MASONS ASSEMBLE
For First Time

EXCELLENT DINNER ENJOYED IN UNION. ORGANIZATION DISCUSSED.

LAST EVENING STEWART COLBAS OFFERED ALL HIS FORMER EFFORTS IN THE QUALITY OF THE DINNER WHICH HE SPARED BEFORE THE ASSEMBLY OF MASONS AT THE INSTITUTE IN THE UPPER DINNER ROOM. PROFESSOR FORD ONCE MORE PRESIDED AT THE DINNER AND INTRODUCED SEVERAL INTERESTING SPEAKERS, WHO ALL DISCUSSED THE MASONS ON THEIR ORGANIZATION HERE AT THE INSTITUTE.

THESE VARIOUS TALKS WERE ABLY WORKED INTO THE NUMEROUS DISHES. AFTER THE MANY COURSES DINERS HAD EATEN, THE VARIOUS TALKS WERE IN ORDER. PROFESSOR VOGEL ENSNARED WITH HIS SKILLFUL WORK INTO THE NUMEROUS TALKS HERE AT THE INSTITUTE.

GIVE THE MASONS ANOTHER OPPORTUNITY TO DISCUSS THEIR ORGANIZATION.

The fellows and discussed their organization and also their future here. He said that they had attempted to get togethet a few years ago, but the effort, however, had then been abandoned. It now seemed to be their chance. A. Jenkins, R. S. Schuyler and H. Lincoln of Harvard, all members of the Aecetes Fraternity, also spoke to the other members of the organization.

In the near future it is planned to give the Masons another opportunity to get together. In order that the list may not be made as complete as possible it is requested that every Mason in the institute give his name to Mr. H. H. Halies in Room A.

SOPH'S PLAY BASEBALL.

Six-Inning Practice Game Held Between Two Full Nines.

A six-inning practice game constituted the close of the Sophomore baseball practice yesterday afternoon. Twenty men reported, including all the regulars plus the substitutes. Hughes, Mahoney and Ober. They are all out for indefinite periods and show excellent promise.

The first game that the team will play will be against the M. A.'s at H. S. time on Tuesday next. It was not yet decided whether to hold the game at the lower grounds in the Fowey or the Columbia Avenue playground. Practices will be made on Saturday on the account of the track meet at the Field, and will be continued on Monday afternoon at half the house has been sold, and a success must be made of this coming week or the house will not run (for 1915, as it is in New York with the C. B. Society.

SPRING CONCERT PLANS.

Many Reservations Made and Several Seats Sold.

The seat sale for the Spring concert has been unusually successful. At the present writing neither half the house has been sold, and it appears that the prospects look much better for Mr. M. C. Brush, '92, who gives the talk, than at the beginning of the season.

Although the weather has been unfavorable, the cross-country men have made a lot of improvement, and their chances of winning both prizes are much brighter than at the beginning of the season. Although the Freshmen have some star men who will finish in the first places, they have scarcely enough men out to make a team.

The mile event at the field day may be entirely to the Freshmen, unless one or two of the Sophs run at the field day. The varsity will have made a lot of improvement, and their chances of winning both prizes are much brighter than at the beginning of the season. In this case the cross-country team will be weakened and the advantage will be with the lower classes.

The reserve for first place will probably be between A. P. Nye and O. C. Shedd of the '94 class. Shedd has won from Nye in most of the cases, but Nye seems to be in better condition for the third place. The next three or four places will be W. H. Shedd of the '94 class, C. S. Lee, '14, of the '93 class, and C. R. Wilkins, '14, of course.

These men have been running close together this season and it has proved to be just a little better in most of the contests. The Freshmen will take all of the three or four places except the first.

L. Besant, H. L. Woodruff and C. S. Lee of the '93 class will give the Sophs a good run at the varsity point when the race can be run.

If you don't believe in yourself you can't be successful. These personal experiences agree with many people that "it takes a pull to get ahead," but answers this advice. Every man is susceptible to "hug his men," asked him to a pull to get ahead. But answers this advice. Young men should capitalize on a knowledge of human nature and the importance of keeping up the morale of the team. There is no such thing as a bad team, if the right men are put in charge of it. The team will always be successful if the right men are put in charge of it. The team will always be successful if the right men are put in charge of it. The team will always be successful if the right men are put in charge of it.

The man's most important thing to do in this world is to be successful. He must be able to live up to the ideals that he has set for himself. He must be able to live up to the ideals that he has set for himself.

TECH SHOW SEATS.

All Tickets Must Be Secured For By Five O'Clock Saturday.

THE MANAGEMENT OF TECH SHOW-wants to announce that positive steps are being taken for the sale of all tickets for the show which will be held next Monday night. All tickets must be secured by five o'clock Saturday. Those who have not secured their tickets will be unable to secure seats at the exhibition. Those who have secured their tickets will be unable to secure seats at the exhibition.

Up to the present time nearly all the tickets have been sold for the show which will be held next Monday night. The management of Tech Show wants to announce that positive steps are being taken for the sale of all tickets for the show which will be held next Monday night. All tickets must be secured by five o'clock Saturday. Those who have not secured their tickets will be unable to secure seats at the exhibition. Those who have secured their tickets will be unable to secure seats at the exhibition.

SHOW POSTERS ON SALE AT CAGE. 25 CENTS.
THE TECH

THE TECH

Published weekly, except for Sunday, during the year by students of Washington University, St. Louis.

Entered as second-class matter, Sept. 15, 1902, at the Post Office Department at St. Louis, Mo., under the Act of Congress of March 3, 1879.

THE SINGLE TAX

The adoption of the "single tax" at certain of the leading colleges in the country has brought up the consideration of the advisability of trying the system out at the Institute. For the benefit of the students who may not know what this plan is we will explain it.

At the beginning of the school year fees are being paid, and an extra charge of a certain number of dollars is added to the regular tuition fees. This pays for all the activities that are found in the Mechanical Stokers' baseball squad.

You may ask what the Faculty have to do with student activities. Why, because they think that they have a great deal to do with them, besides the support they pay by their advice and financial contributions. It is their duty to look after the general happiness of the students. If men are men, it is not a wonder that the latter duty is often neglected, but it does not alter the fact of its existence.

The question has been asked whether it would not be a great burden on the treasurer to collect this tax. We do not think it would be a tsettle. The idea of this, starting a movement -at Tech bring the matter before the students to decide whether it would not be a great burden on the treasurer to collect this tax.

DINNER TONIGHT

In Union Upstairs at 6:30 P. M.

C. F. Hovey & Co.

Men's Furnishings

RIFLE CLUB TRYING FOR HIGH HONORS

G. G. Haslam and H. J. G. Rudolf Qualify as Sharpshooters in Trials

Although, from an outsider’s point of view, comparatively inactive, the Rifle Club has been busy during the past week in an effort to gain laurels for itself and the Institute. The shooting this week consisted of trials for qualifications as marksmen and sharpshooters under the specifications set down by the National Rifle Association.

J. E. Williams, ’15, qualified as a marksmen with scores of 88 prone and 90 standing, out of a possible 100. Stewart, ’15, also qualified for life honor, shooting standing with a score of 88. H. J. G. Rudolf and G. G. Haslam each met the requirements for sharpshooter, prone, with high scores of 96 out of 100. No men have qualified as sharpshooters to both standing and lying position, but in the next few days further trials will be held at the range in the Armory on Columbus avenue.

The Rifle Club hopes that all men wishing to try for either of these ratings will show up next Monday at four o’clock. As well as earning these honors, bronze and silver medallions are given by the National Rifle Association to those who qualify.

Saturday afternoon the team will go out to Waltsam to shoot at the outdoor range. A trial at long ranges has been arranged with H. A. C. on Saturday, May 14th. The Massachusetts Aggies team was last year’s intercollegiate champions, and a good match is expected. Each team will be composed of six men, who will shoot at 200, 300 and 500 yard ranges.

T. C. A. TALK

(Continued from Page 1, Col. 2.)

breaking the only support she had been offered.

He reminded the crowd of the importance of kind and unselfish acts, and closed, saying that the Christian Association by the weekly meetings help to save the periodical impulses that one has to do something for some one else, and make a man more likely to do what he feels he ought to do.

E. E. DINNER

(Continued from Page 2, Col. 2.)

minutes, instead of being managed by a single individual, as was the case a few years ago.

Still more good advice—plan all your campaigns carefully; always be courteous; don’t get angry—this is the spirit of public service corporations.

The question is, “What did you die for?”

This concluded the “harmless Brush discharge” predicted in the preliminary report. This interesting report—on the Gastronomic Motor—unfortunately can not be accommodated here. When Mr. Brush had finished it was found that he had been talking quite a long time, and a rising vote of thanks was given him for the speech, the length of which was not at all regretted.

The Chemical Society of the University of Illinois is planning to hold a dance which promises to be unique. The hall will be lighted by two large retorts covered with electric lights. The ceiling, just before being served, will be treated with a few drops of liquid air, and so frozen in the cup which it is served.

SAFE DEPOSIT VAULTS AT BOTH OFFICES

L. PINKOS, College Tailor

announces the arrival of his complete line of Spring and Summer woolens which are now on display both at the Boston and Cambridge stores.

Please note to see my “LONDON SPECIAL” Suits which I am making at $35.00

These suits are made of Foreign woolens and are strictly custom made, in my own workrooms, by skilled tailors, and bear all the characteristics of much higher-priced suits.
