VOL. XXXI. NO. 133

BOSTON, MASS., WEDNESDAY, MARCH 27, 1912

PRICE TWO CENTS

ELECTRICAL SOCIETY TO GO TO WATERTOWN

Members to Be Shown Through Government Arsenal—Start at 1.45.

The Electrical Engineering Society's trip to the Watertown arsenal will be held this afternoon, the members leaving the Lowell Building at 1.45 P. M. The principal feature of the trip will be the examination of the giant testing machine which, since its invention in "the eighties," has been the standard for all government work in the army and navy, as well as for problems that arise in civil engineering.

Another feature of the arsenal is the electric furnace, which is being used in building the turrets for the twelve-inch guns that are to be placed on a small island in the Philippines. The guns will be the first mounted in this manner on land. Still another machine which the society will be shown is the automatic rammer. The output of the arsenal consists entirely of gun-carriages.

Complete arrangements have been made with the authorities in charge of the arsenal and a guide will be detailed to show the party through the works.

CHESS CLUB REVIVED.

All Players Invited to Attend Meeting in Union Friday.

The Chess Club will hold a meeting in the Union at 4 o'clock Friday, March 29, for the purpose of reviving the former activity of the club, and all men in the least interested in chess are urged to attend. Definite plans for matches with the teams of other large colleges will be made.

Although a few of last year's chess players are still in the Institute, many of them have not returned and little interest was taken in the club during the winter. Recently, however, the chess boards and men have been in demand, and the officers have decided to unite the individual players in the form of an intercollegiate team. They feel that if there were enough cooperation such a team could make very good records in tournaments with Harvard, Yale or Dartmouth. Several games were played with these colleges last year.

The officers think that the experience gained by the men this year will prove valuable in the formation of next year's team which, it is hoped, will be an unusually successful one, and they plan during the remainder of the term to lay a solid foundation for next year's work. The future as well as the present prospects of the club depends on the interest shown at Friday's meeting.

CROSS-COUNTRY RUN.

The cross-country men should remember today's run over the course and be at the Back Bay station for the 4.02 train. The run will probably be taken at a stiff pace and will give the new men a good idea of how they should run Saturday's race. It is the last chance that these men will have to get acquainted with the course before this race.

Benjamin F. Avery of the Yale Varsity football team was elected to the captaincy of the wrestling team of that University.

APPLICATIONS FOR TECH SHOW SEATS DUE MAR. 30

Notices of Numbers and Price of Tickets to Be Sent Out On April 1.

The applications for seats for the Tech Show have been mailed to all the students, and the reply postals must be returned to the Show office before next Saturday, March 30, to receive consideration according to Article 8 of the announcement pamphlets, which states that the tickets will be given out according to the following:

- Class (A) Patrons and Patronesses.
- " (B) Senior Class and the Faculty. Members of the Show.
- " (C) Junior Class. Officers of instruction, not members of the Faculty.
- " (D) Sophomore Class. Graduates.
- " (E) Freshman Class.
- " (F) All others.

If any student has not received an application blank he may obtain one on application at the Show office.

The number of seats for the Boston performances is limited to FOUR seats per applicant, but for the Malden performance the number is not limited. This performance promises to have a very large audience because the students who are to be absent during the Easter vacation will be back in Boston at that time.

Notices will be sent to all applicants during the week of April 1, giving the number and price of the tickets awarded them. All tickets must be called for during the following week, for after that time all remaining tickets will be placed on sale at the box office of the Shubert Theatre.

GOLF MEETING TODAY.

Question of Joining Some Neighboring Club Will Be Decided.

The Golf Club will meet in 21 Rogers this noon and continue the discussions which were begun at the last meeting, a week ago. The most important proposition before the members at present is that of joining some convenient club and starting play. Offers have been made by several clubs, but those which will be most seriously considered are the Wollaston Golf Club and the Allston Golf Club. President Howlett will appoint a committee of three or four members to take charge of tournaments and give each player the handicap he is entitled to. Other important business will be discussed, and it is essential for every one to be there and give his opinions.

AERO CLUB MEETING.

The Aero Club expects to hold another meeting within the next few days, at which a paper will be read, as usual. The club has not been carrying on active work in its experimentation with gliders lately, but it is expected that interest will be aroused by the next meeting.

The Harvard track men had been expecting to get into active training on the cinder path, but snow and slush have made use of the Soldiers field track out of the question for several days. The baseball squad already has been out of doors, but will have to go back to cage work until the diamonds get into condition fit for use.

FRESHMAN BASEBALL MEN HOLD MEETING

Small Number Reports—Season's Plans Outlined—Pitchers Needed.

Yesterday's Freshman baseball meeting in the Union may be considered as the real start of the baseball season for that class. The meeting was called to bring the fellows together that they might hear something of the plans for the coming year and to give those now in charge some idea of what they may expect from the men of the class.

Manager Turner addressed the meeting. He said that although he had written to a number of managers of neighboring teams, he had heard from only two as yet. These are Medford High, with whom a game has been arranged for April 6, and English High, whom 1915 will play on the Saturday following that date. Practice will start this Friday at the Field if the weather permits. During the season practice will be held every Tuesday, Wednesday and Friday. All games will be played on Saturdays.

Manager Turner was rather disappointed by the small number who attended the meeting. Only fifteen men reported. Others who wish to try for the team should leave their names at the Cage for the manager so that he may have them excused from gymnasium work. The Freshmen, like the Sophomores, are badly in need of pitchers. This is a fine chance for those Freshmen who as yet have done nothing for their class to get out, help the team along and perhaps win their numerals. They will at least get good, healthy exercise in the open air.

TENNIS PRACTICE.

Preparations for the Coming Season Will Begin Shortly.

As soon as the snow leaves the ground and the weather permits the preparation of the tennis courts at the Field, the tennis team will again come into public notice. It is unfortunate that the team is unable to start sooner than April, as the men were in readiness, and one court had been made fit when this last flurry of snow made a start impossible. A good schedule has been arranged, including Brown, Dartmouth and the N. E. I. L. T. A. Games have also been asked for from Tufts and M. A. C.

The Tech team should be able to make a very good record during the Spring season, as several veterans have remained at the Institute and a few new players showed good form during the Fall. Beckman, Fisher, Harkness and Brigham form the top of the list and rank in the order named. Keith, Beale and Woodward are also available to strengthen the team in the doubles.

The Dartmouth track team has a strong man in Whitney. His latest achievement is the breaking of the Dartmouth discus throw record. He threw the weight 119 ft., 2-7-8 in.

At the University of Illinois an honor system is employed in the sale of the Syren, the University monthly. The plan is to place piles of the magazine on the stands, and to leave a box for the dimes. The losses to the management have been very slight, only one and one-half per cent. of the sales.

TECHNIQUE WILL BE OUT IN THREE WEEKS

Edition Is Strictly Limited And None Will Be Sold Below Price.

The material for Technique, 1913, is all in, and the book is fast approaching completion. So far everything has gone along smoothly, and the book this year bids fair to be one of the best ever issued. It will be of the same size as the past books and there are no extremely radical innovations, every effort having been made by the Board to produce a good, well-balanced Technique. The color and the cover design have been chosen, and both are certain to be acceptable to everyone. The cover design, while simple, is effective, and of a style never before seen on Technique. The art and the grind departments, where there is the greatest chance for originality, have been paid special attention, and the Board sincerely hopes and believes that these will meet with great favor.

The book comes out just three weeks from yesterday, on Tuesday, April, 16th, at 12.20 P. M. The rush will be held as usual with one innovation. This year the first four books and the twentieth book will be de Luxe, and the men who get these books will have their money refunded, so that these five books will be absolutely free. This gives a man who may have a little hard luck at the first of the rush a chance to get a de Luxe book free. Also each of the first twenty books will have a number (ranging from 1 to 20) stamped on the cover, and also will contain the autograph of President Marlaurin.

The signing up has progressed very well so far, but there is always room for improvement. The Board wishes to make the announcement now and to have it definitely understood, that the edition is limited, and that no books will be sold, either this year or at any time next year, at less than the regular price. The Board have reduced the edition this year to 900 copies in order that all the books will surely be sold. Therefore, with this limited edition, if you want a Technique, (and this should include everyone), and you do not sign up for it in advance, you are taking a large chance of not getting a book.

There will be two varieties of the edition this year, regular, cloth bound, at two dollars; and de Luxe, bound in ooze leather, silk lined and gold edged, at three dollars and a half. A deposit of fifty cents is required on each sign-up, merely as an evidence of good faith.

CALENDAR.

In Charge of S. H. Taylor, 1914.

Wednesday, March 27.

1.00—Golf Club Meeting—21 Rogers.
8.00—Mining Club Meeting in Union.

Thursday, March 28.

1.00—Managing Board Meeting—Upper Office.

1.30—T. C. A. Talk—Union.

4.00—Orchestra Rehearsal—Union.

Friday, March 29.

1.20—News Board Meeting—Lower Office.

4.15—Glee Club Rehearsal with Coach—Union.

4.15—Mandolin Club Rehearsal—26 Rogers.

Saturday, March 30.

8.00—Joint Night, Cosmopolitan Club—Union.

COURTESY.

The fact that the Victrola has no name plate has come in for much discussion in various quarters lately. The instrument has afforded many a pleasant hour of amusement to the men who make use of the Union, and its popularity at the society evenings is a proof of the wisdom of Mr. Berliner's thoughtful gift.

Would it not be an act of courtesy for the Union Committee to have a plate engraved stating how the Undergraduates came into possession of the instrument? Such an action would have a greater effect than might be at first credited. At first such acts of kindness as Mr. Berliner's are spoken a good deal about, but after a short time they drop into obscurity. The placing of an engraved plate on the Victrola would serve as a reminder of the fact that our Alumni are always ready to lend us a helping hand.

SOCIAL SERVICE.

Dinner in the Union April 5—
 Pres. Maclaurin to Speak.

A week from Friday the Christian Association will manage a dinner to be held in the Union in the interest of Social Service Work.

President Maclaurin has expressed his interest in this work, and will be at the dinner as one of the speakers. There are to be several of the students in the Institute who are engaged in some kind of Social Service work, and who have only this opportunity to tell about their work in the boys' clubs, among the immigrants as English teachers, or working in other settlement affairs. This work is always interesting to every one, and the dinner should prove very valuable to all concerned. The men doing the work will hear of other methods, and the rest will get a chance to find out whether or not they wish to go into it or not.

Beside President Maclaurin and the undergraduate speakers there will be three others, all connected with similar work; these are to be the Rev. H. D. Gallaudet of Central Church,

MINERS TO HEAR EUROPEAN TRAVELER

Professor Carver of Harvard to Entertain Society With Magnificent Views.

The Mining Engineering Society is to be entertained tonight in the Union by Professor E. N. Carver of the Economics Department of Harvard, who will tell of his interesting and varied experiences abroad. Professor Carver comes prepared to show a collection of views of "beauty spots" of Europe which he has visited.

Besides speaking of the customs and scenery of the various Continental countries, Professor Carver will also take up in some detail the present methods of agriculture and the antique implements still used. He will show the Miners how wasteful many of these methods are both to labor and to soil fertility. The lecture will be one of general interest.

The secretary of this society has informed us that men from other courses will be welcome at the meeting. The lecture begins at 8 o'clock.

COMMUNICATION.

(We invite communications from all men in the Institute on important subjects. We take no responsibility for their sentiments and do not agree to print any that may come in, whether they are signed or not.)

To the Editor of THE TECH:

Dear Sir:—
 I hear that the Christian Association of Technology has decided to hold their annual banquet on April 5th, Good Friday. I can hardly think that this can be correct as, apart from the fact of their being a religious association, it seems almost impossible that in these tolerant days any body of young men could so deliberately hurt the feelings of the majority of the people of Boston. A mere question of good taste would lead them to choose another day, and preferably not a Friday. An element of superstition may enter into this as well as good taste, for I remember when I lived in France, many years ago, a company or society of young men decided to hold a banquet on that day. The walls were hung in black like the churches, the table cloth was black, and skull and bones formed the decorations. I believe marrow bones formed one of the courses also. Public opinion was rampant and all sorts of awful things were prophesied,—no doubt some of the casualties would be attributed to auto-suggestion,—but this fact remains that eight of the fourteen present died within a year a violent or sudden death; this is fact, not imagination.

Yours truly,
 Well Wisher.

MUSEUM LECTURES.

The Museum of Fine Arts has announced conferences in continuation of the series given earlier in the winter. Among them are: the Special Exhibition of Central American Art, by Dr. A. M. Tozzer, on March 28; Early Chinese Jade, by Mr. Frank G. Macomber, on April 4; Three-Sided Greek Relief, by Mr. Lacey D. Caskey, on April 11. Admission is free by card, but the cards do not exempt the holder from paying admission to the Museum. More complete information may be found on the bulletin board in the Union.

D. M. Claghorn, the Social Service Secretary at the Boston Y. M. C. A., and Mr. Walter B. Snow, the chairman of the Advisory Board of the T. C. A., and one time president of the Alumni Association.

Everyone interested will be welcome a week from next Friday night, at 6.30, in the Union. Tickets are for sale by various Cabinet members, or may be obtained in the Association office for fifty cents.

Watching the Team

Good college spirit, but to help the time pass you need Fatima Cigarettes.

20 for
 15 cents

With each package of Fatima you get a pennant coupon, 25 of which secure a handsome felt college pennant (12x32)—selection of 100.

DETAILS OF CIVILS' TRIP WORKED OUT

Today Is Last Day in Which to Procure Staterooms For New York.

The arrangements for the trip to New York, under the auspices of the Civil Engineering Society and the Civil Engineering Department, are nearly complete. The itinerary has been made up by Professor Moore, and copies will be distributed to the men soon. The trip will start a week from today.

Twenty-five men have signed up for the trip already. Reservations for the staterooms on the Fall River Line steamer have been made for that number. If there are any other men who desire to go they must notify President Powell before 4 o'clock today, as this is the last chance to decide.

The only deposits required is one for hotel rooms and railroad fares, which amounts to \$11.75, and which should be paid at once to President Powell or Secretary Strachan.

M. A. H. S. BANQUET.

Final Meeting of Year to Be Held in Union May 1st.

At the meeting of the Executive Committee of the Mechanic Arts High School Club of M. I. T., in the Union yesterday, it was decided to hold the final meeting of the year, in the form of a banquet, on the first of April. The Seniors of the High School will be invited.

It is planned to have as the principal speaker Mr. Frederick P. Fish, of the State Board of Education. Mr. Fish is the moving spirit in the changes suggested for the school's curriculum. Two or three men from the instructing staffs of both the Institute and the High School will be invited to the banquet.

PROM TICKETS LIMITED.

Twenty-five Vacancies — Men May Sign Up at Noon in Union

Of the two hundred and fifty men who will be able to sign up for the Junior Promenade, two hundred and twenty-five have already handed in their names. There is a representative of the Prom Committee in the Union every noon to take the names of any men who expect to attend the dance which will be held on April nineteenth, in Junior Week.

The committee reports that, as has been customary in the past few years, no flowers will be allowed on the floor.

Preliminary dance orders were issued some days ago, but there are still some to be had at the Cage.

The Fencing Club of the University of Pennsylvania has put out a broad sword team this year.

With the admission of Yale and Lehigh to the Intercollegiate Wrestling Association, the membership is increased to six.

The Army baseball schedule has been announced. Arrangements have been made for eight games. The Army-Navy game will be played on June 5.

Harvard is planning a new High Tension Electrical Laboratory, which will have alternating current supplied at 1,000,000 volts, and direct current at 100,000 volts.

An order for a 25 H. P. launch has been filed with a local boat-builder by Harvard University. The 30-foot boat, which is to be built of mahogany, will be added to the coaching fleet of the crew.
