PRICE TWO CENTS

## TECH vs DARTMOUTH AT GYM WEDNESDAY NIGHT

### FINAL MUSIC TRIALS FOR TECH SHOW ON FEB. 24

Coach Sanger Will be Present and Make Final Selections

### VERY SATISFACTORY SHOWING

Opening Choruses Written By O. B. Denison Are Much Above Previous Standard.

The final Music trials for Tech Show, 1911, will be held at the Union in the music room at 4.10 P. M. on the afternoon of February 24. Coach Sanger who, is returning from Atlantic, Georgia, where he has been producing a play, will be present at the time and with the help of Stage Manager, E. H. Schell, will pick the remainder of the musical numbers. It is of the utmost importance, however, that enough selections be offered at that time.

A large part of the music submitted for Tech Show, 1911, was very satisfactory. Seven of the numbers including the opening choruses have already been selected and where this is the case, the work leaves nothing to be desired. Mr. Orville B. Denison, '11 is already well known and his former work for Tech Show speaks for itself. This year he has carried off all three opening choruses and the song entitled "The Butler's Story." Mr. Denison has had previous experience in opening choruses and his success may be partly due to this fact.

Joseph C. Fuller, '11 who distinguished himself as "pretty girl" in "The Queen of the Cannibal Isles" last year has also done some very good work on the music. He has been very successful with "I'll Be Down in A Minute" and "If I Could Only Talk Like That." He is especially to be congratulated because these songs were among the most difficult to put to music.

Scott B. Putnam, '11, who wrote the music for "Tourists" in last year's Show, has written two songs which should be among the most popular in "Frenzied French": "Every Juliet Has a Romeo" and "Tech". The sentiment in each should appeal to everyone. The words are unusually catchy and the metre is smooth with an irresistible swing to it. With Mr. Putnam's able handling the two songs should have a marked success.

Only that music which is especially good, has as yet, been accepted by the management, but on several of the numbers, competition has been restricted to two or three men. This is because their work was considered equally good and it was thought that more time would enable them to further perfect their themes for reconsideration.

Competition is still entirely open on the songs, Be Moderate, Studay of Love, What Was I Thinking of Then, Trials of a Hostess, and Excitement. It is important that these numbers be carefully considered by the competitors as they offer good opportunities for musical hits. Successful music cannot fail to make a successful musical comedy and, on the other hand, the music must be unusually good in order not to lower the tone of the Show. It is therefore hoped that the men will put in these last few days in perfecting their work. Contributions from new men are also desired and will receive careful consideration.

Students at Dartmouth are allowed to carry only fifteen hours work per week. In case a student takes more than this amount, he receives credit for the fifteen hours only in which he has the highest standing.

Thirty-seven Universities abroad were founded before 1420.

### WIRELESS SOCIETY

#### ATTAINS STATION

Work On Transmitting Station Begins Early This Week

#### SPECIAL ROOM BEING BUILT

Dr. Pender Fathers Society Which Is Booming.

Although a comparatively young organization, the M. I. T. Wireless Club is about to undertake work that bids fair to bring it very prominently before the Institute and the world in general, in a very short time. The Wireless Society is going to install a two-kilowatt transmitting station to be located in a room which will be built for the society in the Electrical Engineering Laboratory. The apparatus in this room will be of a very delicate nature and very expensive. Therefore each member must have a pass to gain access to the room,—passes that will be issued by Dr. Pender.

The installation of the plant will be begun early this week and to discuss the plans and other business, a meeting of the society will be held at four o'clock to-day.

The membership of the society has been increasing normally and the prospects are very bright for the future, now that this transmitting station is a reality, for it is the one thing that will insure the certain success of the society. A great deal of care must be taken, however, that there shall be no interference with any commercial or naval station, for if there is, the transmitting station will be taken away. The society has an understanding with the Navy Yard, that all sending will be stopped by the society at the request of the yard.

Auspicious hopes are being entertained that the M. I. T., station will be able to work with those of Harvard and of the Worcester Polytechnic.

When the installation of the instruments is completed, the society intends to calibrate them under competent supervision. This calibration will comprise the determination of wave length, the capacity of the aerial, and so forth.

It is entirely probable that a course in wireless telegraphy may be established in the near future at the Institute, and if so, the society may be able to co-operate with it to mutual advantage.

### NEW STUDY FOR CIVIL ENGINEERS

Mr. F. H. Fay, 1893, To Discuss "Legal Engineering" For Their Society

One week from to-night, the Civil Engineering Society will hold the third of its entertainments for this year. This meeting is to be held in the Union, and the speaker will be Mr. Frederic H. Fay, 1893. Mr. Fay is an ex-president of this society, is Division Engineer of Bridges and Ferries of the New Boston Public Works Department, is permanent secretary of his class at the Institute, and is on the nominating committee of the American Society of Civil Engineers. Mr. Fay will be remembered by many of the members of the Institute Society because of his interesting talk on "The Boylston Street Bridge", which he delivered before them last year. This time the subject to be dealt with is "Legal Engineering", and it is one with should prove of great interest to engineering students.

Acting with its accustomed thoroughness the program committee has secured the services of the orchestra for this occasion, and this should be good news to those men who heard the youngest Tech musical organization at the joint Dinner.

Tickets will be fifty cents.

### FRESHMEN LOSE BY

#### 2-3 OF A POINT

Brookline High Wins Closely Contested Track Meet At Tech Gym

#### MANY CLOSE FINISHES

Freshman Team Greatly Handicapped By absence Of Captain Guething.

Before a large assembly of eager and enthusiastic supporters the Brookline H. S. defeated the 1914 Track Team by 2-3 of a point. The meet was so close from start to finish that it was not until the last event had been run off, that the winner could be decided. In the final heat of the 35 yards dash, Nordell of Brookline by a great burst of speed succeeded in tying with Wilson for first honors. In the 1000 yard run, Tech took all three places, Nye squeezing out a winner after a hard struggle with Newlan. Brookline had everything their own way in the shot, Hight showing his remarkable ability with a put of 39 feet, 10 inches. In the 300 yard run, Bowler gradually pulled down Mason's lead, and with a final spurt passed him at the finish. The result in the 600 was just the opposite, Capt. Capper of the High School, just nosing out Fox at the tape. Dexter of Brookline, with a jump of 5 feet, 7½ inches, out distanced his nearest competitors by 2 inches. Shedd had everything his own way in the mile run, and Shedd showed his superiority in the hurdles by capturing this event. The Freshman Team was greatly handicapped by the absence of Capt. Guething.

#### The Summary:

35 yards dash.  
Dead heat between Wilson, '14, and Nordell, B. H. S.; third, Bowler, '14.  
Time 4 1-5 seconds.  
1000 yards run.  
Won by Nye, '14; second, Newlan, '14; third, Lee, '14.  
Time 2 minutes, 38 seconds.

Shotput.  
Won by Hight, B.H.S., 39 feet, 10 inches second, Wyman, B. H. S., 32 feet, 7 inches; third, Barnett, B. H. S., 30 feet, 10 inches.  
300 yards run.  
Won by Bowler, '14; second, Mason, B. H. S.; third, Hiller, '14.  
Time 4 2-5 seconds.

600 yards run.  
Won by Capper, B. H. S.; second, Fox, '14; third, Hiller, '14.  
Time 1 minute, 24 2-5 seconds.

High jump.  
Won by Dexter, B. H. S.; 5 feet, 7 1-2 inches; Hall, '14, Correy, B. H. S., and Eberhart, '14, tied for second 5 feet, 5 1-2 inches.

Mile run.  
Won by Shedd, '14; second, Jones, B. H. S.; third, White, '14.  
Time 4 minutes, 57 3-5 seconds.

40 yards Hurdles.  
Won by Shedd, B. H. S.; second, Chase, '14; third, Bryant, '14.  
Time 6 1-5 seconds.

Summary of Points.  
B. H. S. 1914.

35 yd. Dash.	4	5
1000 yd. Run.	0	9
Shotput.	9	0
300 yd. Run.	3	6
600 yd. Run.	6	3
High Jump.	6½	2½
Mile Run.	3	6
40 yd. Hurdles.	5	4
Totals.	3½	35½

Aha! Can you muffle a dumb bell? Sleuth Eldred thinks not.

The German universities this year enroll 52,456 students.

### SENIORS WILL DISCUSS

#### VITAL AFFAIRS TODAY

Election Plans For Class Day Committee Will Be Discussed

#### 11B AT 1 P. M. TODAY

List Of All Men Eligible For Class Day Committee Has Been Posted.

Every senior will surely attend the first meeting of the class of 1911 in room 11 Engineering B, at 1.00 P. M. to-day. Much important and necessary business will be discussed with the election plans of the Class Day Committee as the principal item.

There is posted in the Union bulletin board, a list of all who have paid their dues in full, through the Junior year, and have signed the Class Constitution. It is to be remembered that only those men who have complied with both of these requirements are entitled to have their names appear on the Class Day Committee ballot. Therefore, the men who are not on the list, and who are otherwise members of the Senior Class, or have considered themselves as affiliated with the Class of 1911, in their work at the Institute will do well to qualify, because no names will be added to the list after 4.00 P. M. on March first.

The Constitution may be obtained at the Cage and the amount of back dues may be ascertained by consulting any of the Class Officers.

The other important question to be discussed is the Senior Portfolio Committee's finances. The question of whether the Class will back up the Committee, will be brought up for immediate action. Should the Class vote to stand behind the venture, any profits would naturally be turned into the Class treasury; on the other hand any deficit would have to be made good by the Class. As the situation now stands, any profits are at the disposal of the Committee any and deficit must be met by them personally. The sentiments and expressions of the Class is particularly desired on this matter to-day for it is a very important problem.

Invitations for the Class Day festivities have heretofore been sent only to such men as have paid up all their dues and assessments and have otherwise confirmed to the rulings of the Class. The avowed custom will be religiously carried out this year so that it is up to every senior to square himself if he has not already done so.

The first step is to attend the meeting.

The University of Pennsylvania has seventy buildings and a campus of one hundred acres.

MONDAY FEBRUARY 20, 1911

Only one game stands between the Basket Ball Team and the end of its season, and this contest is to occur on the night of Washington's birthday. The opposing team will represent Dartmouth and earlier in the season it defeated the Tech aggregation in a hard game. There will be plenty of excitement in this contest and in the cheering, and every Tech man should resolve today to be at the gym Wednesday night with his vocal organs in the pink of condition. The men on the team declare that they must have this game to give a proper ending to their year's work, and we must back them all we can. Remember: Keep Wednesday night for the game.

Men who were present at last year's Hook Night entertainment will join us we think in hoping that some definite program will be worked out for that affair which is soon to be held in the Union. The Committee must realize that the spirit at such meetings tends toward rowdyism, and that this can only be avoided by their providing a well rounded out program. The Hook Night idea is a good one, and if properly looked after, the affair will be one of the best Union entertainments of the year.

At Notman's studio, a couple of senior were having their pictures taken for the Portfolio when the camera snorted and broke. Who in the senior class has got the "face" to break a camera?

## COMMUNICATION

Editor of *The Tech*:—  
The Civil Engineering Society surely deserves credit for managing such a novel and successful intertainment last Friday evening, but little credit is due the audience for the quality of singing heard. It seems very unfortunate that we should allow our ignorance of Tech songs to be displayed in public, and especially ignorance of the "Stien Song". It is hard to believe that any real college man and of all a Tech man, should not be able to sing the "Stien Song" but such seemed to be the case last Friday night. As would be expected from such a demonstration the other songs such as "Dear Old M. I. T." could not even be whistled as well as many from the current comic operas.

This is just a phase of the lack of spirit and the prevalence of disinterest we hear so much about, but why not have an improvement? What happened to the musical noon schedule at the Union which worked for a while last year? Why not try it again and at least give people a chance to hear the songs played in good shape so they will be slightly acquainted with the tune and able to make a better bluff at some school spirit than appeared last Friday night.

1912.

### FIRE CHIEFS BLAME

#### INSURANCE COMPANIES

Say Cheap Building Construction Is Due To Their Influence

At the monthly meeting of the Fire Chiefs' Club of Massachusetts, on Friday, the question "What change, if any, should be made in the building laws regarding the construction and space between apartment, tenement, and single house in congested districts" was discussed, and the speakers in general blamed the insurance companies for the present state of affairs. The present method of building wooden houses almost entirely throughout the suburban districts makes the prevention of spread of fires extremely difficult; according to the opinions there expressed the blame lies with the insurance companies and the ignorance and recklessness of the people. The harmful effect of the insurance companies, it was alleged, does not arise from wrong business practice, but from the fact that their mere existence and assumption of fire risks causes house builders to take risks a man who had to stand the loss himself would never think of taking. The second cause, the recklessness and ignorance of the people, should be remedied through more stringent regulations, strictly enforced; and education of the public to regard the rights of neighbors, and to recognize the principle that there never was a fire that might not have been out put with a pail of water when it started.

**SUPT. ROURKE INCREASES ENGINEERS SALARIES**

Average Salary Raised From \$1296 To \$1390 Per Annum

NET SAVING OF \$1900

Salary Increase Should Be Welcome News To All 1911 Men.

The wave of economy in municipal administration has struck Boston, and Supt. Rourke, of the Department of Public Works announces a saving of \$9,000 in the re-arranging of the salaries in his department; the abolishment of unnecessary offices effects a saving of \$25,000, and an increase of \$16,000 in salaries makes a net saving of \$9,000. It is welcome news to the sprouting engineers in Tech that the increases were given to the members of the engineering force, a large proportion to the division heads. This readjustment gives 61 engineers the first raise in salary since 1908. At that time, 1098, a comparison between Boston and New York showed that the average salary for engineers here was \$1296 a year, against \$1765 paid in New York; and prior to yesterday's increases the salaries in the latter city were 48% in excess of those in Boston. This recent increase authorized by the commissioner raises the average to \$1390 a year which, however, the commissioner claims is less than the wage of the average skilled mechanic.

**DISPUTE BETWEEN RUSSIA AND CHINA**

Russia Claims That The Terms Of 1895 Treaty Have Been Broken

Unexpectedly sudden developments have strained the relations between Russia and China almost to the breaking point and it is feared in diplomatic circles that the utmost endeavors of the world powers will be necessary to prevent an open rupture. Russia, the aggressor in the case, claims that China has repeatedly and grossly broken the terms of the treaty of 1895, by which Russia was given certain commercial privileges in Manchuria as well as Mongolia, and she has issued an ultimatum demanding protection and extension of her interests in Mongolia.

The general opinion is that China, in severe straits because of the plague, and possessing means of transportation, much inferior to Russia, will appeal to the world powers, especially the United States, for fair play. That Russia is determined to enforce her ultimatum is shown by the fact that a large body of troops is being rushed to Ili, the province of northern China where the disputes center.

**IN THE LIMELIGHT**

That U. S. exam. was a cinch, wasn't it! But no, hold on, I take that back. I won't know whether it was easy or harder than the deuce till I find out what I got in it.

Come on fellows, haven't you got a sick or two of lime for the Limelight?

It might be a good idea for the orchestra to make sort of chamber concerts of their rehearsals in the large room of the Union. By the kindness of the Leader, the door of the small room was left open on Saturday afternoon and the music was much appreciated by the men in the living room.

The fellow who played that piano so delightfully at the C. E. moving pictures and who tickles the keys in the Union dining room at noon and at night, is Leo Salomon, 1914.

Comm.

1911

A list of all men eligible to be placed  
on the ballot for Class Day Committee,  
will be posted on the bulletin in the  
Union about February 13. If your  
name is not on the list consult with  
any of the Class Officers at once, as  
after March 1, no name will be added.  
H. F. Dolliver, Clerk.
