynote of the evening at the annual banquet of the

Tech Alumni Association, meaning that he was held last night at Hotel Somerse, was well exemplified by the manner in which the guests took to the places prepared for their reception.

Four hundred graduated, the largest attendance of the year; the most enthusiastic assemblies that this year has ever encountered. There was much music and mirth, and many stories of former days at the Institute went the rounds.

The reception lasted from 6.15 to 7.45, this being the one-hour session after the talks of the evening.

Retiring President A. F. Bemis, 1902, was toastmaster, and he first intro-

duced Mr. L. J. Batchelder, 1890, one of the developers of activi-

ties at the Institute, recalling the time when the athletic field used by Tech men was still a winding track.

Mr. Batchelder said that the change was brought about largely through the effort of Major F. F. Briggs, 1901, and he then presented Mr. Briggs a gold watch on behalf of the Alumni Association.

Mr. Briggs replied very feelingly and said that all Tech men should be interested in athletics.

President Bemis was presented with a large bunch of beautiful red roses by (his) class of 1893. These he pre-

sented to the actives, saying that he was sure that the class would be satisfied with his action.

Attention was then called to the toast of the evening, "All the world today is interested in efficiency—that power of making the most of what we have, the most of ourselves, the most of the time.

The speaker, Mr. W. M. Denman, is a well-known expert on reinforced con-

crete, and he has had a wide experi-

ence in the laboratory of the American Portland Cement Manufac-

turers. The talk will be illustrated by many slides.

He will present the same paper he gave at the meeting of the Engineers' Club in November, and the District Engineer for the Boston Waterworks will be present. The talk will be illustrated by many slides on the subject.

This is the last word in the way of real efficiency. It will be very painful but not fatal.

The final meeting of the Engineers' Club for the year will be held this afternoon in 6 Lowell, at 4.00, and the program for the year has been very sure and the meetings of the year is promised. It will be a well-known expert on reinforced con-

crete, and he has had a wide experi-

ence as a construction and consulting engi-

neer. The subject for this meet-

ing is "Reinforced Concrete Bridges.

He will present the same paper which was recently given at the an-

nual meeting of the Association of American Portland Cement Manufac-

turers. The talk will be illustrated by many slides on the subject.

As this type of construction is of in-

dustry, it is of the utmost value to civil and sanitary engineers, large attendances are ex-

pected. Members of other engineering societies are cordially invited to be present.

MUCH EXCITEMENT IN BIOLOGICAL CAMP

An amendment to the constitution is to be acted upon, having for its object the changing of the method of sending out notices of meetings.

The action of the insurgent members from Ward XI is causing great excitement. As they have a majority membership in the society, they are attempting to put aside the present name of the club and to adopt a new one which shall be more nearly representative of their interests. The members from Wards V and VII are fighting to the last ditch for the retention of the present name, and hope, by the aid of the standpatters from Ward XI, to defeat the insurgents.

The final scene in this political drama will be enacted on Friday afternoon, January 6, at 4 o'clock, in Room 28, Pierce Building.

(Continued from Page 1.)

Talk on the efficiency of the work on the Panama Canal and in the Boston street department, of which he is now in charge. The absence of graft was particularly dwelt upon.

The meeting was a glowing tribute of the sons of Technology to their Alma Mater, which strives to train engineers, architects and scientists, and others wishing to get their share of the plunder are working most earnestly.

The occasion of all this turmoil is the Election of Officers and Other Things Make Political Pot Boil.

First Year—Choice of Course.
Circulars in regard to the Choice of Courses were sent to all first year students with the report of standing to the second five weeks. Cards will be distributed among first year students at some Chemistry exercises, and they are to be returned with a provisional Choice of Course marked on them. This choice is not binding, but students are earnestly asked to consult with their parents and their instructors at once in order that this provisional choice may be made within the next two weeks.
