VOL. XXXI. NO. 112

BOSTON, MASS., FRIDAY, MARCH 1, 1912

PRICE TWO CENTS

## SEATING ARRANGEMENTS ARE CHANGED AT PROM

**Committee Plan to Help Men to Find Partners—Posters Due Saturday Noon.**

At a meeting of the Prom Committee yesterday in the Union, important plans were decided upon in regard to the seating arrangement, posters, and dance orders.

The preliminary dance orders will be out March 25th, and may be obtained from members of the committee.

All those intending to submit posters must hand them in to Capen at the Union on March 2d, between 1:30 and 2:30, and all such posters are to be numbered, and no names put on them. One of the professors of the Architectural Department will be present at the time of the choice of posters, and the entire committee will act as judges.

The seats in the ball room will be arranged in sections. Each section will be designated by a letter put on the wall behind the seats. This will avoid confusion among the men in finding their partners. When a dance starts each girl will probably go to the section having the letter of her name. There will be a column on the dance order for section designation, so that one may arrange beforehand where he will meet a girl. No attempt will be made to enforce this arrangement of seating and distribution as it is merely done as a convenience for those who wish to make use of it.

## PORTFOLIO PROOFS NOW.

**No Picture Can Be Included After Saturday Night.**

This is the last week before the Senior Portfolio goes to press and all proofs of pictures that are to appear in the book must be approved and returned to the photographer. Hearn, this week. Monday will not do, according to the committee in charge, and late pictures cannot appear in the book. Over 260 have had their pictures taken, but some of these have not sent in histories to go with them. The latter are likewise due now and must be left at the cage or sent by mail immediately.

The committee will make any additions, such as Class Day officers, that may be necessary. Now is the time also to pay the first deposit of \$3.00 so that will be out of the way when the Class Day assessment comes along in May.

## JAP NIGHT POSTPONED.

The Japanese Night which was to have been held by the Cosmopolitan Club tomorrow night has been postponed. The National Chairmen of the Club will hold a meeting some time next week to decide on what night the Japanese will entertain the members of the club and their visitors.

Have you signed up for Technique?

Signs of spring. Sandy has put on his B. V. D's.

There has been quite a crowd in the upper room of the Union during the noon hour since the advent of the Victrola.

## LEVERONI EXPLAINED JUVENILE COURT WORK

**Offers Chance to Tech Men to Help as Probation Officers.**

Yesterday afternoon Judge Leveroni, speaking before the Christian Association, outlined the development of Criminology up to its latest instrument, the Juvenile Court.

The ancient theory was that the offender must be punished, regardless of any attempt at reformation. In those days there was no chance for any such thing, because most crimes were punished by death—122 in England at the beginning of the last century. Now, in addition to the persistent theory that the offender must suffer punishment, courts are at the same time seeking to prevent crime. In the old days people never used to think of the criminal, and the child and adult were always considered together.

In 1869 Massachusetts established the first Children's Court in the world and followed it with the first boys' reformatory at Westboro. This court was not permanent, and after it was discontinued there was no separate court for them here until 1906. In the meantime, the foremost court of the kind had been established in Chicago in 1899. And Judge Lindsey, whose work personifies that of them all, had begun in Denver.

The court room here in Boston is simple and clean, and has none of the ordinary paraphernalia of the usual one. It resembles a hospital where a child is taken to find out what is the (Continued on Page 2, Col. 2.)

## HARVARD INVITATION.

**Former Tech Professor Is to Speak on Quebec Disaster.**

J. J. Strachan, secretary of the Civil Engineering Society, has received a letter from Harvard, inviting all Tech men to attend a lecture by Professor Swain on "The Quebec Bridge and Its Fall: The Greatest Engineering Catastrophe of Modern Times."

The lecture will be given before the Harvard Engineering Society on Monday, March 4, at 8 P. M., in Room 110, Pierce Hall. Pierce Hall is located on Oxford street, a short distance from Memorial Hall.

Professor Swain is a Tech graduate, '77, and for many years a professor here at the Institute. He has given this lecture on several occasions, but this is the first opportunity for men in this vicinity to hear it. It is decidedly worth while for any man in a civil engineering course, and it is to be hoped that a considerable number of the members of our society will attend.

## M. E. SOCIETY TRIP.

This afternoon the Mechanicals will conduct their excursion to the plant of the Quincy Market Cold Storage and Warehouse Company on Richmond street. Members will leave 20 Eng A at 2 o'clock.

The establishment to be visited is an extensive one. Besides having an opportunity to study the mechanical aspect of refrigeration on a large scale, the men will see how the systematic storage of great quantities of various foods is managed.

## DR. ROSE LECTURES ON NAPOLEON AS JACOBIN

**Lowell Institute Speaker Discusses Personality of Corsican.**

Yesterday afternoon, in Huntington Hall, Dr. J. Holland Rose of the University of Cambridge, gave his second lecture on "The Personality of Napoleon."

In his youth Napoleon is shown by his writings to have been of a sensitive and emotional nature. He was greatly influenced by the writings of Rousseau, whose work, called "The Social Contract," was a contributing cause to the French Revolution. In fact, Bonaparte's first controversial thesis was a defence of Rousseau, but at this time he was only seventeen years old.

During the early part of the Revolution Napoleon was in garrison in a small frontier town. At this time he showed great firmness in quelling a riot in a neighboring town. In September, 1789, he secured a furlough and went to Corsica. Napoleon tried to form a republican party in the island, but he was opposed by Paoli, who had just returned from exile, and so went back to France.

In France Napoleon identified himself with the Jacobins, not so much because he believed in their principles as because they were organizing an army to repel invaders and were in favor of a strong national government.

When Toulon was seized by the English Admiral Hood, Napoleon commanded the French artillery in the siege of the place, but did not take part in the horrors which followed its capture. Next he was made brigadier-general of the army in Italy, with headquarters at Nice. Here he saw much of the younger Robespierre, so that after the fall of that family he was accused of treason to France, but after a brief imprisonment he was released and restored to his rank.

A proposed expedition to Corsica (Continued on Page 2, Col. 2.)

## WIRELESS SOCIETY.

**Modern Receiving Circuits to Be Described Tomorrow.**

The Wireless Society will hold an open meeting in 11 Eng. B this afternoon at 4:15. H. B. Richmond, '11, the vice-president, will read a paper on "Modern Receiving Circuits." He will probably describe both loose and close couple circuits, and will tell of the value of a loop aerial, and that of the condenser sometimes inserted in the aerial circuit. A general discussion, in which members may express their views, will follow the reading of this paper.

Men interested in the subject are invited to come, and as this will be a regular meeting, there will be an opportunity for such men to become members.

## COURSE IV MEETING.

On Friday evening, March 8, the Architectural Society will hold a smucker in the rooms of the department in Pierce building. The speaker will be one of more than ordinary importance. The talk will be given by Mr. C. H. Blackall, a prominent architect, who will speak on "Architecture as a Business."

## FIRST CONVOCATION CALLED FOR MONDAY

**President Suspends Exercises to Honor Mrs. Rogers at Unveiling of Portrait.**

On Monday afternoon Huntington Hall will be the scene of the first convocation of the year, when President MacLaurin has called the entire body of the Institute to be present at the unveiling of the portrait of Mrs. William Barton Rogers, as indicated by the following letter. There will be a suspension of exercises until 2:30 P. M. in all departments of the Institute. Mass. Institute of Technology, February 29, 1912.

On Monday, March 4, 1912, there will be a convocation of students and instructing staff in Huntington Hall, at 2 o'clock, when a portrait of Mrs. William Barton Rogers will be unveiled. Exercises will be suspended from 2:30 until 2:45.

Richard C. MacLaurin, President.

This is the first time this year that the student body have had a chance to gather at the President's call, and the response will be unusually great on that account. These convocations have been in past times of great interest and value to everyone. Great men in many lines of activity all through the world have spoken to the undergraduates at these meetings and they have had untold influence in the way of Institute spirit and the idea of setting together and co-operating toward a common end.

## RIFLE TEAM MATCH.

**To Hold Shoot With Members of Volunteer Regiment.**

The Varsity Rifle Team will meet the team of Company "F" of the 6th Reg. M. V. M. in their second shot of the season at Waltham on Saturday afternoon. The following members of the Rifle Club will take the trip: H. J. G. Rudolf, '13; T. A. Pessenden, '15; G. G. Haslam, '15; J. E. Williams, '15; J. M. Livermore, '15.

The team won its first shoot last Wednesday with Brookline High and promises to be a strong contender for first place in the intercollegiate match this Spring. Every student at the Institute is eligible for the team although some have received the erroneous idea that it was formed for Freshmen only.

The General Electric Company treated the E. E. Society fine.

Don't forget the entertainment in the Union Friday night.

## CALENDAR.

In Charge of S. H. Taylor, 1911.

Friday, March 1.

Tech Relay vs. Dartmouth, at Hartford.

2.00—M. E. Society Trip to Quincy—Eng. A-20.

FRIDAY, MARCH 1, 1912

THE TECH takes great pleasure in announcing the election of Gabe Bouck Hilton and Arthur Clark Hawgood to the Business Staff.

## HELP US!

It is a matter for universal regret that one prominent man in Boston, at least, goes away each Thursday from the Union disgusted with the behavior of Institute men. We refer to the matter which has already been touched on in a recent edition of THE TECH, namely card playing in the Union during the meetings of the Christian Association. It is evident to us that the aforementioned Association only possesses the Union that date by virtue of sufferance, and that the card players and loud talkers have an equal right to be there. But we do say that the Christian Association entertains a large audience, whereas the card playing and loud talking is only confined to a few; and we question whether the pleasure of the many ought to be marred by the ungrateful and unselfish behavior of the few. We ask the co-operation of all to stop the interruption of meetings, which cannot help but badly impress men whom we wish to possess a good opinion of our school.

## UNION NIGHT.

This evening an entertainment is to be held in the Union and it should be a great success. There are so few of these entertainments through the year and so few chances for Institute men to get together in a bunch that it behooves everyone who possibly can to attend these evenings when they are given. There is also another reason which should be impressed on everybody for his attendance. It is the duty of every man in the school to see that the best men in the respective classes get the class officers. A good chance of meeting the fellows and then judging their particular merits for the various offices is to be had by coming to these entertainments where they are in attendance. Then, again, Technology spirit must ever be preserved, cherished and fostered, and it cannot be if we do not go to the trouble of meeting our fellow classmates.

Are you getting anxious for the Tech pins to arrive?

The field will be open soon. Enter, Bill Hines.

## TWO-MILE RELAY TO RUN DARTMOUTH TEAM

Will Take Part in Meet Held by National Guard at Hartford.

The two-mile relay team leaves at 2 o'clock this afternoon for Hartford, Conn., where they will take part in the seventh annual games given by the Naval Militia corps of the Connecticut National Guard, in a race against the Dartmouth two-mile team.

Very little is known of the quartet from Hanover and no predictions can be made on that account. Our team will be the same that ran in the Columbia meet and the Providence meeting, with the exception that Guething will replace Palmer. The other three members are: Bylund, Germaine and Marceau. Coach Kanaly and Assistant Track Manager White will accompany the team.

The men will not be allowed to wear spike shoes, but the track management has furnished them with rubber-soled shoes, and they have been having some practice lately in the Gym with them. The men will leave Hartford on the 2.30 train in the morning and arrive in Boston about 6 o'clock, so they will not miss their Saturday classes, although they will probably be pretty tired.

## COMMUNICATION.

(We invite communications from all men in the Institute on important subjects. We take no responsibility for their sentiments and do not agree to print any that may come in, whether they are signed or not.)

To the Editor of THE TECH:

There is, at the present time, among the Seniors at the Institute considerable discussion concerning the proposed twenty-five year Class Fund.

There seems to be a two-fold purpose to this proposition: 1st, to help financially at future reunions unsuccessful members of the class, and 2nd, to give the Institute what remains of the fund.

As a prominent Senior expresses it, the idea of this fund is to help "Live Wires" who are graduates of our class to return to the reunions, and so make a big showing for the class of 1912.

I do not believe there will be many "Live Wires" bankrupted by attending a class reunion once every five years, and most grads would probably prefer not to "four flush" if they had not the means for such an outing. To speak plainly, I do not believe the successful graduate should give the unsuccessful one a free entertainment every five years.

Every member of the class is, no doubt, more than willing to help his Alma Mater in every possible way, and such a fund for this purpose only will be heartily approved, but for any two-fold purpose as planned, it should be condemned.

Think this over, Seniors.

B. H. Morash, 1912.

## T. C. A. TALK.

(Continued from Page 1, Col. 2.) matter with him. The Court objects to the presence of all persons not directly connected with the case, and attempts to keep all mention of the boys and girls out of the papers. The law provides that the child's name who is in court can be kept from the public.

In each case they get all possible evidence of each child's life, and only then is the question to be decided as to what is to be done. How can he be reformed? America has contributed the answer in "Probation."

In Judge Leveroni's court 85 per cent. of the probation cases are cured, that is never "come back." Judge Lindsey of Denver reports 96 per cent.

In the Judge's estimation the court should not exist at all, but in the present state of society it has to, doing the

**GALA PERFORMANCE IN UNION TONIGHT**

Musical Clubs and Tech Show Will Aid in Popular Concert.

Thanks to the perseverance of Mr. F. C. Weiss, 1913, who was in charge of the arrangements, the long heralded musical entertainment in the Union tonight will be crystalized into fact. There has been secured by the Entertainment Committee several features which seem to indicate that the affair will be an unqualified success. The acts and features making up the program will, in general, be musical, both vocal and instrumental. The Mandolin and Banjo Clubs will take a prominent part in the affair. The Glee Club Quartet will be on hand to sing their celebrated numbers. All of the concerts of the Musical Clubs thus far have been concerts charging admission. This will be a popular opportunity to hear the various branches of the clubs free.

Tech Show will contribute to the affair with several of the song hits of last year's Show. This portion of the entertainment will initiate the newcomers at the Institute into the excellence of the theatricals here. The remainder of the evening's entertainment will be done by a couple of students who will stage a justly celebrated stunt that is sure to be appreciated.

The difficulties in arranging the program have been many, but the Entertainment Committee will feel, if there is the desired interest taken in the performance tonight, that the trouble is worth while.

**LOWELL INST. LECTURE.**

(Continued from Page 1, Col. 3.)

fell through and he was assigned to the Army of the West, which was putting down a rising of the Royalist peasants in La Vendee. He went to Paris in the hope of having the order changed and overstayed his furlough and lost his rank. Soon, however, there was an uprising against the government and Napoleon, by aiding the government at this critical moment, rose so in favor that he was given command of the army which was about to invade Italy.

In this invasion Napoleon began to show less republican zeal and more greed of conquest, and returned to France, not a Cincinnatus, but a Caesar. His change of spirit is shown by his remark when he visited the last house of Rousseau, "Better for France if this man had never been born."

**T. C. A. TALK.**

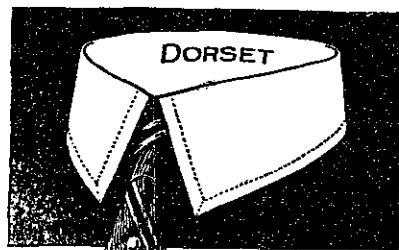

(Continued from Page 2, Col. 2.)

work properly done by home and church.

In response to the question, "How can college men help?" he suggested that special probation officers can be appointed, and he thinks that such a thing may be possible here next year. He said that he would be glad to consult further in his office with any one interested.

**N. E. I. A. A. NEWS.**

The N. E. I. A. A. cross-country race will be held on the Saturday preceding the I. C. A. A. A. race, and probably will be held in Springfield. The annual spring meet is to be held in Springfield this year as last. A new departure will be put in practice in this cross-country meeting. Instead of giving the three winning men medals, each member of the winning team will be given gold medals; the members of the second team will get silver ones, and the third team bronze; also, instead of each college entering seven men and five scoring, each school will have eight entries and six will count.
