MANAGEMENT PICKS MEN FOR THE SHOW

Men to Be Measured For Costumes This Afternoon.

The final selection for the Show chorus has been recently made and the Management Committee is now busy measuring the costumes, which will need much careful preparation during the coming short time until April 15th, the date of the first performance.

The names whose apparel now are to be measured can be read in the following order: The regular rehearsal will be held Wednesday, at 4.15, in the Union; the pictures are to be taken next Sunday: and a final list will be at the Union office at 4.15 today to be measured for their costumes.

Spanish men—Harly, Brisch, Dalton, Harvey, Carriere, Renzie, McLendon, Bright, Swift, Leech, Morrison, McKey, Honig, and others.

Art students—Buckley, Dowd, Nelson, Hooper, Hunsicker, Blakeley, Finster, Bristow, Emlen, Hanser, Hanson, Goldsworthy, Freeman, Spear, Navison.

PENN RELAY CARNIVAL.

Over Two Hundred Teams and Many Events Entered.

With seventy colleges, 1600 schools, and 1500000 students are entering, and the band, this event appears to be exceptionally good. Already over 200 relay teams have entered, and it is most certain that April 11th will see the greatest meet ever held on Franklin Field.

TALK ON SAFETY VALVES.

Prof. Miller and Mr. Carhart to Speak Before A. S. E. May 10th.

Prof. E. F. Miller and Mr. Carhart, of the Crosby Indicator Company, will speak on "The Discharge Capacity of Piping Safety Valves" before the Boston Branch of the A. S. E. on May 10th, the time and place to be decided later. Both men are excellent speakers and it will be well worth attending the talk of both the Mechanical Engineering students to attend. It is doubtful if the meeting will be able to give information as to the fire alarm, but it is hoped that it will be open to anyone interested in coming.

RANALD CREMER ELECTED CHAIRMAN.

Senior Class Day Committee Puts Ban on Caps and Gowns—Many Good Suggestions.

Randal Cremer was unanimously voted Chairman of the Senior Class Committee at the meeting of that committee, which occupied itself principally in the discussion of various suggestions essential to the development of some changes which are so essential to take place in the program of graduation for week of 1912.

Arch Eicher, who was elected Chairman of the Dinner Committee together with David Benbow, has been empowered to appoint the chairmen of the following committees in their capacities as Class Members, Decoration, Spread, Program Printing, Engraving, Class Gilt, Rectoral Secretary, nominations for Class Speakers, gift, Orrin, Presenters of Senior Class Address, Class Historical Society.

Several unique and excellent suggestions were received by the committee and have been referred to the appropriate committees for consideration. During the course of the meeting, the Senior Class Committee is opposed to the wearing of caps and gowns and under these circumstances the matter will not be brought to the attention of the Faculty.

The various committees will make as many of their changes as feasible through the columns of THE TECH, that the class may be kept in touch with developments.

SPRING CONCERT PLANS.

Music Clubs Are Working On Music for 20 Numbers.

The societies of the Musical Clubs are now concentrated on the perfection of the program which will be presented at the Spring concert. The clubs will give but one entertainment between now and Junior Week, and consequently there will be less interference with their practical purposes.

The Glee and Mandolin Clubs have given numerous entertainments this year, and in every case they have been highly appreciated. The songs which have made the greatest hits, and some surprises which promised well, will make up the Spring concert program of twenty numbers.

A dance will follow the concert, as has been customary in previous years, and the manager has made arrangements for dancing until 2 o'clock. Preliminary orders are to be published shortly.

TECHNIQUE, 1914.

The Technical Electrical Committee reports that following the departure of members for Editto-Columbia there was no election. Hereafter all communication and the allotment of the committee will be made publicly in THE TECH, and the individual on the committee will select his partner from THE TECH, and the individuals on the committee will act as representatives of the Technical Electrical Society to what goes on in the meetings.

MANAGEMENT PICKS RANDALL CREMER.

Spear, Navison. Mittee and have been referred to the committee is opposed to the wearing of caps and gowns, and some surprises which promise well, will make up the Spring concert program of twenty numbers.

OTTOMAN GOVERNMENT SENDS NEW STUDENT.

Sees Advantage of Giving Man a Proper Technical Training.

The realization of the need of technically trained men is evident from the fact that the Ottoman Government has just sent another young man to the Institute. The new student, Shahin Adjemain, comes from Asia Minor, Adana, which lies on the western coast of Asia Minor, is well known to them.

Foreigners have been attending the Institute in past years from Asia Minor, but mostly only in ones and twos. Within a month the number has doubled, so that there are now four. A recent tabulation by THE TECH shows that Technology is now second to the University of Pennsylvania in ratio of foreigners to students, there being about fifteen and one in fourteen, respectively.

CREW NEEDS CoxSWAIN.

Outdoor Work Will Begin as Soon as the Ice Melts.

The number of men out for the crew is still growing. The new men are: J. L. Fogarly, '15; G. B. Pickering, C. E., '15; T. V. Coats, W. E., '15; W. A. Manley, W. E., '15. While only about forty-five men are wanted to try for coxswain, and any fellow who can be relied upon at critical moments can be relied upon at critical moments can be relied upon at critical moments. Light weight is an important factor for a coxswain, and any fellow who can be relied upon at critical moments can be relied upon at critical moments.

The work has been confined to the machinery entirely, but as soon as the Ice Melts, Charles will man the new shell will be able to give information as to the Spring concert numbers.

A dance will follow the concert, as has been customary in previous years, and the manager has made arrangements for dancing until 2 o'clock. Preliminary orders are to be published shortly.

A Tech man received yesterday a most cordial word from the Volcano of Kilimanjaro, which had the volcano and thought he was a fine man.

The K. S. Society held its annual dance at the School of Engineering that evening was spent by all.

CALANDR.

In Charge of A. S. T. Taylor, 1914.

Tuesday, March 12.

1.00—Glee Club—25 Engagers.

4.00—Biological Meets—78 Pirates.

5.00—Biology Eng. Soc.—Union.

7.00—Manuscript Board of THE TECH—Van Dusen Office.

Friday, March 15.

1.30—Newsdesk—25 Engagers.

4.00—Prof. Goodfellow—Lecture

11.00—Orchestras Rehearsal—Union.

2.30—A. S. E. Club Meetings—A. S. E. E. E. Lecture

11.00—Orchestras Rehearsal—Union.

2.30—A. S. E. Club Meetings—A. S. E. E. Lecture

DINNER AND SOCIAL FOR CHRISTIAN ASSOCI.

Pres. Maclaurin Will Speak in Union April 5—Southwick to Read March 23.

The next social of the Christian Association members will take place in the Union, on April 5, which is primarily for altruistic and social workers who are new in the Institute, whether under the auspices of the T. C. A. or not. This means everyone who is doing boys' club work, teaching foreigners English, or who is otherwise interested in Settlement Work here. President Maclaurin is understood to be present as arranged to be present to be the principal speaker at the meeting. Also, different men doing the work, each will be given a minute or two in which to explain their work a little. The whole evening should prove, the Association thinks, that every man who can get away from his work should be sure not to miss for his own interest and information. The dinner will probably be a fifty cent one, and will be open to anyone in the Institute who is interested in coming.

The dates of these two dinners are announced for this far ahead so that the evening can be kept open by those interested.

A Tech man received yesterday a most cordial word from the Volcano of Kilimanjaro, which had the volcano and thought he was a fine man.

The K. S. Society held its annual dance at the School of Engineering that evening was spent by all.
THE TECH, BOSTON, MASS., MARCH 12, 1912

BIOLOGISTS SOON TO HEAR DR. KEITH

Unexplained Typhoid to Be the Subject—Speaker Has Had Much Experience.

The Biological Society will hold its next meeting on Wednesday, March 13, in 28 Pierce, at 4:10 P. M. The members will be addressed by Dr. W. C. Keith, who will speak on "Typhoid Fever—Appearance of Unexplained Case." Dr. Keith is at present a medical inspector for the State Board of Health. The subject upon which this meeting is to be held is somewhat unusual alone, and as Dr. Keith is a man of practical experience it is expected that the meeting will be of particular interest to all who are interested in this subject.

COMMUNICATION.

(We invite communications from all men in the Institute, subject matter, and length of the address are unimportant; and do not agree to print any that come in, whether they are signed or not.)

To the Editor of THE TECH:

During the mid-year recess the Prom Committee made a few temporary posters to use on the bulletin boards until the closing of the school year and the printing of the new posters. After remaining in place for a few days across the bulletin board with very low tastes and even lower principles, removed them from the boards.

The posters were not gross of art, but they were liked by some fellows and disliked by others. The Senator Prom Committee and the student body this year the best Prom Committee and the student body at large, but kept the posters up as a souvenir of the year.

The posters were all handed over to the Prom Committee made a few temporary posters to use on the bulletin boards until the closing of the school year and the printing of the new posters. DR. ROSE LECTURES ON NAPOLEON AS EMPEROR
Impetuosity of Great Leader Strikingly Illustrated in Anecdotes.

Huntington Hall was filled yesterday afternoon when Dr. J. Holland Rose delivered his fifth lecture on "The Personality of Napoleon." Dr. Rose has given previous talks on Napoleon as "A Man," as "A Warrior," and as an "Administrative." And chose "Napoleon as Emperor" for his talk yesterday, his treatment of the subject being most interesting. He said, in part, that France had been with a Republic with Republican ideals and ambitions. Napoleon shattered these aspirations and by his personality and successes he gained the support and confidence of the French. To pay him the highest honor that was in their power, namely, to make him Emperor, was only a small evidence of the absolute faith which Napoleon's countrymen had in him. There was not a soldier in the army who would have refused his commander the last vestige which he possessed.

Napoleon's imagination, however, got the better of him. He had the idea that there was no army in the world which could be compared with his, no people half so great as the French, and no man so divine as himself. It was the egotistical in Napoleon which made him lose the affection of his countrymen and his military prestige.

This modern Caesar's impetuosity increased with his power. One evening, while talking to a courier, he declared that more and better drinking water was needed in Paris. He sent it wild horses for their chief engineer, and the following day five hundred men were working on a great aqueduct, which is now in service. Dr. Rose cited this as a typical procedure. "It was in this way," said he, "that Napoleon kept the whole world thinking "Telephones.""

As Jacobin, "As a Warrior," "As a Thinker," "As an Administrator," and "As Emperor," are in great part the same. He got the better of him. He had the answered to all the problems of the day, to every other ills of his countrymen and his hot and cold with every power, namely, to make him Emperor, which is now in service.

One was immanently interesting, and chose "Napoleon as Emperor" for his talk yesterday, his treatment of the subject being most interesting. He said, in part, that France had been with a Republic with Republican ideals and ambitions. Napoleon shattered these aspirations and by his personality and successes he gained the support and confidence of the French.

This modern Caesar's impetuosity increased with his power. One evening, while talking to a courier, he declared that more and better drinking water was needed in Paris. He sent it wild horses for their chief engineer, and the following day five hundred men were working on a great aqueduct, which is now in service. Dr. Rose cited this as a typical procedure. "It was in this way," said he, "that Napoleon kept the whole world thinking "Telephones.""

As Jacobin, "As a Warrior," "As a Thinker," "As an Administrator," and "As Emperor," are in great part the same. He got the better of him. He had the answered to all the problems of the day, to every other ills of his countrymen and his hot and cold with every power, namely, to make him Emperor, which is now in service.

There were many interesting anecdotes related and the talk was instructive throughout.

On next Wednesday, at 5 o'clock, Dr. Rose will deliver the next lecture of his course, his subject being "Napoleon as Emperor."

YALE SENIOR STATISTICS
The Senior class at Yale has recently completed its statistical vote, which is used in making up the class album, with exceedingly interesting results. Some of these results are given below.

The average expense of every Senior for each of his four years has been $1,899. The number of men who use tobacco is 156, while 57 abstain from it; this is an increase in the number of smokers over last year. The number who use intoxicants on the other hand has decreased 120 out of the 277 men in the class declare themselves total abstainers; 136 out of the class are church members, also a decrease from last year. A bare majority voted against required Sunday dancing parties, held from 8 to 11 o'clock in Lundin's Gymnasium, 1844 St. Botolph Street. These dances were exlusive for the students of Greater Boston and will be carefully chaperoned by members of the various college faculties. Subscription: 50c for gentlemen and 25c for ladies. Refreshments and Full Orchestra.

Every Saturday evening in college night at Champagne's All-College Dining Parlor, held from 8:15 to 11:15 in Linden's Gynamasium, 1844 St. Botolph Street. These dances are exclusive for the students of Greater Boston and will be carefully chaperoned by members of the various college faculties. Subscription: 50c for gentlemen and 25c for ladies. Refreshments and Full Orchestra.
