

# THE TECH

VOL. XXXI. NO. 106

BOSTON, MASS., FRIDAY, FEBRUARY 23, 1912

PRICE TWO CENTS

## OPTION II, COURSE IV MEN TO HAVE SMOKER

Mr. Beekman, 1900, Will Discuss Relations of Architects to Engineers.

The smoker of the Architectural Engineering Society which is to be held on Friday evening, February 23rd, in 42 Pierce, should be one of the most interesting and instructive as well as enjoyable meetings which will be given during the present year, and no Course IV man who is able to attend will be sorry that he has done so.

Together with the interest and value of the talk which is to be given will be the pleasure of meeting and discussing practical subjects with a man who is now in the thick of his profession. Mr. John D. V. Beekman, who graduated from the Institute in 1900, and who is now with Whidden & Co., contractors, of Boston, has consented to speak on "The Relation of the Architectural Engineer to the Engineering Profession." This subject is one of paramount value to every young architect, and much will doubtless be said that will be of advantage to every man.

Tickets are now being sold by several of the Option 2 men, and they can be seen at any time in the afternoon in Pierce.

## WIRELESS CLUB.

### Record Membership Attained— Outfitting Completed.

The Wireless Club, whose station is in one corner of the Electrical Engineering Laboratory, has already regained a membership of thirty active workers, although it is only a half year ago since the society was revived by a few determined enthusiasts. The club has now installed the Ritchie transformer, given to them anonymously about a month ago, and have with its aid been able to send considerable distance. The recent addition of a rotary spark gap has also greatly increased the sending range.

The club members have been able to carry on an extended conversation with Highland Light, a station sixty miles away, and have received messages from much greater distances.

The society is actively working on a list of the amateur stations in the vicinity of Boston, but the list is not yet completed. Communication with other college outfits is promised soon, for the Tufts society is increasing the power of its sending set, which at present is rather weak.

The society intends to hold a meeting on the afternoon of Friday, March 1, at which the vice-president, Mr. Richmond, will deliver a paper on "Receiving Outfits."

## ORCHESTRA REHEARSAL.

The orchestra, which has not been heard from for some time, will resume its activity for the second term by holding a rehearsal in the Union on Friday, February 23rd, at 4 o'clock. This rehearsal is mainly for the purpose of preparing for a concert to be given at Radcliffe within a very short time, and so it is hoped that all the members will be on hand promptly at the appointed time.

## TECH SHOW SECURES COACH FOR MUSIC

Mr. Jacques Benavente to Have Charge—Well Known Musician.

From among the many men considered for the position of musical director for Tech Show, 1912, the management has selected Mr. Jacques Benavente of Amsterdam, Holland. This choice has been made only after mature deliberation on the part of the managers, and they are to be congratulated for obtaining such a competent artist for this work.

Mr. Benavente is one of the best known musical directors in the country, and has an enviable reputation both in the United States and in Europe. His experience has been extensive and varied, and during his career he has been connected with

MR. JACQUES BENAVENTE.

some of the most famous musical productions. Among his many engagements as conductor may be mentioned those at the Salon de Varieties, Amsterdam; Theatre du Nord, Brussels; Folies Bergere, Paris; Royal Comedy Theatre, London; Elephant and Castle Theatre, London; Royal Theatre, Liverpool; Old Globe Theatre, Boston, and Old Castle Square Theatre, Boston.

Mr. Benavente, who has conducted all of Harry Lauder's famous American productions, is at present the director of the Municipal Band of Boston, and is regarded as an expert in musical circles. Moreover, he is himself an accomplished musician, being

(Continued on Page 3, Col. 2.)

## SHOW REHEARSAL.

The following men please report at the dining room in the Union today at 4 o'clock for rehearsal: Keefe, Dalton, Buckley, Wardwell, Mason, Nelson, Rutherford, Foster, Bartell, Whitehead, Achard, Wentworth, Freeman, Bailey, MacBride, Oettinger, Bowler, Covitz, Leeb, Cook, Sandburg, Navison, Spear, Fessenden, Jameson, Anderson, Colby, Putnam, Hauser, Hooper, Hersom, Higgins, Huff, Hamilton, Carpenter, Katzenstein, Noyes, Crowell, Foster, Spencer, Doud, Currier, Harvey, MacKenney, Swift, Schoellkopf, Hawkins, Beach, Morrison and Barnes.

## HARE AND HOUND CLUB ELECT CHASE CAPTAIN

E. M. Macdonald Chosen for Chase Captain With A. F. Peaslee as Assistant.

The Hare and Hound Club held its annual meeting in the Union Wednesday. After the minutes were read the members proceeded to elect a chase captain and assistant chase captain for the coming year. E. L. Macdonald, 1913, was elected captain. Although he had not run on a Varsity team, Macdonald has done excellent cross-country work, and was captain of the 1913 team last year. He is now history editor of Technique.

A. F. Peaslee was chosen as assistant captain. Peaslee has been out with the hare and hounds on nearly every run, and has shown cross-country ability.

The runs will commence just as soon as the weather will permit and the ground gets dry. The first run will probably be held from the Gym. It is urged that everybody who is out for the class cross-country teams come out early so as to be in shape for the Freshman-Sophomore race, which comes rather early in the season.

The Freshmen usually win the race, but the 1915 men will have to hustle to win this year, as the Sophs will have three Varsity men in their lineup. However, by getting out early and developing a well balanced team the Freshmen have a chance to win. This race has gone to the Freshmen so often, solely from the fact that they have had a larger number of men out. The first six men to finish on the winning team in this race get their class numerals.

## SECOND TEAM GAME.

Will Play Dartmouth Freshmen at Hanover Tomorrow.

Tomorrow night the second basketball team will finish their schedule when they go up against the Dartmouth Freshmen at Hanover. The second team has been playing in hard luck all the season but they hope to make a creditable showing in this game. The Andover five trimmed the Freshman team, and the former team was beaten by the Sophomores, 19 to 16. Unless they are unable to take all their regular men with them the second team ought to be able to make things lively for their opponents.

Sampson has a lame shoulder but will start the game. Dalton, who made such a good showing in the Sophomore-Freshman game, can be counted on to make things lively on the floor. The probable lineup for the game will be as follows: Dalton and Reed, forwards; Sampson, center; Capen and Metcalf, backs.

## ANDOVER MEET OFF.

The meet which was scheduled to come off Saturday between the 1914 track team and Andover has been cancelled because many of the Andover men have been disqualified on account of scholarship and would not be allowed to compete. The Sophomores could not conveniently postpone the meet so they called it off altogether.

## PLANS COMPLETE FOR COSMOPOLITAN DANCE

Several Novel Features Arranged By the Committee for the Occasion.

The committee has made elaborate preparations for the dance which is to be given by the Cosmopolitan Club next Saturday evening at the Hotel Tuileries. The following men will act as ushers: L. H. Lehmaier, C. H. Carpenter, D. G. Montt, B. H. Morash and E. W. Hurst. Several distinguished guests will be present at this occasion, among whom will be the Mexican Consul and members of his staff, and the Chinese and Japanese consular representatives.

President Tatt's secretary sends His Excellency's regrets at not being able to accept the club's invitation. Following is another letter, unfortunately of a similar nature, from the British Ambassador:

British Embassy, Washington,  
February 19, 1912.

Dear Sir:—

Thank you for your kind invitation for the dance given by the Cosmopolitan Club of the M. I. T. I am much to my regret, obliged to be in Washington on Saturday next, so can not have the pleasure of accepting your invitation. Wishing you a very successful gathering. I am,  
Yours faithfully,  
James Bryce

(Continued on Page 2, Col. 2.)

## FIRE IN ENG. C.

Chemicals and Wires, Mixed Up, Cause Slight Blaze.

A small fire in Engineering C, about 2.30 o'clock Wednesday afternoon, attracted a large number of the Union loungers. The fire started in one of the laboratories devoted to physico-chemical research, but as there was no one in the room at the time the flames broke out, it is not certain exactly what caused the fire. It is believed that some cross circuit of electric wires interfered with some explosive substance being used in research work. The only damage worth mentioning was that which might be caused by loss of papers containing valuable data.

The first appearance of the fire was noticed by one of the assistants in the department, who immediately telephoned an alarm, and then turned his attention to available means of extinguishing it. This object had been accomplished before the city department arrived on the scene, and it then remained for the protective men to mop up with sponges the quantities of water with which the floor was drenched.

## CALENDAR.

In Charge of S. E. Taylor, 1914.

Friday, February 23.

1.20—News Board Meeting, THE TECH—Upper Office.

4.00—Orchestra Rehearsal—Union.

4.15—Glee Club Rehearsal—Union.

4.15—Mandolin Club Rehearsal—26 Lowell.

Saturday, February 24.

Second Basketball Team vs. Dartmouth Freshmen—Hanover.

8.00—Cosmopolitan Dance—Hotel Tuileries.

Monday, January 25.

4.30—All Candidates out for THE TECH—Lower Office.

# THE TECH

Published daily, except Sunday, during the college year by students of the Massachusetts Institute of Technology.

Entered as second-class matter, Sept. 15, 1911, at the postoffice at Boston, Mass., under the act of Congress of March 3, 1879.

## CHEERFUL.

Decidedly, things are happening. First, there is a proposal to revive a golf team; then the Naval Architects, after a period of dormancy of nearly a year, suddenly break into activity by the election of officers. Finally, though this is not connected with the students, there has been proposed a Southeastern Alumni Association, which will shortly become a reality. These are pleasing and fortunate events, coming at a time when the Editor feared that the THEORETICALLY DEAD ones were such of a tremendous majority that the live ones would be hidden from sight. We are glad that the earlier view was somewhat too pessimistic, as it makes the outlook the brighter. We trust that the men interested in these activities will create and maintain a standard that will make the activities themselves worth while.

## A CALL AND A DEFENCE.

Speaking of activities, THE TECH is still in need of some men in the news department. The chances of success for men who may be interested enough to start out in the competition are many, and the results of a newspaper training are evident in the finished product. THE TECH has been much maligned; it has been accused of producing nothing but men who have been obliged to quit on account of poor scholastic standing. We desire to refute that argument now. We will agree that a man on an activity is not so likely to get eight C's out of ten marks as a man not so interested; yet we protest that it is not winning a majority of C's that should be the ultimate object of the students. There are many men, graduates of the Institute, now prominent in their professions, who were not among the best scholars, as measured in marks. Unquestionably any man should be proud of a good record, and every man should expect a clear record, yet this can be accomplished by men who work for activities. In the matter of actual marks, men on the paper have demonstrated their ability to carry on both active newspaper work and be successful in their studies.

## TECHNIQUE PROGRESS IS UP TO STANDARD

### Fraternity Men, Not Connected With Local Chapters, to Hand in Names.

Work on the Junior Year Book is coming along in fine shape and the book is all in with the exception of two of the activities, the copy set up and proof corrected and ready for making up the forms. The advertisements are coming in quite rapidly and the Business Manager is wearing the "smile that won't come off."

"Larry Hart," the Editor-in-Chief, asks all men who are members of fraternities not represented in the Institute to leave their name and fraternity at the Cage at once for Technique. The forms will be closed at the end of the week and no copy can be taken at that time, with the single exception of the Show. This of necessity has to hang over till the last possible moment, in order to get the pictures in the cast and chorus in costume.

The men have not responded to the call for signatures as well as they should up to the present time. This is something that should be attended to at once if the fellows wish to have a copy of the book on the eighteenth of next April. As everyone knows, the edition is limited and only such men as sign up with the members of the board now will be able to get the books.

## ANGLO-AMERICAN DANCE.

(Continued from Page 1, Col. 4.)

At the time of the grand march there will be a novel feature introduced which will be something of a nature concerning M. I. T. During the dance small British and American favors will be in evidence. There will be eighteen numbers on the dance card, which will give everybody a good time from 7.45 until midnight. In order that everyone may have an equal opportunity to engage dances on the night of the occasion, the committee will not publish the dance orders. The supper dance will present an unusual and spectacular demonstration significant of L'entente Cordiale existing between England and America. The affair promises to be a grand success. There is still opportunity to sign up for the occasion with any of the ushers.

Have you picked the winners at the Providence meet yet?

"We are happy, but our yell, so they——" You know the rest, but it did sound fine at the Arena Monday night.

Earle Ovington is the present holder of the 'Stute record for high hurdles. That sounds rather better than merely saying that he won his cTe and hTh a few years ago.

In regard to the value of the work we can say that its main point lies in the acquaintance with Institute affairs and Institute men, both present and past, who have achieved things worth doing. Quite as a matter of fact (and we quote one of the instructing staff), the main value of a college is in the broadening influence of meeting men. It will be argued that this is not a college. True, in a strict sense, but it is a place for higher education, and a man having only a degree from the Institute will not necessarily be an unqualified success. We believe that THE TECH has a value in the educational scheme, and we hope that some other men will take this view. The Editors will meet any candidates that desire to inquire about the work at 4.30 Monday afternoon.

**TALKS ON NAPOLEON.**

Mr. J. Holland Rose of England to Give Lowell Lectures.

There is to be a most interesting series of lectures given in the Lowell Institute during the next few weeks which should prove of great value to any man who is a lover of French history and Napoleon. Mr. J. Holland Rose, a reader of the University of Cambridge, England, and an author of many works on Napoleon, will give the lectures under the following title: "The Personality of Napoleon."

The first lecture will be given on February 26th, in Huntington Hall, at 5 o'clock P. M. Tickets can still be had by applying to the Curator, or at the door at any lecture. The list of subjects is: "The Man," "As Jacobin," "As Warrior," "As Administrator," "As Emperor," "As Thinker," "As World Ruler," "As Exile."

**TECHNIQUE ELECTORAL.**

Ballots Due at Cage Tonight Before 10 P. M. From 1914 Men.

All ballots for the 1914 Technique Electoral Committee must be handed in at the Cage before it closes tonight. Ballots may be obtained by those who have not already voted at the Cage. The ballots are to elect twenty-five men from the class of 1914, who in turn elect those who are to edit and publish the 1914 Technique. This is the first word about that book, and it is the duty of every Sophomore to be sure and cast his vote today, thereby giving the undertaking a good initial start.

**PROM COMMITTEE MEETS.**

The Junior Prom Committee at its last meeting decided on the matrons and invitations have been sent out to them. The replies to these invitations are not yet all in, so the committee is not yet able to publish the list. The committee also decided on the music for the Prom and expects to publish the dance orders in about a week. Over 100 men have signed up, but the committee feels that more men should attend to this matter soon.

The stolen posters have not yet been returned, so that the Poster Committee has been greatly hampered in its work. Since the close of the Show poster competition, however, more posters are being submitted to the committee. The competition will close March 2.

**MUSICAL DIRECTOR.**

(Continued from Page 1, Col. 2.)  
able to perform exceptionally well upon several instruments.

Work with college theatricals is not at all new to Mr. Benavente. He has had previous connection with Tech Show and Pi Eta of Harvard. With Tech Show, 1907, "William, Willie and Bill," he did the entire work upon the orchestration. He is very much pleased to be back again with the Show and expressed his delight at the large number of men who have reported for the cast. At the trials Tuesday and Wednesday afternoon he was agreeably surprised at the general excellence of the voices which he tried out at that time.

This general interest which has been shown by the students has not been at all limited to the field of which Mr. Benavente has charge. Mr. Eugene Sanger was more than pleased when over one hundred men reported for parts as principals. He was only sorry that all of them could not be retained. In the poster competition more than fifteen excellent drawings were submitted, any one of which might have been used as the poster for the Show. Moreover, more than fifty men have tried out for the various assistant managerships that have been open to competition this year.

**Velvet**  
**THE SMOOTHEST TOBACCO**

**MUSIC** hath charms—add a pipeful of Velvet and you are a whole orchestra. Such is the pleasure of good tobacco. Velvet, the tenderest leaf—aged in the old warehouse for two years—a slow, sombre, time-process of mellowing—in which all harshness is lost—the flavor toned, sweetened, made exquisitely smooth. A smoke without bite—music without discord! Velvet is known to be the most carefully matured smoking tobacco—only time can produce its delights—only patience insures its pleasures. All yours!
