

THE TECH

VOL. XXXI. NO. 145

BOSTON, MASS., WEDNESDAY, APRIL 10, 1912

PRICE TWO CENTS

EDDY TO TALK ON SEWAGE DISPOSAL

Will Tell Civil Engineering Society of Work at Louisville.

Harrison P. Eddy, who as a consulting engineer on hydraulic and electrical power development work holds a position among the leaders in that field, will address a meeting of the Civil Engineering Society this afternoon on "The Sewerage System of Louisville, Kentucky." The talk will be given in 11 Eng. B. at 4 o'clock. It will be the final meeting before the annual banquet, and announcement will be made of the arrangements for the May gathering. The president asks for a full attendance.

Mr. Eddy is an engineer pre-eminent in his line. He is a prominent member of the American Society of Civil Engineers, and serves on the nominating committee of that organization. He is associated with Leonard Metcalf, '92, in the firm of Metcalf & Eddy, consulting engineers on the design and operation of hydraulic and sewerage projects, and the management of these and electric lighting plants.

The firm of Metcalf & Eddy were chosen as consulting engineers on engineering investigations by the Finance Commission of the City of Boston a few years ago, and their findings at this time were the means of the saving to the city of many hundreds of dollars.

They have recently served as consulting engineers on the new sewerage system of Louisville, Ky., the design of which presented some new and interesting problems. Mr. Eddy will tell of these in his talk to the Civils this afternoon, and will illustrate his address with lantern slides of the work at Louisville.

TECH TEAM READY.

The Champions-to-Be Will Be Here Wednesday Morning.

Neusite, Georgia, April 10.—Having heard that Technique really has an honest-to-goodness ball team, and that they seem to be hard up for an opportunity to lose their money, THE TECH'S star team will cut short their stay in the weepy South in order to arrive home on the first day of Junior week. Captain Weight has issued the following statement: "THE TECH baseball team will be at the Field at sunrise Wednesday morning, and invites the Technique players to show up and give themselves over to the slaughter. We promise not to run up a score larger than 100, and will not hit the umpire with pop bottles. We hope that they will not get cold feet."

ARCHITECTS' MEETING.

The business meeting of the Architectural Society, which was scheduled to take place yesterday afternoon, has been postponed until this afternoon, at 2 P. M., in 42 Pierce.

Spring may arrive yet.

Major Cole's donation to the Union has shown that there is really some literary taste in Tech men.

FATHER CUSICK TALKS BEFORE CATHOLICS

Relation of Church and Science Discussed at Meeting—Forty Attend.

At a meeting of the Catholic Club, held in the Union last night, Father Cusick, S. J., spoke to the forty men present on "Religion and Science." Father Cusick is Professor of Chemistry and Geology at Boston College.

In his talk he defined religion as the linking of God and man, and science as organized knowledge. He said that many of the millions of people who attend no church would come to the Catholic Church if they could be made to understand that the teaching of the church does not conflict with science. That this misunderstanding is widely spread was brought home to him while attending a congress of geologists in Switzerland several years ago. When he and his companion entered the lecture room those present acted as though ill at ease. At another time Professor Jaggard of the Institute, and Professor Woodward of Harvard were surprised to find that Father Torndorf of Georgetown University had an unparalleled geological observatory, and that some of the records taken by his five seismographs were new to the visitors.

Father Scanlon told the men how fortunate they were in having Father Cusick, and hoped that he might come again to speak to the men on "Evolution."

TECHNIQUE PRINTED.

Preparations For Rush Complete—Only a Few Books Left.

Technique, 1912, has left the printer's hands and the edition is now at the bindery. Early sign-ups have continued to come in, and at present only 90 regular and 80 de luxe copies of the edition remain to be disposed of. There is a table in the Union every day for exchanging slips and signing up, and all men who wish to sign up must do it here.

The rush will take place at the Oval and the first copy will be given out at 12.20 o'clock. The checks which are given in exchange for the stubs are good for books and rush tickets.

TITANIUM DISCOVERY.

The first pure titanium was recently obtained by Dr. Hunter of the Institute. Previous attempts to isolate this metal resulted in productions of only about 95 per cent. pure. The methods followed in the recent experiments consisted in inclosing titanium tetrachloride with pure sodium in a bomb of steel, which was capable of withstanding an internal pressure of 80,000 pounds. The reaction inside the bomb when heated was almost instantaneous.

Tests made of pure titanium show that it is hard and brittle when cold, but is readily forged like iron at a red heat. In appearance it is much like polished steel.

Surveying is a cold business these days.

The Tech Show men are becoming more ladylike every day.

TENNIS SEASON TO OPEN SOON

Tournament to Start Junior Week—First Team Match With Brown April 27.

The tennis season is about to open here and play will begin as soon as the courts dry out from yesterday's rain. The Spring tournament entries must be at the Cage for C. R. Woodward or W. N. Holmes before Monday, April 15, at 5.50 P. M. Entry fees are 75 cents for singles and 50 cents for doubles. The first round of the tournament should therefore be played off before the following Tuesday, April 23. There will be a cup for the winners of the singles and medals for the doubles winners.

The Harvard courts are now ready for play, and because of the new subway are more convenient for Tech men than most others. The courts at Tech Field are also in good shape and can be used.

The practice should begin as early as is possible this year because the team has several matches that are not very far in the future. There will be one with Brown, in Providence, on April 27, and one with Dartmouth, May 4. Other matches are pending and will probably be arranged with the Amherst Aggies and with Tufts.

Those men who rank first four in the Institute will compose the team, and the first two will play in the intercollegiate. If a man is challenged on the ranking list he must play within a week. The present standing is as follows in the order given: Beckman, Harkness, Fisher, Brigham, Woodward and Beale.

T. C. A. ANNUAL MEETING.

Constitution Ready for Adoption—Officers to Be Elected.

The annual meeting of the Christian Association will convene on Friday afternoon, May 3, in the Union, for the transaction of various business.

Of the greatest importance and interest will be the selection of officers for the year 1912-1913. Three men will be elected—President, Vice-President and Treasurer. Nominations for these officers must be in the hands of the Cabinet on or before Monday noon preceding the election, in accordance with an article of the new constitution which provides that "all nominations must be in by noon of the fourth day preceding election, and must bear the signatures of at least five members of the Association." At present there is no constitution for the government of the T. C. A., and the Cabinet voted to run the coming election according to the form that will probably be in use after the meeting has been held.

Other business to come before the meeting will be the adoption of the new constitution which has been prepared by a committee of the Association after several months' work. The Treasurer's report and the reports of committees will be submitted, and plans discussed for next year's work.

Greenoam is pitching great ball for the Princeton varsity nine. He held Georgetown to five hits and one run Saturday.

PROM SUBSCRIPTIONS DUE NEXT TUESDAY

Novel Dances Planned by the Committee—Ushers to Be Named Shortly.

All those who have signed up for the Junior Prom must pay before April 16, or have their names put at the bottom of the waiting list. If there are any vacancies after Tuesday they will be filled from the waiting list.

The preliminary list of ushers has been considered and the final selections will be announced soon. Several innovations have been discussed, and the committee has decided to make three of the regular dances something a little out of the ordinary. One of these is to be a moonlight waltz. As usual, no flowers will be allowed on the floor. Two members of the committee will be in the Union every day from 1 till 2 o'clock to attend to the invitations and programs.

Princeton is making a great try for the college honors in baseball again this year. Two straight from Georgetown shows that the Orange and Black is certainly a strong aggregation.

There is an excellent exchange exhibit of water colors in the Exhibition room of the Architectural Department on the fourth floor of Pierce.

CLASS MEET SATURDAY.

Many Entries in Track Events—Good Men to Compete.

Keen competition in the track events and walkaways in the field contests are the present indications for the Spring interclass meet to be held at the Field Saturday.

In the 100-yard, Wilkins, '14, has, perhaps, the best chance as Wilson, his classmate, has pulled a tendon, and if able to compete at all will be handicapped. The star performer in the quarter will of course be Guething, '14. The distance events will be covered in much better time in this meet than they were last Saturday in the dual meet, as the cross-country men will not be entered. The winners in the mile should be Germain, Nye and Lee. Earl Ferry and Shedd will probably run in the two-mile. Captain Dalrymple will be the winner in the high jump.

CALENDAR.

In Charge of S. H. Taylor, 1914.

Wednesday, April 10.

4.00—Orchestra Rehearsal—Union.
1.00—Banjo Club Rehearsal—Union.

HOOK NIGHT.

The memory of the very pleasant evening spent at the Union a few weeks ago, on the occasion of the Glee Club concert, is with us yet. Next Friday night it has been planned to hold another of these social evenings which give us all a good chance to get together and discover that Technology possesses other excellent men besides ourselves.

On this occasion, instead of a Glee Club concert, a regular old Hook Night is to be held, granted enough entries are received by the management. Notice of this affair, which by the way is an annual one, has been given in our columns on several occasions. Last night the management assured us that if more entries were not received by tomorrow the night would have to be called off.

Now, fellows, are you going to let this good old evening fall through for lack of support, or are you coming out with your stunts and going to electrify the audience with the originality and humor that lies dormant in you?

Don't be afraid of making a fool of yourself. Every one of us does that each day, and the more cleverly idiotic you are on Friday evening the greater your reputation forever.

Don't let this thing fall through, fellows; give your assistance and you will get as much fun out of it as the rest of the bunch.

A DISGRACE.

The depths of depravity to which certain men in our midst are capable of sinking was aptly illustrated when on entering the Union this morning we discovered that several of the books which were presented to us only yesterday by the kindness of Major Cole were missing from their shelves. The act of taking any book from the Union is a mean and disgraceful one, but the stealing of these particular volumes, which is a discredit to the whole school, must, and can only be rectified by the detection of the guilty person or persons.

To be sure, the fact that such an action could be possible reflects on the competency of the House Committee. When these books were pre-

SPRING CONCERT PLANS.

Programs Distributed April 12—
Tickets in Union at 1 Today.

Programs for the Spring concert will be at the Union at 1 o'clock Friday, April 12, and they may be had at that time on presentation of the card which accompanied the tickets.

Both the Glee and Mandolin Clubs have made great progress during the last week, and all the numbers which will appear on the Spring concert program have been mastered. Some of them will be rendered at a concert in Roxbury which the clubs give tonight. The Technology Orchestra has accomplished much in the last week, and the leader reports that the club will make a fine showing at the coming concert.

A number of very good seats are still held by the ticket department, and men who have not as yet subscribed for seats may do so at 1 o'clock today in the Union.

INTERSCHOLASTIC DRILL

In Armory May 24, at 3:30—
Many High Schools Entered.

The annual interscholastic prize drill will be held in the Armory on May 24. This year the drill will be entirely in the manual, and the men will not go through the squad drill. The teams this year will consist of three men each, and most of the high schools near Boston will be represented.

Company drill by the Tech Battalion will begin at 3 o'clock, and at 3:30 o'clock the prize drill will start. When this is over the battalion will be paraded and Major Cole will present the prizes.

The inspection of the battalion by the officer detailed for this district will take place on the last Thursday in the term. The prize drill will probably be held on the evening of the Friday before.

OVINGTON ON AVIATION.

The Boston public will have its first opportunity on April 16, at Tremont Temple, of hearing Earle Ovington, a member of the class of 1905, tell the story of his brilliant career as an aviator, with stereopticon pictures.

Among other experiences he describes his learning to fly at the Bleriot school in France, his first flight over Boston, and his winning the Boston Globe's \$10,000 prize in the tri-State race last September. His instantaneous success before the Society of Arts has created a great demand for his services. All who hear him agree that he is a most graphic, humorous and entertaining speaker. He will answer questions at the close of his talk.

HOOK NIGHT IN DANGER.

The Union Entertainment Committee has received only four entries for Hook Night. Those entries which have come in promise well, but unless at least two more men give their names to the committee before 6 o'clock today the entertainment will not be given. Names may be left at the Cage.

The Cornell Varsity crew has met a severe setback in the loss of Ernest F. Bowen, for two years stroke in the boat, and one of the best oarsmen Coach Courtney ever produced. Bowen was also commodore of the Cornell navy.

Some arrangement should have been made whereby there would have been no likelihood of the present unfortunate happening.

This affair ought to teach the committee a lesson, and we hope that in future a like occurrence will be averted.

Back from the holidays

It takes off the rough edge of the "grind" to find the welcome package of Fatima Cigarettes.

With each package of Fatima you get a pennant coupon, 25 of which secure a handsome felt college pen-suit (12x32)—selection of 100. **20 for 15 cents**

MUSICAL CLUBS GIVE CONCERT IN ROXBURY

Last Appearance Before Spring Concert Tonight at Lafayette Hall.

Tonight the Musical Clubs will make their last appearance before the Spring concert in the hall of the Lafayette Lodge, West Roxbury. The clubs will take forty-five men to the concert, and some of the music which the men have been practicing for the Spring concert will be given a tryout.

The occasion is the celebration of "Ladies' Night" at the lodge, and the reception which is to be given starts at 6 o'clock. A dinner will be served at 6.30 o'clock, and the concert is scheduled to last from 8.15 until 10 o'clock. At that hour card playing and a general good time is expected. The Glee and Mandolin Club men have been invited to participate in all of the festivities, and the manager stated today that it was the intention of most of the men to do so.

No. 171 Warren street is the address of the hall, and it may be easily reached by taking a Roxbury car.

GAME POSTPONED.

The mid-week practice baseball game between the Sophomores and the M. A. H. S. team, scheduled for yesterday, was postponed till the middle of next week, on account of cold and rainy weather.
