The editor understands that there is no exhibition so far as he knows that the place will not be in the hands of the artists or writers who have submitted, may be remarkably good and yet not worth the work for the show. The only recognition that a losing competition in the work in this exhibition, and it is to be regretted that any of the best work of the lyric and music writers is not such that it can be shown, and that is the virtual fact that a constant interest in the popular competition, by no means condemns the nature of the work of the lyric artists. Posters are in demand for exhibiting, so can't we have a chance to hold its first meeting of the term this week? Where everyone comes for a good time, tell people that you are going to see Tech beat Dartmouth in the last and largest basket ball game of the season and then make them come too. Winchester Repeating Shotguns

USED IN THE U. S. ARMY.
The U. S. Army authorities know a gun; that is why, when they decided to equip some troops with repeating shotguns, they selected the Winchester in preference to all other makes. The experts of the U. S. Ordnance Board also know a gun; that's why, after submitting a Winchester Repeating Shotgun to all sorts of tests, they pronounced it safe, sure, strong and simple. If you want a shotgun—buy the one whose strength and reliability led the U. S. Army authorities to select it and the U. S. Ordnance Board to endorse it—that's the Winchester.
