E. SENSORS TO ADDRESS MEETING

An interesting program has been arranged for the opening meeting of the Electrical Engineering Society in the Union tonight. Several prominent Siemens will tell of their summer's work, while nearly all of the professors of the department will be on hand to speak on a few words.

President E. P. W. Ferris Jr., will preside at the meeting, which will be held at 7.15. Among the speakers will be Russell Hastings, D. P. Galland and R. E. Miller, who have been in constant touch with the Institute.

Hastings spent the summer abroad and will tell of the unusual experiences, while nearly all of the profession, particularly in and around Berlin. It is understood that the Institute will have attractive plans for the opening meeting of the society some interesting facts concerning several large plants visited by him, particularly in and around Berlin. The meeting will be held upstairs in the Union and light refreshments will be served.

MECHANICALS OPEN YEAR WITH DINNER

Proposed Trip to Niagara Falls Discussed At First Meeting of Year

The Mechanical Engineering Society held its first meeting and dinner of the year last night. About seventy students were present and enjoyed greatly the short talks given by Professor Lanza, Haywood and Miller, which were given after the dinner.

After the meal had been disposed of, Chairman MacMullan called the meeting to order. He stated that the deans had been given permission to have a view of the new mechanical plant, which will be used as a laboratory, and asked all those having anything to say about the new plans to stand up and say it. Those interested in the new mechanical plant met in the evening. He also called attention to the electric plant under construction which is near.

E. Society Trip to Lynn.

The year's Junior trips will be to Lynn, the home of the American Society of Mechanical Engineers. This is an excursion of the men to Lynn to see the power plants and other factories located there. The trip will be held on Wednesday, October 26th.

HARE AND HOUNDS CHASING AT WAKEFIELD

Third Round of Season to be taken-to-morrow over exceptionally Good Course

The Hare and Hounds run tomorrow at Wakefield. The train leaves the North Station at 9.24, on Track 20.

This course was planted last Spring by Captain Watkins and K. Cartwright, and those who covered the course then priorly are to be the best of the regular team. It leads in many fields, county roads and through some excellent stretches of woodland. About half the course is over fine golf ground. The run will be between six and seven miles long and starts from the Y. M. C. A., whose showers are available after the run. The entrants are to arrive in the early afternoon with the racing society attire, and only one style of bit will be allowed. The number running is not limited, but the owners are asked to be present. The entries for the Fall tennis tournament announced will be allowed, and those who have not entered will be allowed to do so.

DRAWINGS FOR TENNIS TOURNAMENT ANNOUNCED

Preliminary Round Must Be Played Off By This Saturday

The entries for the Fall tennis tournament closed and drawings were made for the singles and doubles first. There are a number of good men entered, so the outcome of the tournament is to be decided by the luck of the draw.

The meetings for the past year, according to a statement made by Professor Lanza, were very successful. Of the thirty-five hundred students who attended, nearly a hundred were amateurs, and the society has shown considerable increase this year.

The meeting was held in the Union, and light refreshments will be served.

CALENDAR

Friday.

1.40—Meeting of 1912 Relay Candidates.

1.45—1912 Football Practice—Oval.

4.00—1912 Football Practice—Field.

4.00—Crew Practice.

4.00—Baseball Practice—Field.

7.15—H. R. Society Meeting—Union.

3.45—C. E. Society Trip to Lynn. Train leaves North Station.

2.30—Train leaves for Home and Hospital, West Springfield.

6.00—Football, 1912 vs. Sonneville High, at Sonneville.

3.00—1912 Preliminary Relay Trials—Field.

4.00—Crew Practice.

4.00—1912 Preliminary Relay Trials—Field.

4.00—1912 Football Practice—Field.

The Tech takes great pleasure in announcing the election of Elliott Whitney Tarr 1912, and Edgar Whitaker 1913, as associate editors.

NOTICE.
Board meeting of The Tech at 1.00 P. M. today, in the upper Tech office.

COMMUNICATION.
Editor of The Tech:
Dear Sir:—Due to confusion which has arisen, I hope The Tech will be able to help matters by printing the following:

The Technology Course.

When the cross country team was to run over the course from Highland to Tech Field notices were posted mailing the cost of the course. This has caused some confusion, especially among those who know that Harvard has a course of her own at Chestnut Hill. Our course from Highland is the one over which we have raced Harvard for the last five years, and has come to be referred to as our Harvard course. But this course is really the Tech course and was laid out by Tech men, and should therefore be called the Technology course.

Fours truly yours,
R. M. Perry.

intercollegiate news.

The Freshman class at the University of Pennsylvania is having difficulty in putting out a cross country team. So far a squad of one has reported.

The following rules govern the nominations to offices of members of the senior class at Princeton:
1. Each nomination shall be in writing and shall be endorsed by at least ten (10) members of the class eligible to vote in class elections.
2. No voter shall be allowed to endorse for the same office more than one nominee. The penalty for violation of this clause shall be the disqualification of the offender for that office.
3. There shall be no limit to the number of offices for which any one may be nominated.

Dr. Leo S. Rowe, who recently represented Pennsylvania at the inauguration of the new national university of Mexico, said in an interview: "It has been the custom of Mexican parents to send their sons to European universities, but they are beginning to appreciate the fact that, especially in all the technical subjects, the facilities of the American universities are now unrivaled. It is realized that we are certain to receive each year an increasing number of students from Mexico.

All but one of the 90 American students returned to the United States for Mexico.

The Sophomores at the University of Minnesota have passed a set of "stringent" rules for the guidance of the Freshmen. It is announced that these will be strictly enforced. Four of the rules follow: Freshmen shall tip their caps to Sophomores on the campus.

No Freshman shall wear a derby on the campus or to any university function.

Freshman socks and ties are to be seen and not heard.

No Freshman shall pass through the campus.

The last rule applies to girls as well as men.

The Scholomos won the annual tug of war match at the University of Wisconsin.

The Freshmen asked a list of confidence that lost them the contest. A number of the men were severely bruised.

An aerial train arrived at Ann Arbor, and frenzied tales of the expected aerial train.

The Mining Engineering Society is to hold a meeting next Wednesday, October 19, at 2:30 P. M., in the small dining room. Professor Richards will talk to the society on Mexico. Illustrating the talk with lantern slides prepared from photographs which he himself has taken, this meeting will be of great interest to all members of the society as there is much business coming up, perhaps the most important of which is the matter of affiliation with the American Institute of Mining Engineers. Professor Hofman feels that the requirements to language at the Institute are now such that he can return to the old system and expect the students to be able to do the work.

All foreign students at the Institute who desire to become members of the Cosmopolitan Club should leave their names at the Cage for hour. Honorary, at once. Americans desiring to join should do likewise, but election to membership is not guaranteed.

All members of the Cosmopolitan Club and those intending to join are requested to meet on Rogers steps at 4:30 P. M. Tuesday, October 18, to have their picture taken.

FATIMA TURKISH BLEND CIGARETTES

With each package of Fatima you get a parrot bird actress' photograph—also a permanent coupon. A 25-cent estimate is a handsome felt collar pennant (12-127)—section of 100.

No elaborate design, no intricate proof is needed to establish the superiority of Fatima Cigarettes.

Just start one—and as the fragrant smoke draws a future on the blackboard of your mind, their rare qualities appear as an Axiom—a self-evident fact.

They are good from every angle, and generous, too—20 for 15 cents—in an inexpensive package, but you get ten additional cigarettes.
