

THE TECH

VOL. XXXI. NO. 103

BOSTON, MASS., MONDAY, FEBRUARY 19, 1912

PRICE TWO CENTS

FIRST CALL FOR MEN— SHOW MEN WANTED

Coach Sanger Will Meet Men at 4:30 in the Union Today.

This afternoon, at 4.30, the first grand opening of Tech Show, 1912, will be held in the Union dining room. At that time all those who intend to try out for positions in the cast and chorus will meet Coach Eugene Sanger and Stage Manager G. R. Thayer to get the first instructions concerning the new production. It is important that no man who intends to try out for the Show should miss this first meeting.

The book lends itself admirably to modern staging. The first act opens with a boulevard cafe scene in Seville, the stage filled with the merry throng always found in such a locality. With the exception of perhaps half a dozen characters, however, the personnel of the cast is not Spanish. It is in reality an American cast found in a foreign setting. Several of the characters are college men, having various and typical personalities; another is an American manufacturer with a typical wife and a charming daughter. Naturally with this one beautiful type of American girl and the innumerable Spanish señoritas who compose the greater part of the feminine end of the chorus, complications come thick and fast, and there is never an idle moment from the first rise of the curtain to its final drop at the end of the second scene of the last act.

Every man who thinks that he has any talent that would make good for one of the principal parts, or who thinks that he is a masculine Venus who could get away with a part as a sprightly dancing girl should come to the meeting today. This is a particular opportunity for the Freshmen. Every year the major portion of the chorus is drawn from them and there is no reason why this year should be the exception to this rule.

The Show this year is to make more trips than usual and will give two more performances than last year. Of course the most important of these is the performance in Northampton on April 29. Every loyal Tech man should feel it his duty to kill a few hearts at that time. Then, too, there will be two performances in Providence and the usual two in Boston, ending up with the annual show in Malden. As the most extensive of schedules in the history of Tech Show it offers inducements which should bring out a larger number of candidates than ever before to make "Castles in Spain" a great success.

"SOME CLASS."

(From a back issue.)

Good for the Detective of Technology-ville,
He detected a TECH on the window-sill,
And never ready a red to lose,
He took THE TECH and read the news.
He'd wreck THE TECH by having it lent,
He'd skin a skunk to save a cent.
And how can we punish this little pinchbeck?
We'll quietly whisper—"Subscribe for THE TECH."

WRESTLING TEAM LOSES TO Y. M. C. U.

Tech Loses All the Bouts But Two Go the Full Fifteen Minutes.

Although outclassed, the wrestling team put up a contest against the B. Y. M. C. U. Saturday, at the Y. M. C. U. Gym. The first event, the 125-pound class, was between T. O'Hara of the Y. M. C. U. and A. H. Means of Tech. O'Hara was the aggressor all the way through and pushed Means all over the mat. O'Hara got a fall in four minutes and 58 seconds on a "half Nelson" and inside leg hold.

R. Smythe-Martin of Tech, and H. Sarkis of the Y. M. C. U. went the full fifteen minutes, two six and one three-minute periods. Smythe-Martin almost had his man once, but lost the hold by getting off the mat. At the end of the fifteen minutes the referee awarded the bout to Sarkis on points.

W. Jennett of the Y. M. C. U., and C. A. Blodgett contested the 145-pound class. Jennett is heralded as the coming middle weight champion, and is a clever wrestler. He put Blodgett's shoulders to the mat in four minutes and 32 seconds, on a "full Nelson" and waist hold.

W. Doble of Tech and J. Ryon of the Y. M. C. U. put up a lively match, but Ryon got the first hold and put Doble down in two minutes and 24 seconds.

The feature event of the evening was the match between W. Treat of Tech, and Dr. Trovan of the Y. M. C. U. They wrestled the full fifteen minutes without a fall, but Trovan got the decision. He nearly had Treat several times, but Treat was very clever at getting off the holds and each time wiggled out of the other man's hold. Trovan was the better man and the referee's decision could not have been otherwise.

Between the bouts the gymnastic class of the Y. M. C. U. gave an exhibition of gymnastic dancing, and W. Fox and C. Douglas gave an interesting exhibition of balancing.

The summary was as follows:

125-pound class—T. O'Hara, Y. M. C. U., won from Means, Tech.

135-pound class—H. Sarkis won on decision from R. Smythe-Martin.

145-pound class—W. Jennett, B. Y. M. C. U., won from C. A. Blodgett, Tech.

158-pound class—J. Ryon, Y. M. C. U., won from W. Doble, Tech.

158-pound class—Dr. Trovan, Y. M. C. U., won from W. Treat.

Referee—Arthur C. Mather.

WESLEYAN VICTORIOUS.

Institute Team Easily Outclassed in Loose Game.

Last Saturday night the strong Wesleyan basketball team easily defeated the M. I. T. five in a loosely played game by the score of 57-13. The Wesleyan five made rings around the visitors, and in the second half they played a team composed practically of substitutes. The score at the end of the first half was 33 to 5 in favor of the Middletown five.

Williams, the little Sophomore, played the best game for the visitors, having caged three of the five baskets from the floor.

CEMENT PRODUCTION SHOWS SLIGHT INCREASE

1911 Statistics Show Decrease in Price and Increase in Num- ber of Plants.

During the month of January complete statistics were received by the United States Geological Survey from about 70 per cent. of the Portland cement manufacturers of the country. Based upon these returns an estimate has been made by Ernest F. Burchard of the U. S. Survey of the entire output for the year. It is believed that this estimate is within 2 per cent. of the exact quantity of Portland cement used in 1911. Approximately 77,877,236 barrels were made in 1911, which represents a slight increase over the preceding year, but the difference was very slight.

The average factory price per barrel, not including packages, was 86.7 cents in 1911, as compared with 89.7 cents in 1910. In place of the five geographic districts formerly considered by the survey, the United States has been divided into 11 sub-divisions based on the grouping of plants in direct relation to the trade territory covered by each group. For instance, the plants in northeastern Indiana using marl are grouped with the Michigan plants, many of which use marl; and the plants in southern Indiana and northern Kentucky, all of which are near the Ohio river, and all of which use hard limestone, are grouped together. Plants near Chicago are logically grouped together because of their nearly equal freight rates. The southeastern States, in which plants use mostly Appalachian limestone, are grouped together, and Texas has been transferred to the Great Plains States, with which it more logically belongs.

An attempt has also been made to estimate the shipment of cement by districts for 1910 and 1911, but with regard to such statistics there are fewer data and the figures are not regarded as quite so accurate as those of production.

Nineteen hundred and eleven was the first year in which inquiries have been made by the Survey with regard to stocks on hand. According to returns received there were decreases in production in the following districts: Lehigh, Kentucky and Indiana and in the Great Plains and Mountain States. The increases recorded were in New York, Ohio and western Pennsylvania, Michigan and northeastern Indiana, Illinois and northwestern Indiana, the southeastern States, Iowa and Missouri, and in the Pacific coast States.

"DAL" AGAIN WINNER.

Phil Dalrymple, captain of the track team, again showed his prowess as a high jumper when he took second place in the games held under the auspices of the Columbia University Athletic Association in New York, Saturday night. Some of the best jumpers in the country competed and Dalrymple's victory looks well for his chances in the intercollegiate next spring.

Although both the relay teams took part in the championships neither one pulled out a victory. The two-mile race was won by Cornell in wonderfully fast time, while the one-mile race was won by Syracuse, who have been Tech's most important competitors for the last few years.

FRESHMEN VICTORS IN MEDFORD DUAL MEET

1915 Easily Defeats Medford at Gym—O'Brien Again Leads by Star Work.

O'Brien again showed his strength as an athlete when he led the Freshmen on to another victory in their meet with the Medford High School track team which took place in the Gym Saturday afternoon. O'Brien took three places, scoring fifteen of the fifty points that the Freshmen got, and also as first man in the relay race opened up a lead of forty yards, which remained all through the race.

The thirty-five yard dash was the first event on the program and was run off in six heats, two semi-finals, a heat for second men and the finals. All the heats were closely contested and the Medford High fellows showed the Tech youngsters some sprinting that they never expected. The best heat was the one won by Harris of Medford, who covered the distance in 4.25 seconds, with Barry of Tech second. Barry won the heat for second men and thus got a place in the semi-finals, in which he defeated Harris in a slow heat of 4.35 seconds. The finals was won by O'Brien, with Twombly of Medford second, and Barry of Tech third. The time was very fast, 4.15 seconds.

In the 300-yard run O'Brien jumped into the lead at the start and gained steadily on his opponents until at the finish he was twenty yards ahead of Barry, who also ran a very good race but could not catch his teammate. Twombly again got a place but had to be content with third.

Curtis and Homan, both Tech men, fought it out for first place in the 600-yard run, but both were pushed hard by Mitchell of the High School. Curtis carried away the honors with his teammate second.

Again the Tech men were the victors in the 1000-yard race, where Hill took the first place, followed by McJannet of Medford, and Spencer of Tech. McJannet exhibited his ability as a runner when he took the lead at the first of the mile and was never headed by either the two Tech men that pushed him, Lovell and Gurney, who finished in the order named.

In the shot-put O'Brien easily captured the medal with his teammate, Crowell; Dwyer of Medford was the third man. In the high jump the captain of the Freshmen, Teeson, took the bar at the greatest height but was pushed hard by Trwon and Langdon of Medford.

The relay race, which came last on the program, was a walkaway for the Freshmen. O'Brien, the first man to start for the 1915 team, jumped in to the lead and gained on his man, Law-
(Continued on Page 3.)

Return the Prom posters.

WE ARE SAFE.

In an address before the New England Recreation Institute on "Men's Honor Should Not Be Bought and Sold," Dr. J. H. McCurdy attacked college athletics because they are not carried out in the spirit of fair play. He cited instances of men being lured to various colleges by promises of assistance, when it was known that those men were good athletes. Furthermore, he deplored the methods of paid coaches who sent their men into games to follow unfair tactics.

These are oft recurring charges, and it seems as if they might be in some measure true. It is exceedingly unfortunate that this is so, as it unquestionably is not following out the policy and ideals for which a college should stand. Yet we cannot believe that the Institute can be included in this arraignment. The aims of athletics are so far secondary to those of education that there is not enough desire to merely win to make it an object to entice good athletes or use unfair tactics. In any event we cannot believe that there are students or faculty members here that would lend themselves to such a scheme. Furthermore, our athletic funds are far too low to be squandered in such a way.

In the matter of fair play in games, the Institute has been less attacked than our contemporary colleges. This is as it should be, for the spirit of team play and honor has been so demonstrated among the few men interested in athletics here as to conclusively leave us free from attack. Should the time ever come when we could be justifiably pointed out for this fault it would be high time to cease athletics altogether. Yet it does not seem as if the time would come.

Too bad the Sophomores are so very good that their opponents are scared off. Suppose 1914 challenged the Varsity?

Some one must be enjoying those stolen Prom Posters behind bolted doors. He is such a bad, bold man. We all wonder at such a clever scheme for decorating without cost.

COMMUNICATION.

(We invite communications from all men in the Institute on important subjects. We take no responsibility for their sentiments and do not agree to print any that may come in, whether they are signed or not.)

To the Editor of THE TECH:

At the basketball game in the Gym with Brown on Wednesday night the President of the Senior Class, Official Cheer Leader ex-officio, was conspicuous by his absence. Now it seems to me that as this was the basketball team's only home game they might have had a little organized cheering to help them out. During the last half of the game a few good cheers given at the right time might have made a different story of the score because, during that part of the game, the team scored three more points than Brown did.

Now it has always been the custom that the President of the Senior Class was by virtue of his office the Official Cheer Leader at the Institute. When the occasion demands, and they are few enough, that one of the Tech teams plays a home game it seems strange that it cannot have the support of the students to back it. If the President of the Senior Class is not interested in Institute activities let him resign the office, or do as has been done in the past. Last year a substitute cheer leader was appointed by the Senior Class President and he attended a large majority of the games.

If the teams and the students knew that there would be cheering at the games a greater amount of spirit would prevail than is now evident. One Tech man at the game the other night who possessed the proper spirit got up and led a couple of feeble cheers, which shows that there are a few men here who lack only leadership when it comes to cheering.

The instance of the hockey team at Syracuse shows what real Tech spirit should be. If a handful of loyal Alumni, with scarcely a day's notice, can turn out and support the hockey team, about which they knew little, by some good cheering, why can't at least one-quarter of the 1500 odd unloyal students turn out with a proper leader and support their own teams? "Face it."

SENIOR PORTFOLIO.

Essential That Pictures Be Taken Before Tuesday.

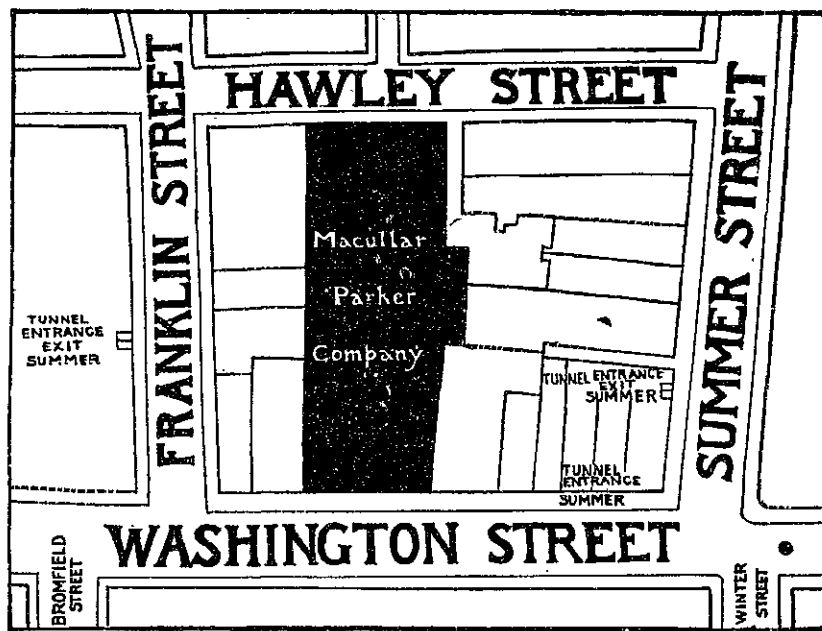

The Senior Portfolio Committee reports that a large proportion of the class have had their pictures taken, but that there is still a considerable number who have not done so. In order that the Portfolio may come out on time, during the first week in May, it is absolutely essential that all the photographs be taken by February 20. It is not too late now to make an appointment, and it is necessary for the success of the book for every one to make a decided effort to get the picture taken before the last day, Tuesday, at Hearn's studio, 727A Boylston street, between Exeter and Fairfield streets.

So far only a few men have shown their intention of buying a Portfolio by signing up. This ought to be done now as the Class Day assessment comes along later and it will be easier to split up the expenses. The members of the committee all have sign-up books and are only too glad to use them.

The Weather Man has more trouble coming. The world is troublous enough usually, but now he has to take care of the sun too.

In looking over a back issue of THE TECH we noticed that Earl Ovington, the aviator, was awarded his hTh and cTc in 1904. The aviator must have been some athletic in his day.

TECH PLAYS WILLIAMS.

Hockey Team Meets the Purple Seven at the Arena Tonight.

Tomorrow evening the hockey team plays Williams at the Arena. It promises to be a fast and close game for each of the contestants have shown some fine hockey up to date. Williams has won the majority of its games, playing a tie game with the Mass. Aggies and defeating easily Amherst in their first contest, but were defeated by Amherst last Saturday. The Tech seven has won most of its games in good style, having defeated West Point and Syracuse by large scores and shutting out Amherst with a 4 to 0 score.

The team has not been able to practice regularly last week because of the skating races at the Arena, but the men are all in good condition and should win. Captain Sloan is playing fine hockey and promises to be the star of the game. Hurlbutt will make him hustle for first honors. Ranney is a tower of strength in the goal and is not letting many of the shots get by him. Eichorn is playing a consistent game at point.

Curtis and Cutler are the best forwards on the Williams team and will give the Tech defence a lot of trouble. Cole is a clever goal tender.

FRESHMEN WIN MEET.

(Continued from Page 1.)

ton, at every step. Thomas, the second man for the home team, ran against Coddington of Medford, and they both held their respective positions. These men were followed by Homan of Tech, and Brown of Medford, Brown gaining slightly on his opponent, while Barry, who ran last for Tech, took back the lead which O'Brien got, and they finished thirty yards ahead of the high school team. Mitchell was the last man to run for the out-of-town school.

One of the interesting things about the meet was the attendance of several young ladies who came to root for their boys, but little of this was done. The final score was: Tech, 50; Medford, 18.

The summary was as follows: 35-yard dash, first heat, 1st, Brown, M.; 2nd, Thomas, T. Second heat, 1st, Twombly, M.; 2nd, Enebuske, T. Third heat, 1st, Harris, M.; 2nd, Barry, T. Fourth heat, 1st, Hervey, M.; 2nd, Curtis, T. Fifth heat, 1st, O'Brien, T.; 2nd, Valentine, M. Heat for second men, 1st, Barry, T.; 2nd, Thomas, T. Semi-finals, first heat, 1st, Twombly, M.; 2nd, O'Brien, T. Second heat, 1st, Barry, T.; 2nd, Harris, M.

Final heat, 1st, O'Brien, T.; 2nd, Twombly, M.; 3rd, Barry, T. Time, 4 1-5 seconds.

300-yard dash: 1st, O'Brien, T.; 2nd, Barry, T.; 3rd, Mitchell, M. Time, 1 minute 29 1-5 seconds.

1000-yard run: 1st, Hill, T.; 2nd, McJannet, M.; 3rd, Spencer, T. Time, 2 minutes 40 3-5 seconds.

Mile: 1st, McJannet, M.; 2nd, Lovell, T.; 3rd, Gurney, T. Time, 5 minutes 12 1-5 seconds.

High jump: 1st, Teeson, T.; 2nd, Trwon, M.; 3rd, Langdon, M. Height, 5 feet 2 inches.

Shot-put: 1st, O'Brien, T.; 2nd, Crowell, T.; 3rd, Dwyer, M. Distance, 35 feet 10 inches.

Relay: Tech, O'Brien, Thomas, Homan, Barry. Medford, Lawton, Coddington, Brown, Mitchell. Won by Tech. Time, 2 minutes 19 3-5 seconds.
