Says Plans For New Institute Are Complete Save Selecting New Site.

After a summer spent in rest and investigation in England, Professor Macaulain arrived at the White Star docks at Thursday morning on the Atlantic. Mr. Macaulain was in the best of health and appeared to be a successful and noteworthy year in the history of the Institute. Dr. Macaulain was accompanied by Mrs. Macaulain, her son Rupert, and her sister, Miss Jean Young of Watlington, England, who will spend the winter with Dr. and Mrs. Macaulain at Bay-Stat Road.

That interesting question as to the location of the new Tech was raised as soon as the men arrived, and it is impossible for us to say definitely when we can announce the choice of the new site for Technology, we will start building on the new Institute in the Spring," said Dr. Macaulain.

The squad consists almost entirely of...

**Tennis Tournament.**

Entry List of Twenty-Six—First Match Played Soon.

Everything is in readiness for the tennis tournament which will commence this week with an entrance of twenty-six names. The first match of the singles must be played off before Saturday, and the first match of the doubles before Wednesday, October 15th.

The captain of the tennis team, C. R. Woodward, 1912, requests all entrance fees be paid as soon as possible in order that the cup may be purchased immediately. The fees are fifteen cents for singles, seventy-five cents for doubles, and may be paid by leaving the cash at the Cage for Woodward or for W. N. Holmes, 1913, who is the vice-president of the Tennis Association.

The challenge list stands at present: Fisher, Woodward, Bridgman, Keigh, Taylor, Freeman, Holmes and Bankin. Any player may challenge the one above him, and any one may challenge the last man. A player after having challenged and lost may not challenge again until a week has elapsed. The first four men on the challenge list constitute the Tech tennis team, and the first two will play in the N. E. Intercollegiate Tennis Association.

**Developments in Italian-Turkish War.**

We are all familiar with Sheridan’s definition of war, but perhaps the Turk is not. Sheridan’s definition likens war to a certain mythological and uncomfortably torrid region, which region, by the way, Sheridan considered preferable to Texas. The average Turk certainly knows nothing of Texas, and probably nothing of the classic definition; his religion does, however, assume the existence of this same superheated region. Now, then, the Turk is having war forced upon him in quantities larger than it is convenient to digest and, if he may be permitted an approach nearly to slang, he is getting all that the definition implies.

Lately declared war, gave the Turkish ambassador twenty-four hours to leave home and immediately proceeded to active hostilities. In fact, Italy began war before the news of the declaration of their intention had yet reached the Turkish capital. The Turkish fleet was passing through the Dardanelles with no knowledge that there was a war; they encountered the Italian fleet and sailed; the Italians reciprocated by turning their guns upon them, and they were swiftly decimated. The Italians have bombarded Tripoli and destroyed mosques and monasteries. Such a display of magnanimity is extremely laudable.

The Italians are an intensely religious people and, like all intensely religious Christians, they respect the religion of others; this may be one reason for their conduct. Their star is in the ascendant; they are the acknowledged winners and they can afford to be magnanimous. This is perhaps another, but still reasonable, reason. The remaining reason is pure altruism. Spencer, who is a far from cynical author, says that altruism exists only when a person does a benevolent act with which he does not wish to do. The man who gives a beggar a dollar and goes his way, putting himself on the hook for benevolence is not an altruist.
The easiest pen to fill.
One of the features which makes Moore’s an unquestionably superior pen is the ease and rapidity with which it can be filled. Simply remove the cap, drop the ink in and the pen is ready for use — no bulky springs to tangle.

Moore’s is a very satisfactory pen to carry around in your pocket or bag. Due to its own unique design, the pen is practically leak proof to handling. Experiments have been made to prove the leak-proof quality of the design — results are always favorably.

Every Moore’s New Leakless Fountain Pen comes with its own unconditionally guarantee.

HARE AND HOUNDS LAY TRAIL AT WAKEFIELD

Training Table to Be Started in the Union Very Soon—Kanaly Talks.

The Hares led the Hounds a merry chase over an exceptional five-mile course. With the Saturday afternoon, only 14 men showed up, but the bad weather probably kept many away. The run started from the Y.M.C.A. and led away to the north. The Hares made the trip twice, except-Captain Watkins, who is out every Saturday. In the last few miles, the results of the course, which were so well that it was only necessary to follow him and to dodge back and forth a few mountains.

After laying the trail about four miles, the Hares ran a course, which proved to be too wet for them. They had to retrace their steps, with the result that the Hounds overtook them. N. P. Nye and E. M. Newlin found the hares.

The men lined up and sprinted for the finish, about half a mile away. F. H. Achard and M. A. Oettininger put up a spirited first place for the finish, then

After the run Coach Kanaly and H. R. Facey spoke to the men. They had to retrace their steps, with the result that the Hounds overtook them. N. P. Nye and E. M. Newlin found the hares.

The men lined up and sprinted for the finish, about half a mile away. F. H. Achard and M. A. Oettininger put up a spirited first place for the finish, then

Individual Practice for Swimming Team

Saturday afternoon only half a dozen men besides the regular team answered to the call issued by the manager of the swimming team and reported to Captain R. A. Lecher at the Salvation Army tank, the small number being due probably to the games of the other branches of athletics. Those that reported had at least a good hour's practice, in which they showed the first and necessary points of tank racing. The men on the team each took a man and shot groups of water at the target, which was about 60 yards away. The practice of running on wet grounds is very valuable.

Captain Benson of the cross-country team spoke of a few training rules that he believed would help the men learn correctly. Realizing this, several members of the class football team and approach the men of these nationalities are almost incalculable.

A last word to the Miners only gives them a little something to think about for the present. It is to be hoped that more Tech men will be able to take up this work and make it a success this year, and not at all theoretical in character. The talk will be non-technical and will approach the men of these nationalities are almost incalculable.

The talk will be non-technical and will approach the men of these nationalities are almost incalculable.

An age record for matriculation has been established by the University of Wisconsin. It is the story of a woman student, aged 80 years. This record was proved by oral testimony of her relations, and was taken as evidence of her matriculation.

BUSINESS COMPETITION: TECHNIQUE STILL OPEN

Three Members of Thirteen Only Want to Work for This Department

Last Thursday the Technique Board of 1913 issued a call for assistants. Business Managementships in the form of a competition for the members of the class in the line of securing advertising for the book. Such work must be done in order to get out a book of this character; the advertising pages must be full, and worst of all is such nature that it gives a man a fine chance to learn how to put a proposition up to a business man in such a way that he will see that it is best to accept.

So far only three members of the class have signified their intention of being on the Board for this purpose; three candidates for two places. This is not only a chance to get into student activities, but also a chance to get some business experience on the side.

The terms of the competition are given out as follows: (1) Any member of the Class of 1913 is eligible. (2) The candidates can try for any advertisements except those which have appeared in Technique of previous years. (3) The competition will close on April 1, 1913. (4) The two men getting the highest amount of money will be chosen as Assistant Business Managers on the Technique 1913 Board.

The Business Manager will be in the hands of every member of the class to do all the work of making his book as great a success as possible. This is a direct appeal to the juniors from the men whom they have selected to put out the book. It is to be hoped that a large number of men will come out for the only two positions left on the Board. It is very easy to get the advertisements, and it only takes a little time in the afternoon. Technique is not a product of the Board but of the whole class. It is the duty of every member of the class to do all he can to make his book as great a success as possible.

WORCESTER ACADEMY DEFEATS SOPHOMORES

On a wet, slippery field at Worces- ter the Sophomore football team went down in defeat by a 21-0 score at the hands of the Worcester Academy team. This was the first game of the season for the latter team and they showed a great lack of practice.

Marshall and Bryant were the stars for 1914, but it was a case of a heavy, fast and very well drilled team going in and running away with one which had no chance to practice. The newly elected captain, Chynoweth Bryant, wants a large number of new men at the Ovals this afternoon, so that he may have some one to line up against to get some scrim- ming work.

echniqu and as a pitcher on the team. He will not be announced until some time, probably in December. I. I. W. TAFT NEW MAJOR FRESHMAN BATTALION

New Regulations Require Three Lieutenants in Each Company.

The Commander of the Battalion has given out the list of commissioned officers for the year, the men belong for the most part of the upper classes. The commissions are based on excellence of the work of the first year. The Major is usually picked from one of the upper classes of the year proceeding; that makes the junior and the other officers as a rule are Sophomores.

Major Cole, the Commander, announces that the Major will be Mr. Edgar Whitaker Taft, 1913. Mr. Taft was the Captain of the company which won the first prize in the annual drill last May. He prepared for Technology in the Gloucester High School, and while there obtained high rank in the High School Battalion, finally becoming a Major. Since he has been in the Institute he has been prominent in the Cader Battalion and has been a representative of his class on the Institute Committee. While on that body he was in charge of the calendar, which duty, we regret to say, Mr. Taft was unable to perform during the coming year.

The Adjutant of the Battalion in Mr. Samuel Breck, Jr., of Boston. He has also a member of the Junior class and was also in Major Taft's company last year. Mr. Breck was a member of the 1913 tug-of-war team, and was also in the chorus of the 1910 Show.

The Captains of the four companies have been appointed as follows: Company A, A. J. Pastene, 1913; Company B, Francis H. Achard, 1912; Company C, Lester S. Hamilton, 1914; Company D, Frederick R. Barnes, 1914. Pastene was a member of the Union Company last year and has been connected with THE TECH for a year or more. Mr. Achard was also a tug-of-war man and was in the Short Chorus of both 1910-11. First Lieutenants of the Battalion are Ralph D. Salisbury, Robert W. Moorehouse, Charles R. Chaffield and Lucian W. Breese.

Other rules and regulations of this year: The companies are divided into three platoons, thus requiring eight second Lieutenants for the Battalion. The men are as follows: Harold T. Bent, Hibbard S. Busby, Chester R. Gardner, Edgar W. Huckings, John C. Morse, Edward Steere, Fred E. Waters and Ralph R. Wolfe. The promotions to the non-commissioned staff will not be announced until some time, probably in December.

SEDGWICK TO START COURSE IN HYGIENE

Professor Sedgwick gives the first of the lectures on Personal Hygiene on Wednesday, at 4 o'clock, to the members of the incoming class. This is the first of a series of valuable and instructive talks that the freshmen are to get at this hour on Wednesdays in Room 6, Lowell. Professor Sedgwick is a very interesting man to listen to, and he speaks right from the shoulder, and out from an inside knowledge of his subject. No man in the first year here can afford to cut one of these talks, for they are of real value.
