LOWER CLASS MEET THIS AFTERNOON

Freshmen and Sophomores Clash in Athletics to Decide the Championship.

Sophomore and Freshman athletes complete this afternoon for the championship of the two classes. The Sophomores have won the best part of the athletic honors that have been awarded, and they easily from the Freshmen in the indoor meet, but lost Field Day. The lower classmen have the whole sea-son been close runners-up of their op-ponents, and have done so fine in the indoor meets that they entered and were quite successful in those meets. The number of their athletes is far greater than that of the point winner in the meet, for they have many more men than the Sopho-more, so, although 1914 is conceded many of the first places, the second and third places will be closely con-tested. The strength of the older men lies in the strength of their sprinters, and the Freshmen rely on their field athletes.

An innovation will be made this year in the fact that the interclass cross-country meet will be an extra event of the meet. The difference of the scores of the two teams will be added to the usual score of the winning team. These added points may be in the turning point of the meet, although they would make little difference in the score was low.

The best events will be in ac-cordance with the regular order of the N. E. I. A. athletic meets, and will be run off according to a time schedule which will be strictly adhered to in every case. The meet will begin at 2.30 o'clock, at which time the first call for the quarter yard dash will be sounded. The order will be as follows:

2.45-100-yard dash, first heat.
2.50-220-yard dash. 
2.55-Mile run.
3.00-High jump.
3.05-220-yard hurdles, first heat.
3.10-220-yard hurdles, second heat.
3.15-100-yard dash, final.
3.20-Broad jump.
3.25-440-yard run.
3.30-Long jump.
3.35-220-yard hurdles, final.
3.40-160-yard hurdle throw.
3.45-Pole vault.
3.50-400-yard run.
3.55-500-yard dash, first heat.
4.00-800-yard dash.
4.05-1000-yard hurdles, first heat.
4.10-1000-yard hurdles, second heat.
4.15-800-yard hurdles, final.
4.20-1500-yard hurdles, final.
4.25-400-yard hurdles, final.

TC A. has MOST SUCCESSFUL DINNER

The Various Phases of Social Service Discussed by T. C. A. Speakers.

The T. C. A. held its Social dinner on the Union at 6.30 last night. Forty men enjoyed the excellent meals and listened with great appreciation to a number of speakers. They were chosen as three to represent the social service division of the dinner. The speakers were:

Mr. R. H. W. Williams, professor of French at the University, spoke on "The Social Service on the University Campus." His lecture was delivered in French, and was translated into English by Mr. J. C. B. Gallop, who is the French professor at the University. The speaker discussed the social service on the campus, and showed how it is carried on in the different departments of the university. He also discussed the social service in the city of Boston, and showed how it is carried on in the different parts of the city.

Mr. T. C. B. Gallop, professor of English at the University, spoke on "The Social Service in the City of Boston." He discussed the social service in the city of Boston, and showed how it is carried on in the different parts of the city. He also discussed the social service in the different departments of the city, and showed how it is carried on in the different parts of the city.

First Practice Game Proves to Be Shut-Out For Technique

Ball Toasters.

Nobobadamasca, Canada, April 4, 1912.

There was heartfelt joy in the dressing

of the Technique ball toasters when the rumor came.

This TECH (team had considered offering a challenge to our boys to play the national game. No, not poker—baseball. All this month the team has been sitting around the hotel drinking luke and smoking cigarettes while waiting for Dame Nature to take pity that by making

the weather a little cooler.

Manager Atwater secured the Ice Palace last week, where practice was to be held. No sooner had we arrived than one of the local girls high school teams forced an entrance with the news that they had been sent over to warm up. We received them with open arms and with tears in our eyes. We almost lost Hart when they took their positions in the field, but through the efforts of Nighthawk we cooled down and returned to the bench. Technique won the toss, and we nearly

in wrong because Brewster wanted to keep the half-dollar that was used, and give the umpire a sign up slip for a Technique. The game was called at 4:20, with Muir as the positive pole and Crocker as the negative pole of our battery. The first woman up for the other side was a huge Amazon, with arms like a blacksmith's, at least McDonald says so. The ball came down the ice like a toy balloon, and a great bang broke the silence, followed by another, and our pitcher was cracked. Of course the girl was embarrassed and offered to pay the damages. We said we would call it all right if their team would put an "all" in Technique. With considerable persuasion they agreed to do this, saying that their only objection was that they wouldn't be able to accommodate the crowds at their grounds since they could only seat ten thousand.

In the ninth inning the score was 3 to 0 in favor of the Kennucks. Technique had three men on base, etc., the usual things that happens in the ninth inning. Senior was up and the last ball that could be thrown came rolling towards the pitcher. He didn't get it off and it never did reach home.

(Continued on Page 3)

COMMUNICATION.

(Wireless communications from all over the United States have been received by the Tech.

we take no responsibility for their accuracy. We do not agree to print any such communications.

To the Editor of THE TECH:

This is to let you know the party of civils reached the Great White Way all as scheduled, except Batey Bruck, who got so excited that he left his new derby in his cabin on the boat.

Mr. Nelson, who talked to Civils and Mechanics yesterday afternoon, made the trip down with us on the best, and we were treated at breakfast at 7:30, in the large dining room of the Railroad Club of New York City, at the top of the Hudson Terminal Building, overlooking the East River. Some class, oh! Nearly 50 men sat down to breakfast at one long table and were entertained during the meal by the story-tellers, Professor L. E. Moore, Daniel Tomlinson and "Mays" Howard.

On the way to the Elevated the street chairs greeted us with "Oh, look at the Giants here from the South!" If we looked like the Giants it's one best bet their spring training hasn't done them much good.

We're off now to inspect Blackwell's largest store and then lunch at the Technology Club.

As ever,

Holman L. Pearl.
L. PINKOS, College Tailor

announces the arrival of his complete line of Spring and Summer woolens which are now on display both at the Boston and Cambridge stores

Please ask to say my "LONDON SPECIAL" Suits which I am making at

$35.00

These suits are made of Foreign woollens and are strictly custom made, in my own workrooms, by skilled tailors, and bear all the characteristics of much higher-priced suits.
