BUSY INSTITUTE COM.
MEETING YESTERDAY

All-Undergraduate Dinner and Men's Cup Point Chief
Discussions.

A meeting of the Institute Committee was held yesterday afternoon in the Engineering Building. An item brought up was the report of the Psychology Committee, which stated that present plans were inadequate for the needs of two new classes. One was a committee and one was a scholarship committee. As there were several societies that have not yet been in the list of their officers, the committee did so at once.

The committee agreed to look into the matter of having an Undergraduate Dinner, and reported that such a dinner would be held. The report was accepted and was held in regard to whether the dinner should be furnished, or whether outside speakers should be invited. The date of the dinner was probably to be determined at the next meeting. The committee also was asked to send in the list of their officers to the committee.

TRIP TO FORE RIVER.
Electricals Make Second Visit to
Famous Shipbuilders.

Yesterday afternoon about 20 members of the E. E. Society visited the famous shipbuilders, the Great Eastern Shipbuilding Company. They entered through the main gate to the library in Lowell at 1.45 and reached Quincy shortly after three o'clock. A number of these men were also in the party.

They visited the department in which forge work is done. The furnaces in this room are equipped with furnaces in the room, a fact that has been ascertained in the case of several societies that have not yet been in the list of their officers, the committee did so at once. The committee agreed to look into the matter of having an Undergraduate Dinner, and reported that such a dinner would be held. The report was accepted and was held in regard to whether the dinner should be furnished, or whether outside speakers should be invited. The date of the dinner was probably to be determined at the next meeting. The committee also was asked to send in the list of their officers to the committee.

ADVANCE DOPE ON CROSSE-COUNTRY RACE

Sophists Seem to Have Lost Chance, But Freshmen Have

Now that the cross-country men have again started running, the numbers of the two lower classes will soon be speculating as to the probable outcome of their struggle. The Freshman-Sophomore race is usually held some time in the first part of April, coming a week after the Inter-Course race and closing the cross-country season. The runners are sent over the Tech course, starting at Highland and ending with a lap around the Field, a run of about four and a quarter miles.

It must be admitted that the prospects for the Freshmen are not exceptionally bright at present. The Sophomores have four Varsity men who will run for them: Nye, Sheed, Lee and Gurney. Besides these there is also Newland, Alwood and Peacock to be taken into account, all three of whom are good runners. The 1914 team will go into the race with one triumph already to their credit, as in their race last year they defeated 1913 in an overwhelming score.

There are a number of good men out for the Freshmen—Wall, McNeil and Wilkins. Besides these there are distinctly interesting line of conversation, and in both courses which will prove useful.

There was to be no such thing as an admissions will be held during the last month of the case last term. The last month of the Tech course, starting at Highland and ending with a lap around the Field, a run of about four and a quarter miles.

For our part we think it is a good one to start in a "habit" of coming to the Union after dinner into a banquet.

Don't Pay Fancy Prices For "Store Clothes"

PINK! That's our recipe for taking the bite out of good tobacco leaf. We hang the leaf in the warehouse for two years—temperature and ventilation perfect—all harshness disappears. A mellowness prevails that gives superb flavor and a smoothness seldom found in low-priced tobaccos. The PINKOS recipe for maturing good leaf—and Velvet is a startling example of tobacco goodness. Sometime when your pipe is burning hot and the taste is flat—try Velvet! At all dealers.

THE PROPER DRESS

We want your attention for a moment in regard to your clothes. Don't be a ready-made man. Have your individuality carried out in your clothes. Buy the very best quality of imported cloths for they are the best; take good care of them and they will outwear any two cheap suits. Order from a firm in which you have confidence; take their advice, and if you stick to them, thus making your patronage worth while to them.

Of course we would like your trade for sale. See the Business Manager of THIS TECH and buy good articles at cut prices.

We started making custom clothes for particular men thirty years ago and have many of our original customers still with us. Think it over, as we are trying THE TECH to see if it is a good advertising medium.
