Miller Made Acting Head of Department—Schwab Also on Retired List.

Among the most important changes in the faculty which have taken place this summer, one of the most important is the resignation of Professor Gaetano Lanza from the faculty of the Department of Mechanical Engineering and the subsequent appointment of Professor Miller as acting head of the department.

Professor Lanza, who will retire as Professor Emeritus, has been connected with the Institute since 1871, when he first took up his duties here as an instructor in mathematics. He was soon made an assistant professor and later was made a professor in 1906. He is a man, respected and admired by all.

In 1883 he became the head of the Mechanical Engineering Department and one of the other departments, Biology, has made a change to the department. He has been a full-fledged professor for many years and has done much work in the field of theoretical and mechanical engineering.

PROF. EDWARD F. MILLER

We welcome Prof. Miller to the ranks of the department heads and wish him the best of success. He has used the best possible examples in Prof. Ernestus Lanza.

Too bad that Watkins, our popular Track Captain, is not to be back here at the "State" this year to lead the track men. He will be greatly missed, and it will be hard to fill his place, for there are none too many men who have the time and the ability to lead the track squad.
