TRIALL FOR TECH SHOW TODAY, 2 P. M. EVERYBODY OUT!!
Mr. Sherman Says Every Graduate Should Be Active in Public Affairs

In a contribution to the Yale Daily News, Vice President Sherman says that every college graduate should take an interest in public affairs, but that not many should go into public life.

He writes as follows: "I would not advise any college graduate, who, outside of his book learning, was reasonably bright and industrious, to enter the service in some of the minor positions, even though the compensations offered looked so good to him at the time rather attractive, and even though when coming from college he had a debt which he had contracted and was eager to pay off. I would not advise him to do that, because I think holding minor positions in the Government service is very apt to be working in a rut, and once you get into a rut it is very difficult to get out. It is not, as a rule, a life that broadens a man much.

Mr. Sherman holds that it is the duty of every young man to take an active interest in political affairs, not simply in national elections, but "so far as our little municipalities are concerned where we are all interested in having honesty and efficiency in public service." He says, broadly speaking, he has yet to find a single instance where he thought a college education was not a distinct benefit to a man.

CORPORAL APPOINTMENTS

FOR CORPS ANNOUNCED

The Calendar Committee has at best been able to notify organizations of coming events as far in advance as the changing of a date and the prevention of a conflict next Friday night.

With the announced intention of keeping students from down town dance halls, the track team of Minnesota has started a every college weekly dances to run through the winter. It is expected that a more cordial college spirit will in this way be fostered.

Thirty-five boots were necessary to handle all of the candidates out for wrestling at Columbia.

Penn's track material looks encouraging as all of last year's championship team have returned to the fight with but one minor exception.

Suspended undergraduates are forming a motorcycle club.

The American college which has the percentage of its alumni is Who's Who, is Amherst. The percent is 4.6.

SATURDAY FEBRUARY 11, 1911

The Calendar Committee has at last had a good reason for the refusal of the organizations in its meeting. In the first place, the manager or secretary of each organization should be ready to acknowledge the precedence of another organization if the meeting was crowded when the corps was drilled.

The drill of the Corps is progressing steadily, and the last half of the two-week period is used for Battalion drill and ceremonies. The execution of the different evolutions is calling forth many favorable comments and the bayonets at the Army are crowded when the corps is drilling.

Certainly undergraduates at Brown are planning to hold a debate early next week. They expect to receive both oratorical and French credit for their efforts.

For the Freshman Battalion, the following appointments of non-commissioned officers are announced.

VARSITY BASKET BALL TEAM PLAYS BROWN

The Varsity Basket Ball Team goes to Providence to-night to play Brown. The game will be fast and in all proba-bility much closer than the game here in The Gym., for the Brown team have picked up very fast since the night that they played in Boston. Last Saturday they defeated Yale by a score of 36-13 at Providence and Wednesday, they were covered up by Williams to the score of 28-17. It is easy to see that the game will be very close from these competitive scores, but at the same time it looks as though the Varsity would be able to get away with the game without a whole lot of difficulty.

The men are all in the best of condition for this trip and they will give Brown a good fight. Capt. Parke has put them through a lot of hard work in the past week and as a result the team-work has been greatly improved. The men have to a large extent, regained their old strength and reliability led the Board to endorse it—that's the Winchester.
