VOL. XXXI. NO. 137

BOSTON, MASS., MONDAY, APRIL 1, 1912

PRICE TWO CENTS

DINNER IN INTEREST OF SOCIAL SERVICE

President Maclaurin to Speak Before T. C. A. on Friday Evening.

A dinner under the auspices of the Technology Christian Association will be held in the Union on Friday evening, at 6.30 o'clock, in the interest of Social Service work.

The T. C. A. has been extremely fortunate in securing President Maclaurin as one of the speakers. He has shown great interest in the work and will undoubtedly have some interesting remarks to make, and give some valuable advice. Rev. H. D. Gallaudet of the Central Church, Mr. Claghorn, the Social Service Secretary of the Boston Y. M. C. A., and Mr. Walter B. Snow, the chairman of the Advisory Board of the T. C. A., and one time president of the Alumni Association, will be the other speakers.

A number of undergraduate students who have been engaged in various branches of Social Service work are to be present and tell of the part that they have been playing in this great field.

Everyone who is interested in the work is cordially invited to attend the dinner. Tickets may be purchased from any of the Cabinet members, or at the Christian Association office. Men who would like to enjoy the speeches but who are unable to attend the dinner will be welcome.

ELECTRICALS TO DINE.

Mr. Brush of Boston Elevated Principal Speaker.

On Thursday of this week will take place the annual dinner of the Electrical Engineering Society. This event, with the exception of the last meeting during Junior Week, will conclude the activities of the year. From the efforts that are now being made and the exceptionally good speaker who has promised to attend, the members of the society feel sure that a most successful evening will result.

The wide experience of Mr. M. C. Brush, the speaker, in his capacity as vice-president of the Boston Elevated, which has had to deal with the varied situations in railroading, makes him especially well fitted to address the society. His talks on engineering subjects have heretofore been most interesting and helpful.

The committee in charge has planned an excellent dinner to be served in the Union at 6.30, and while arrangements are complete at this time, suggestions which the men may have to give will be welcome.

TENNIS COURTS READY.

Groundkeeper Hines announces that the tennis courts, which were put out of condition by the wet weather, have been rolled and marked, and are ready to play upon. The diamond will be rolled today and put in first-class condition.

The Yale Gym team won the 14th annual meet of the Inter-Collegiate Association last Friday at Haverford. The order in which the colleges finished and the points they obtained are as follows: Yale, 24; Penn, 17; Princeton, 8½; Rutgers, 8; N. Y. University, 4; Haverford, 1, and University of Illinois, ½.

JOINT ENTERTAINMENT VERY SUCCESSFUL

Cosmopolitan Club Interests Large Audience in Union Saturday.

Saturday evening the Cosmopolitan Club gave a particularly interesting and novel entertainment in the Union. Everyone was made welcome and the large living room of the Union was just comfortably filled. Six countries were represented, but the Chinese students provided several more numbers than the other nations, this joint night having been substituted for Chinese night.

Mr. D. G. Montt, of Chile, first addressed the audience and spoke of the work that the club was doing in bringing together the foreign students at the Institute, and the pleasure and help that it afforded them. In the past the club has been quite successful financially, but he did not want that to discourage the generosity of its friends, as it is planning a new clubhouse on the other side of the Charles when Technology moves to Cambridge. Mr. Montt expressed the wish that a Carnegie, Vanderbilt or Rockefeller would tell them that they need go no farther in their search for funds with which to carry on their work. He then introduced Mr. T. P. Hsi, who played two selections on a three-stringed musical instrument. The typical Chinese music was loudly applauded.

The next number was the Mouazen Call, by Mr. N. S. Salibi of Syria. He explained that this is the call to prayer given from every minaret seven times a day. The Mohammedan on hearing it stops his work wherever he happens to be and repeats a short prayer. The call was followed by an appeal to western nations, and especially to the United States, to help Turkey develop into a powerful and enlightened country. He stated that Turkey had been shamefully misrepresented, and that they had learned of the great truth that

(Continued on Page 3.)

MECHANICS DEFIANT.

Terrifying Challenge Brings Course II to the Fore.

With the advent of Spring, the thoughts of youth turn to challenges. That peerless creator of ideas, THE TECH, has already sprung the fashion this year, which is quite a la Challenge, and now the various other activities are really becoming active. The latest body to be galvanized into action is the Mechanical Society. The following def reaches this office:

ch ALLEN ge.
The Mechanical Stokers hereby challenge the Civil Rodmen to a gruelling combat, not with monkey wrenches and plumb bobs, but with the real national weapons,—five-and-a-quarter-ounce horse-hide spehere*, and a hickory stick**. The aforesaid combat to take place at any time, at any place and for any stakes. Our war cry is now in the air: M-Y over I, M-Y over I, D-Rho, D-Theta. To Gehenna with Pi
COURSE II.
*Pase Ball
**Bat.

Gehenna was substituted by the Editor in place of a word that he does not know anything about, and said to be vulgar. The moral tone of this paper must be upheld.

NYE FINISHES FIRST IN INTER-COURSE RACE

Courses II and VI Win With a Score of 30—Courses I and III Get Second Place.

Courses VI and II repeated their performances of last year, and won the Inter-course cross-country race Saturday with a score of 30. Courses I and III were second with a score of 47, and the team composed of the other courses entered finished with 51 points. The first five men to finish on each team counted. The second team had only four men entered, so they had to take the score of the last man, but this gave them the same standing as when four men were scored. A. P. Nye, '14, of Course IV, won the race in twenty-five minutes and fifty seconds, which was fast time considering the condition of the course. The ground had dried out a little since the middle of the week, but was still very wet in spots.

Nye took the lead at the start and was never headed. C. S. Lee, '14, Course III, C. R. Wilkins, Course II, and E. M. Hill, '15, Course VI, followed him closely all the way. On striking the road these men opened up a big lead on the others, who were strung out about fifty yards apart. Lee gave Nye a hard race for first place, and crossed the tape only fifteen yards behind him. Hill and Wilkins furnished the closest race. Both these men ran around the track together, and Hill beat Wilkins out by only two yards. L. Best, '15, Course VI, ran a good race and finished behind Wilkins.

By counting the first five men the Sophomores scored fewer points than the Freshmen, but if the first six places were counted, as they will be next Saturday, the Freshmen would have the low score, as only five 1914 men were entered.

The order of finish was as follows: A. P. Nye, '14; C. S. Lee, '14; E. M. Hill, '15; C. R. Wilkins, '14; L. Best, '15; C. Lovell, '15; A. F. Peaslee, '14;

(Continued on Page 2.)

NEW BOOK OUT.

Secretary of T. C. A. Writes On French Manners and Customs.

Today there will be issued an elementary French reader, written by Mr. L. R. Talbot, secretary of the Technology Christian Association. The title of the book is "Le Français et Sa Patrie," and will correspond to the German reader, "Im Vaterland." The publishers, Benj. H. Sanborn & Company, saw the need of a book treating the outcome and character of the French people, and so asked Mr. Talbot to write one while he was abroad last year. There are twenty-seven illustrations, most of which are photographs taken by the author, numerous poems and songs, and maps of Paris and France which were drawn by Albert C. Brown, a Junior in Course I.

Mr. Talbot has had several years' experience in teaching French and Spanish at the Boston University, and last year obtained a fellowship which enabled him to travel and study abroad. He spent most of his time in France procuring the material for "Le Français et Sa Patrie." As secretary of the T. C. A. he has originated the Thursday noon talks and has done a great deal for the Association in other ways.

SHOW APPLICATIONS READY FOR DELIVERY

Cheaper Seats Remain Unsold—Poster Put on Sale Today.

Applications for Show seats have now been filled, and it is the sincere wish of the management that the men will call for their tickets at once. They may be obtained at the Show office, Room B, the Union, any noon (this week, between 1 and 2 o'clock). The sooner the tickets are called for the less work it means for the management, and for this and many other reasons it is asked that the men will please call for their seats the first part of the week. The seats will not be reserved after Saturday.

There are many men at the Institute who are expecting to go to the Show "stag," and they should remember that there are many fifty and seventy-five cent seats, which, although low in price, are at the same time excellent. The Show wishes an appreciative and enthusiastic audience, and in order that a success may be had a well filled house is necessary.

Applications for seats on Tuesday and Thursday have come in quite uniformly, but of the remaining seats there are a few more available for the Tuesday performance than for that of Thursday. Some of the men are likely to think that because the Show opens with the Tuesday performance it may not be as good as the latter one, but it can be stated that the opening performance last year at Worcester was the most successfully staged one of all.

The Poster goes on sale today. The price is twenty-five cents, and the Poster may be obtained at the Cage, Show office, Maclachlan's, or from any of the members of the Show Board. It makes an excellent decoration for the room, or a very acceptable gift to send to those who are so unfortunate as to not be able to see the Show.

RIFLE TEAM PRACTICES AT WALTHAM SATURDAY

Scores Made Average High—Only Match With M. A. C. Announced.

The rifle team held a practice shoot at the Company F range at Waltham Saturday. J. E. Williams, '15, and J. M. Livermore, '15, made the high scores of the day, each scoring forty-six points. D. G. Haslam, '15, came next, with a tally of forty-five.

The scores for the two hundred and five hundred yard ranges averaged well over forty. The weather conditions were excellent, and the scores at this early point in the season were remarkably good.

Outdoor practice will be continued in preparation for the matches to be

PUBLIC SPEAKING.

The discussion that has arisen both for and against that part of our curriculum known as General Studies has been both widespread and deep. The consensus of opinion seems to show that they are not only useful but necessary in these days of broad education, when general knowledge is required of everyone who intends to succeed.

One of these studies, however, has come in for little comment. We refer to the course in Public Speaking, given by the English Department. The Engineering Record of a recent date asks why the engineer does not usually take the positions of power and places of influence, and why he does not receive the full measure of credit from the public that is only his due. The question is answered by the simple phrase, "He is a poor speaker." Then the article goes on to trace the initial reason for this lack of correct expression of ideas to the fact that, as an undergraduate, little opportunity, and slight training are given him for using his voice before audiences.

Now it would seem that when a great engineer admits that his inability in this line holds him back from still greater honors, the undergraduate following along the same paths, although separated by distance from his forerunner, would heed and profit by the advice.

Why is it, then, that this course in Public Speaking is not the most popular of all? Why do not Technology men, the engineers of the next generation, prepare themselves so that they may be able to make their cause clear, and carry conviction and weight in every sentence so that they may reach the top of the ladder. Instead of remaining only half-way up? Let us hope that the reason lies in ignorance of the true value of the course, and that this little warning may have its measure of worth to all.

The first presentation of "Main Street," this year's show at Princeton, will take place Saturday night.

Do you play chess?

SPIKES

George Horine of the Junior class at Stamford University, broke the world's outdoor record in the high jump in a meet with the University of Southern California on Friday. He cleared the bar at 6 feet 6 1-8 inches. The former record, 6 feet 5 5-8 inches, was made by M. F. Sweeney, at New York, in 1895.

With five candidates for the pitcher's box and a large supply of infield men, the Dartmouth baseball nine has a promising outlook for the 1912 season.

Candidates for the Princeton Varsity eight will remain at the University during the Easter vacation, which begins Wednesday, and train for the rowing season, which is to open on April 27.

The Yale baseball team opened its season Saturday by defeating the Trinity College nine by a score of 7 to 2. The coaches were very much pleased with the exhibition that the Eli players gave.

Rough weather prevented the completion of the annual Oxford-Cambridge boat race last Saturday. Oxford was in the lead when waves completely swamped the shell.

The Technology rifle team certainly promises well for the coming season. The high score which was made at the last practice shoot was truly remarkable.

SOPHOMORES PRACTICE.

The Sophomore baseball squad held its first outdoor practice Saturday afternoon at the Field. About twenty men reported, among them many members of last year's team. After a practice in catching flies, two teams were picked and a short game was played. Harris and Swift showed up well in the box. Morrison is another good pitcher. The men are showing good form for so early in the season, and prospects for a champion team are bright.

Have you applied for your Show tickets?

Leaving for the Holidays

The trip is often long. You'll relieve your monotony with Fatima Cigarettes.

20 for 15 cents

With each package of Fatima you get a pennant coupon, 25 of which secure a handsome felt college pennant (12x32)—selection of 100.

JOINT ENTERTAINMENT.

(Continued from Page 1.)

education should be primarily for the purpose of teaching a man's duty to himself, to others and to God, but they were powerless to put this into practice. The problem of turkey is not one of religion, but of nationality and government. The best in the West and the best in the East should be combined, Mr. Salibi said. Both the Mouazzen and address were impressive.

Mr. E. Suzuki then gave the Japanese sword-dance, and exhibitions of how to meet and attack from the rear, and of fighting methods used by a northern Japanese clan. The former is danced to a poem written by a famous soldier in the civil war which occurred there about thirty years ago. All three called for a great deal of skill and agility.

Two songs by Mr. Chow, who was accompanied by Mr. T. C. Hsi on a Chinese flute, followed. They were said to be translations of "Everybody's Doing It," and "I Wonder Who's Kissing Her Now." Nobody seemed to recognize them.

Mr. L. H. Lehmaier then gave a short lecture on Australia and the advantages it offered to wheat and cattle raisers. It was illustrated with numerous lantern slides loaned by the Commonwealth of Australia. Although the country is as large as the United States, its population is exceeded by that of New York city, a fact which shows that there is still plenty of room for development. Wheat, cattle, wool and dairy products are exported in large quantities to all parts of the world. Australia possesses the largest silver-lead mine in the world. It was originally sold for \$600 and has since produced over \$400,000,000 worth of silver. The slides included farming and shipping scenes, and views of several large cities. The people, who are mostly from the British Isles, take a great deal of interest in all forms of sport. Mr. Lehmaier is a loyal Australian and a delightful speaker.

The audience was next entertained by Mr. T. P. Hsi, who was very skillful in the Chinese game of shuttlecock. This is usually played by two parties, one of which leads and tries to excel in the variety and difficulty of its stunts. Mr. Hsi gave some of the more difficult ones. Messrs. Lehmaier, Sandstein and Hurst, of New Zealand, gave the stirring waiwari of the Maoris, which called for considerable vocal exertion. The last number was a series of card and other tricks by Mr. S. C. Li. He was always successful in picking out certain cards even while blindfolded, and once burned a dollar bill, only to have it re-appear in a lemon.

While the refreshments were being served one of the Chinese students unfurled the flag of the new Republic of China. It is composed of five stripes, red, yellow, blue, white and black, which represent the five great races in the country. The entertainment proved very successful, all the numbers being encored, and thoroughly enjoyed.

RIFLE PRACTICE

(Continued from Page 1.)

held later on, that with the crack M. A. C. team being the only one yet announced.

The following were the scores: At two hundred yards: Williams, '15, 46; Haslam, '15, 45; Rudolph, '13, 43; Casselman, '15, Stewart, '15 and Parson, '15, 41; Livermore, '15, 39. At five hundred yards: Livermore, 46; Williams and Haslam, 45; Connor, '15, 44; Rudolph, 40, and Stewart, 39.

Be sure to hand your Show applications in today.

Pennsylvania's Inter-fraternity Baseball League, which met with such success last year, has again been organized for the coming season. Fifteen Greek letter chapters will be represented this year.
