## ELECTRICALS VISIT LARGE LYNN PLANT

Trip to the General Electrical Company Proves to Be Very Interesting.

Twenty-five men took in the Electricals' trip to the General Electric works at Lynn yesterday afternoon, which proved to be the most interesting one held this year. A representative of the company met the party at the gates and conducted the fellows through the entire plant, from foundry to paint shop.

Building No. 74 was first visited and the many machine tools carefully inspected. Then the men were shown how the armature segments are punched out of the sheets of soft iron and fitted together to make the drum of the armature. This building also contained many other punching and shaping machines.

Next the party went to the shipping room, and then to the winding department, and saw the wire and tape wound on forms for the armature and field coils, and then watched the coils being put on the armature. Much interest was shown in a special form of transformer.

The next building inspected was that in which the gas engines and arc lights are made. This building also has a large machine shop of its own, which is as complete as any of the others. After this the party visited the foundry and looked at the casting and forming the moulds. The men then watched several gear cutting machines, and ended the excursion with a hasty survey of the power plant. The company showed the party every courtesy and gave them a very enjoyable time.

## LEVERONI TO SPEAK.

Judge of Juvenile Court Will Explain Work to T. C. A.

Today Judge Leveroni of the Boston Juvenile Court will talk to the crowd in the Union at half-past one, by invitation of the Christian Association. Judge Leveroni's work among the neglected children, mostly of foreign parents, succeeds in turning a young person who has broken the law from the criminal life that he naturally drifts into because of the influence and disgrace of jail life to useful and desirable citizenship. In many cases the court has had to take the place of all family influence, and by its probation officers become foster-father to the delinquents.

Judge Leveroni will tell about the work in detail today, and will enliven the talk by stories of the boys that have come under his observation.

## MUSICAL CLUBS.

Members Busy Preparing New Music for Spring Concert.

Nearly all the musical organizations are getting new music ready. The Glee Club is trying out four new songs, but does not expect to give any of them until the Spring concert. The Mandolin Club has several new pieces in hand and expects to be able to give them soon. The quartet has been practicing every noon for some time, and is getting its music in fine shape.

## CLOSE OF SUCCESSFUL HOCKEY SEASON

LEAVES BRIGHT OUTLOOK FOR FUTURE.

Work Entitles Team to High Intercollegiate Rank---Captain Doc Sloan Heads List of Brilliant Players.

The Tech hockey team has finished the season with a record that has been bettered by a very few colleges in the country. They have been beaten by only one college, and have won five out of the nine games played in all, counting the practice games with the Intercolonials and B. A. A. teams at the first of the season.

The call for candidates at the beginning of the season brought out a large squad, among whom were three of last year's team. These men were Captain V. G. Sloan, 1912, F. L. Hurlbutt, 1914, and H. G. Storke, 1914. A. G. Ranney, 1913; W. M. Eichorn, 1913; N. D. MacLeod, 1913; A. W. Yereance, 1912, and J. H. Whittlesey, 1913, of last year's squad, also came out and made good. The new members of the team were C. Stucklen, 1913, who came to Tech this year from Dartmouth, and who is a brother of "Heinie" Stucklen, the crack forward of last year, and R. L. Fletcher, a first year man, who was a star at Providence Technical High. Much credit is due to Coach Clifford for the way in which he has developed the team, and much of its success is due to him.

Captain Sloan's work stands out above all the other members of the team. His clever handling of the puck, and accurate shooting has pointed him out as one of the best hockey players in the collegiate ranks, and his loss will be keenly felt by the team next year. Of the goals scored by the team during the season, he has shot 22.

Hurlbutt has given Sloan a close race for first honors. This clever little player is fast on his skates and handles the stick with much skill. Eichorn has been a tower of strength at point, and his effective stopping of the puck has been of great aid to goal tender Ranney in stopping the hostile shots. The only bad thing about his playing has been his inclination towards roughness, and he has spent many minutes out of games for penalties. Manager Ranney has allowed very few shots to go through him, and next year should be a wonder.

Storke, Yereance and MacLeod have played the forward line well, and developed very good team play, especially towards the end of the season. Stucklen has played the cover point position in a brainy manner, and has also shown his ability to play almost any position on the team. Although light, Fletcher has held his own with men much older in years and experience, and will, no doubt, be heard from in future years. Whittlesey and Lane have played well in the games in which they have had a part.

The team has been greatly handicapped by not being able to get the Arena management to put on their games, and have received a very bad deal from them. With the exception of the practice games at the first of

the season, the Arena has allowed Tech only two games.

Tech played its first game on November 18, when the Institute seven was beaten by the B. A. A. team by a score of 6 to 2. The next two games were with the Intercolonials, and the Canadians were victorious in both by the scores of 3 to 1 and 6 to 3. The game with Harvard was a walkaway for the Tech team, and they won by a score of 4 to 1. This was the first time that Tech had won from Harvard in three years, and greatly increased the ranking of the Institute team.

The team played three games on the mid-year's trip and won all of them. The first of these, with the Syracuse Hockey Club, was won by a score of 5 to 2. On the next night the team again won, this time from Syracuse University, by a score of 5 to 0. The game with West Point was very uneven, and the Cadets lost by a score of 10 to 0. Tech lost its only hockey game to Yale by a score of 5 to 3.

The next game was with Amherst at Amherst. In this game Tech scored four points to Amherst's one, and completely outclassed the Purple and White. The last game of the season was with Williams at the Arena, and the Tech team had no trouble in winning by a score of 6 to 1. A game was lost to Mass. Aggies by a score of 4 to 1, but on account of the wretched ice the Aggie management agreed not to count the game.

The prospects for a champion team next year are exceptionally good. Sloan and Yereance are the only men who will be lost by graduation, and with eight veterans, the team will have a good start.

It might be interesting to note that there are a number of college papers of the same approximate age. The Yale News is now publishing its thirty-fifth volume, The Pennsylvanian is twenty-seven years old, The Amherst Student is in Vol. XLV, while THE TECH passed its thirtieth milestone on the 16th of November last, and is now well on its thirty-first year of ever-increasing prosperity.

## UNDERGRADUATE DINNER

The All-Technology dinner will be held March 14. This was definitely decided at a meeting held yesterday afternoon by the committee in charge of the dinner. They plan to have only undergraduates as speakers, so that the students themselves may voice their ideas, and so that the general sentiment of the Institute may be shown. The dinner will probably be held in the Union.

The All-Technology dinner is new here, the idea being to have every student attend, and to have class distinctions set aside for the time being.

## TECH SHOW TO VISIT NORTHAMPTON

Special Railroad Rates and Hotel Accommodations for Tech Men.

Manager Weeks of the Show recently made a trip to Northampton, and succeeded in making all necessary arrangements in regard to holding a performance there on the twenty-seventh of April.

In order that a large body of men may be able to attend this performance arrangements have been made with the hotel people whereby Institute men may obtain railroad tickets down and back and accommodations at the hotel over night, all for the extremely reasonable price of five dollars. The Show men always have a special train and extra cars will be attached to this. This will eliminate the confusion which has sometimes prevailed in past years in securing suitable accommodations, and will make it possible for a larger crowd to go.

This Northampton concert is the best of the performances held away from Boston and is always well attended. Several colleges, including Harvard, Yale, Tufts and others are in the habit of holding entertainments there every year, but Tech Show has always held the record attendance, with the exception of one year, when they were tied by the Yale organization.

Tickets for this occasion will be ready some time in advance of the actual date, and may be obtained from members of the Show committee.

## FRESHMEN DEFEATED.

Basketball Team Outclassed by Tufts Freshmen.

The 1915 basketball team was completely outclassed by the Tufts Freshmen last night at the Tufts gym by a score of 56-12. An extremely slippery floor and the loss of one of their good men, who went to Providence with the Varsity, were some of the factors which, added to their lack of loose, individual playing, characterized the work of the losers.

The lineup was as follows:

Tech.	Tufts.
MacBride, l. f. ....	Maguire, r. f.
Wentworth, r. f.	r. f., Matzynski, Walsh
	Newman, c. ....
	Angell Scully, r. g. ....
	r. g., Mitchell Dalton, l. g. ....
	l. g., Richardson
	Goals by: MacBride, Wentworth,
	Dalton, Scully, Maguire 10, Matzynski
	4, Walsh, Angell 2, Richardson 6,
	Mitchell 4. Fouls by: Wentworth 4,
	Richardson 2.

## CALENDAR.

In Charge of S. H. Taylor, 1914.

Thursday, February 29.

1.00—Managing Board Meeting—Upper Office.

1.30—T. C. A. Meeting—Judge Leveroni—Union.

4.00—Prom Committee Meeting. Friday, March 1.

2.00—M. E. Society Trip to Quincy—Eng. A-20.

4.15—Wireless Meeting.

4.30—Mandolin Club Rehearsal—26 Rogers.

7.30—Union Entertainment.

Won the rifle match.

## COMMUNICATING.

According to custom the columns of THE TECH are open to members of the Institute for the purpose of expressing their opinions. As is stated in the heading used over the communications, we take no responsibility for the sentiments expressed, and do not bind ourselves to publish all that may be sent in. Under no circumstances will any be published if the author of it is unknown to the Editor, although nouns de plume are permissible in the printed letter.

We invite communications on important subjects. This means that men who have ideas that will be interesting to the student body may submit them; but on no consideration may the column be used for personal quarrels, if the Editor knows it.

## CONGRATULATIONS.

The success of the hockey season stands out the more markedly because of the basketball failure and the relay misfortunes. Only one of the intercollegiate games has been lost, and that was played under adverse circumstances.

Although not a member of the Inter-collegiate League, the team has made a strong bid to be ranked among the first of the colleges. This place may not be generally conceded it, yet the team's showing is still most creditable. This success is due in no small measure to the able coaching the team has had, Mr. Clifford having been a material factor in the development of team play.

We congratulate the hockey team and its individual members on the admirable results of their work, and we look forward to next year, hoping for as good a season.

## CONVOKE.

Two-thirds of the year have now passed, and still we lack one of those inviting meetings known as convocations. The powers that be may feel that the convocations have had no educational value, and if such be the case we beg to register our disagreement. The convocations are valuable, and have certainly been interesting. So far as availability of speakers goes, there are many men who would be well worth hearing.

It may be said that the Thursday

## COMMUNICATION.

(We invite communications from all men in the Institute on important subjects. We take no responsibility for their sentiments and do not agree to print any that may come in, whether they are signed or not.)

To the Editor of THE TECH:

I should like an opportunity to reply to that brilliant display of mud-slinging which was indulged in by the Dining Room Committee in Tuesday's issue. I will quote from that remarkable document and show the absurdity of many of their statements (there was no argument).

"The Dining Room has been put on a sound financial basis, and why shouldn't it be?" Sage question, worthy of the ancient philosophers! No one said it shouldn't, and it would be foolish to believe otherwise. "Any statement that the profits are fast approaching the \$1000 mark is highly ridiculous." Our ideas as to speed and heights differ, but is it not true that the receipts are approximately eight to nine hundred dollars over and above all Union expenses? "Every cent above expenses is held for the Union alone, and any statement to the contrary is absolutely false." Good news. No one has made "any statement to the contrary," the only question that was raised being as to when we would get the advantage of those "every" cents.

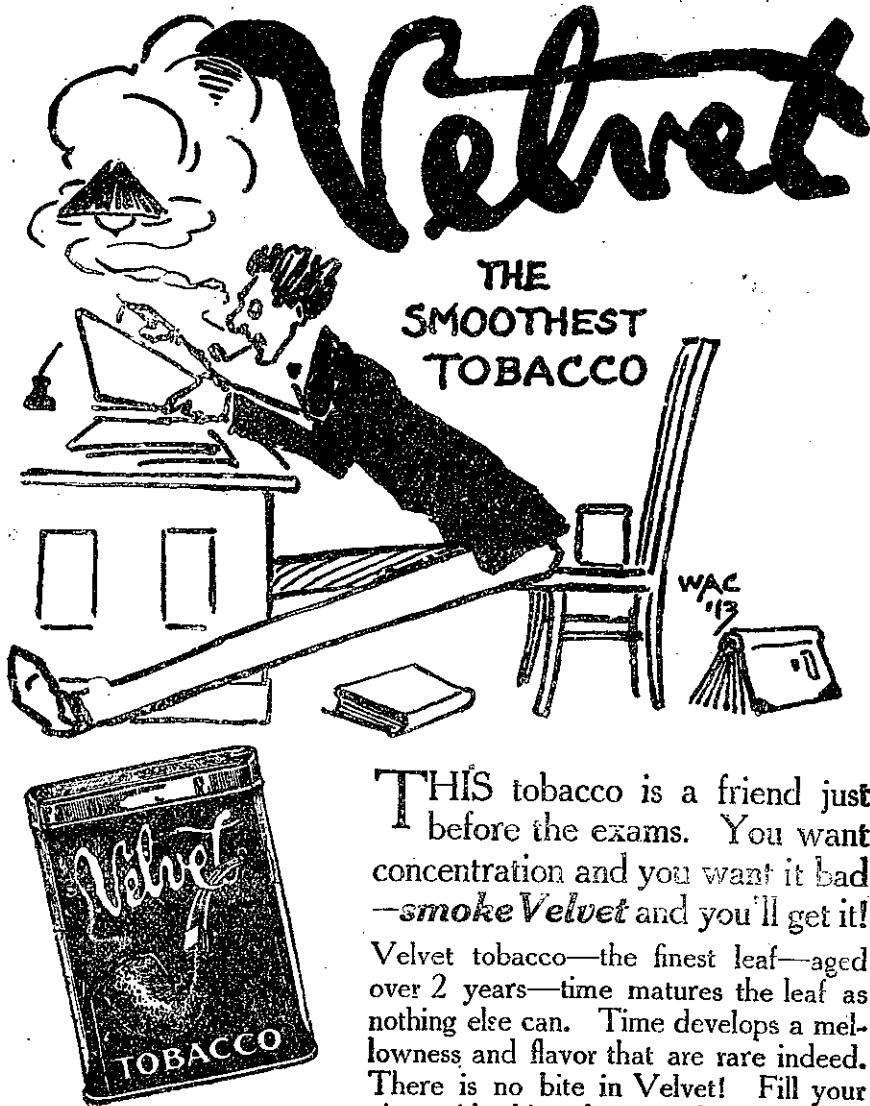

"The attendance of the Dining Room this year has been fully 50 per cent. more than last year." We know that, and also that we get more for our money in the Union than elsewhere. This point has not been disputed, but it is believed that we should be served as well at noon as at night. If not, why not? I think that the 50 per cent. gain is due to the very efficient work of Mr. Scharff last year, and not to any particular efforts of this year's Dining Room Committee. "The writer portrays his profound ignorance again when he claims that the committees have been curtailed this year." "The writer" has no knowledge of the increased power of the Dining Room Committee, but the following remark was quoted to him as coming from the Bursar early in the year:—"If you want to know anything about the Union, come to me. I am running the Union this year, and what I say goes." I cannot vouch for the accuracy of this remark, and I hope that it is a misstatement.

"The fact that our proceedings have not been published in THE TECH, or posted, is no indication that they have not been conducted." No one has stated that they were not "conducted." My statement was that the Union Committee meetings "are held in a very slipshod manner." I was informed by a member of the committee that the secretary practically acts as chairman and that he is soon to resign. I wonder who will be chairman then? The committee meets, talks matters over, and the Bursar takes what action he believes best. We therefore have an excellent agent and a committee acting in an advisory capacity without power. Their votes may be disregarded by the chairman if he so desires. I believe that if the matter is thoroughly discussed and a vote is taken the chairman should abide by the decision. A flagrant violation of this principle has recently come to my attention. The Bursar has also been quoted as saying that he was afraid to publish a financial report of the Union. I do not believe that, but I think that such reports should be published every month as a matter of general interest.

"It (the communication of Saturday) contained such a large number of false and misleading statements." This I deny in toto. There were no false statements and there was no

(Continued on Page 4.)

talks fill the want of convocations. We do not agree to this, for the attendance at the T. C. A. talks, while good, is not what a convocation would command. We hope to see some.

THIS tobacco is a friend just before the exams. You want concentration and you want it bad—*smoke Velvet* and you'll get it! Velvet tobacco—the finest leaf—aged over 2 years—time matures the leaf as nothing else can. Time develops a mellowness and flavor that are rare indeed. There is no bite in Velvet! Fill your pipe with this tobacco—then you will appreciate why we named it "Velvet." At all dealers.

## FRESHMAN TEAM DEFEATS BROOKLINE

New Rifle Team Starts Promising Season by Winning Its Initial Match.

Yesterday afternoon the newly organized Freshman rifle team easily defeated that of the Brookline High School by the score of 311 to 285. Each squad contained four men, each of whom fired ten shots, standing at a one-half inch bullseye, 25-yard range. All of the Freshmen made good scores. P. E. Rudolph, the president of the club, made the highest mark, with 85. Chandler, his opponent, performed the best for Brookline, with 80 to his credit.

The winning of this match from the crack High School team, which up to this time has been defeated only twice out of ten contests, starts the lower classmen on a promising career. Each member has had not a little experience in shooting. Williams shot for the Massachusetts State squad last year, and Fessenden, Haslam and Rudolph belonged to the Brookline team in their senior year.

The summary:

1915 scores: Fessenden, 72; Haslam, 77; Williams, 77; Rudolph, 85. Total, 311.

Brookline High: Jenks, 67; Morse, 69; Stevens, 69; Chandler, 80. Total, 285.

## CATHOLIC CLUB WILL HOLD MEETING TODAY

Feature to Be Talk By Judge Murray of Municipal Court Circuit.

Wednesday evening, March 6, the Catholic Club will meet upstairs in the Union at 6 P. M. Judge Murray, who will speak, has been a prominent figure in the Municipal Court Circuit, sitting in judgment over both civil and criminal cases. Apart from his connection with the bench, those who have followed the history of the Republican party in the State of Massachusetts and even in its national conventions, will recognize in the present Judge the orator, Michael J. Murray, who time and again swept the State with his brilliant speeches. As a speaker at club talks and banquets, Judge Murray is in great demand, and having failed the year before, the club this year is indeed fortunate in securing his presence at its next meeting.

The dance committee will also bring in its report at this meeting. As the dance has proven the most successful since the establishment of the club, both from a social and financial point of view, the details of the committee's accomplishment should be of interest to every member. A full attendance would be one way in which the members could show its appreciation of the committee's work. Certainly a large number should be present as a fitting tribute to the renowned speaker.

## PROM COMMITTEE.

Arrangements for the Junior Prom are still being carried out as rapidly as possible, and many of the numberless necessary details have already been attended to. The committee will hold another meeting this afternoon at 4 o'clock, at the usual place.

## FIELD OPENS.

The field in Brookline will be opened for the spring season on March 18th. Everything will be in good condition and the tennis men can get right to work. The outdoor track season will probably start very soon, and if we are to win those championships this year the earlier we get to work training the more chance we will have.

## Eyeglasses and Spectacles.

## ONE PIECE HAMMER IN THE NEW MODEL Ithaca

IF you see more than one hole in a hammer you know that extra parts are fastened to the hammer whether shown or not. Our hammer is all one piece, only one hole, no toggles or stirrups attached.

WE have cut out all cocking levers, bars, push rods, and hammer stirrups and cock the gun direct from toe of hammer.

OUR hammer travels less than half an inch, taking only 1-325 of a second to operate.

STOCKS are not cut away for hammers or lock plates and are dovetailed into frame to prevent splitting and spreading.

THE speed of our lock will increase your score it traps and kills in the field; the simple scientific construction of the gun makes it practically fool-proof, and will last you a lifetime if you take care of it and a good many years if you don't.

CATALOG Free; 18 grades, \$17.75 net to \$400 list. OUR 5 1-4 lb. 20 bore is a hammer—be down-to-date and shoot one.
