MUSIC AND MIRTH IN UNION FRIDAY EVENING

Committee in Charge Promises Entertainment Well Worth Hearing.

The entertainment which has been planned for Friday evening of this week promises to be the best ever held in the Union. Which is saying a great deal, because we have already had several exceptionably fine entertainments this term. Everyone who attended the Pop Night concert, at which music was furnished by the orchestra, was united in saying that the evening was one of the most enjoyable which they ever spent. This was attended the Pop Night concert, at which several exceptionally fine entertainments were given.

MUSIC AND MIRTH IN UNION FRIDAY EVENING

This evening will be entirely informal. It is hoped that a record crowd will be present.

FRESHMAN GAME

Will End Season With Tufts Freshmen at Medford.

The Freshman basketball team ends its season tonight in their game with the Tufts Freshmen at the Tufts gym. Little is known of the strength of the Medford men as they have played mostly interscholastic games as yet. In these games they have, however, shown up well. The game which they played in the state was that with their 1914 team, which resulted in a victory for the 1915 men. This team is unique in that one of its members was a captain of his previous school team.

The Tech Freshmen are not in the best of condition for the game. They have had no practice with the Sophomores, in which they met with disaster, and since then have had scarcely any practice in which the team work, which is so necessary in basketball, could be developed. Added to this, Morse, one of their good men, will not be able to be in the game as he is needed with the Varsity against Brown. They have hopes, however, that the following lineup will be the greatest this year:

MacBride and Wentworth, forwards; Newman, center; Scully and Dalton, backs.

CLASS DAY BALLOTS.

The Senior Class Day ballots are out, and every Senior ought to have one by this time. If you haven't got yours yet, do not delay and get them. Then vote, and attend to it right away, as the committee who are compiling them expect them as soon as possible.

About two thousand Tech buttons have been ordered. They will be quite prominent if many are to be worn in one city.

JUDGE LEVERONI TO SPEAK TO T. C. A.

Judge of the Children's Court to Be Here Thursday in Union.

Thursday noon, at 12:05 o'clock, in the Union, Secretary Talbot of the Christian Association will introduce Judge Leveroni of the Children's Court to speak there.

Judge Leveroni and his associates are doing the same work that has made the Denver Children's Court so well-known under Judge Lindsey. In Boston there are three associates, which do the cases more or less uniformly so each gets types with which he is most familiar. Judge Leveroni is in charge of many of the foreign children who get in trouble. He has had wonderful success with a probation system that almost entirely avoids sending a child who has been minor or minor wronged against some injustice without any of the children being sent to a jail or "reformatory," whose graduates are usually well started on the wrong career that will be periodically punctuated by subsequent sojourns in penitentiaries. But the probation method gives very different results that we will hear about from the Judge himself tomorrow.

MUSICAL CLUBS.

Concerts at Melrose and Newton Highlands Next Week.

Next week will be a busy one for the members of the Musical Clubs, as they are scheduled to give two concerts, one on Wednesday evening at the Newton Highlands. Both to be attended by dancers, which the following do not object to in the least. On both occasions the men will be in a special car on the train. Time of leaving will be announced later.

ELECTRICALS' TRIP.

The Electricals are going to make their second trip to the River Works of the General Electric Company at West Lynn this afternoon. Twenty-five men expect to start from the B. E. Library at 1:05 o'clock for the plant.

The party which visited the factory week ago from Monday spent three hours in viewing the interesting parts of the manufacture of motors and other apparatus. The men were interested in watching the work of the many apprentices who attended the company's electrical school which enables them to become expert workers in the factory.

INSPECT HOOSAC TUNNEL.

The Board of Railroad Commissioners have engaged William L. Fuller, '84, now an electrical engineer and ex-student of the Electrical School, to supervise the inspection of the tunnel equipment, so that the board may present a report to the Legislature concerning the late disaster there.

SHOW REHEARSALS EVERY AFTERNOON.

Chorus and Principals Are Learning Parts and Shaping Up.

Work in all the departments of the show is now well started and is going better every day. The eliminations in the cost and chorus are nearly all made, and the men chosen have been given their parts to learn.

The evening will be one of the most enjoyable of the year, as the music will be furnished by the Tufts glee club, and the feeling will be high. The evening is one by this time. If you haven't got your's yet, hustle around and get one.

MEETING POSTPONED.

The meeting of the Civil Engineering Society which was scheduled for Wednesday evening is postponed to the most convenient time for the speakers. The lecture will be given by Mr. Albert S. Cushing, chief engineer of the F. E. Manufactures. The date will be announced in this Truc as soon as it is decided.

Disappearing guns are fine for the coast artillery, but they aren't any great help to the infantry. If this weather continues the track men will be outdoors in short order.

VARSITY BASKETBALL TO PLAY LAST GAME.

Sophomore Backs to Be Played in Brown Game in Final Try For Victory.

Trought the Varsity basketball team will bring its season to a close with a hard game against the Brown University five. The Institute team has had a rather disastrous season, having lost all of the eight games played to date—many of them after a hard fight against heavy odds.

All in all, however, the Tech men took to the break the hommes and bring home the Brunon- nese scouts. The Varsity has been putting in some effective practice during the past week, and it seems probable that it will be able to make a better showing against the Rhode Island men than in the last game with them at the Union, which Brown, won, 31 to 22.

The men, with Manager Freeman, will leave the Back Bay station at 5:30 o'clock this afternoon. Brown and Williams of the Sophomore aggregations will make the trip, and it is probable that they will play through the greater part of the game in the guard positions. Capt. Rehr, and Scholte are forwards, Morse as center, and McCarthy as back, will complete the lineup.

For Brown the probable lineup will be: Capt. Adams and Miller, backs; Von der Leuth and Sullivan, forwards; and Scholte, center.

TECHNIQUE PICTURES.

Any pictures which are to appear in Technique, 1913, must be in the hands of the board by March 2. Some of the men have had their pictures taken, but the proofs have not yet been returned. The class teams have been very slow in this matter, and the Freshman and Sophomore class officers have been very backward.

The board wants interesting snapshots of every part of the Institute, particularly of Field Day.

Still the overcoats are coming. Can nothing be done to stop it?

CALENDAR.

In Charge of S. B. Jayer, 1914.

Wednesday, February 28.

1:30—Electrical Engineering Society.

8:00—Freshman Basketball versus Medford-Gym.

Brown Basketball Game—Providence.

Thursday, February 29.

1:00—Managing Board Meeting—Upper Organ.

1:30—T. C. A. Meeting—Judge Leveroni's Office.

6:00—Committee Meeting—Judge Leveroni's Office.

Friday, March 1.

1:00—International Year—Brown and B. E. Excursion to Quincy.

6:00—Union Entertainment—Lost Scene.

Saturday, March 2.

8:00—Cosmopolitan Japanese Night—Union.
To The Editor of THE TECH:

We take no responsibility for their sentiments and do not agree to print any that may come in, whether they are signed or not.

Seniors: --

The Class Day Committee ballots have been sent to every 1912 man, and unless it is highly desirable to have a truly representative committee, it is extremely important that every man should vote and vote early. Then he can turn his efforts toward helping the delineants.

There is absolutely no reason why the activities connected with graduation and Senior Week should not this year eclipse all previous ones. It will require an overcoat if a man absolutely refuses to attract an audience, but whether it will not be necessary to elect a thoroughly efficient committee, made up of men who have shown that they are able to shoulder responsibilities, and have the ability to work toward the above end.

The matter of class dues becomes conspicuous at this time, and as this election is the most important of the entire four years, it behooves each member of the Union Committee to do all in his power to see that the final responsibility of paying up their back dues and being allowed to cast their votes.

Therefore, Seniors, you are urgently appealed to to show your interest in the class by casting an enthusiastic and heavy vote.

(Signed)

H. E. Bishop.

ARCHITECTS TO COMPETE FOR PRIZES

Interscholastic Competition On
—Results Will Probably Be Exhibited Here.

On February 28th the annual interscholastic architectural competitions will take place during the entire day, and will be held simultaneously with the several other colleges and universities which are competing, namely, Harvard, Columbia, Cornell, Michigan.

This competition is one of the most important which occurs during the year, for it is one which the several large architectural schools of the country compete with each other, thus determining what class of work is being done by each.

The prize of $150, which is divided into two parts of $90 and $50, will be given to the winners in two classes, the first being for men doing their work in the first, second, and third years at the Institute, and the second for men doing work corresponding to that of the third year.

After the designs have been judged the complete set is then started on its round of the several competing schools, where exhibitions are held for a stated period which are open to the public, after which the drawings are returned to their respective schools.

MAP ABBREVIATIONS.

Government Map Makers Have Perfected System.

In taking full notes on the natural features of a considerable area of varied country the need of symbols to express common characteristics is often felt. This need is supplied by an official geographical sign language which, without the use of a single word, is capable of giving a full description of even the most unusual area in this country or any of its possessions. These symbols enable an amateur map maker to draw a readable map, and make the government map perfectly intelligible to any one familiar with them.

By these symbols a doubtful rock is indicated by a mark about the size of a pin-head, and an oil well or a telegraph office by another. The grain of the ocean is indicated by a mark if it has water in it all the year and by another if it is dry at some season.

Different kinds of forests are shown by different signs, so that a government map is valuable to the lumberman.

The former looking for a favorable location for some crop is aided by symbols which indicate the different classes of land from sugar plantations to cotton patches. Almost 19 signs indicate works of man, and nearly as great a number is used to representing aids to navigation and other features of the ocean. Other subjects indicated by symbols are mirages, landmarks and monuments.

The government maps are of great assistance to military men, as the symbols show, besides the grade, special features which bear on strategy. The symbols which mark the boundaries and monuments around a stated period which are open to the public, after which the drawings are returned to their respective schools.
