VOL. XXX. NO. 86

BOSTON, MASS., FRIDAY, FEBRUARY 17, 1911

PRICE TWO CENTS

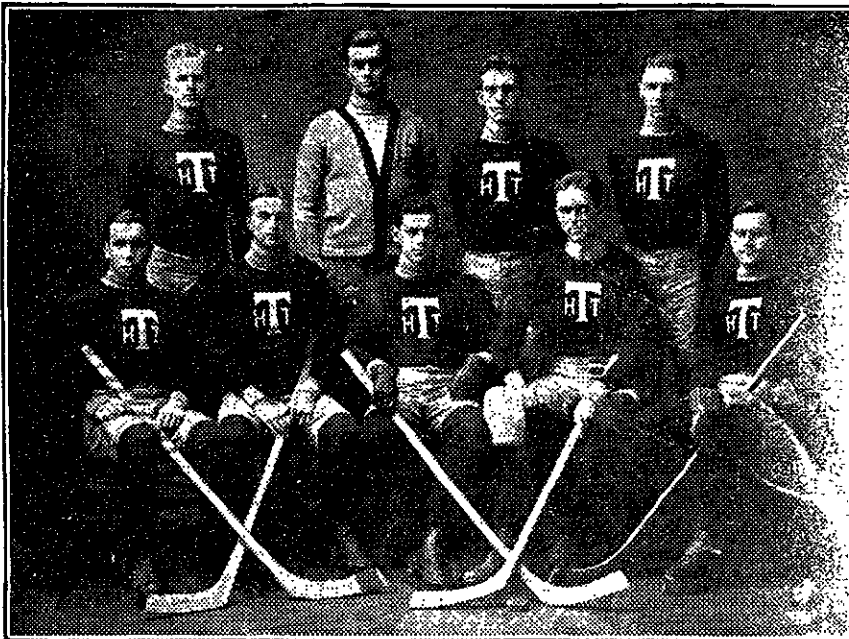

## COMPETITION STILL OPEN FOR SHOW STAGE MANAGER

Contestants Should Notify E. H. Schell Of Intentions

## ASSISTANT'S WORK IMPORTANT

Small number Turned Out, More Hoped For.

Comparatively few men reported yesterday afternoon in the competition for Assistant-Stage Manager. This may have been partly due, however, to the short notice given of the meeting. There is still opportunity for those who were unable to come out yesterday, and they should notify Stage Manager, E. H. Schell

Hockey Team 1910-1911

## TECH MEETS WILLIAMS AT ARENA SCORE: TECH 12, WILLIAMS 3

At the Arena last night, the Tech hockey team met the team Williams produced and demonstrated Tech's supremacy in the ice in the most convincing manner. There was nothing to the game but Tech from the very first minutes of play. The team-work of Technology was remarkable while the confusion of Williams was indeed remarkable.

At the very first face-off, Technology took possession of the puck and chases it clear down to Williams' goal. The puck remained there for about three-minutes and then Peterson of Tech made a foul and was ruled off for two minutes. During all this time, Tech rushed the puck all around Williams' goal and kept its defenders very busy indeed. Then the first score was made by Hurlburt of Technology after seven minutes of play.

But three more minutes went by and he made a second goal. The puck went scurrying about the Williams' goal and two minutes later, Sloan of Technology made another goal. Scoville followed this good example three minutes later, by scoring another goal for Tech. Just before the end of the half, Ranney was ruled off the ice for one minute. When the first half ended, the cheering was intense and Tech's rooters out did themselves.

Scoville and Sloane starred for Tech, while Peterson starred for Williams. The final score: Tech 12; Williams 3.

<b>TECHNOLOGY.</b>	<b>WILLIAMS.</b>

## TECHNIQUE BOARD PROMISES MUCH

Working Hard For Ads. etc.  
Sign-Up Books Issued

Things are coming to a head for the 1912 Technique, and two meetings a week are now being held by the board, which is working hard, both for ads. and material for the remaining pages of

the book. The secretaries of some of the societies are very delinquent in getting the lists of members in to the board.

Another unfortunate fact is that grinds are not coming in as fast as was hoped for. Very truly is it said, that "Procrastination is the thief of time" and time is short.

Slips for signing up for the books, have been issued and are in the hands of the members of the Board. A deposit of fifty cents is required with each signature. All men who do not sign up will not get a book.

Apropos of this limiting of the number of copies printed, it is to be borne in mind that Technique this year will not only be an extremely fine example of the printing art but will be a book worthy of the Institute and with the books of the last few years in consideration, this is saying a good deal.

## C. E. MOVING PICTURE SHOW TO BE HIT OF THE SEASON

Pianist Engaged To Provide Local Color. Entertainment To Last One Hour And A Half. Admission By Ticket Only.

The meeting of the Civil Engineering Society this evening in Huntington Hall will be the largest ever held by an engineering society at the Institute. Nearly all members have taken their allotted four tickets and there will be many ladies in the audience. Among the invited guests are the members of the faculty, Frederic H. Fay, '93, and Louis K. Rourke, '95, of the Boston engineering department and other members of the alumni. In order to carry out the idea of a moving picture show a pianist has been engaged for the evening. The entertainment will probably last about one and one-half hours. Admission will be by tickets only.

Cornell University has decided to establish a Department of Forestry, and under the present plan the work of instruction may start next fall. Prof. Walter Mulford, of Michigan University, has been called to Cornell to take charge of the new department, and will take up the organization of the work the latter part of this month.

## AEROPLANES AS SCOUTS

EXPERIMENTS BEING MADE

Leighton Makes Flight Over Presidio Of San Francisco Recently

CARRIES ARMY OFFICER

Fail To See Mobile Troops At 200 Feet In Air.

Speaking of the possible uses and limitations of Aeroplanes as scouts; in consideration of the aeronautical experiments being conducted under the direction of officers of the Army and Navy, an Army Officer who witnessed an experiment at San Francisco, said unofficially "The aviation meet out here was to me most interesting. It looks so easy that I envied Leighton when he flew over Golden Gate Park, the Presidio, the Golden Gate, the city and back to the starting point. But the bomb dropping, the rifle practice, and the surprise of the Camp were disappointing. Any bird-man who dares hover near a hostile force at any thing under four or five thousand feet is a dead bird. The bird-men tried scouting after a troop of cavalry and a battery of Artillery, and although the aviator took up an Army Officer with field glasses, mounting to over 2,000 feet, they were able to see nothing of the Mobile troops below. This leads me to believe that in any country not devoid of trees, fairly good sized bodies of troops can march in the presence of aeroplanes, and seeing the latter approaching from a distance, can escape observation. If an aero plane does come near or over head, it is not going to be hard to hit, and it must be remembered that every little hit counts. A brace cut, a wire broken, any little damage is nearly always fatal for the aeronaut. All the bomb dropping out here was done under 1000 feet; the shooting was done with a shot-gun, which, of course, is absurd. But, after all, I believe the bird-man will have many uses, and to prevent him from scouting ad libitum, cavalry will be needed more than ever in the Military operations of the future.

Tech vs. Wesleyan Basket Ball—Middleton.

E. H. SCHELL.

of their intentions as soon as possible in order to start on an equal footing with the rest.

Mr. Schell gave the men a little talk about the work which would be expected of them. He mentioned piano playing and typewriting as accomplishments which would prove very useful in the stage department. The work of the freshman assistant will be light and should not interfere with his studies at all. It will consist principally of following the prompt book closely at rehearsals, but will have a good deal to do with the negotiations with costumers and other lines of business.

With the new methods of procedure which Coach Sanger has adopted, the work of the stage department has increased enormously with a proportional increase of responsibility.

It is therefore of the utmost importance that a large delegation of freshmen come out for the position in order that Tech Show 1911 may have a competent and valuable man at the head of the stage department in the future.

## MASS MEETING FOR CRETAN LIBERTY IN FANEUIL HALL TONIGHT

This evening there will be held in Faneuil Hall a mass meeting in favor of Cretan liberty. It will be held under the auspices of the Pan-Hellenic Union and will begin at 7.30. The list of excellent speakers follows: Mayor J. F. Fitzgerald of Boston. Dr. W. E. Huntington, ex-president of Boston University, Prof. F. P. Ion, of B. U. Law School, Prof. Manats of Brown, Dr. F. B. Sanborn, Mrs. J. Elliot, daughter of Mrs. Julia Ward Howe, Mrs. A. K. Black, Rev. Dr. Andington, and the Rabbi Fleischer. No tickets are required for admission.

FRIDAY FEBRUARY 17, 1911

The majority of the departments in Technique are more or less similar in make-up from year to year on account of their cut-and-dried nature. Among the few departments which are capable of greater variety and expansion, the Grind Department stands pre-eminent. This department adds considerable to the individuality of the Technique and can be worked up indefinitely. It is supposed to give a lot of local color to the book and should thus include squibs on as many phases of Institute life as possible. In order to do this thoroughly and not to slight any part, the co-operation of everybody is necessary. Lots of funny things are happening every day. Remember that funny one you laughed at in math. class the other day? Address it to the Grind editor and leave it at the Cage. You may get the free Technique. All grinds must be in next Monday, so do it now.

A club for the promotion of wireless telegraphy has been formed at Harvard.

Two hundred track men at Cornell tendered a banquet to the championship cross-country team recently.

A new club has been formed at Chicago for the purpose of studying drama and for actual experience in play-writing.

## LIMELIGHT

What about TECH!  
The Armory was some resplendent Wednesday afternoon.  
How did the piano-playing at the Union yesterday make your dinner go?

By the way, Where was the music last night?

Will you come to the military hop March 10?

Duffy sure is a song-writer.

The Electricals visited the main telephone exchange yesterday after noon and saw 1200 operators at work, also 1200 switches.

## COMMUNICATIONS

Editor of *The Tech*:—  
In yesterday's paper you published a communication from Mr. Don Stevens in regard to a conflict of dates between the Basket Ball Team and the Civil Engineering Society, in which Mr. Stevens emphatically stated that the Calendar Committee is not at fault but that the blame belongs to the Society. I do not for a moment question Mr. Stevens' sincerity, but he has evidently been misled to some extent. Mr. Stevens stated, "Dates are posted on the calendar as far ahead as known....the C. E. Society.....without consulting the calendar.....arranged for that evening."

The facts of the matter are that we DID CONSULT the calendar and NO DATES later than the following week WERE POSTED. Only a week ago I called the attention of Mr. Parker, the Captain of the Basket Ball Team, to this, and we both carefully examined the calendar and found no information such as was wanted there. The Calendar Committee may have known the dates but they were not posted.

The dates should be posted. If the Calendar Committee is incompetent—merely as a suggestion—why not allow each activity space on the Bulletin Board to post its dates? Also, why not put the blame where it rightly belongs and not try to shift it to some innocent party?  
Isaac Hausman,  
Pres. C. E. Society.

To The Editor of *The Tech*:—  
With regard to the communication in yesterday's paper from Mr. Donald Stevens in which he says that the fault for these conflicts lies with the heads of activities who have not answered the Calendar Committee's request for dates and schedules which they have arranged. I should like to make it plain that I received no request from the Calendar Committee for my schedule and although I did not send them a copy, I consider that publishing my schedule in *The Tech* several times as I have was enough. I do not consider that I can be held responsible for the conflict and as I understand that the C. E. Show was arranged during mid-years when the Calendar Committee was not here, it would seem as though they should also be exonerated as well. By the way, there is a Gym meet tonight that has been the partial cause of the discussion and it has not yet appeared in the *Calendar*. Does that speak very well for the Committee?

Very truly yours,  
L. W. Chandler, Mgr.  
Basket Ball Team.

### HOLIDAY GAME ATTRACTS MUCH OUTSIDE ATTENTION

Both Basket Ball Teams Are Round-  
ing Into Championship Form

DARTMOUTH vs TECHNOLOGY

Interclass Game Between The Halves  
Will Bear Watching; Odds Seem  
To Favor Freshman.

Dartmouth vs. Technology at the Gym on Washington's Birthday and yet not a sixth part of the student body seem to be aware of the fact. The game will be a fast one and one which will be well worth the price of admission and it should be attended by every loyal Tech man. There will be no conflicts with any other activities except the Musical Clubs, who will be in Northampton and nobody else has any kind of a good excuse for not being there. The game has been announced a number of times and there should be a much better response to the ticket sale than has been found up to date. Dartmouth will bring a good bunch of rooters and we want to show them that we can back our team in The Gym. You have supported the Williams-Tech hockey in fine style and the basket ball team needs just as much support as the hockey team and we ask for it. The team will play a good game and with a little encouragement should be able to take the game from the Hanover team. The management are doing every thing possible to provide extra seats for the evening and there will in all probability, be a section of seats reserved in the center of the stand.

The Dartmouth manager writes that his team is coming up very rapidly, that they are playing a great deal better basket ball than they did on the Western trip when they lost to Colgate and Syracuse. They are playing Williams at Hanover tonight and on the results of that game there will be chance for a good comparison of the two teams, that are to meet in The Gym on Washington's Birthday. They are also playing in Medford on the twenty-first and will in that way give more comparative scores. Johnny Mullen, the veteran captain of the Green team, is the son of the Chief of the Boston Fire Department and it is to be expected that the genial chief will be present and cheer for his son's team. The Dartmouth Alumni have responded generously to the call which the management sent out to them and will back their team to the limit on the Holiday game.

The Institute Team is playing in Middletown on Tuesday night as the opening attraction of Junior Week at Wesleyan, and they will not get home until a short time before the game. The men are in good shape with the exception of Ell who has been under the care of a physician since the night of the Brown game. He is feeling a great deal better and is beginning to get the use of his ear again, so that it looks as though he would be in fine condition by the first of next week. Don't forget to ask her to go to the Dartmouth basket ball game.

MILTON KAHN 1912  
PRESIDENT OF CHESS CLUB

R. T. Brown 1914 Elected Vice-Pres.  
L. W. Burnham 1914 Sec.-Treas.  
Try Out New of Men To Be  
Held

At the meeting of the Chess Club yesterday, Mr. Milton Kahn, 1912,—probably the best player in the Institute, was elected President for the ensuing term. R. T. Brown, 1914, was made Vice President, and L. W. Burnham, 1914, was chosen Secretary-Treasurer. Interest in Chess has existed only in individual cases this year, and no concerted action could be secured to organize a team such as the Club has had in past years. It was decided to begin more active work at once, and a tryout for the new men will be held in the near future. All men who wish to become members of the club should notify the Secretary at once.

### INTERCOLLEGIATE NEWS

The junior class at Columbia has negotiated a loan of \$100 from a merchant to help defray temporarily the expenses on the junior promenade.

The seventy-fifth birthday of Mr. Carnegie was celebrated with a gift of \$2,500,000 to the Carnegie Technical Schools. This is a total of \$20,000,000 given to this cause.

# FATIMA

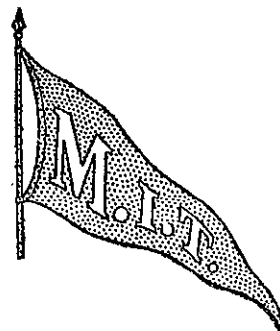

TURKISH  
BLEND  
CIGARETTES

MINING

A good prospect is soon discovered to be a rich find if you start smoking Fatimas. When assayed they reveal only rare tobaccos blended to produce a distinctly "different" taste. Come fellows, get rich quick, dig up some silver and buy gold, for Fatimas are nuggets of intrinsic value. And their goodness is surprising.

They cost only 15 cents for 20, which gives you 10 additional.

THE AMERICAN TOBACCO CO.

With each package of Fatima you get a pennant coupon, 25 of which secure a handsome felt college pennant (12 x 32)—selection of 100.
