Harrison P. Eddy, who as a consulting engineer on hydraulic and electrical power development work holds a position among the leaders in the field, will be a prominent member of the American Society of Civil Engineers, and serves on the nominating committee of that organization. He is associated with Leonard, Gardner, Blodgett, & Metcalf & Eddy, consulting engineers on the design and operation of hydraulic and sewerage projects, and the management of these and electric lighting plants.

The firm of Metcalf & Eddy were chosen to give an account of their engineering investigations by the Finance Commission of the City of Louisville a few days ago, and their findings at this time were the means of saving to the city of many hundreds of dollars. They have recently served as consulting engineers on the new sewerage system of Louisville, Ky., and the design and operation of many draining and sewerage projects, and the management of these and electric lighting plants.

The report of Mr. Eddy was made in the presence of a large number of delegates and members of the American Society of Civil Engineers.

Mr. Eddy is an engineer prominent in his line. He is a prominent member of the American Society of Civil Engineers, and serves on the nominating committee of that organization. SPRING CONCERT PLANS.

Programs Distributed April 12—Tickets in Union at 1 Today.

Programs for the Spring concert will be in the Union at 1 o'clock Friday, April 12, and they may be had at that time on presentation of the card which accompanied the ballots.

The Glee and Mandolin Clubs have made great progress during the last week, and all the numbers which will appear on the Spring concert program have been mastered. Some of these numbers will be rendered at a concert in Beaux which the clubs give tonight. The Technology Orchestra has accomplished much in the last week, and the leader reports that the club will make a fine showing in the coming concert.

A number of very good seats are still held by the ticket department, and those who have not yet subscribed for seats may do so at 1 o'clock today in the Union.

INTERSCHOLASTIC DRILL.

In Armory May 24, at 3:30—Many High Schools Entered.

The annual interscholastic prize drill will be held in the Armory on May 24, 1912. This year the drill will be entirely in the manual, and the men will get through the squad drill.

The teams this year will consist of three men each, and most of the high schools near Boston will be entered.

Company drill by the Tech Battalion will begin at 3 o'clock, and at 2:30 o'clock the prize drill will start. When this is over the battalion will be paraded and Major Cole will present the prizes.

The inspection of the battalion by the officer detailed for this district will take place on the Thursday in the term. The prize drill will probably be held on the evening of the Friday before.

OVINGTON ON AVIATION.

The Boston public will have its first opportunity on April 12, at Tremont Temple, of hearing Earle Ovington, a member of the class of 1905, tell the story of his brilliant career as an aviator.

Among other experiences he describes his learning to fly at the Bertier school in France, his first flight over Paris, and his winning the D'Estaing Cup of 1911.

The inspection of the battalion by the officer detailed for this district will take place on the Thursday in the term. The prize drill will probably be held on the evening of the Friday before.

Hook Night in Danger.

The depths of depravity to which certain men in our midst are capable of sinking was aptly illustrated when on entering the Union this morning we discovered that several of the books of the Glee Club were missing from their shelves. The act of taking any book from the Union is a mean and disgraceful one, but the stealing of these particular volumes, which is a dishonorable act, must, and can only be rectified by the detection of the guilty person or persons.

To be sure, the fact that such an occurrence could reflect on the competency of the House Committee. When these books were presented some arrangement should have been made whereby there would have been no likelihood of the present unfortunate happening.

This affair ought to teach the committee a lesson, and we hope that in future a like occurrence will be averted.

Don't Pay Fancy Prices For "Store Clothes".

Get a suit that was built for you.

Not one that looks as if it were wished on you.

My prices are fair and well within your reach.

I furnish a perfect fit and guarantee my product.

He will answer questions at the close of his talk.

Hook Night in Danger.

The U.L. Entertainment Committee has received only four entries for Hook Night. These entries which have come in well, but unless at least two more men give their names to the committee before 6 o'clock today the entertainment will not be given. Names may be left at the Cage.

The Cornell Varsity crew has met a severe setback in the loss of Ernest Temple, of hearing Earle Ovington, a member of the class of 1905, tell the story of his brilliant career as an aviator.

Among other experiences he describes his learning to fly at the Bertier school in France, his first flight over Paris, and his winning the D'Estaing Cup of 1911.

The inspection of the battalion by the officer detailed for this district will take place on the Thursday in the term. The prize drill will probably be held on the evening of the Friday before.
