Close Finishes Are Expected in Majorities of Running Events. SENIORS ARE FAVORITES. With a Number of Individual Stars, 1911 Appears an Easy First.

A close meet, with nail-biting finishes, is the expected program for the annual Intercollegiate Meet at the Gym tonight. Most of the stars of last year's track team will compete, and there are also some freshmen of excep-
tional ability who expect to make the college men halt. Last year's track meet went to 1911, with 1912 and 1913 finishing third and fourth respec-
tively. This year the meet is again con-
cluded to the Seniors. The meetest allows them six first places out of the eight which are possible, and it is proba-
ably a run a close race for second place, with the Prospective finish first.

The 20-yard dash has a large num-
ber of entries and will be closely contested. Capt. R. C. Thompson, 1911, will probably take first place, with Goughin, 1914, coming in sec-
ond. These men will be closely pushed by R. G. Perry, 1912, and B. M. F. C. 1912, who are the star distance men.

The 20-yard hurdles will go to W. J. F. Farr, 11, who was the crack hurdler last year, and C. G. Ralston, 19, is conceded second place. The hurdles are doubtful, but Chase, 1914, will proba-

ably run a close race for second.

The 440-yard will probably furnish the most exciting finish of the meet, as there are several star runners en-
countered. Capt. B. M. F. C., in the favor for first, but will be pushed close by T. H. Harris, 1914, and W. Strum, 1911. The Prob-
ably, T. H. Harris, 1914, will probably take first place, with W. Strum, 1911, coming in second.

There are a number of stars en-
countered in this event. These men will be closely pushed by W. Strum, 1911, R. G. Perry, 1912, R. B. Van Atteker, 1912, and M. F. Perry, 1912, who will probably finish in the order named.

First place in the shot put is ex-
pected to go to W. D. MacLeod, 1912, who has been branching the weights in great style in practice. O. C. Clun-
phillip, 1911, holder of the Technolog-
eyan records, will take second place. The last two are conceded to L. Q. Longfin, 1911, and J. L. Bray, 1912.

W. D. Dalrymple, 1912, is easily the best man in the high jump, being ser-
iously contested only by W. H. Milne,
1911, holder of the Technological rec-
ords, will take second place. The last two are conceded to L. Q. Longfin, 1911, and J. L. Bray, 1912.

The pole vault is conceded to W. D. Allen, 1911, the holder of the present record and undoubtedly repeats his past performances. R. Man-
egan, 1912, is in the man for second place, and it is conceded that there will be no other man in the field who has been branching as much as he has this summer.

The officials for the meet are as
follows:

Referee—Dean Norton.

Interesting Description of the Jack-
ing-Up Of Old Steel Bridge.

Mr. W. M. Deman speaks to Civil Engineering Society at Meeting Yesterday.

A short time ago the United States government instituted a suit to close America's post office departments, and the thirteen defendant transatlantic steamship companies comprising the Great Northern syndicate. As long as the railroads did not injure the bridge, the debris damaged by the bridge was not injured. The concrete bridge was torn down and replaced.

Another interesting group of reinforced concrete bridges is the one in the county of the town of the bridge. The three bridges, the resistance offered to floods by concrete arches. In one case at Mont-
rey, Mexico, the flood washed over the bridge, the debris damaged by the bridge was not injured. The concrete bridge was torn down and replaced.

A number of small bridges have been shorn in the past few years. As the concrete bridge is the expected program for the meet tonight, the two bridges, the resistance offered to floods by concrete arches. In one case at Montrey, Mexico, the flood washed over the bridge, the debris damaged by the bridge was not injured. The concrete bridge was torn down and replaced.

The defense proposition is one that
the team, and more especially the captain, will have to contend with all through the first part of the season. The Seniors are conceded to the Seniors. The two places are doubtful, but Chase, 1914, will probably take first place, with W. Strum, 1911, coming in second.

FRIDAY, JANUARY 6, 1911.

Many of the professional societies are to be commended for their work this term and more and more to the Civil Engineering Society. A striking example of the active part that this society takes among the members of Course I and XI was demonstrated at their meeting yesterday afternoon. An able speaker, fully competent to address the society on a subject of vital interest, had been secured, and the members of the society responded with an audience estimated at one hundred and fifty. These members gave the speaker their whole attention and none of them left before the adjournment of the meeting, a happening which has been altogether too frequent at many gatherings of Institute men this past term. Moreover, the program of the society has been uniformly good this fall. The act of the society which was perhaps most widespread in its influence was the combined societies dinner which it conducted and conducted. A new year of usefulness to the Civil Engineering Society!

We hear that the use of paper towels is to be resumed in the Union wash room. This seems advisable in spite of certain obvious disadvantages of the Japanese invention. The cloth towels have not proved entirely sanitary and, as an institution standing for the encouragement of promotion of universal sanitary conditions, the over used towel has no place. Like charity, the practice of our teaching begins at home. When the paper towels were in use before, the wash room soon became littered with the used towels. There is a basket provided as a receptacle for these and everyone using the wash room should carry away the idea of neatness and cleanliness and throw the used towels into the baskets provided.

Who said that the Seconds couldn't play basketball? Pretty classy game they played Wednesday night, from all reports. Mowry would make a Varsity man if he could only take on a little weight.

Welcome to the big crowds at the Glee Night, as the track managers. The fellows backed the basketball management at the Boston College game. Why do not do the same for your own class as you do for the Institute teams?

Who said the track team wasn't going to be strong this year?

Good luck, Hockey Team. Get to the way that you did in Dartmouth and you may well wear a smile.

Will that we were going to be in Hanover tomorrow night. Some large time in that new Gym but we are picking Captain Parker's boys to win by some eight points.

Are you the man who got those theatre tickets this week, or did you decide that somebody else was better suited to write these bits of hot air? Nice shows in town now, you know.

At last we have hopes of a real live Snow Show this year. Looked rather black for a time, didn't it? Now for the "dear" Freshman chorus girls and their pretty smiles.

Calendar comes to the front again with their usual annual flirtation in allowing all kinds of conflicts. Was the vacation too long for you, or just the same oldTravel?

Teachman Board is surely working hard, but the third year men think all remember that they are a part of the board, "ex-officio," and that the success of the book lies in a large way with them. So hold all you can, TWELVE. It's yours, you know!

DON'T FORGET THAT TRACK MEET TONIGHT.

Have you signed up for the Junior Prom yet? They are after you.

COLLEGE NEWS.

All those falling in examinations at the University of Colorado must wear a small blue cap with green buttons.

Brown has just dedicated her new John Hay Library. A fine addition to the campus.

The Senior Class at the University of Illinois has initiated a movement for the abolishment of final examinations in the second semester of Senior year.

Of the 490 members of Congress 297 are college men. One hundred universities and colleges are represented.

The German Universities this year enroll 58,568 students.

The women at Syracuse are to hold a track meet.

Theoretical and practical work in aviation is to be carried on by an Aeronautical Society organized by students of the University of Michigan.

The society is to be entirely student club, and has an active membership of about 200 members enrolled from all departments.

People's lot never worry about style, just buy FOWNES GLOVES and hit it right.

HIGGINS'
ANNUAL PLANT TEST
TO CONCLUDE TODAY

Work Done By Students and Computations Made Form Data Collected.

Much interest is being shown by the Students in Courses II, VI, X, and XIII in the annual plant test of the Institute, which they are now carrying on. In the work, all the feed water, coal, ashes, and condensed steam are carefully weighed; and the temperature of the feed water, and condensed water is registered by students assigned to the task. While this data is being obtained, other students take indicator cards from the engines and planimeter them in order to obtain the M.E.P. The output of the generator will be calculated with the efficiency of the generator, quality of the coal, etc., will be calculated.

This work gives the men an idea of how similar tests are made in modern plants, and also imparts a certain confidence which will be of immense value to the men in the future.

Steps are being taken by the Faculty of Columbia to organize a student forum for the expression of unorganized investigations which are being carried on in the Institute, by the experiment stations, and by the intelligent farmers all over the country."

FIRST YEAR.

Professor Goodwin will meet students on Monday, January 9th, from 1 to 2, in Room 1, Rogers.

Professor Cross will meet students on Monday, January 9th, from 11 to 12; Tuesday, January 10th, from 10 to 11; and Thursday and Friday, January 12th and 13th, from 12 to 1, in Room 27 Pierce.

Professor Bridgepat will meet students on Monday, January 9th, from 11 to 12, and by appointment, in Room 11 Walker.

Professor Goodwin will meet students on Tuesday and Thursday, January 10th and 12th, from 1 to 2, in Room 2 Walker.

Professor Cross will meet students on Monday, January 9th; Wednesday, January 11th, between 1 and 2, in Room 1, Rogers.

Professor Chadwick will meet students on Wednesday, January 11th, between 1 and 2, in Room 42 Pierce.

Professor Richards will meet students on Thursday, January 12th, between 1 and 2, in Room 42 Pierce.

Professor Sedgwick will meet students on Friday, January 13th, between 1 and 2, in Room 3.

Professor Chandler will meet students on Wednesday, January 11th, between 1 and 2, in Room 42 Pierce.

Professor Richards will meet students on Friday, January 13th, between 1 and 2, in Room 3.

Professor Cross will meet students on Monday, January 9th, from 11 to 12, and by appointment, in Room 11 Walker.

Professor Bridgepat will meet students on Tuesday and Thursday, January 10th and 12th, from 1 to 2, in Room 2 Walker.

A. M. Hurton, Dean.

Of new men on their team this year, first string men left college last year. Playing in Hanover this evening is playing in Hanover this evening among the players. They were Tech a little advantage, seemingly, but noon and will feel all the better to- excuse from work yesterday after- shape, and there are no injuries of any single man on the team who isn't in them and win out. There is not a est of the year to date.

The training table has been of great...
It is often difficult for a student to think of leaders in thought and action as leaders. It is easy to regard a man as a leader if he is right, but those who are going with the leader are of sufficient good will to make room for him. The advantage of the leader is that he has been practicing regularly against the first team and is in first-class condition as his game with the Mooreless All-Stars showed. Practical application of the game will be made against the players in the Academy dining room. The game will be called at 7:45 sharp, so that it may be over in time for the Institute men to catch the train leaving at 8:40 for Boston.

ELECTION OF OFFICERS OF BIOLOGICAL SOCIETY

S. M. Schmidt Is New President and H. E. Babbit Is Secretary-Treasurer.

At the semi-annual election of officers of the Biological Society yesterday afternoon, Mr. S. M. Schmidt, 1911, was elected President; H. E. Babbit, 1911, Secretary-Treasurer, and J. I. Murray, 1912, was made Assistant Secretary-Treasurer for the ensuing term.

An amendment to the constitution was also adopted doing away with the old method of sending out postals noting members of approaching meetings, through the Secretary was instructed to send postals only when he thought best.

A report of the Secretary-Treasurer for the past term was read, and this showed that the deficit with which the society began the year had been abolished. The resume of the work done and meetings held was good evidence that the society has no way deteriorated from the high standard maintained in the past.
WRESTLING TEAM
PROGRESSING WELL

Two Bouts Arranged With Salem Y. M. C. A. For February 24.

INTEREST HOLDS UP.

Men Developing in the Art and Are Showing Fine Form and Condition.

In spite of the fact that the prospective coach has, up to the present time, failed to materialize, the interest in wrestling has not only been sustained, but has steadily increased. A. G. Herreshoff has managed to keep all the members of the squad busy. Among the men who came out at the beginning of the season there are many who have shown themselves to be very promising future mat stars. Guy, Hodgeman and MacNeill in the weight class, seem to hold the honors.

At the same time the Gym team has sustained, but has steadily increased. A. G. Herreshoff in the heavy-weight, Guy, Hodgeman and MacNeill in the middle-weight, Busby in the welter-weight and A. H. Means in the light-weight class, seem to hold the honors at present.

On February 24th Tech will have two bouts at Salem with the local Y. M. C. A. Last year two bouts were held there and M. I. T. got an adverse decision in each case. This year looks very hopeful for a complete revenge.

In a Closely Contested Game
Tech Loses in Last Three Minutes of Play.

SCORE: 20 TO 14.

Game was Characterized by Much Rough Play and Many Foul Calls.

The Varsity basketball team lost a hard-fought struggle tonight, falling to the last Dartmouth five by a score of twenty to fourteen. The game was close throughout, and both teams played to the limit. Dartmouth playing its first game and very promising of a team that will be better than any that has represented them for a number of years. The Gym was crowded with fellows, and many had to be turned away because of lack of room in the old building. The new one will be ready for use in the next home game, but was not available for the Tech game.

Captain Mullin scored the first point for Tech with a free throw, after which the game was on "free play" and the score grew slowly by a series of baskets and free throws. During all of the game, the play was very hard and very much in line with the good record that the Green have made the season. Dartmouth's defense was good, but they could not prevent Tech's offense, and the game ended with the score of twenty to fourteen.

Both teams played to the limit. Dartmouth had the better knowledge of the peculiarities of their floor, more than from the quality of their play, for at times Tech played the better basketball, but that they have lots of floors will not avail them in games of this class. The reason for this decrease is that there are now only fifteen women students at Tech except for advanced women, and consequently few women come to Tech except for advanced work. In many of the classes where women are admitted, the instructors are Technology graduates.

The summary:

Louden Field Club 20

Louden Field Club 20

The next game for Tech is against Brown University for dual meets, which will be held at the Coliseum on January 28. Harrow and Darl. have been assigned to secure a complete box. The Dartmouth captain, Mullin, did the best work for his team, although the work of Hichcock, the star, was outstanding as a point of style of play to a defensive back.

The score:

Louden Field Club---20

Dartmouth---20

Parkers (Capt.) 1 f., 1. b. Hoban 1 f., 1. b. Hume 1 f., 1. b.
Johnson, Parker, c., Gibson 1 f., 1. b., Darlington, 1 b.
Shirtley 1 f., 1. b., Scofield 1 f., 1. b., Scofield 1 f., 1. b.

Time of halves---20 minutes.

The second game was even harder fought than the first, and the result was almost in doubt up to the moment when Tech managed to pull out a 18-20 lead.

For hybridization of a team, the handwork of Tech has been东, and the game through the season, has been in trun, but that there are lots of times when things will come together.

The summary:

Louden Field Club---20

Dartmouth---20

Palmer, f. 1. b., Darling, 1 b., Hulse, 1 b., Morgan, 1 f., 1. b.
Shirtley 1 f., 1. b., Scofield 1 f., 1. b., Scofield 1 f., 1. b.

Time of halves---20 minutes.

IMPORTANT TRACK DATES ANNOUNCED

Contract Signed With Brown For Two Dual Meets.

Manager announces that the Institute will send a two-mile relay team to Brown University to compete at the annual Brown meet, which will be held on Saturday. This is the first year that the team has been entered in this meet, and the team has been successful in previous years. The relay team will consist of six men, and all of them will be free to travel to the meet.

The trials for the team were held last week, and the team has been selected. The trials were successful, and the team will be ready for the meet. The team will be entered in the Brown meet on Saturday, and will be ready to compete. The team will be entered in the Brown meet on Saturday, and will be ready to compete. The team will be entered in the Brown meet on Saturday, and will be ready to compete. The team will be entered in the Brown meet on Saturday, and will be ready to compete. The team will be entered in the Brown meet on Saturday, and will be ready to compete.

The summary:

Louden Field Club---20

Dartmouth---20

Palmer, f. 1. b., Darling, 1 b., Hulse, 1 b., Morgan, 1 f., 1. b.
Shirtley 1 f., 1. b., Scofield 1 f., 1. b., Scofield 1 f., 1. b.

Time of halves---20 minutes.

The second game was even harder fought than the first, and the result was almost in doubt up to the moment when Tech managed to pull out a 18-20 lead.

For hybridization of a team, the handwork of Tech has beenEast, and the game through the season, has been in trun, but that there are lots of times when things will come together.

The summary:

The Technology Women's Association has chosen well in selecting for the permanent presidency of that body Mrs. Ellen H. Richards, 1912. It is now about forty years since Mrs. Richards, who had just graduated from Radcliffe, applied for admission to the Institute, and after some delay was permitted to be the first woman student here. She has served the Institute and mankind faithfully and well, and it is to her honor that the head of her sister Technologians is a much desired position. The fact that this position has just been presented as a research fund to a free library of this kind to the Institute of her women students. We wish her the best of luck. Technology is proud of her women.

This year the Junior Prom Committee is commencing its campaign earlier than usual. Sign-up books are already in circulation while they have not generally appeared until after the mid-year examinations. By means of this early start the committee hopes to be able to determine accurately the number of couples to be present and to plan the contracts accordingly. Therefore it will add to the committee's anxiety if those who intend to go will sign up immediately so that a close estimate can be made and contracts made on the maximum scale permissible. A word should not, however, sign in one of the books unless he is faithfully inclined to pay and has full confidence in his ability to do so. Last year the Prom was perfect in every way those of former years, but the financial proceeds did not equal the obligations. This was in no way due to a misallocation on the part of the committee, but was due to the non-promptness of pledged pairs which is in fact as well as in theory nothing short of stealing. This element of uncertainty in calculation should not be repeated this year. Any student who signs the books should consider himself in honor bound to comply with the agreement therein expressed. Those who are going to be at the dance, April 21, should sign up once and help the committee to make this year's event a financial success and the best Junior Prom ever.

NEW TARIFF BILL
ON FOOD PROPOSED
Beef, Fish and Butter to Be On
Free List.

Fifteen bills were introduced in the House of Representatives Saturday by Representative Hamm of Illinois, intended to take the tariff off from a large number of articles of food, including milk, butter, cheese, beef, fish, oatmeal and cheese. This measure has been referred to the Ways and Means Committee.

Leaders of the progressive wing assured that they will vote together to elect a Ways and Means Committee which will be absolutely certain to stand for a tariff for revenue revision only.

IN THE LIMELIGHT.

Cheer up, Captain Parker, it was a tie score up to the last three minutes anyway. Get your money on Washington's Birthday.

The Hockey Team did well on their trip.

The Brooklyn High School held a meeting at the Union Saturday evening.

Have you signed up for the Prom?

The Transcript says that the Institute has shower baths in its Chemical Laboratories. Did you know it?

One more week!

Drake—the chemistry research man who was injured lately—is reported as getting along nicely. He is at the Massachusetts General Hospital.

The list of new Biological Society officers sounds good.

Good work, Johanie Grant, that was certainly traveling some.

The relay squads look good this year. Final cut soon. Here's luck to them.

Look as though Mills was right there with the goods in the line of condition this year. That was rather hard on the freshmen, though.

Large attendance at the Union entertainment last evening. Too bad that a few of the knackers don't show their appreciation when the Entertainment Committee does provide some recreation.

(Continued from Page 1.)

With Technology. One this year on April 29, at Providence, and the other at Tech Field on May 5, 1912. The last meet between Technology and Brown was held on May 11, 1911, at Tech Field, and was won by Brown, with a score of 68.5 to 77.13. Brown's victory was in a great measure due to "Johnny" Mathews, who took four first places and tied for a third.

SECOND VICTORY FOR 1914 BASKETBALL TEAM.

In an exciting game at Reading, Saturday night, the Freshman basketball team defeated the Reading High School Alumni by the score of 33 to 23. During the first five minutes of play the Alumni scored eight points to the Freshmen’s two, but the latter gradually forged ahead until the half ended, with the score 16 to 14 in their favor.

In the second half there was never a doubt as to the result as the Freshmen played their men to a standstill, allowing them but two baskets. The game was somewhat rough, especially during the second half. Reading had twelve fouls called upon them, while the Freshmen had seven. Although every man played a fine game, the work of Glennon in shooting seven of the twelve baskets made by the Freshmen, and the caging of nine fouls by Russell, were features.

The game against St. John’s Prep next Saturday will be the hardest of the season, and a full attendance is expected. It is reported by good authority that the Alumni team is composed of the best players from the various basketball clubs in Boston. The Freshmen will have to work hard to hang on to their lead.

The lineup follows:

Dean Academy, forwards.

Derry, forwards.

Glennon, Henderson and Cleverly.

Freshman lineup:

Mowry, Russell, Sampson.

MASSACHUSETTS INSTITUTE OF
TECHNOLOGY.
First Year—Choice of Course.
Circulars in regard to the Choice of Course were sent to all first year students with the report of standing for the second two weeks. Cards will be distributed among first year students at some Chemistry exercises, and they are to be returned with a provisional Choice of Course indicated on them. This choice is not binding, but students are earnestly asked to consult with their parents and their instructors at once in order that a provisional choice may be made within the next two weeks.
WALTER HUMPHREY,
Registrar.

NOTICE.

First Year—Conferences in regard to Choice of Course.
Course I and XI, Professor Spofford, will meet students on Thursday, January 5th, at 1:15 P. M., in Room 49, Engineering A.
Course III, Professor Lanza, will meet students on Monday, January 9th, from 1 to 2 P. M., in Room 6, Lowell Building.
Course VI, Professor Jackson, will meet students on Tuesday, January 10th, from 1 to 2 P. M., in Room 6, Lowell Building.
Course XI, Professor Peabody, will meet students on Tuesday, January 10th, from 1 to 2 P. M., in Room 27, Pierce.
Course XIII, Professor Peabody, will meet students on Wednesday, January 11th, from 1 to 2 P. M., in Room 22, Engineering C.
Course XIV, Professor Peabody, will meet students on Thursday, January 12th, from 1 to 2 P. M., in Room 22, Engineering C.
