MR. STONEMETZ WILL TALK BEFORE CIVILS

Meeting Takes Place This Afternoon—Important Announcements to Be Made.

Mr. Harry M. Stonemetz, a member of the old established law firm of J. W. Bowen & Company, will speak this afternoon in 11 Engineering B, at 4:45 o'clock, before the Civil Engineering Society, on the "Laws of Business and the Attitude of the Public Toward the Public Service Corporations." Mr. Stonemetz is eminently well fitted to speak on such a subject for he has had much experience and is a well-known writer on many matters relative to business and law.

He has been for many years a tireless student of financial affairs and has made a close study of business relations and the methods of telephone applications and is able to give much to the men who attend a valuable nature.

The society feels very much gratified at having such a man as Mr. Stonemetz for its meeting and it is hoped that a large majority of the members will be present. At this meeting there will also be made several announcements in regard to future meetings, including a dance and the annual banquet, as well as other announcements of a general nature.

A. A. MERRILL TO SPEAK.

Will Discuss Aviation From All Points of View.

Tonight, at 8 o'clock, Mr. A. A. Merrill will speak at 26 Daytonian street on Aviation. The meeting has been arranged by the Mechanical Engineering Society and will consist of an introduction to all men to come, because the subject is one of general interest and will be illustrated by stereopticon views. As a result of the research work that Mr. Merrill has done it is expected that he will present some original ideas relative to aviation. Anyone who is interested enough to come is assured a good time.

WRESTLING MATCH.

Saturday night the wrestling team will meet the strong bunch ofmatm man behind the Roosevelt Y. M. C. A. The Tech team has been practicing all week and has been on call every day. At the time of the match the team is working out and has great hopes of winning.

The Tech was the only man on the team to show up in the gym and may be counted on to bring out some surprises on the Union men.

There was also the only man on the team to show up well at East Waymouth, and has been practicing with the others for some time before and promises to give Dr. W. P. Tunnell, the star man of the Y. M. C. A. team, a hard push to win his bout. Captain Smythe-Martin has had a very hard time of it, but Dolbe and Crowell, the promising freshmen, can take care of anybody in their class.

The Sophomore basketball team is showing some speed.

The freshmen are showing the proper spirit in track. A few meets would help out the Sophomore team.

The Arena is a busy place these days. There is a chance of a hockey game these days, and hockey players have a hard time getting a chance to practice.
HOCKEY TEAM PLAYS

MASS. AGGIES TONIGHT

M. A. C. and Tech Won From Amherst by Same Score—Close Game Expected.

The hockey team will make another journey to Amherst Friday night, like time to play the fast M. A. C. team, who defeated Amherst Wednesday by a score of 3 to 0, and as the Tech seven only beat them by a score of 4 to 0, they anticipate having a little fight in order this time.

On account of the international skating races being held at the Arena this week, the teams' practice hours have been broken into, but they are playing together well and should clean up the Aggies. The out-door rink is in fine form to their disadvantage as they are used to playing indoors.

The teams will line up as follows:

Sturte, r. w............. r. w. Sanctuary
Hurlbut, C................c. Hutchinson
Storke, r. w............ w. Sanctuary
Whittlesey, P...p. McDonald
Eichorn, W. ............. w. Jones
Emmons, C. p........... c. p. Walker
Erchorn, McLeod, c. p.... c. p. Walker
McLeod, c................c. Walker

Call for Candidates.

(Continued from Page 1, Col. 2.)

At the first meeting, Coach Langley is making a special effort to get into Boston on that occasion so that he may get an early grasp on the men who will later come under him for special work in the theoretical line. His two main ideas of interest and contain points of great values for those men who are serious in their efforts at making the Show.

FRESHMAN TRACK MEET.

First Year Runners to Oppose Medford High Team.

The Freshman track team will meet the runners from the Medford High in the Gym Saturday afternoon at 2 o'clock. The 1915 men started their schedule with a victory over Lowell High and are a fairly strong combination, especially in the short distances, shot put and high jump. They lack fast men in the long runs, but have some material which may turn up in the future.

Little is known about the performances of the Medford team in the past, but the Freshmen do not expect a walkover. When seen yesterday afternoon by Frank Kaplan said: "I know nothing of the Medford team, but although I hope to win, I do not place too much confidence in 1916's chances of victory."

The following will be the order of events: 25-yard dash, mile run, 100-yard dash, 330-yard run, shot put, 600-yard dash, high jump, relay race, 400 yards (4 men, 2 laps each). The above is the regular program for Boston Interscholastic meets, and as Medford is in the league they did not wish to use the regular Tech order of events.

LIEUT.-GOV. SPEAKS.

(Continued from Page 1, Col. 4.)

Citizens, and particularly for those members of the Commonwealth who have had an education that they can mold public opinion intelligently. Public opinion must be influenced in some way and it is one of the duties of "Good Citizenship" to do what one can to better it.

Mr. Luce then talked several minutes about "Convention," after defining it as doing the "right" thing, or conforming to what society has accepted as proper, and saying that it is necessary as a time and energy saving plan to be pictured out by two or three conditions that might occur if we did not pretend to follow accepted rules of life. "Suppose," he said, "that you were to argue every morning who father

PRESIDENT MACLAURIN

ON STUDENT EARNINGS

Thinks Experience at First More Important Than Earnings.

President Maclaurin in an interview gives his opinion about the much talked of "Earning Power of Students at Graduation." "I do not feel that it is a fair test of any education," he said, "to find out how much a man earns when he quits college." Dr. Maclaurin thinks that the statement of President Ribborn of Princeton has been given too much importance. "What he was driving at," continued Dr. Maclaurin, "is true, that a man must develop himself in his line before he can command a large salary. In spite of the fact that he may not be worth more than a few dollars a week, it cannot be denied that a few years later he may be very valuable. "At Technology we feel that a graduate must not be carried away with his earning power. We advise the students to value experience above salary at the outset. The theory of the college is to broaden the view and train the mind. No one claims that Latin and Greek have a value in the commercial market. Technology gives its students an earning power, and in this respect is different from many other institutions.""LIEUT. GOV. SPEAKS
