VOL. XXXI. NO. 108

BOSTON, MASS., MONDAY, FEBRUARY 26, 1912

PRICE TWO CENTS

ANOTHER VICTORY FOR SOPHOMORES

Easily Win in Rough Game With Abington Y. M. C. A. On Saturday.

In a fast, roughly-played game at the North Abington Y. M. C. A. Gym on Saturday, the Sophomore basketball team upheld the reputation which they have made this year by defeating their opponents by the one-sided score of 41 to 15. The Sophomores were somewhat handicapped at first as the floor was small and the baskets were placed high up, but they soon found their pace and easily outplayed the Y. M. C. A. five.

Abington drew blood in the first few minutes of play and started off rather confident of a victory, but the superior team work of the Sophomores soon began to count, and at the end of the first half the score stood 26 to 11 in their favor. The second year men had everything their own way during the second half in spite of the rough game the Y. M. C. A. men put up.

The Sophs' usual good team work was their strong point and greatly responsible for piling up the large score. This is their fifth game and they are still undefeated, and they feel confident of going through the season without a defeat. Comber and Tirrell played the star game of the evening, the former caging six baskets from the floor and two fouls, while Tirrell dropped in seven.

The summary:
1914. Abington Y. M. C. A.
Comber (Capt.) f. g. Hanson
Tirrell, r. f. Norton
Ruoff, c. Calkins (Capt.)
Bryant, r. g. Tucker
Williams, Fox, l. g. Green
Score: M. I. T., 1914, 48; Abington Y. M. C. A., 15.

Goals made by: Comber 7, Tirrell 6, Ruoff and Bryant 4, Williams 2, Calkins 3, Green 2, Tucker and Hanson 1. Fouls made by: Comber 2, Calkins 1.

Referee, Wheeler, of Bridgewater. Scorer, Burnham. Timer, Williams. Time, 20-minute halves.

SECONDS LOSE.

Dartmouth Fresh at Hanover Are Easy Victors at Basketball.

In a very uninteresting, one-sided game in the new Gym at Hanover, the Dartmouth Freshmen played, rings around the Institute Second basketball team and defeated them by a score of 50 to 13.

Tech's defence was almost helpless and the 1915 forwards walked through and scored practically at will, three members of the Green team getting five baskets each to their credit. Winslip, the football man, starred for the Freshmen, while Reed, for the Institute, seemed most able to take care of himself and his man.

Tech 2nd. Dartmouth, 1915.
Sampson, r. g. Pelletier
Dalton, l. g. Crawford (Daley)
Metcalf, c. Bickford
Reed, r. f. Morton (Parrott)
Blakely, l. f. Winslip
Score: Dartmouth, 1915, 50; Tech 2nd, 13.

Goals from floor: Daley, 3, Crawford, 1.
(Continued on Page 3, Col. 2.)

34. L. A. Wilson.....	20

The results of the Technique Electoral vote, which is above, was announced by the committee late yesterday afternoon. A. C. Dorance, who heads the list, was an easy victor of first place. He has been very prominent in the class activities both last year and this. Last year he was the vice-president and ran on the track team. Although this year he is not one of the officers he was a member of the class relay team and is now in the Varsity track squad.

A. T. Wyman, the second man, is also a very prominent one, running on the relay both years, and is now treasurer of the class. C. P. Fiske was the class representative on the Athletic Association last year. C. E. Fox has been on the Athletic Association, played on the football team and on the basketball team this year. F. L. Hurlburt plays on the hockey team; he also ran on the relay team and is now the vice-president of the class.

J. C. Morse served on the Electoral Ballot Committee and is known to a great many of the men. Among the other men that are elected to the committee and who have been prominent in the class are: C. D. Bryant, captain of the football team this year, and played on it last year. J. M. White,

(Continued on Page 3.)

ANGLO-AMERICAN DANCE BEST OF THE SEASON

Guests of Cosmos at Tuileries Enjoy Most Novel and Gay Affair.

The prettiest social affair of the season occurred Saturday in the form of the first dance given by the Cosmopolitan Club at the Hotel Tuileries, the event being the entertainment by the Anglo-American section of the club, and the way that the affair was carried on typified social life in the related nations, Britain and United States. Probably seventy-five couples attended and made just the right number, so that every one enjoyed themselves to the highest degree, and there were just enough on the floor at one time so as not to overcrowd it and yet have a jolly good gathering.

The grand march started promptly at 8 o'clock, and the couples marched around the hall to be presented to the matrons, Mrs. A. E. Burton, Mrs. Selskar Gunn, Mrs. Ellwood B. Spear and Mrs. Robert P. Bigelow. The leader, C. H. Carpenter, then led the couples around once more, then to the center of the hall. A straight line was then formed up the center line of the hall and two branches made, one to either side, which formed a very pretty T.

During the first half of the evening the orchestra played selections from "The Pink Lady" and other popular things, and every number was encoored to the limit. During the supper dance an interruption occurred and the most novel "stunt" was executed. The orchestra suddenly started "God Save the King," which is the common anthem to both countries, and Mrs. Burton pulled a cord which hung from the ceiling to a point just to the left of her chair. The cord released two beautiful flags, an American and a British, the two being draped together with a large Tech banner.

The guests then adjourned to the luncheon room, where refreshments were served. Everyone was talking of the good time they had and a spirit of joviality surrounded the whole evening. Among the interesting things of the evening was the appearance of several of the members of the club in native evening costume, and these elaborate gowns, together with the beautiful costumes of the young ladies and evening dress of the gentlemen, touched off the natural decorations of the hall and the effect was marvelous.

PRINCIPALS FOR SHOW.

Provisional Cast Chosen and Parts Are Assigned.

The following men will report this (Monday) afternoon to the Union at 4 o'clock in regard to principal parts for Tech Show, 1912:

Smythe, Isaacs, Hiller, Williams, Brown, Ott, Faunce, S. W. Selfridge, Robinson, Dalton, Shedd, Breck, H. A. Morrison, Hastings, J. S. Selfridge, Scudder, De Florez, Spencer, Fox, Swenson, Cardinal, Salisbury, McEwen, Rennie, Wilson.

These men have been selected by Mr. Sanger for the provisional cast for "Castles in Spain." These men may have copies of the parts to which they have been assigned if they will call at the Tech Show office at 1 o'clock today.

HARVARD TAKES THIRD GAME FROM YALE

Rubber Game of Series Won By Crimson Team After Hard Struggle.

Harvard proved themselves rightly champions when they again pulled the wool over Yale's eyes and beat them in the third of their series of hockey games at the Arena Saturday night, the score being 4 to 2. In the first game of the series which was played at the Arena a week ago both teams played poorly, although the Harvard team did not have to strive very hard. In the rink at Yale, where the second game was played, the Elis had it over them probably because of the poor lighting, as was the difficulty when the Tech team played at New Haven.

In the game Saturday both teams played well and some of the individual work was excellent. Sortwell, the snappy Crimson player, again showed his ability as a skater and puck handler and had the Blue men on the run all the time. Capt. Huntington, of Harvard, has been troubled with "charley-horse" for some time, and was off color slightly, but he managed to run in two goals and held his team strongly in hand all through the game. Art Howe, who was captain of the Blue football team last year, brought some of the "never say die" spirit of Yale into the game, and it seems that this always braces up the Connecticut men.

One of the coincidents was the fact that every goal was scored by a different man, with the exception of two that Capt. Huntington got. It took over five minutes before the first goal was made, but it was only seven seconds later when Harvard repeated and the score was 2 to 0 in their favor. Harvard made all their points in the first half, and the fine work of goal tender Gardner prevented the Yale team from beating them out as he blocked many shots from the sticks of the Blue shooters.

Now the stunt will be to reproduce the Show on Victor records and we will always have something substantial to remember a good show by. Also the poor ones.

Professor H. O. Hofman, of the Department of Metallurgy, is in New York attending the meeting of the American Institute of Mining Engineers.

Some class to the way Dartmouth basketball men put it over Williams at Williamstown Saturday.

CALENDAR.

In Charge of S. E. Taylor, 1912.

Monday, February 26.

4.15—Glee Club Rehearsal—Union.
4.30—All Candidates out for THE TECH—Lower Office.

8.00—Lowell Institute Lecture on Napoleon—Huntington Hall.

Tuesday, February 27.

4.15—Mandolin Club Rehearsal—Union.

Wednesday, February 28.

4.30—Electrical Engineering Society Trip to Lynn.
Brown Basketball Game—Providence.

DUES AND MEMBERS.

The elections to the Technique Electoral Board have brought before the Institute the old problem of class dues. Of the men elected to serve on the board only a small proportion have paid their class dues. Of course they cannot hold office unless the necessary money is forthcoming.

This is illustrative of a more general point. The class must be the center of spirit among college students, subject, of course, to the college itself. Therefore the class should be the first thing a man considers for his support, and the first aid to be given to the class is payment of the dues decided on. Many Institute men seem to lack the very essentials of a college spirit. Men of all classes, pay up!

JUST A NOTE.

Major Briggs, in the communication published today, takes exception to the Editor's recent statement, that tennis is left to itself. The Editor will say that the phrase used in the previous editorial was not well chosen, yet there seems to be some ground for the statement. The editorial intended to say that the students themselves, not the Advisory Council, however much interest they might take in tennis, did not feel much in the team. This ground seems to be justifiable because of the way the fall and spring tournaments are customarily run off. The fall one usually runs into the spring; the spring one hardly ever gets finished. This is, of course, due to the students themselves. However, with the excellent opportunities available at the Field, we trust that this state of affairs will not be the case this spring.

As to golf, it is not necessary that a team be formed, nor was it originally intended to be so. The intent was to run some series of undergraduate matches, such as an interclass tournament might furnish, if enough men were found who were interested. We believe that the matter is still in a crystallizing state.

COMMUNICATION.

(We invite communications from all men in the Institute on important subjects. We take no responsibility for their sentiments and do not agree to print any that may come in, whether they are signed or not.)

To the Editor of THE TECH:

It was with much surprise that I read in Saturday's issue of THE TECH the communication with reference to the management of the Union.

I cannot feel that this letter expresses the general student feeling on the subject of the Union, as all the comments that I have received from students have been distinctly favorable, and the greatly increased attendance this year cannot but show a general approval of the management. The author of the communication is entirely unfair in attributing to the Bursar a desire to make money out of the students and to take the management out of their hands. I am sure that the Bursar is in entire sympathy with the idea of student management, and if there is any fault it must be because the student committees have not been active enough in asserting themselves.

I know nothing about the so-called "profits" of the present year, but I am willing to warrant that at the end of the year, as heretofore, the receipts and the expenditures will be found to very nearly balance. I know something of the difficulty Mr. Scharff had last year in preventing the Union from incurring a deficit. The students need not fear that there is any attempt to accumulate money for the Walker Memorial from the Union dining room. It is the desire of every one that the dining room at the Union should simply pay for itself, thus allowing students to get good food at the very lowest cost.

The students are also likely to forget that Mr. Rand was the first one to start the idea of a general dining room for students at the old Union in the building on Garrison street, and it is largely through his efforts that we were able to work out the plan for our present Union.

Very truly yours,
 Alfred E. Burton, Dean.

To the Editor of THE TECH:

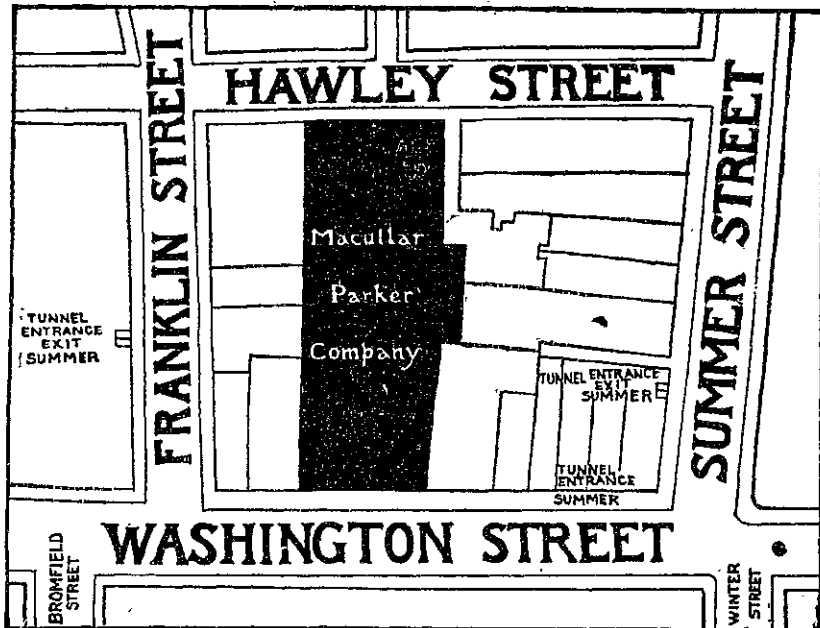

Tennis has been supported strongly and liberally by the Advisory Council on athletics. We have done everything from a financial standpoint which tennis has asked, viz.: pay the annual dues to the N. E. I. C. L. A. and entry fees for its competitors at its annual tournaments. Two courts are provided at Technology Field, and a good deal of money has been expended in getting them in condition for spring work and again in the fall, and the courts have been in constant use, and men actually waiting almost every day to play on them. The field has been kept open during June for the last four or five years almost solely for the benefit of tennis enthusiasts, and as a final statement, no charge has ever been made for the use of the courts, and this you will, I think, not find paralleled by any other college or tennis association or country club in the United States. The free use of the tennis courts is certainly giving tennis men all that can possibly be desired. The only criticism which might possibly be made is that we only have two tennis courts, but as the Advisory Council have seen for the last three or four years the possibility of moving, and as the construction of a single

(Continued on Page 3.)

DON'T FORGET.

This afternoon, at 4.30, the Editors will meet candidates for the news department of THE TECH in the Lower Office. At that time we will explain what the requirements are, and something further of the possibilities of the work. We would be pleased to see any men that have the inclination to come, and no man that attends need feel that he must come out unless he feels that it will be worth his while.

N. E. I. A. A. MEETING.

Discuss Preliminary Plans For Annual Cross-Country Run.

At a meeting of the Cross-Country Association of the N. E. I. A. A., held at Providence last week, preliminary plans were made for their annual cross-country run. It was decided that the race will take place one week before the I. C. A. A. cross-country, although this is not definite. The Executive Committee of the Association is to hold a meeting June 10th, to make the final arrangements for the time and location of the run.

I. C. A. A. A. MEET.

Annual Meet to Be Held in the Quaker City May 31.

The annual spring meeting of the I. C. A. A. A. A. will be held this year at Franklin Field, Philadelphia, in accordance with the decision of the association at the meeting in New York on Saturday. The outcome was rather generally expected for they have come to hold the meets alternately on Franklin Field, and in the Stadium at Harvard, and last spring found the athletes assembled in Cambridge.

Hugh L. Gaddis, the first marshal of Harvard, 1912, was elected to the presidency of the association. They decided to have J. P. Sullivan of the A. A. U. act as referee; also donated \$1,800 toward the fund for the Olympic trip by the American athletes.

SECONDS LOSE

(Continued from Page 1.)

assistant track manager and interested in athletics. H. G. Storke, who plays on the hockey team. P. H. Taylor, secretary of the class. A. R. Stubbs, who was on the Institute last year and ran on the relay teams. A. F. Nye, who is now captain of the Institute cross-country team and prominent in athletics. G. M. White, now a member of the Institute Committee, and was the manager of the Sophomore relay team. W. H. Brotherton, manager of the Musical Clubs. The work of the committee will start immediately. Many of the members of the committee have not as yet paid their dues, and it is necessary for them to do so before they can serve.

COMMUNICATION.

(Continued from Page 2.)

court costs four or five hundred dollars, it has not been deemed expedient, or good business to sink more money "in the ground," as would have been the case if we had built new courts; besides, we had not the money.

Now as to the tennis teams being left to themselves, this is no different than in other branches of athletics; the students must run class games themselves, and also the class and Institute teams in every line of sport, and the Advisory Council have been pushing this more and more at the undergraduates and to throw the responsibility on the latter.

As to golf, M. I. T. was a member of the N. E. I. C. Golf Association until said association died, and in this connection we would state that the Advisory Council only feel that they can recognize athletic teams, and particularly those connected with the N. E. I. C. A. A.

Yours truly,

F. H. Briggs.
